PART I.

Control of Food Supply in the State.

No. G. 17327-77—P. P. 134-18-286, DATED 14TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The marginally noted Government Orders on the subject of the control of the supply and prices of food grains in the State.

No. G. 8450-512—P. P. 134-18-1, dated 11th November 1918.
No. G. 9378-432—P. P. 134-18-26, dated 25th do do.
No. G. 12920-70—P. P. 134-18-158, dated 1st January 1919.

Order No. G. 17327-77—P. P. 134-18-286, dated 14th February 1919.

From the statements made by the Deputy Commissioners at the meeting held on the 10th February 1919, Government understand that the present stock of ragi together with the estimated harvest of this year will be sufficient to meet the requirements of the several districts for at least the next six months, that the stock of rice is very low in all the districts, except Mysore and Hassan, and that rice and some cheap substitute for ragi will have to be imported from outside. It is understood that the maximum prices—wholesale and retail—that have been fixed are low having regard to present conditions of supply and demand in the State and the prices prevailing outside and as a consequence actual transactions take place clandestinely at higher rates in violation of the rules and that food grains are not freely brought to the market. Most of the Deputy Commissioners are in favor of the removal of the present restrictions on the transport and sale of food grains within the State provided a sufficient stock is kept in reserve by Government for steadying the market and for supply to poor people at concession rates if the prices should go up very high.

2. After a careful consideration of the situation, Government are pleased to give the following directions regarding the future control of the food supply in the State:—

(1) All restrictions on the transport of food grains by *road* as well as by *rail* from one place to another within the State will be removed, except in the case of areas situated within 10 miles of the British frontier. No controlled food grains should be imported into such areas by road or rail from the rest of the State and no movement of such food grains from one place to another within such areas should be allowed, except under licenses from the Amildars of the Taluks in which they are situated. Care should also be taken to see that large stocks of food grains are not allowed to be accumulated in the 10 mile area referred to.

The Director of Civil Supplies is requested to arrange with the Railway Companies to see that no consignments of controlled food grains are received from stations situated within the State for despatch beyond the marginally noted Railway stations in the State, except under priority certificates issued by him.

Bangalore-Haribar Line:—Beyond Hotalkere.
Bangalore-Hindupur Line:—Beyond Dodballapur.
Bangalore-Madras Line:—Beyond Bowringpet.

(2) The orders fixing maximum wholesale andretail prices for the several food grains will be withdrawn but Government reserve to themselves the power of commandeering stocks, if necessary, at any time at the prices that may be fixed for the purpose from time to time.

(3) The Deputy Commissioners of Districts and the Presidents of the two City Municipalities are requested to submit immediately proposals for reserve depots for rice and ragi with the establishment, etc., required therefor. These proposals should be addressed to the Food Controller who will forward them to Government with his own opinion without delay.

3. To meet the deficit in the stock of rice and to serve as a substitute for ragi to some extent, action will be taken by the Director of Civil Supplies to import every

No. G. 17327-77—P. P. 134-18-286, DATED 14TH FEBRUARY 1918.

month from outside the State not less than 1,000 tons of rice and 500 tons of broken rice. The monthly allotments should be worked up to in full and local merchants may be given opportunity to import the whole or part of the quantity on such conditions as the Food Controller may prescribe subject to the approval of Government.

4. To conserve the available food supply in the State, it is very necessary that every possible step should be taken to prevent surreptitious export outside the State, which, Government apprehend, is now taking place to some extent in many places near the frontier. The Deputy Commissioners of Districts are requested to devote their personal attention to this matter and see that no unauthorised export takes place. They are also requested to see that no needlessly large stocks are hoarded in the 10 mile area on the frontier, that movements of grain to and within that area are allowed only under licenses and under strict control and that no license is issued for exports outside the State except such as are authorised by Government. The Food Controller is requested to suggest in consultation with Deputy Commissioners whatever further measures may be necessary to enforce these restrictions effectively.

5. Government further consider that for the proper working of the food supply arrangements, it is very necessary that the offices of the Food Controller and Director of Civil Supplies should be combined in one officer and they are accordingly pleased to direct that Mr. K. Matthan be also appointed as Director of Civil Supplies, in addition to his duties as Food Controller, the establishment sanctioned therefor being transferred to his control.

6. The necessary notifications to give effect to this order will be issued separately.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Revenue Commissioner in Mysore.
The Inspector-General of Police in Mysore.
The Food Controller in Mysore.
The Director of Civil Supplies in Mysore.
The Deputy Commissioners of Districts.
The Presidents of Bangalore and Mysore City Municipalities.
The Agent, Mysore Railways.
The other Heads of Departments.

Communications regarding Food Supply Operations.

No. G. 18335-50
P. P. 134-18-337.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Dated Bangalore, 24th February 1919.

OFFICIAL MEMORANDUM.

With reference to Government Order No. G. 17327-77—P. P. 134-18-286, dated 14th February 1919, issuing further directions regarding the future control of food supply operations in the State, the Honorary Presidents of the Bangalore and Mysore City Municipalities, the Deputy Commissioners of Districts and other officers connected with food supply arrangements are requested to address all communications on this subject to the Food Controller in Mysore and to carry out to the extent possible the instructions that may be issued by him. On all food supply matters the Food Controller will address, Government direct except in respect of the establishment required in districts in which case he will send his proposals to the Revenue Commissioner who will forward the same to Government with his remarks.

2. The Revenue Commissioner will continue to be the President of the Food Supplies Committee of which the Food Controller will be the Secretary as heretofore. The latter will after obtaining the approval of the Revenue Commissioner to the Proceedings of the meetings of the Committee, take necessary action in respect of the resolutions.

3. The Food Supplies Committee will continue to be an advisory Committee and will place Government in possession of its views on all important questions regarding the food situation in the State.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Revenue Commissioner in Mysore.
The Inspector-General of Police in Mysore.
The Food Controller in Mysore.
The Presidents, Bangalore and Mysore City Municipalities.
The Director of Civil Supplies in Mysore.
The Deputy Commissioners of Districts.
The Agent, Mysore Railways.

Publication in the "Mysore Gazette."

GOVERNMENT OF H. H THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Bangalore, dated 24th February 1919.

No. G. 18463
P. & S. 73-18-3

From

C. S. Balasundaram Iyer, Esq., B.A.,
Chief Secretary to the Government of His Highness the Maharaja of Mysore.

To

D. B. Ramachandra Mudaliar, Esq.,
Compiler, Mysore Gazette.

SIR,

As some misapprehension seems to exist as to what matter can be published free in the *Mysore Gazette* under the last sentence of clause (*b*) of paragraph 1 of Government Order No. G. 12340-400—P. & S. 1-18-50, dated the 23rd December 1918, I am directed to convey the following instructions to you:—

Any notification, notice, bye-law or other matter, required by law or by any rule having the force of law to be published in the official Gazette by Deputy Commissioners or other officers of Government in their capacity as such, should be published in the *Mysore Gazette* free of cost. On the other hand if the duty of publishing such matter devolves on a Municipality or any other local body, it should be paid for by that body, even though it is a matter required by law or rule having the force of law, to be published in the Gazette.

Generally the question whether certain matter should be published in the Gazette free of cost or not depends not only upon whether it is required by law or a rule having the force of law to be published, but also upon whether it is required to be published by an officer of Government such as Deputy Commissioner, as distinguished from a local body or officer of such body such as President of the District Board or President of a Municipal Council.

I have the honor to be,
Sir,
Your most obedient servant,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Memo No. G. 18464-83, dated Bangalore, 24th February 1919.

Copy of the above is forwarded with compliments to the Deputy Commissioners of Districts, and Presidents of Municipalities and also to the Presidents of Bangalore and Mysore City Municipal Councils and Presidents of the City Improvement Trust Boards of Mysore and Bangalore, for information.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Committee to consider the question of Medical Relief.

No. G. 17729-35—Med. 70-18-1, dated 18th February 1919:

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Order No. G. 17729-35—Med. 70-18-1, dated 18th February 1919.

Mysore with an area of 2,946,128 square miles has now only 174 medical institutions composed of 13 hospitals. One hundred and twenty-nine dispensaries, three maternities and other institutions to serve the medical need of nearly 6 millions of people. This gives on an average, one institution for every 169 square miles and about 32,800 inhabitants. The number cannot be considered quite adequate and further additions will have to be made as time progresses.

The Malnad Improvement Scheme sanctioned to improve the conditions of the malnad area, and to render special medical aid to the people there, is on a temporary basis—but 8 dispensaries now ordered to be opened will eventually become permanent institutions with further additions to their number as the country gets further opened up by communications.

For the total number of institutions mentioned above, there is now a staff of 291 officers. The staff requires considerable strengthening.

The existing vacancies in the Department are about 20 and the number of Sub-Assistant Surgeons in the service 220. No provision for reserve is made at present. Ten per cent at least will be necessary for this purpose. The total number to be recruited during the next five years with existing institutions and three additional institutions for each year has also to be taken into consideration.

The possibility of recruitment from outside for providing for the needs of the Medical and Sanitary Departments in very limited—almost *nil*—considering the requirements in British India and the improved prospects recently thrown open to those in the British Medical Service.

The following points have in addition to be specially considered :—

1. Adequacy or otherwise of the present organisation for medical relief in the State.
2. Necessity for increasing the number of hospitals and dispensaries in the outlying parts of the State.
3. Feasibility of extending medical aid through Ayurvedic and Unani institutions.
4. Improving female medical relief throughout the State.
5. A programme for the next five years and the advisability of starting a Medical Faculty and reorganizing the Medical School.
6. Question of adjusting the financial responsibility of Government Municipal Councils and District Boards in regard to medical institutions.
7. Immediate requirements of the Department—additional medical staff needed in all grades and how to recruit them.

For a careful consideration of these and allied matters, Government are pleased to sanction the constitution of a Committee with the Senior Surgeon as President and with the following official and non-official gentlemen as members :—

Dr. Mylvaganam, F.R.C.S.
Mr. C. S. Balasundaram Iyer, B.A., Chief Secretary to Government.
Dr. Miss R. Govidarajulu, M.D.
Rajakaryaprasakta Rao Bahadur Mr. M. Shama Rao, M.A., retired Inspector-General of Education in Mysore.
Mr. S. R. Balakrishna Rao, B.A., LL.B., Member, University Senate.
Mr. Gulam Ahmed Kalami.

NO. G. 17729-35—MED. 70-18-1, DATED 18TH FEBRUARY 1919.

The Committee are requested to meet at a very early date to consider all the above questions thoroughly and submit their recommendations to Government within two months.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

To—The Senior Surgeon in Mysore.
Dr. H. B. Mylvaganam, F.R.C.S.
C. S. Balasundaram Iyer, Esq., B.A., Chief Secretary to Govt.
Dr. Miss R. Govindarajulu, M.D.
Rajakaryaprasakta Rao Bahadur, M. Shama Rao, Esq., M.A., Retired Inspector-General of Education in Mysore.
S. R. Balakrishna Rao, Esq., B.A., LL.B., Member, University Senate.
Gulam Ahmed Kalami, Esq.

Rules to regulate the working of the Medical Stores.

No. G. 18688-9—MED. 65-14-21, DATED 26TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Correspondence ending with letter No. G. C. 75-5, dated the 24th December 1918, from the Senior Surgeon, submitting draft rules to regulate the working of the Government Medical Stores.

Order No. G. 18688-9 —Med. 65-14-21, dated 26th February 1919.

The rules received from the Senior Surgeon are slightly modified and approved. The rules are appended to this order.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Senior Surgeon in Mysore.
The Comptroller, Mysore Government.

Exd.—C. R.

RULES FOR THE WORKING OF THE GOVERNMENT MEDICAL STORES, BANGALORE.

1. *Object.*—The Government Medical Stores, Bangalore, is mainly intended to meet the requirements of the Medical Institutions under the administrative control of the Senior Surgeon with the Government of Mysore.

2. *Control.*—The Medical Stores is in direct charge of a Medical Officer styled the Superintendent, Medical Stores, under the administrative control of the Senior Surgeon.

3. *Staff.*—The Superintendent will have the following staff to help him in conducting the work in the Medical Stores:—

(a) *Stock Section*—
- 1 Sub-Assistant Surgeon.
- 2 Compounders.
- 3 Lascars.
- 3 Packers
- 3 Peons.

(b) *Clerical and Account Section*—
- 1 Head Clerk.
- 2 Accountants
- 1 Peon.

4. *Working hours.*—The working hours shall ordinarily be from 11 A.M. to 5 P.M.

5. The Superintendent will be personally responsible for the safe custody and for the correct receipt and issue of all the medicines and other articles in the Medical Stores and for guarding against wastage and loss.

6. The Superintendent shall also be responsible for discipline in the Medical Stores.

7. The purchase of articles in the Medical Stores shall be grouped under:—

A. Europe medicines including drugs, surgical instruments and appliances and

B. Country medicines, including articles that can be made or purchased locally, such as furniture, bedding and clothing, midwifery articles, etc.

8. In respect of Europe articles, the Superintendent will, at the beginning of February every year, prepare on the basis of the average of consumption in the preceding three years and with due regard to the stock on hand a general forecast of the quantity of drugs, instruments and other articles required for the ensuing period which shall for the purpose of calculation be one of 18 months.

9. The forecast will be submitted to the Senior Surgeon for approval and will be returned by him before the end of February.

10. On receipt of the Senior Surgeon's approval, the Superintendent will at once place himself in communication with approved foreign firms, obtain quotations,

and submit them with his opinion to the Senior Surgeon for obtaining the orders of Government.

11. The tenders will be disposed of in accordance with the orders of Government which shall be final.

12. *Country medicines.*—(*a*) The supply of country medicines and other articles of local purchase will be regulated by annual contract, commencing from the month of January each year. Tenders shall be invited under the rules for the purchase of articles sanctioned by Government and a notice to that effect published with the necessary particulars in due time, in three successive issues of the *Mysore Gazette.*

(*b*) In case the total value exceeds Rs. 10,000 and the matter has to be submitted to Government, the tenders will be submitted by the Superintendent with a comparative statement to the Senior Surgeon in sufficient time to enable him to forward them with his recommendation to Government by the 1st December each year. When the value is less than Rs. 10,000, the Senior Surgeon is competent to decide the case.

(*c*) Indents upon the contractor or other Indian firms scheduled in the appendix to Government Proceedings No. Fl. 2760-809—G. F. 214-10-88, dated 23rd December 1913, for articles not exceeding Rs. 25 in value, may be made by the Superintendent on his own responsibility. He shall obtain previous sanction of the Senior Surgeon when the value exceeds this sum.

13. *Stock.*—On receipt of the consignments from the firms whose tenders are accepted each article will be examined by the Superintendent with the assistance of the Sub-Assistant Surgeon on duty. Any deficiencies, discrepancies or losses on account of breakage or any other cause that may be observed during such examination shall be brought to the notice of the Senior Surgeon without delay.

14. At the time each consignment is checked, entries of receipts will be made in the respective stock registers maintained in the Stores.

15. *Distribution of Stores Indents.*—The distribution of medicines and other articles in the Medical Stores shall be on annual indents received from the institutions falling under the following four groups:—

(1) Special institutions.
(2) Civil and minor hospitals.
(3) Local Fund Dispensaries.
(4) Medical Institutions maintained by other departments.

16. (*a*) Group (1) will comprise:—

(1) The Victoria Hospital.
(2) The Minto Ophthalmic Hospital.
(3) The Maternity Hospital, Bangalore.
(4) Do Robertsonpet.
(5) The Vani Vilas Hospital, Mysore.
(6) The Krishnarajendra Hospital, Mysore.
(7) The Lunatic Asylum, Bangalore.

(*b*) Group (2) will consist of —the Civil Hospitals at the District Headquarters of Kolar, Tumkur, Hassan, Kadur, Shimoga and Chitaldrug and at Robertsonpet, Kolar Gold Fields. and other minor institutions paid out of the State Funds such as:—

(1) The Jail Hospitals ...	2	(4) The Leper Asylum ...	1
(2) The Palace Dispensary, Mysore	1	(5) The Mallesvaram and Basavangudi dispensaries in the City of Bangalore.	2
(3) The Infectious Disease Hospitals	3		

(*c*) Group (3) shall consist of dispensaries (including female dispensaries) maintained by contributions from District and Municipal Boards.

(*d*) Group (4) Medical institutions maintained by other Departments of the service, out of their own funds, *viz.*, Public Works and Railway hospitals and dispensaries at Kannambadi, Sivasamudram, Yedatore, Hole-Narsipur, Hassan, Bethamangala, Soledevanhalli and such others as may from time to time be started and paid for by the Public Works and the Railway Departments.

Dispensaries and Veterinary Hospitals of the Military Department.

17. Europe medicines and instruments are supplied to Local Fund dispensaries entirely at Government cost, while the cost of country medicines and other articles of local purchase is recovered from them on submission of bills.

18. The indents of the hospitals and dispensaries falling under group (*d*) shall be forwarded to approved English or Indian firms, and supplies arranged for.

No. G. 18688-9—Med. 65-14-21, dated 26th February 1919.

19. Indents shall be received at the Medical Stores on dates fixed in the case of each institution as shown below:—

1st January—1. Victoria Hospital, Bangalore.
2. Maternity Hospital ,,
3. Central Jail ,,
4. Lunatic Asylum ,,
5. Minto Ophthalmic Hospital, Bangalore.
6. Epidemic Diseases Hospital, Bangalore.
7. Headquarters Establishment.
8. Krishnarajendra Hospital, Mysore
9. Vani Vilas ,,
10. Isolation Hospital, Mysore.
11. Civil Hospital, Kolar.
12. Do Kolar Gold Fields.
13. Maternity Hospital, ,,
14. Female Dispensary, ,,
15. Contagious Hospital, Kolar Gold Fields.
16. Civil Hospital, Shimoga.
17. Do Chikmagalur.
18. Do Tumkur.
19. Do Hassan.
20. Do Chitaldrug.
21. Palace Dispensary, Mysore.

1st May.—Dispensaries in the Districts of Bangalore and Mysore, including the Jail Hospital in the City of Mysore.

1st July.—Medical Institutions maintained by other departments falling under group (*d*) *vide* Rule 16 *supra*.

1st August.—Dispensaries in the Districts of Kolar, Kadur and Shimoga.

1st November.—Dispensaries in the Districts of Tumkur, Hassan and Chitaldrug.

20. Institutions may in special cases obtain extra supplies from the Medical Stores, the necessity in each case being fully explained.

21. Supply of anti-plague serum and other inoculating materials and disinfectants shall also be made from the Medical Stores to Health Officers and the special inoculating officers appointed from time to time.

22. Every indent received in the Stores shall be checked and scrutinised by the Superintendent before it is complied with. Where any extravagance is noticed the case will be submitted to the Senior Surgeon for orders.

23. As soon as indents are passed, the Superintendent shall arrange for the quick despatch of the supplies to the several hospitals and dispensaries.

24. The Superintendent will see that the weighing, measuring and packing of articles for despatch are done under proper supervision.

25. Each package shall contain a certificate under the signature of the Superintendent vouching to the correctness of the contents.

26. The Superintendent shall each year prepare a programme to regulate the supply of articles to institutions in time. This programme should be strictly adhered to.

27. As each indent is complied with, the issues shall be recorded in the stock books of the Medical Stores and the Superintendent shall be personally responsible for the correctness of these entries.

28. *Books and accounts.*—The following books shall be maintained in the Medical Stores:—

(*a*) *Stock Section.*

(1) Stock books of receipts—
(1 for Europe medicines,
1 for country medicines and
1 for instruments and appliances.)
(2) Stock books of issues (similar to the above).
(3) Invoice books.
(4) Contractor's indent and receipt books.
(5) Registers of unserviceable articles.
(6) Register of repaired articles.
(7) Register of superfluous serviceable articles.
(8) Goods consignment and gate pass books.
(9) *File of acknowledgments for articles despatched.*
(10) *File of indents.*
(11) *File of tenders.*
(12) Receipt book of articles returned by hospitals.

(*b*) *Account-Section.*—

(1) Cash book.
(2) Contingent registers.
(*a*) Europe medicines and country medicines, etc., for all dispensaries other than *Local Fund Dispensaries.*
(*b*) *Country medicines, etc., of Local Fund Dispensaries.*
(*c*) *Supplies made in connection with plague preventive measures.*
(3) Bill books. (*a*) Europe medicines. (*b*) Country medicines. (*c*) Local Fund charges.
(4) Bill book of articles supplied on payment.
(5) Counterfoil receipt book for money received.
(6) Stationery registers.
(7) Invoice book for forms and registers supplied from the Medical Stores.
(8) Register showing the recovery of value of articles damaged or lost.
(9) Acquittance roll.
(10) Remittance register.
(11) Postage and stamp account.
(12) Service books of the employees of stores.
(13) Office Order book.
(14) Register of Deposits and Refunds.

29. The Superintendent shall be held primarily responsible for the correct and regular maintenance of all the books named above. He may open subsidiary books from time to time, if found necessary.

30. *The cash book.*—The cash book shall be written up by the Superintendent in his own hand and he shall be responsible for accounting for all the transactions in the Medical Stores. The balance on hand at the end of each day should be shown in the cash book. *A balance statement should be prepared at the close of each month, giving details for the sums remaining with the Superintendent and of the items of expenditure incurred but not yet recouped.*

31. *Permanent advance.—For the purpose of meeting payments which cannot be put off till money is drawn from the Treasury, and for other petty purchases, a sum of Rs. 200 is allowed to the Stores and will be kept by Superintendent who shall be personally responsible to account for the same.*

32. *Stock-taking, inspection and audit.*—The Superintendent shall take stock of the drugs and other articles of the Medical Stores as often as is possible, but he shall invariably do so at least once every year about the middle of March when the stock on hand is expected to be low. He shall make a report of the result of such examination to the Senior Surgeon by the 15th April every year.

33. There shall also be an independent departmental inspection of the stock, annually in the month of May, by a Medical Officer of the rank of a Surgeon, deputed by the Senior Surgeon, who shall submit to the Senior Surgeon with the Government of Mysore, a report in the form prescribed in Government Order No. 6563-4—Med. 41-13-2, dated 29th December 1913.

34. In addition to the audit of vouchers in the Central office of the Comptroller, there will be an annual audit of the accounts and registers of the Medical Stores by an auditor and a triennial audit of the same by a Gazetted Officer of the Local Audit Department to be deputed by the Comptroller and the audit note in each case will, with the remarks of the Senior Surgeon, be submitted to Government for orders.

35. *Return of appliances.*—Every year in the month of January the Medical Institutions mentioned in Rule 19, shall send to the Medical Stores, a return of surgical instruments and appliances held in stock by them.

Such a return will also be submitted in the course of the year if and when there is a change in the personnel of the Medical Officers and subordinates in charge of hospitals and dispensaries.

36. It shall be the duty of the Superintendent to check all such returns and submit for the orders of the Senior Surgeon, instances of loss and damage and to take steps for recouping them.

37. *Repairs to appliances, etc.*—The Superintendent of the Stores with the previous permission of the Senior Surgeon, arrange for the repairs of all instruments and appliances so returned to him from time to time. The Medical officers in charge of institutions will once a year, or oftener, if necessary, submit in duplicate in the prescribed form, lists of instruments and appliances requiring repairs and obtain the sanction of the Senior Surgeon to despatch them for repairs to the Medical Stores.

38. *Unserviceable articles.*—All useless and unserviceable articles at the Medical Stores shall be disposed of by public auction as often as is necessary and the sale proceeds credited to Government.

39. *Power and responsibilities of Superintendent.*—The Superintendent will correspond direct with the heads of different medical institutions, with Indian and Foreign Firms and with such other departments having transactions with the Medical Stores, in all matters relating to routine. Communications involving points of doubt, delicacy or importance, shall be sent through the Senior Surgeon.

40. The Superintendent, as the drawing officer, will sign all contingent bills and all bills of firms requiring adjustment and all treasury bills.

41. *Bills.*—All claims from firms (Europe or Indian) in respect of articles supplied to the Medical Stores, shall be properly scrutinised by the Senior Surgeon who will also certify in each case that the articles for which claims have been preferred have all been properly received and brought to stock.

No. G. 18688-9—Med. 65-14-21, dated 26th February 1919.

42. In respect of country medicines and articles of bedding and clothing, etc., required for Local Fund Dispensaries which are obtained by the Medical Stores, out of Government funds placed at the credit of the Senior Surgeon, bills in duplicate will be made out by the Stores and sent duly countersigned by the Medical Officers in charge of the dispensaries concerned, to the Presidents of the District or Municipal Boards concerned, for payment by the issue of cheques in favour of the Treasury Officers for credit to the Medical Department in the Treasury Accounts.

43. No medicines or other articles shall be sold to the outside public whether Government Officers or others except under the general or special orders of the Senior Surgeon and no article shall generally be sold for credit. The cost of all articles sold on credit under orders from the Senior Surgeon will be promptly recovered by the submission of bills. Amounts should in no case be allowed to be outstanding for more than three months.

Election of a Non-official Membe of the Legislative Council.

No. G. 16870-930—LEGIS. 32-18-1, DATED 10TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ AGAIN—

Government Order No. Fl. 5197-246—G. F. 112-17-5, dated 26th March 1918, constituting a Finance Committee for considering the draft budget prior to its discussion in the Representative Assembly.

No. G. 16870-930—Legis. 32-18-1, dated 10th February 1919.

The following rules and procedure are prescribed for the election by the non-official members of the Legislative Council of a member from among themselves to serve on the Finance Committee, under paragraph 2 of the order read above :—

1. Before the 10th January every year, such of the non-official members of the Legislative Council as desire to stand for election to the Finance Committee will intimate their names in writing to the Secretary, Mysore Legislative Council.

2. A list of such names will be published in the Gazette not later than the 25th of the same month, and the election of a member to the Finance Committee will be out of these names only.

3. The election will be by votes to be taken on voting papers containing the names notified under the above rule and supplied for the purpose by post to the members before the 10th February.

4. The voting papers will be returned by post duly registered or by delivery in person to the Secretary, Legislative Council, before the 20th February.

5. Each member will be entitled to choose one name only out of the list.

6. The result of the voting will be ascertained in the Secretariat, and the member in whose favour the largest number of votes are recorded will be considered to have been elected to serve on the Finance Committee, and his name will be duly notified in the Gazette along with the names of the other non-official members of the said Committee.

7. In the event of two or more members securing the same number of votes which is also the largest, Government may choose one of them by lot, and such member will be considered to have been elected by the non-official members of the Legislative Council to serve on the Committee.

8. This year, the members who desire to stand for election will intimate their names in writing to the Secretary, Legislative Council, by the 15th February, and the voting papers will be returned by registered post or by delivery in person to the Secretary, Legislative Council, before the 25th February.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Report on the Administration of Criminal Justice.

No. G. 16650-8—Cts. 101-18-6, dated 8th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 36-1918-19, dated 28th October 1918, from the Registrar, Chief Court, forwarding the Report on the Administration of Criminal Justice for the year 1917-18.

Order No. G. 16650-8—Cts. 101-18-6, dated 8th February 1919.

The total number of offences reported to the Magistrates during the year was 21,551 against 21,113 in the previous year, showing an increase of 438. There was an increase of 297 cases under offences against the human body and of nearly 600 cases under offences against property. There was a decrease of 640 cases under Special and Local Laws. The number of persons, brought to trial was 38,525 against 37,655 in the previous year.

Result of cases.—The percentage of convictions is low being 1,872 against 2,468 in the previous year. It was particularly so in the case of persons accused of criminal force and assault and hurt, being about 5·3 and 8·8 respectively, only three persons were ordered to pay compensation under Section 250 of the Criminal Procedure Code. Government regret to note that in spite of their observations and those of the Chief Court, the Magistrates have completely neglected to make use of the provision of the section.

Witnesses.—The number of witnesses detained for more than three days increased from 140 in 1916-17 to 254 in the year under review. The practice of detaining witnesses unnecessarily must again be noticed with disapproval.

Punishments.—There was an increase in the number of first offenders dealt with under Section 562 of the Criminal Procedure Code, the number being 50 against 11 in the previous year. The attention of the Magistrates is again drawn to the observations of the Chief Court that there is room for a still wider use of that provision considering the fact that the number of persons sentenced to short terms of imprisonment, *i. e.*, fifteen days and under, was almost the same as in the previous year (*viz.* 522).

The average duration of cases disposed of by the Magistrates was 21·91 against 16·82 days in the previous year. It is as observed by the Chief Court, too high considering the nature of the majority of cases. The average duration of Sessions cases disposed of was 31·24 days against 13·20 days in the previous year. The average duration of appeals in the Magistrates' Courts increased from 31·46 in the year 1916-17 to 38·77 days in the year under review, while it is practically the same in the Chief Court. Government do not view this tendency to delay in disposal with favour and trust that Magistrates will make every endeavour in future to shorten the period to the minimum possible.

The Chief Court had 104 appeals for disposal involving 187 persons, and disposed of 72 appeals, leaving only 32 cases pending at the close of the year.

Government regret to note that sufficient attention has not been paid by some of the District Magistrates to the sorting of Judicial records. They are requested to take immediate steps to rectify the mistakes pointed out by the Judges of the Chief Court in their inspection notes, and to see that the sorting of the records is completed early.

Government note with satisfaction the good work done by the Honorary Magistrates. They disposed of 2,077 cases against 2,820 in the previous year.

Government are glad to observe that a fairly large number of courts was inspected by the Judges of the Chief Court and the District Magistrates.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Registrar, Chief Court of Mysore, returning the reports of the District Magistrates.
The District Magistrates of Districts.

Read—

Correspondence ending with letter No. 1988—89-07, dated 26th December 1918, from the Inspector-General of Prisons in Mysore, stating that the District Magistrate of the Civil and Military Station, Bangalore. may be appointed as an official visitor of the Central Jail, Bangalore.

Order No. G. 18235-6—Pris. 39-18-6, dated 24th February 1919.

Government are pleased to appoint the District Magistrate of the Civil and Military Station as an *ex-officio* visitor of the Bangalore Central Jail.

2. The following addition has been made to Rule 14 of the Mysore Jail Manual:—

"14 (3) The District Magistrate of the Civil and Military Station, Bangalore, shall be an *ex-officio* visitor of the Bangalore Central Jail."

Bungalows at Kalhattigiri and Devarayadurg.

No. G. 18813-17—G. M. 550-16-32, DATED 27TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. G. 6737-85—G. M. 261-14-1, dated 29th December 1914, directing the supervision of the bungalows on certain Hill Stations be entrusted to the Superintendent, Government Gardens.

2. Government Order No. G. 16502—G. M. 380-15-4, dated 5th June 1916, directing that the Kalhattigiri Bungalow referred to in the above order might remain in the charge of the Public Works Department, pending further orders.

3. Government Order No. G. 4034-8—G. M. 550-16-25, dated 21st September 1917, requesting the Superintending Engineer, Northern Circle, and the Superintendent, Government Gardens, to submit a joint report for the efficient management of the bungalows at Devarayadurg and Kalhattigiri.

4. Government Order No. G. 17618-78- G. M. 198-14-60, dated 24th June 1918, issuing instructions in regard to the management of travellers' bungalows in the State.

5. Letter No. 286, dated 13th September 1918, from the Curator in charge of the Office of the Superintendent, Government Gardens, forwarding the joint report referred to above.

Order No. G. 18813-17—G. M. 550-16-32, dated 27th February 1919.

In Government Order No. G. 17618-78—G. M. 198-14-60, dated 24th June 1918, read above the bungalow on Devarayadurg has been placed under the supervision of the Deputy Commissioner, Tumkur District, and Government are pleased to direct that the bungalow at Kalhattigiri be also added to the list of travellers' bungalows published with that Government Order and its management entrusted to the Deputy Commissioner, Kadur District.

2. The establishment so far maintained in the Kalhattigiri bungalow will continue and it will be considered a bungalow of the first class.

3. The Deputy Commissioners of the Kadur and Tumkur Districts are requested to submit estimates for the purchase of new furniture and equipment required for the two bungalows, respectively, and the Chief Engineer is requested to forward estimates for the necessary repairs thereto as recommended in the joint report read above.

C. S. BALASUNDARAM IYER,

No. G. 16550-610—R. A. 35-18-2, DATED 8TH FEBRUARY 1919.

TRIENNIAL ELECTION AND DASARA CALENDAR.

1. By the *end of Magha.*—1st March 1919.

List of persons qualified to vote at the election of and stand for election as taluk members should be prepared and forwarded to the General and Revenue Secretariat.

2. By the *end of Phalguna.*—31st March 1919.

The above lists will, after scrutiny in the General and Revenue Secretariat, be published in the *Mysore Gazette*, between 13th and 27th March 1919.

3. Before the *end of Chaitra.*—21st April 1919.

Objections and suggestions in respect of the lists referred to in serial 2 to be filed before the Deputy Commissioners, before the 21st April 1919.

4. Before the *end of Vaisakha.*—21st May 1919.

Disposal by the Deputy Commissioners of the objections and suggestions referred to in serial 3.

5. By the *10th Bahula of Vaisakha.*—24th May 1919.

(*a*) Such of the eligible persons as wish to stand for election in the taluks concerned should furnish their names in writing to the Amildar for local publication to voters.

(*b*) Notices should be issued on or before the 24th May 1919, for persons qualified to elect taluk members' meeting at taluk headquarters on a day to be fixed in last week of June 1919.

6. By the *12th Bahula of Jeshta.*—24th June 1919.

(*a*) At such meeting, the prescribed number of taluk members to the Representative Assembly for the next three years shall be elected from among the persons referred to in (5) (*a*).

(*b*) Names of members deputed by the Local Fund Boards and Municipal Councils and recognised Associations should be notified to the Deputy Commissioners.

7. By the *4th Suddha of Ashadha.*—1st July 1919.

(*a*) Taluk members and District Fund Boards, Municipal Councils and recognised Associations should send to the respective Deputy Commissioners memoranda of representations, suggestions on the subjects desired to be brought forward for discussion and interpellations for being answered at the next meeting of the Assembly at Mysore.

(*b*) Lists of persons elected and deputed together with information as to the number likely to attend the meeting should be sent to the General and Revenue Secretariat.

8. By the *5th Bahula of Ashadha.*—17th July 1919.

The Deputy Commissioners should hold at the district headquarters a meeting of members in order to select finally the subjects and interpellations to be sent to the General and Revenue Secretariat for inclusion in the consolidated list.

9. By the *4th Suddha of Sravana.*—30th July 1919.

Compilation of memoranda of subjects to be discussed in the Representative Assembly with the Deputy Commissioners' remarks, and interpellations should reach the General and Revenue Secretariat.

10. By the *4th Suddha of Asvija.*—27th September 1919.

Advance copies of all addresses to be presented on the opening day of the Assembly should be sent in triplicate to the Chief Secretary so as to reach him on or before the 27th September 1919. (*Vide* para 4 of G. O. No. 14902-11—G. M. 422-16-2, dated 10th May 1917.)

11. The *12th Suddha of Asvija.*—6th October 1919.

Opening day of the Assembly.

12. The *13th Suddha of Asvija.*—7th October 1919.

Assembly meetings commence.

13. The *13th Suddha of Asvija.*—7th October 1919.

Supplemental subjects intended to be brought forward for discussion in the Assembly should be sent to the Chief Secretary, before 12 noon of the 7th October 1919. (*Vide* G. O. No. G. 6395-444—G. M. 311-15-1, dated 24th November 1915.)

Member from the Representative Assembly to the Finance Committee.

No. G. 16710-70—R. A. 36-18-1, DATED 8TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ AGAIN—

Government Order No. Fl. 5197-246—G. F. 112-17-5, dated 26th March 1918, constituting a Finance Committee for considering the draft budget prior to its discussion in the Representative Assembly.

No. G. 16710-70—R. A. 36-18-1, dated 8th February 1919.

The following instructions are issued under para 2 of the order read above for the election of a member of the Representative Assembly to serve on the Finance Committee of the State this year:—

1. The members of the Assembly in each district when they meet at the District Headquarter Station for the selection of subject for the Second Session of the Representative Assembly will nominate from among themselves the following number of members for election to the Finance Committee:—

Bangalore and Mysore—3 members each.

Other Districts—2 members each.

2. Deputy Commissioners will submit to Government a list of such names not later than the 5th March 1919.

3. A voting paper containing all such names will be sent to each individual member direct from the Secretariat not later than the 7th of March.

4. Each member will return the voting paper sent to him scoring out all the names other than that of the one member for whom he votes. These votes should all be forwarded so as to reach Government not later than the 16th March.

5. The result of the voting from the eight districts will be ascertained in the Secretariat. The member in whose favour the largest number of votes are recorded will be considered to have been elected to serve on the Finance Committee and his name will be duly notified in the Gazette along with the names of the other non-official members of the Finance Committee.

6. In the event of two or more members securing the same number of votes which is also the largest Government may choose one of them by lot and such member will be considered to have been elected by the members of the Assembly to serve on the Committee.

Grant of Mineral Licenses and Leases.

No. G. 17920-22—GEOL. 47-18-2, DATED 19TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No. 1264, dated 12th November 1918, from the Officiating Director, Department of Geology, forwarding an application from Mr. T. Murugesam Pillay for the grant of a prospecting license for magnesite and mica over a block of one square mile of land in the Mysore Taluk, and certain correspondence between himself and the Special Forest Officer in Mysore, on the subject of prohibiting or restricting the alienation of magnesite area in the State by lease or otherwise for private exploitation in view of the need of the paper-pulp industry in the State for this mineral, and recommending that this and similar applications may be granted, but that on account of the requirements of the paper industry suggested by the Special Forest Officer, they may be made subject to the conditions that Government should be given the first refusal of the mineral obtained, and that the mineral should not be exported in a raw condition to places outside the State.

Order No. G. 17920-22—Geol. 47-18-2, dated 19th February 1919.

Government are pleased to direct that in preference to refusing applications in respect of minerals required for industrial purposes in the State, certain minerals or certain areas containing such minerals so required might be reserved and notified in the Gazette from time to time; and that prospecting licenses, subject to such reservations and the condition that Government should have the first refusal of the mineral collected, might be freely granted to applicants who are Mysoreans, by birth or domicile, and in exceptional cases to others also, preferably those who have already worked in the State for not less than five years.

2. The Director, Department of Mines and Geology, is requested to report in consultation with the Director of Industries and Commerce and the Secretary, Economic Conference, for orders of Government the minerals or particular areas, containing the minerals, which it may be desirable to reserve as above.

3. Separate orders will issue regarding the application of Mr. Murugesam Pillay.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Director, Department of Mines and Geology.
The Director of Industries and Commerce in Mysore.
The Secretary, Economic Conference.

No. 2347-88—E. A. G. 340, dated 4th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. 143—E. A. G., dated 24th August 1916, directing the submission of a monthly journal by Heads of Departments having executive duties, in the form prescribed therein.

Order No 2347-88—E. A. G. 340, dated 4th February 1919.

It is observed that at present the information furnished in the statement is very meagre and is not sufficient to give any idea to Government of the state of work of the departments concerned, in the districts visited, and of important matters that come to the notice of inspecting officers. Government therefore desire that column 9 of the statement (details of inspection work—brief narrative) should, as the heading indicates, contain concise details about matters of interest and importance noticed during the visit, instructions issued to local officers, observations on their work and supervision exercised, etc. The journal will be treated as confidential, as already stated in paragraph 2 of the order read above.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Heads of Departments.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. C. 4563, dated 6th December 1918, from the Inspector-General of Education in Mysore, bringing to notice that school-masters and officials belonging to the Education Department are appointed in the Revenue and other Departments without any reference to his office and that such appointments have a demoralising effect and are subversive of discipline.

Order No. 2392-441- E. A. G. 350, dated 5th February 1919.

Complaints having reached Government that officials of one department secure entertainment in a different department without the knowledge of the Head of the Office in which they are serving, Government direct that no application for appointment or transfer should henceforward be entertained or considered from an official already in the permanent or temporary employment of Government, unless such application is forwarded through the departmental Superior in whom the power of appointment of such official vests.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

8. Is an Office Order Book maintained? Are orders of leave, punishment, etc., regularly recorded and given effect to?

9. Is a register of applications for appointment maintained and are selections made therefrom?

10. Are all appointments made in accordance with the Clerkship Rules, in the case of ministerial offices, and standing orders in the case of executive appointments?

DISTRIBUTION OF WORK.

11. Is a record of the disribution of work among the several clerks in each branch maintained? Is the work assigned to each official sufficient without being excessive?

ARREAR LISTS.

12. Is a monthly statement of arrears in the office prepared in the form prescribed in Rule 13 of the General Rules of Office Procedure and submitted?

13. Are these lists scrutinised carefully by the ministerial head of the office and reminders sent promptly where necessary?

14. Are similar monthly statements received from subordinate offices regularly and scrutinised?

(A copy of the latest arrear list may be appended.)

REPORTS AND RETURNS.

15. Is a list of periodical reports and returns for the submission scrutiny or review of which the office is responsible kept in the form prescribed in Rule 15 of the General Rules of Office Procedure and maintained up-to-date? Are extracts pertaining to each branch also maintained and the due dates, of actual submission and the names of the clerks responsible for their preparation therein noted? Is it scrutinised monthly by the Head of office? (*Vide* Rule 6 of the Efficiency Rules.)

16. How many and which returns were overdue at the time of inspection?

FURNITURE LIST.

17. Is a register of furniture maintained? Are all articles of furniture entered therein together with details as to the cost and date of purchase of each? Is the register verified once in every quarter and the result reported to the Head of the Office? Is a note made in the register of all articles lost or which have become unserviceable?

18. Is a similar list maintained for tents?

19. Is the furniture adequate to the needs of the office or more than necessary? What is the condition of furniture kept?

STATIONERY AND FORMS.

20. In whose custody is the office stationery? Are the Stock and Issue Registers regularly maintained? Are they submitted monthly for inspection of the officer in charge? Is a verification by stock-taking done quarterly and annually as laid down in the Stationery Rules and the General Rules of Office Procedure respectively?

21. Is a register of periodical issues of stationery maintained? (*Vide* Rule 36 of the Stationery Rules.)

22. Is a general indent book maintained for monthly issue of the stationery?

23. Are old and unserviceable articles sold by public auction and the proceeds credited to Government? (*Vide* Rule 19 of the Stationery Rules.)

24. Who keeps the stock of forms? Where are they kept? Are they neatly arranged? Are all receipts and issues noted in a register?

II. CORRESPONDENCE REGISTERS.

25. Are the registers of inward and outward correspondence properly maintained with cross references regularly marked?

26. How many of such registers are maintained? Are a peon book and tappal book maintained?

27. Are the registers written up neatly? Are the entries concise and clear?

28. Are all receipts classified in the manner laid down in Rule 9 of the General Rules of Office Procedure?

29. Is there any delay in the fair copying and despatching of letters? Are all papers despatched invariably on the day they are signed or the following day? (A few issues may be examined with references to the refer book, peon book and tappal book.)

30. Is the issue register checked once a month by the ministerial head of the office?

31. Is a general register maintained to enter all covers as they are received in the office?

32. Is a separate petition register maintained in the form prescribed in Rule 24 of the petition rules and does it show the method of disposal and the date and nature of endorsement granted?

33. Is there any abnormal delay in the disposal of petitions?

34. Are all the registers periodically examined by the head of the branch and the ministerial head of the office and signed by them in token of their inspection?

III. CASH AND CONTINGENCIES.

35. Are the following registers prescribed by rule 48 of the General Rules of Office Procedure maintained?

(1) Cash Book.
(2) General ledger or classified abstract of monthly totals of the cash book.
(3) Contingent Register.
(4) Order Book for contingent charges

36. What is the amount of permanent advance held by the office? Is an account of it correctly kept? What is the balance on hand? Is it forthcoming?

37. Is there any money on hand awaiting remittance to the Treasury or payment to parties? Details may be furnished.

38. Are there any long standing advances made out of the office imprest, awaiting adjustment? Details may be furnished?

39. Are all charges incurred on account of contingencies entered in the contingent register from day to day? (*Vide* Article 81 of the Civil Account Code.) Are totals struck at the end of the month?

(The necessity for any unusual charges may be scrutinised.)

40. Are all contingent charges incurred under due authority, sanction of higher authority being obtained where necessary ?

41. Are the contingent charges incurred from permanent advance drawn on detailed contingent bills and are these bills sent to Comptroller for preaudit regularly ?

42. Is the expenditure kept within the budget grant ?

43. Is the account of service postage labels correctly written up ? Who keeps them and where ? Does the stock on hand agree with the book balance ?

44. Are salary bills prepared with reference to the attendance register and office order book ?

45. Is an acquittance roll maintained ? Are all salaries drawn duly disbursed and proper receipts taken therein ? Is a stamped receipt obtained for payment of over Rs. 20 ? Is the register examined every month by the head of the office ?

46. Are the bills and payments posted in the Cash Book ?

47. Is undisbursed pay shortdrawn invariably in the pay bill of the next month?

48. Is necessary sanction obtained for drawing the pay or allowances of incumbents of appointments requiring sanction of the higher authorities ?

49. Are all sums drawn on travelling allowance bills disbursed and acquittance taken ?

50. Are drafts of the office travelling allowance bills maintained in a register ? Is there any undisbursed travelling allowance left on hand ? Are the rules regarding undisbursed travelling allowance laid down in Government Order No. Fl. 2187-235—S. & A. 63-15-4, dated 19th November 1915 duly observed ?

51. Have personal claims of officers to pay, allowances and increments been discharged without delay? If any are delayed what is the cause for the same ?

52. Are pension applications prepared and submitted in time as required by Government Order No. Fl. 7215-55—S. & A. 484-08-1, dated 7th May 1909 ?

How many cases are pending and why ?

IV. RECORDS.

53. The rules, if any under which the records are arranged may be quoted, if no such rules exist, the system of arrangement followed subjectwar or chronological, etc., may be briefly explained, stating the advantages which the prevailing systsm has over other systems followed in other offices.

54. Are all the records sorted according to the prevailing system ? If not, what is the quantity of papers remaining to be sorted? What time is necessary to complete their sorting ? Would the existing record establishment be able to complete the sorting within the aforesaid period ?

55. In whose charge are the records kept ? Are records permitted to be removed without a substitute slip signed by the requisitioning official ?

A list of records taken out of the record room and outstanding for long periods may be given,

56. What is the arrangement for the custody of important and confidential records? In whose charge are they, and is a separate list of such records maintained ?

57. Have rules been framed for regulating the periodical destruction of unserviceable records and have all time-expired papers been eliminated according to such rules ?

V. LIBRARY.

58. In whose charge is the office library and where is it kept ?

59. Is a register maintained for entering books and publications as they are received and is it written up-to-date ?

60. Is a catalogue of the office library maintained up-to-date ?

61. Are all books received into the library correctly labelled and deposited in their appropriate places ?

62. Are all correction slips inserted in their proper places in the volumes of enactments, rules, etc. ? Are any books issued without a receipt or lent to strangers without the permission of the head of the office ?

63. Is a monthly report of books removed and not returned submitted ?

64. Are cases of loss or damage to any books reported promptly and orders obtained for their replacement ?

65. Is the library examined by a responsible officer once in five years and are all obsolete and unnecessary books removed the library catalogue being suitably revised ?

VI. MISCELLANEOUS.

66. Are the following lists maintained under the Organization and Development scheme.

(1) List of important questions requiring consideration at a time.

(2) List of subjects for study subjects connected with the department; in which individual officers may usefully specialise. Are these lists revised and progress reviewed regularly every half-year ?

67. Is an inspection minute book maintained and written up as laid down in para 4 of Government Order No. 10870-918—E. A. 43-14-1, dated 10th April 1915 ?

68. Are points noted for action at previous inspections attended to ?

69. Are test inspections of the work of one or more officials of the office made every month as required by Rule 5 of the Efficiency Rules ?

VII. Stores.

70. Is the ledger properly maintained and are all entries posted up-to-date ?

71. Have all the entries in the ledger been duly attested ?

72. When was the stock examined last and by whom ?

73. Was the certificate granted by the examining committee perused ?

74. Have all the receipts granted to contractors for articles supplied been entered in the ledger ?

75. Are claims of contractors disposed of promptly ?

Details of bills received but not yet paid may be furnished.

76. Are the acknowledgments for articles supplied to districts, duly received and pasted to the original invoices ?

77. Is the register of articles issued on payment maintained properly and up-to-date? Are the recoveries noted therein made promptly ? What is the amount outstanding recovery ?

Details may be furnished noting steps taken to recover the same.

78. Are steps promptly taken to credit the recoveries to the Treasury without delay?

79. Is the book of samples entered up-to-date ?

80. Were tenders called for during the year and whether the tender book has been properly maintained, the names of contractors whose tenders were approved being noted therein ?

81. When was the stores audited last by the outside auditor from the Comptroller's office and what are the steps taken to remedy the defects, if any, pointed out by him ?

82. Are the store-rooms kept clean and tidy and are the articles arranged properly ?

83. General remarks, if any.

Ammunition.

84. What ammunition is available ?

85. Is the available quantity sufficient to meet emergent demands, if any ?

86. Is it stocked in a safe and cool room?

87. When was the indent for ammunition submitted last ?

88. Has the same been received ? If so, when and how much ?

89. Is sufficient guard maintained over the Magazine ?

26. VIII. Crime Section.

90. Is a Crime Register maintained ? and, if so, is it written up-to-date ?

91. Is a check register of progress reports maintained ?

92. Is a Crime Chart maintained, and if so, is it posted up-to-date ?

93. Is a check register of reports of station inspections maintained ?

94. Is an abstract of station inspection work done by each Police Superintendent maintained ?

MEMO OF QUESTIONS FOR THE INSPECTION OF THE C. I. D. OFFICE.

1. Name of the Inspecting Officer with designation.....

2. Duration of inspection .. { Date commenced..... / Date concluded..... }

3. Previous inspection .. { Date..... / Name and designation of officer..... }

I. General.

1. What is the staff ?

2. What are the qualifications of each permanent member of the establishment and are they suitable and sufficient ?

3. Is a service register maintained for every permanent official and is it brought up-to-date ?

4. Is an office order book maintained ? Are orders of leave, punishment, etc., regularly recorded and given effect to ?

II. Registers.

5. Are "To" and "From" Registers properly maintained with cross references regularly marked ?

6. Is a Tappal Book maintained ?

7. Is the C. I. D. gang register properly maintained and brought up-to-date ?

8. Is a list of notorious criminals maintained in the C. I. D. as required ?

9. Are the history sheets of notorious criminals and members of C. I. D. gangs properly kept and brought up-to-date ?

10. Are the diaries of the Inspectors and Jamedars regularly filed ?

11. Are the fortnightly wandering gang statements regularly received and published in the "Police Gazette"?

III. Gazettes and Periodicals.

12. Are Police Gazettes regularly and promptly issued?

13. Is criminal intelligence promptly communicated by the District Police and published in the confidential supplement to the "Police Gazette"?

14. Are the foreign criminal intelligence gazettes properly arranged and bound?

15. Do the Inspectors and Jamedars regularly read such gazettes?

16. Is an up-to-date list of periodicals received in the office kept?

17. Are the periodicals arranged in order and properly kept?

IV. Cases.

18. What is the number of cases in which the investigation was entirely taken up by the C. I. D.?

19. In how many cases was the assistance of the C. I. D. sought by the District Superintendents?

20. In how many of these cases was assistance rendered by the C. I. D.?

VI.—Finger Print Bureau.

(a) Finger Print Slips on Record.

21. How many slips are there in the Bureau?

22. How are they classified?

23. What system is observed in their classification?

24. How many files are there as per primary classification?

25. How many files of the primary classification are sub-classified according to Henry's system?

26. How many files are there that do not need sub-classification for the present?

27. What classifications contain the highest accumulations?

28. Are slips received for record checked properly before their registration?

29. Is the preparation of finger print slips properly attended to in districts?

30. Are the finger impressions and all other entries on the finger print slips properly checked in the districts before their submission to the Bureau for record?

31. What is the average number of slip received for record for a year taking figures for the past five years?

32. Do Foreign Provinces contribute finger print slips for record?

33. Are the finger print slips of persons who belong to foreign provinces, but who are convicted in the State, sent for record to the Bureau of the respective provinces ?

(*b*) FINGER PRINT SLIPS RECEIVED FOR SEARCH.

34. What is the average number of slips received for search in a year taking the figures for the past five years ?

35. Do the District Police make full use of the Bureau in their preventive action ?

36. What districts are backward in this respect ?

37. Are there any instances in which Bureau was the primary medium for detection in cases of burglary ?

38. Which of the Foreign Provinces makes the greatest number of references regarding previous convictions ?

(*c*) EXPERT OPINION.

39. Are the services of the expert requisitioned by the Civil Courts ?

40. Do the Civil Courts send for the written opinion of the Expert?

41. What is the fee charged for furnishing Expert opinion ?

42. In how many cases had the Expert to give his opinion in Courts during the past twelve months ?

43. In how many cases of previous convictions had he to prove identity in Court?

44. Who is the Expert in the Bureau ?

(*d*) MISCELLANEOUS.

45. What is the strength of the Bureau staff ?

46. Is the present staff adequate enough to man the work of the Bureau without strain ?

47. Are Police Officers trained in the Bureau to qualify themselves as Experts ?

48. How is the finger print work done in the districts ?

49. Is there any special staff to look after this work in the district ?

50. Is the work of the Bureau on the increase or decrease year after year ?

51. Is an inspection minute book maintained ? Points noted in previous inspections are attended to ?

Note.—For questions for the inspection of the Railway Police Branch of the Office *please see* the Police Superintendents' Office Manual.

Budget Estimates for 1918-19 under the Irrigation Cess Fund.

No. 9981-91—L. R. 55-18-9, DATED 8TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

(1) Paragraph (1), (2) and (5), of Government Order No. R. 2157-68—L. R. 630-13-4, dated 12th September 1914, fixing the limits of ordinary expenditure for irrigation works in the several districts.

(2) Paragraph 4 f Government Order No. R. 2399-409—L. R. 633-15-4, dated 26th August 1916, directing that 40 per cent of the cost of maintaining the river channels in the Mysore and Hassan Districts be met from the State Funds.

(3) Government Order No. R. 6311-14—L. R. 280-16-4, dated 19th December 1916, directing that 40 per cent of the cost of maintenance of the Vani Vilasa Sagara channels be debited to the State Funds.

(4) Letter No. C. Per* 81, dated 13—17th July 1918, from the Revenue Commissioner in Mysore, forwarding a copy of his letter No. C. Per. 81, dated 10—17th July 1918, to the Chief Engineer of Mysore, enclosing a memorandum consolidating the Budget Estimates of Receipts and Expenditure for 1918-19, under the Irrigation Cess Fund, received from the Deputy Commissioners of Districts.

* PRINTED AS APPENDIX No. I.

(5) Correspondence ending with letter No.† 10243, dated 26th August 1918, from the Chief Engineer of Mysore for Irrigation, forwarding without any remarks the consolidated Budget Estimates under the Irrigation Cess Fund for 1918-19.

† PRINTED AS APPENDIX No. II.

(6) Un-official Note No.‡ 35—P. W. D., dated 22nd March 1918, of the Chief Engineer and Secretary to Government, Public Works Department, stating that 60 per cent of the cost of maintaining river channels in the Mysore and Hassan Districts and of the Vani Vilas Sagara channels in the Chitaldrug District may be borne by the State and the balance debited to the Irrigation Cess Fund.

‡ PRINTED AS APPENDIX No. III.

(7) Letter No. T. A. D.-A.§ 484, dated 8th October 1918, from the Comptroller to Government, forwarding a preliminary statement showing the opening balance on 1st July 1918, available at the credit of the General Irrigation Cess Fund and the Districtwar Irrigation Cess Fund.

(8) Also letter No. T. A. D.-A. 764, dated 26th December 1918, from the above officer stating that the accounts for 1917-18, have not yet been finally closed in his office and that the statement showing the actual balances available on 1st July 1918, will be forwarded soon after the accounts are closed.

§ PRINTED AS APPENDIX No. IV.

Order No. R. 9981-91—L. R. 55-18-9, dated 8th February 1919.

1. *Estimated Receipts.*—The estimated receipts of the several districts for the year 1918-19, as per Revenue Commissioner's figures stand at Rs. 2,97,859 as against Rs. 2,88,983 in the previous year as detailed below:—

District	Estimated Receipts for 1918-19.	Estimated Receipts for 1917-18.	Difference + or —
	Rs.	Rs.	Rs.
Bangalore	27,454	27,454	Nil.
Kolar	39,420	39,274	+ 146
Tumkur	39,967	39,708	+ 259
Mysore	50,319	46,566	+ 3,753
Hassan	29,794	29,402	+ 392
Shimoga	66,563	66,534	+ 29
Kadur	29,392	25,795	+ 3,597
Chitaldrug	14,950	14,250	+ 700
Total ..	2,97,859	2,88,983	+ 8,876

No. 9981-91—L. R. 55-18-9, DATED 8TH FEBRUARY 1919.

The Deputy Commissioners of Chitaldrug, Kadur and Mysore Districts have explained how an increase in receipts may be expected during the year 1918-19.

2. To the above figures must be added the opening balance of Rs. 5,52,750-14-9 as per Comptroller's figures and the sums of Rs. 35,157, 10,094, 9,912 and 43,914 being the contributions from the State Funds towards the maintenance of the river channels in the Mysore and Hassan Districts and of the Vani Vilasa Sagara channels in the Chitaldrug District and towards the cost of establishment, tools and plant respectively. The probable total receipts are therefore Rs. 9,49,686-14-9 or in round figures Rs. 9,49,600 as against Rs. 8,98,539-2-0 or Rs. 8,98,500 in round figures for the preceding year.

3. *Estimated Expenditure.*—The statement given below shows the proposed expenditure during the year 1918-19, as compared with that of the previous year:—

District	Expenditure proposed during 1918-19 for		Expenditure proposed during 1917-18 for		Difference + or —
	Ordinary Irrigation works	River channels, etc.	Ordinary Irrigation works	River channels, etc.	
	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore ..	18,000	..	24,400	..	— 6,400
Kolar	30,000	..	35,000	..	— 5,000
Tumkur	34,300	..	29,700	..	+ 4,600
Mysore	28,775	58,596	31,543	52,541	+ 3,287
Hassan	13,677	16,823	9,177	16,823	+ 4,500
Shimoga	37,242	..	49,900	..	— 12,658
Kadur	20,000	..	18,500	..	+ 1,500
Chitaldrug ..	9,410	16,520	10,680	16,520	— 1,270
Total ..	1,91,404	91,939	2,08,900	85,884	— 11,351

The variations in the figures should be invariably explained in detail.

4. The following arithmetical errors should be corrected:—

(i) In column 8 of the statement of expenditure forwarded by the Revenue Commissioner Rs. 4,500 should be inserted in place of Rs. 5,400.

(ii) In column 5 of the same statement Rs. 2,224 should be changed into Rs. 2,242;

(iii) In column 6 of the same statement the Revenue Commissioner's figures in respect of the cost of maintenance of river channels in the Mysore and Hassan Districts and Vani Vilasa Sagara channels in the Chitaldrug District should be changed into Rs. 23,439 Rs. 6,729 and Rs. 6,608 respectively, as only 40 per cent will be charged to the Irrigation Cess Fund hereafter.

With these alterations the proposed expenditure as per Revenue Commissioner's letter dated 13th July 1918, stand at Rs. 3,27,257 as against Rs. 3,41,661 in the previous year.

5. The rule regarding the 75 per cent limit has been observed only in the case of the Bangalore, Shimoga and Kadur Districts, there being an excess of Rs. 435 and 4,324-12-0, in respect of the Kolar and Tumkur Districts and the other three districts of Mysore, Hassan and Chitaldrug having found it difficult to strictly adhere to the same owing to the heavy cost of maintenance of river channels and the Vani Vilasa Sagara channels.

To overcome this difficulty which is encountered year after year the Chief Engineer proposes that 60 per cent of the maintenance charges in these districts may be borne by the State instead of 40 per cent prescribed in Government Orders of 28th June 1916, and 19th December 1916, read above. The adoption of this suggestion will improve the situation only in the Hassan District. The Deputy Commissioner, Chitaldrug Dis-

trict, proposes that the entire cost of maintenance of the Vani Vilasa Sagara channels may be debited to the State Funds. The Chief Engineer does not approve of this. Nor has the Revenue Commissioner submitted any proposals on this point.

6. In the circumstances stated above, Government direct that in the case of the Mysore and Chitaldrug Districts the 75 per cent limit laid down in Government Order No. R. 2157-68--L. R. 630-13-4, dated 12th September 1914, to meet the expenditure for ordinary Irrigation works be raised to 95 per cent and also approve of the recommendation of the Chief Engineer to increase the State grant in respect of the Vani Vilasa Sagara and the river channels in the Mysore and Hassan Districts from 40 per cent to 60 per cent.

Accordingly the excess expenditure of Rs. 4,410-15-0 and Rs. 1,815-8-0 in the case of the Mysore and Chitaldrug Districts, respectively, will be met, as a very special case, from the General Irrigation Cess Fund this year and the sums of Rs. 435 and 4,324-12-0 in the case of the Kolar and Tumkur Districts from the balances available to the credit of the ordinary Irrigation Cess Fund in respect of those districts on 1st July 1918. The provisional deficits of Rs. 96,358-11-2 and Rs. 14,867-3-10, against the Mysore and Chitaldrug Districts in respect of the ordinary Irrigation Cess Fund will also be met from the General Irrigation Cess Fund as a special case.

7. *Sanctioned Budget Estimates for 1918-19.*—The Budget estimates as provisionally sanctioned pending receipt of correct balances from the Comptroller stand as shown in the accompanying statement. (Printed as an annexure.)

8. The Presidents of Mysore and Chitaldrug District Boards are requested to cut down the expenditure for ordinary Irrigation works so as to strictly keep to the limits fixed above.

9. The Comptroller is requested to submit as soon as possible the statement showing the correct balances available on 1st July 1918, to the credit of the ordinary and the General Irrigation Cess Funds.

B. RAMASWAMAIYA,

APPENDIX No. I.

Letter No. C. Per. 81, dated Bangalore. 13th—17th July 1918, from the Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

I have the honor to forward herewith for the information of Government a copy of my letter No. C. Per. 81, dated 13th—17th July 1918, to the Chief Engineer enclosing a Memorandum consolidating the budget estimates of receipts and expenditure for 1918-19 under the Irrigation Cess Fund received from the Deputy Commissioners.

Memorandum on the budget estimates of receipts and expenditure under the Irrigation Cess Fund for the year 1918-19.

The estimated receipts amount to Rs. 8,90,792 as per details given below:—

	Rs.
(i) Opening balance as intimated by the Comptroller in his letter No. T. A. D. A. 1566, dated 10th April 1918 ..	5,13,765
(ii) Receipts as estimated by the Deputy Commissioners ..	2,97,859
(iii) Contribution from State Funds on account of the cost of establishment and Tools and Plant	44,814
(iv) Contribution on account of the cost of maintenance of river channels in the Mysore and Hassan Districts, and the channels drawn from the Vanivilasa Sagara in the Chitaldrug District	34,354
Total ..	8,90,792

	Rs.
Bangalore	27,454
Kolar	39,420
Tumkur	39,967
Mysore	50,319
Hassan	29,794
Shimoga	66,563
Kadur	29,392
Chitaldrug	14.950
Total ..	2,97,859

2. The amounts that can be spent in each district in accordance with paragraph 1 (2) of Government Order No. R. 2157-68—L. R. 630-13-4, dated 12th September 1914, are as shown below:—

	Rs.	a.	p.
Bangalore	20,590	8	0
Kolar	29,565	0	0
Tumkur	29,975	4	0
Mysore	37,739	4	0
Hassan	22,345	8	0
Shimoga	49,922	4	0
Kadur	22.044	0	0
Chitaldrug	11,212	8	0
Total ..	2,23,394	4	0

3. The following statement shows the expenditure proposed to be incurred in each district:—

District	Major tanks		Minor tanks		Cost of maintenance of river channels	Total	Cost of establishment and tools and plant	Grand Total
	Fresh works	Incomplete works	Fresh works	Incomplete works				
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Bangalore	11,000	4,000	.....	3,000	.....	18,000	3,240	21,240
Kolar	20,000	5,000	*3,000	*2,000	.....	30,000	4,500	34,500
Tumkur	10,700	22,500	1,100	.....	.....	34,300	6,174	40,474
Mysore	10,000	10,775	6,000	2,900	52,541† 6,055	87,371	11,944	99,315
Hassan	5,789	5,388	2,500	.....	16,823	30,500	4,279	34,779
Shimoga	22,000	8,000	5,000	2,242	.....	37,242	6,700	43,942
Kadur	10,680	2,500	5,000	1,820	.....	20,000	3,600	23,600
Chitaldrug... ...	2,200	2,200	1,330	680	16,520	25,930	3,477	29,407
Total ...	92,369	60,363	26,930	11,742	91,939	2,83,343	43,914	3,27,257

The Deputy Commissioner has not furnished information under these columns. The sums 3,000 and 2,000 are taken as indicating the approximate expenditure in that district.

† This is the expenditure proposed for the maintenance of the newly opened channels in connection with the Krishnarajasagara Works.

No. R. 9981-91—L. R. 55-18-9, DATED 8TH FEBRUARY 1919.

The expenditure in excess of the 75 per cent of the receipts in Kolar, Tumkur and Hassan Districts is slight being Rs. 435, 4,325 and 1,425-8-0, respectively, and it is high in the Mysore and Chitaldrug Districts being Rs. 28,614-12-0 and 8,009-8-0 respectively. The Deputy Commissioner, Mysore, explains that deficit balance for his district is inevitable as the cess derived from the lands served by the channels is Rs. 32,774, while the expenditure to be incurred for the maintenance of channels is Rs. 58,596. The Deputy Commissioner, Chitaldrug District, proposes to exclude the cost of maintaining channels from the Cess Funds. Proposals have been called for by Government from the Chief Engineer for the enhancement of the State grant in respect of channels in the Mysore, Hassan and Chitaldrug Districts.

APPENDIX No. II.

Letter No. 10243, dated Bangalore, 26th August 1918, from the Chief Engineer for Irrigation, to the Secretary to Government, Revenue Department.

I have the honour to forward herewith, for favour of sanction, the accompanying budget estimates under Irrigation Cess Fund for the year 1918-19, received from the Revenue Commissioner in Mysore, and to State that I have no remarks to offer.

2. As regards the proposal of suitably enhancing the State grant towards the maintenance of the river channels in the Mysore, Hassan and Chitaldrug Districts, reference is invited to this office unofficial No. 35, dated 22nd March 1918, recommending 60 per cent (State Grant) instead of 40 per cent as at present. No further increase of State grant is considered desirable.

APPENDIX No. III.

Note No. 35, Public Works Department, dated 22nd March 1918, of the Public Works Secretary to Government.

"The Government grant for the maintenance of the river channels in the Mysore, Hassan and Chitaldrug Districts was fixed at 40 per cent as that alone is fairly chargeable to State Funds, 60 per cent being spent on clearance of silt and establishment. If necessary, the pay of the sowdies also will be borne by the State Funds and the clearance of silt alone charged to Irrigation Cess Fund in which case the proportion will be 60 per cent State grant and 40 per cent Irrigation Cess. No further increase of State grant is considered desirable."

APPENDIX No. IV.

Letter No. T. A. D. A. 484, dated Bangalore, the 8th October 1918, from the Comptroller to the Government of His Highness the Maharaja of Mysore, the Secretary to Government of Mysore, Revenue Department.

As desired in your letter No. R. 464—L. R. 55-18-4 of 23rd September 1918, I have the honour to forward herewith a preliminary statement showing the opening a balance on the 1st July 1918, available at the credit of (1) the General Irrigation Cess Fund and (2) the District War Irrigation Cess Fund. Another statement showing the actual of balance at credit of these two funds will be submitted soon after the accounts for June 1918 (Final) are closed.

Statement showing the balance available to the credit of the District and General Irrigation Cess Funds on 1st July 1918.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. 5369-77—I. & C. 169-18-3, dated 14th December 1918, directing the grant of certain concessions for the encouragement of the cultivation of Sisal Hemp in the State.

2. Letter No. C. 2360, dated 17th—21st January 1919, from the Revenue Commissioner in Mysore, suggesting that power to grant lands under the above order be exercised by Revenue Officers in accordance with the following rules:—

(1) In the case of unassessed kharab lands not reserved for any special purpose and in respect of which there is no objection on the part of the villagers, the Assistant Commissioner in charge of the Taluk may grant the lands free up to a limit of 50 acres recovering only the cost of trees or other malki on the lands.

(2) The Deputy Commissioner may similarly grant such lands up to 100 acres. In the case of assessed lands or lands set apart for special purposes, the Deputy Commissioner may at his discretion grant the lands up to 50 acres, if he is satisfied that there is no reasonable objection to the grant.

(3) All other cases may be sent up to the Revenue Commissioner for sanction.

Order No. R. 10367-75—L. R. 334-18-2, dated 14th February 1919.

Government are pleased to approve of the rules suggested in the Revenue Commissioner's letter read above. The rules will be published in the Gazette.

Minimum Educational Qualifications for candidates for Shekdari Appointments.

No. R. 10428-78—L. R 287-18-6, DATED 15TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. R. 4010-61—L. R. 227-16-5, dated 12th September 1918, issuing revised rules regarding training to Shekdari candidates and directing the opening of a Shekdari School at Bangalore under the control of the Revenue Department.

2. Letter No. C. 1664—Gl., dated 16th—18th January 1919, from the Revenue Commissioner in Mysore, recommending with reference to Government Order No. R. 10450-97—L. R. 607-14-1, dated the 15th May 1915, that in view of the fact that the pay of the Shekdars has recently been raised, the minimum Educational qualification for admission into the Shekdari School may be Matriculation or School Final Certificate in the case of all classes, 25 per cent of the seats being, however, reserved exclusively for members of backward communities and that the above qualifications may not be made applicable to men already in service in whose cases the rule may be relaxed at the discretion of the Revenue Commissioner so as to allow admission in to the school of persons who have passed the Lower Secondary Examination and who have put in a service of five years and who in the opinion of the Deputy Commissioners have sufficient experience and practical knowledge of English.

Order No. R. 10428-78—L. R. 287-18-6, dated 15th February 1919.

The rules as they stand are sufficient for all purposes. The lower Educational qualification *viz.*, the Lower Secondary, is fixed for admission of members of backward communities and it is not necessary to deny them this privilege and reserve 25 per cent of the seats in the Shekdari Training School for them.

In the case of men already in service, the Revenue Commissioner's recommendation is accepted.

Forest Settlement.

No. R. 10984-7—Ft. 79-18-6, dated 25th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Notification No. R. 1123—Ft. 24-17-2, dated 1st August 1917, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Doddachelur Forest Block in the Challakere Taluk.

2. Letter No. C. 1200—Gl., dated 8—23rd October 1918, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter* No. 138, dated 30th August 1918, reporting on the conclusion of the settlement of the block.

3. Letter No. 6181, dated 10th December 1918, from the Conservator of Forests agreeing to the issue of the final notification in the matter.

(B. and C. Registers printed as Accompaniments.)

Order No. R. 10984-7—Ft. 79-18-6, dated 25th February 1919.

The settlement effected by the Forest Settlement Officer is approved. The notification under Section 17 of the Forest Regulation constituting the block a State Forest with effect from 1st April 1919 will be published in the Gazette.

2. The Deputy Commissioner, Chitaldrug District, is requested to duly promulgate the boundaries of the block in the villages concerned.

3. The assessment of the below noted assessed occupied and waste lands included in the block, should be written off the accounts.

Waste Lands.

No. R. 10984-7—Ft. 79-18-6, dated 25th February 1919.

Notification No. R. 10988—Ft. 79-18-7, dated 25th February 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st April 1919 the area, the boundaries of which are set forth in the Schedule annexed to this Notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

Schedule.

District	Taluk	Approximate area	Name of the block	Boundaries
Chitaldrug	Challakere	Acres Guntas 1,138 21 or 1·77 square miles.	Doddachelur	*North.*—Starting from a point on the common boundary between Beeranahalli and Doddachelur villages about 5 chains south-west from the western-most corner of Survey No. 33 of the latter village, the boundary line runs south-east for about 27 chains through Survey Nos. 34 and 35 to a point about 8 chains south from the southernmost corner of Survey No. 33; then north-east for about 20 chains through Survey Nos. 35 and 29 to a point about 7 chains south from the westernmost corner of Survey No. 30; then south-east for about 26 chains through Survey Nos. 29, 28 and 26 to a point about 8 chains south-east from the southernmost corner of Survey No. 30; then north-east for about 8 chains through Survey No. 26 to a point about 5 chains south-east from the southern-most corner of Survey No. 30; then again in the same direction for about 15 chains to a point about 5 chains south-east from the easternmost corner of Survey No. 30; then again north-east for about 23 chains through Survey Nos. 26 and 25 to a point about 8 chains south from the north-east corner of Survey No. 24; then south-east for about 118 chains through Survey Nos. 25, 56, 55, 54 and 51 to a point on the common boundary between Chitaldrug and Anantapur Districts about 6 chains south from the southernmost corner of Survey No. 52. *East.*—Thence the line passes along the British Frontier to the tri-junction bandhs of Hosakere, Agrahara and Doddachelur villages. *South.*—Then the line goes along the common boundary between Hosakere and Doddachelur villages to the tri-junction bandhs of the said villages and Bethur; then along the British Frontier line to the tri-junction bandhs of Bethur, Doddachelur and Beeranahalli villages. *West.*—Then the line continues along the common boundary between Beeranahalli and Doddachelur villages to meet the starting point.

Remarks.

The following rights of way are admitted within the block for use by men and cattle only in case of foot-paths which are 6 feet in width and by men, cattle and carts in case of cart-tracks which are 12 feet in width, throughout the year.

I. *Cart-track from Doddachelur to Bethur.*—It enters the forest in the northern boundary of the block at a point about 7 chains south from the westernmost corner of Survey No. 33 and runs south-west and south-east for about 18 chains through Survey No. 34 and quits the forest at a point about 4 chains south-east from the westernmost corner of Survey No. 34.

II. *Cart-track leading from Bethur to Agrahar:*—It enters the forest at the south-west corner of Survey No. 49 and runs south-east for about 25 chains through Survey No. 50 and quits the forest at a point about 2 chains north-east from the tri-junction bandhs of Hosakere, Agrahar and Doddachelur villages.

III. *Foot-path from Bethur to Agrahar:*—It enters the forest in the southern boundary of the block at a point about 9 chains east from the south-west corner of Survey No. 41 and runs north-east for about 18 chains through the said survey number and quits the forest at a point about 3 chains south-west from the north-east corner of Survey No. 41. It again enters the forest at a point about 7 chains south-east from the north-east corner of Survey No. 41 and passes north-east for about 56 chains through Survey Nos. 42, 47 and 51 and quits the forest at the north-east corner of the block.

IV. *Foot-path leading from Beeranhalli to Bethur:*—It enters the forest in the western boundary of the block at a point about 10 chains south-west from the northernmost corner of Survey No. 36 and runs south-east for about 13 chains through Survey No. 36 and quits the forest at a point about 2 chains south-west from its south-east corner. It again enters the forest at a point about 3 chains south-east from the said corner and runs south-east for about 9 chains through Survey No. 37 and quits the forest at a point about 6 chains south-east from its south-west corner.

No. R. 10984-7—Ft. 79-18-6, dated 25th February 1919.

B—Register of claims to lands, rights to forest produce or easements in the proposed Doddachelur State Forest.

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of Final Appeal and Settlement
1	2	3	4	5	6	7	8
1	Palayya, patel of Doddachelur.	21-2-18	Says.— Survey Nos. 20, 21, 29, 31, 32, 33, 34, 28, 55 and 47 have been taken up for cultivation and should be excluded. (2) The following rights of way are needed. (a) Cart-track from Doddachelur to Bethur. (b) Foot-path from Beeranhalli to this village. (c) Foot-path from Bethur to Agrahar *via* Survey Nos. 41, 42, 47 and 51.	.....	As there is more than enough lands left for the requirements of the villagers as is seen from the village statistics all the survey numbers now proposed may be taken up for the forest except Survey Nos. 7, 8, 9, 10, 20, 21, 22 and 36. But Survey Nos. 31, 32, 33 34, 29, 28, 47 and 55 having been recently given out for cultivation, there is no reason to let them go.	Survey Nos. 9, 20, 21, 22, 32, 33 and 31 are excluded having been given out for cultivation. Though Survey Nos. 7, 8 and 10 are not granted for cultivation still they become isolated from the block by the exclusion of the lands referred to above and are therefore also left out. Though Sur. Nos. 28 and 34 have been granted for cultivation, the date of grant (9th September 1917) is three days after the date of proclamation under Section 5 of the Forest Regulation (*i.e.*, 6th September 1917). The grant for cultivation is invalid under Section 6 of the Forest Regulation and cannot be recognized. Survey No. 29 is taken for the Forest and Survey No. 109 is granted instead as consented to by the Khatedar Kada *bin* Ganga. Survey Nos. 47 and 55 have since been granted to Channappa *bin* Rudriah and Sanjeevappa on 16th October 1917 and 4th August 1917 respectively. The sale of Survey No 47 is invalid as per Section 6 of the Forest Regulation as it is one month after the date of the Proclamation under Section 5 of the said Regulation and cannot therefore be recognized. Sanjeevappa is willing to surrender his rights and take Survey No. 110 in lieu thereof. So Survey No. 55 is taken for the forest and Survey No. 110, an assessed waste is recommended to be granted to him. 2. The following rights of way are admitted. A cart-track 12 feet wide from Doddachelur to Bethur passing through Survey No. 34 and another from Bethur to Agrahar passing through Survey No. 50 for use by men, cattle and carts throughout the year. A foot-path 6 feet wide from Bethur to Agrahar passing through Survey Nos. 41, 42, 47 and 51 and another foot-path from Beeranhalli to Bethur passing through Survey No. 36 for use by men and cattle throughout the year.	.....
2	Kada *bin* Ganga, Khatedar of Survey No. 29.	22-2-18	Says that he is willing to take Survey No 109 which is near his other land Survey No. 111 in lieu of Survey No. 29.	.....	.....	*Vide* Decision to claim number I, para 4.	.....
3	Bheema Khatedar of Survey No. 28.	,,	Says that he took Survey No. 28 on 9th September 1917 and has sown only ½ of it and is willing to exchange it for Survey No. 66.	.....	.....	*Vide* Decision to claim number I, para 3.	.....
4	Thippiga *bin* Ramanna, Khatedar of Survey No. 34.	,,	States that he purchased Survey No. 34 on 9th September 1917 and has sown horse gram in it for only ¼ part and is willing to take Survey No. 36 and give up Survey No. 34.	.....	.....	Do do	.....
5	Sanjeevappa, Khatedar of Survey No. 55.	23-2-18	States that he took Survey No. 55 on 6th August 1917 and has sown horse-gram in it for ¼ portion and is willing to exchange the same for Survey No. 110.	.....	.....	*Vide* Decision to claim number I, para 6.	.....
6	Chennappa, Khatedar of Survey No. 47.	,,	Stating that he took Survey No. 47 about five or six months ago and is ready to take another land in lieu thereof.	.....	.....	*Vide* Decision to claim number I, para 5.	.....

B. BASAVARADHYA,
Forest Settlement Officer.

The Superintendent of Revenue Survey and Settlement in Mysore.
The Deputy Commissioner, Bangalore District, with map and registers.

Exd.—C. R.

NOTIFICATION.

No. R. 11648—Ft. 74-12-7, dated 26th February 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from the 1st April 1919, the area, the boundaries of which are set forth in the Schedule annexed to this notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof.

Schedule.

District:—Bangalore
Taluk:—
Hobli:—Maralvadi
Village:—

Approximate area:—336 acres or ·52 square miles.
Name of Block:—Durgadakallu.

Boundaries:—

Situation.

A tract of jungle towards the east of the Kankanhalli Taluk, situated between the Basavanhole on the north and Bilikal State Forest on the south.

Boundaries.

North.—Starting from the south-west corner of survey No. 159 of Devarhalli, the line runs east along the south side of the same survey number to its south-east corner, then, north-east along the southern boundary of survey No. 168 to its easternmost corner; then south-east along the south side of survey No. 171 for a distance of 13 chains; then south-west through survey No. 104 of Devarhalli for about 19 chains to a point about 5 chains west from the north-west corner of survey No. 169; thence south-east for about 21 chains through survey No. 104 of the said village to a point about 5 chains west from the south-west corner of survey No. 169; then south-east for about 8 chains through the said

No. R. 11044-7—Ft. 74-18-6, dated 26th February 1919.

survey No. 104 to a point about 5 chains south-east from the south-west corner of survey No. 169; thence east through survey No. 104 of Devarhalli for about 4 chains to a point 5 chains south from the south-east corner of survey No. 169; then north-east for about 27 chains through survey No. 104 of Devarhalli to a point about 5 chains east from eastern corner of survey No. 109; thence north through survey No. 104 for about 5 chains to a point about 5 chains south-east from the south-east corner of survey No. 110; then north-east for about 4 chains through survey No. 104 to a point about 5 chains south-east from the north-east corner of survey No. 110; then east for about 11 chains through survey No. 104 to a point about 5 chains south-east from the south-east corner of survey No. 105; then north-east through survey No. 104 for about 25 chains to a point about 5 chains south from the south-east corner of survey No. 165; thence north-east through survey No. 104 for about 19 chains to a point about 5 chains south-east from the south-east corner of survey No. 167; then north for about 22 chains through survey No. 104 to a point about 5 chains east from the easternmost corner of survey No. 167; then north-east along the left bank of the Basavanhole to the north-east corner of the Devarhalli village.

East and South.—Thence south and south-west along the demarcation line of the Bilikal State Forest to a point about 10 chains north from the north-east corner of survey No. 85 of Maniyambal.

West.—Thence north and north-west along the eastern boundary of the Maniyambal village to the starting point.

Remarks

The undermentioned public rights of way are admitted throughout the year:—

(i) Cart-track 15 feet wide and 6 chains long leading from Maniyambal to Devarhalli for men, cattle and carts. It enters the forest in its western boundary at a point about 10 chains south-east from the south-west corner of survey No. 159 of Devarhalli, runs north through survey No. 104 of the same village and quits the forest in its northern boundary at a point about 9 chains east from the south-west corner of survey No. 159.

(ii) Foot-path 6 feet wide for men and cattle, leading from survey No. 110 of Devarhalli to the Rangaswami temple situated in the Bilikal State Forest. It enters the Forest in its northern boundary at a point about 5 chains south from the south-east corner of survey No. 169, runs south-east through survey No. 104 of Devarhalli for about 5 chains and quits the forest in its southern boundary.

No. R. 11044-7—Ft. 74-18-6, dated 26th February 1919.

B.—Register of claims to lands, rights to forest produce or easements in the proposed Durgadakallu State Forest.

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal
1	2	3	4	5	6	7	8
						(*Claims 1 to 6.*)	
1	Narasinga Rao, Patel of Hosahalli on behalf of the raiyats.	27-2-12	States that Survey Nos. 13, 14 and 15, which are in the holding of raiyats, have been included in the Reserve, and that the raiyats of Kulamadoddi and Malligemetur have been grazing their cattle in the kharab lands of Hosahalli, on payment of bulbanni of Rs. 15 per annum, and removing fuel for domestic purposes. He prays therefore that no lands of his village may be included in the Reserve, as the raiyats will be put to much inconvenience.		Nil.	Hosahalli is a becharak village containing about 92 acres of lands under cultivation and about 213 acres of kharab the pasturage of which is annually sold by the Revenue authorities to the raiyats of the adjoining villages of Chikmaralvadi, Malligemetlu and Marahallidoddi (Dakle of Balgere) for Rs. 15, Survey Nos. 13, 14 and 15, which are under cultivation have been proposed by the Forest Department to be included in the Reserve, under a mistaken belief that they are assessed waste lands. They have therefore to be excluded altogether. Owing to congestion of the raiyat population in the neighbouring villages, it is very likely that Survey No. 5 (Kharab) will come under cultivation in the near future. The Amildar has reported that a dharkhast for 50 acres of land out of this Survey number was received a year ago and the matter has been under correspondence. Another dharkhast for the whole Survey number has been received. Besides the raiyats of the neighbouring villages of Chikmaralvadi, Malligemetlu and Marahallidoddi have set up claims to the right of grazing, right of removal of fuel and the right of taking materials for agricultural implements from the kharab lands of Hosahalli and have adduced evidence in support of them. After excluding about 50 acres only for agricultural expansion, it may be argued that the remaining 150 acres at least may be included within the Reserve. As the above claims of the raiyats have to be admitted no useful purpose will be gained by the Forest Department, by having this extent under their management, burdened with vested rights and interests of three populous villages. Besides, the plot of ground being an open scrub jungle, there will be no advantage to the Forest Department. I therefore direct that in the interests of the neighbouring villages the entire village be excluded from the Forest boundary. C. VENKATA RAO, Forest Settlement Officer. 28-2-12.	
2	Raghunatha Rao, Patel of Chikmaralvadi on behalf of the villagers.	27-2-12	Represents that the cattle of his village are taken to the lands of Deverahalli and Hosahalli for grazing, as the gomal assigned to his village is far away from Chikmaralvadi and begs that his village raiyats may be allowed to exercise as before in the Durgadahallu Block, the right of grazing, as well as the privilege of removing fuel and materials for agricultural implements.			(*Vide claim 1*)	
3	Venkatagowda, Patel of Malligemetlu on behalf of the raiyats.	27-2-12	States that the cattle of his village are being taken to		The people of Malligemetlu may graze their cattle on payment of	(*Vide claim 1.*)	

No. R. 11044-7—Ft. 74-18-6, dated 26th February 1919.

B—Register of claims to lands, rights to forest produce or easements in the proposed Durgadakallu State Forest—*contd.*

Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
2	3	4	5	6	7	8
		Hosahalli lands for grazing for the past five or six years and prays that his raiyats may be allowed to graze their cattle there, as usual and to remove materials for agricultural implements from the reserve.		grazing fees. They may remove agricultural implements from the kharab lands of about 36 acres assigned to that village.		
Setwaji Rao, a leading raiyat of Balgere on behalf of the raiyats.	27-2-12	Represents that the cattle of his village are taken for grazing to the Hosahalli lands and that the raiyats remove materials for agricultural implements from there. Prays that subject to the exercise of these rights the reserve may be declared a State Forest.	..	...	(*Vide claim 1.*)	
Mallayeera, Khatedar of survey Nos. 14 and 15 of Hosahalli.	27-2-12	Claims patta right over the lands survey Nos. 14 and 15 of Hosahalli.	.	. .	(*Vide claim 1.*)	
Santhoji Rao, Khatedar of survey No. 13 of Hosahalli.	,,	Claims patta right over survey No. 13 of Hosahalli.	.	Nil ...	(*Vide claim 1.*)	
Narasinga Rao, Patel of Devarahalli, on behalf of the villagers.	,,	Represents that all the Khatedars of his village live in the adjoining Chikmaralvadi village and that they take their cattle to the Devarahalli pasture lands for grazing and obtain materials for agricultural implements from the Durgadakallu jungle. He prays on behalf of the raiyats of Chikmaralvadi and Devarahalli to concede to them the right of grazing, the right of removing fuel and agricultural implements from the reserve	...	Nil ..	This prayer must be rejected. The majority of the landholders of this village live in the adjoining village of Chikmaralvadi. Though they aver that they enjoy the right of grazing and the right of removing materials for agricultural implements in the lands of Devarahalli village, a portion of these lands forming the hilly portion of the scrub jungle whose eastern aspect is likely to improve very much under sylvicultural and systematic treatment under the Forest Department, may without inconvenience to the raiyats concerned be included within the reserve. Besides the grazing lands of the becharak village of Hosahalli which have been ordered to be excluded from the reserve and to which their cattle go, are much better suited for grazing purposes than the hilly tract of Devarahalli which is contiguous with the already settled forest of Bilikal. As the demarcation line runs at the edge of some of the cultivated lands of the village it will be shifted farther away to a distance of 5 chains. C. V. RAO, Forest Settlement Officer. 28th February 1912.	
Narasinga Rao, Patel of Devarahalli, on behalf of the raiyats.	,,	Prays that the assessed waste lands survey Nos 156, 157, 160 and 171 may be excluded from the reserve for being given out for cultivation.	..	Nil ...	As the assessed waste lands will be taken up at once for cultivation purposes, they will be excluded from the reserve. C. V. RAO, Forest Settlement Officer. 28th February 1912.	
Narasinga Rao, Patel of Devarahalli, on behalf of the public.	,,	Claims right of way over the path ways shown in the village map and to the foot-path leading to the Rangaswami temple in the Bilikal State Forest.	...	The right of way to the foot-path to Rangaswami temple if admitted may be exercised only during the seasons other than summer as the absence of such restriction would endanger the safety of the forest during the fire season.	(1) The right of way to the cart-track leading from Maniyembal to Devarahalli will be admitted for men, cattle and carts all the year round. Width to be 15 feet. (2) Right of way to the foot-path leading from survey No. 110 of Devarahalli to the Rangaswami temple situated in the Bilikal State Forest will be admitted for men and cattle throughout the year. Width to be 6 feet. C. V. RAO, Forest Settlement Officer. 28th February 1912.	

No. R. 11044-7—Ft. 74-18-6, dated 26th February 1919.

B.—Register of claims to lands, rights to forest produce or easements in the proposed Durgadakallu State Forest—*contd*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court on final appeal
1	2	3	4	5	6	7	
10	Bhima Rao, a ryat of Chikmaralvadi	27 2-12	States that his village cattle have been grazing from time immemorial in the pasture lands of Devarahalli and that this hak may be recognized.		This hak he can easily enjoy on payment of grazing fees.	I reject this claim as the villagers concerned can exercise the right of grazing in the remaining 190 acres of kharab lands of the Devarahalli village and in the pasture lands of Hosahalli which have been ordered to be totally excluded from the reserve. C VENKATA RAO, Forest Settlement Officer 28th February 1912	
						Claims 11 and 12	
11	Baji Rao, Patel of Thoksandra on behalf of the raiyats,	Do..	States that if the demarcation line is confirmed, the raiyats will be put to much inconvenience and that it may be cancelled.		The people of Thoksandra graze their cattle in the Bilikal State Forest on payment of the usual grazing fees, As sufficient gomal lands have been assigned for the use of this village and its hamlets, the patel's complaint does not stand to reason	According to the proposal of the Forest Department, this village has to contribute towards the formation of the Reserve, 185 acres of gomal out of survey No 50 It is one of the most flourishing villages in the neighbourhood, having a population of 502 persons with a stock of no less than 633 head of horned cattle The extent of gomal land remaining for the grazing of the village cattle is about 141 acres which is very inadequate There is not a single acre of land lying as assessed waste as all the culturable survey numbers have already been brought under the plough. One Yesuff Sab a raiyat of the village is quite eager to take up for cultivation about 30 acres out of the extent proposed to be included in the Reserve He has obtained permission from the Deputy Commissioner to construct a tank in survey No 50 with a view to irrigating the neighbouring lands lower down which are in his possession As there is in the locality no trees worth while being preserved from a forest point of view no useful object will be gained by retaining the said survey number within the proposed Reserve. In view of future agricultural expansion and for providing pasturage for the present, I decide that the lands proposed out of the Thoksandra village for the Reserve in question, be excluded altogether C V. RAO, Forest Settlement Officer. 28th February 1912.	
12	Mahomed Yusuff Sab, Khatedar of survey Nos. 111 and 105 of Thoksandra.	Do .	States that he has obtained permission to construct a tank in survey No 50 to feed the tank lower down situated in survey No 112 for irrigating the lands under the proposed tank to the extent of 30 acres out of survey No. 50 which has been proposed to be included in the Reserve. He prays that an extent of 30 acres of land may be excluded from the Reserve for being given out for cultivation		There does not appear to be any real need for more lands for cultivation, as in that case it would have already been acquired and brought under cultivation So an area of 6 acres may be excluded for constructing the tank		
13	Baji Rao, Khatedar of Konaldoddi.	Do .	Represents that survey No. 87 of maniyembal which is assigned as gomal to his doddi may be excluded from the Reserve, as his cattle entirely depend on it for pasturage.	True village shanbhog swears to the assignment of survey No 87, as gomal for the cattle of Konaldoddi.	Nil	The village of Maniyembal is a straggling block of land with a hamlet at either end and the ash village almost in the centre To suit the exclusive convenience of the asli and the dakle villages, separate gomal lands appear to have been assigned for them during the survey settlement It is in evidence that survey No 122 situated at the extreme north-west corner of the village lands, is used as common pasture ground (gomal) by the raiyats of Dakle village of Jammasandra, that survey No. 42 is assigned for the use of the cattle of the ash village and that survey No. 87 which is now proposed for inclusion within the Reserve is exclusively used as the gomal lands of the Dakle village of Konaldoddi situated at the eastern end. Baji Rao Sindee, the patel of the village has spent a large sum of money in bringing the scanket of Konaldoddi under cultivation. He has established here about 40 families and owns a large stock of horned cattle numbering about 300 in addition to herds of goats.	

No. R. 11044-7—Ft. 74-18-6, dated 26th February 1919.

B.—Register of claims of lands, rights to forest produce or easements in the proposed Durgadakalu State Forest—*concld.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
1	2	3	4	5	6	7	8
	Baji Rao, Khatedar of Konaldoddi—*cond*					These entirely depend for pasturage upon the land proposed for conclusion in the Reserve. As this strip of land is more fitted for fuel preserve owing to absence of timber yielding trees, than for a State Forest, I would subordinate the interests of the Forest Department which is not likely to be benefited by survey No. 87. The owner of the village deserves every encouragement. I accordingly direct that it be excluded altogether from the Reserve. C. VENKATA RAO, Forest Settlement Officer. 28th February 1912.	

C.—Statement of lands taken up for the Durgadakallu proposed State Forest.

Bangalore,
29th July 1912

C. VENKATA RAO,
Forest Settlement Officer in Mysore.

No. R. 11006-9—Ft. 74-18-4, dated 26th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Notification No. R. 6577—Ft. 122-09-2, dated 6th April 1910, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Chunchi East F est Block in the Kankanhalli Taluk.

2. Letter No. 5005, dated 23rd September 1918, 2nd October 1918, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter No. 118, dated 5th October 1912, reporting on the conclusion of the settlement of the block.

3. Letter No. 7589, dated 11th January 1919, from the Conservator of Forests agreeing to the issue of the final notification in the matter.

(*Printed with the B and C Registers as accompaniments.)

Order No. R. 11006-9—Ft. 74-18-4, dated 26th February 1919.

The settlement effected by the Forest Settlement Officer is approved. The Notification under Section 17 of the Forest Regulation constituting the block a State Forest with effect from 1st April 1919, will be published in the Gazette.

2. The Deputy Commissioner, Bangalore District, is requested to duly promulgate the boundaries of the block in the villages concerned.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Superintendent of Revenue Survey and Settlement in Mysore.
The Deputy Commissioner, Bangalore District, with map and registers.

Exd.—C. R.

NOTIFICATION.

No. R. 11010—Ft. 74-18-5, dated Bangalore, the 26th February 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st April 1919, the area, the boundaries of which are set forth in the Schedule annexed to this Notification, shall be deemed to be a "State Forest," subject to the exercise of rights specified at foot thereof :—

Schedule.

District—Bangalore.
Taluk—Kankanhalli.
Hobli—Ooyemballi.
Villages—Mulhalli, Gollahalli, Arekoppa.
Approximate area 1 65 squaire miles.
Name of Block—Chunchi East Block.

Situation.

A tract of jungle situated to the east of the Arkavati river and to the north of the Muggur State Forest.

Boundaries.

North.—Starting from a point on the left bank of the Arkavati river, about 11 chains south-west from the south-west corner of Survey No. 184 of Mulhalli, that is, the south-west corner of Survey No. 43, the line runs south-east in a straight line along the north side of Survey No. 44 of the same village for about 25 chains to a point about 5 chains north-west from the south-west corner of Survey No. 183, then south-east through Survey No. 44 of the said village for about 13 chains to a point about 8 chains south-west from the south-east corner of Survey No. 183.

No. R. 11006-9—Ft. 74-18-4, dated 26th February 1919.

East.—Thence due south for about 23 chains, and south-east for about 52 chains through Survey No. 44 of Mulhalli to the south-east corner of Survey No. 43, then south-east for about 4 chains through Survey No. 90 of Gollahalli till it meets the right bank of the halla, then in the same direction along the said halla through the said Survey No. 90 for about 26 chains to a point about 5 chains south from the south-east corner of Survey No. 154 of Gollahalli, then south in a straight line through Survey No. 90 of the said village for about 41 chains to a point on the northern boundary of Survey No. 89 of the same village, about 7 chains south-west from the south-west corner of Survey No. 166, then south-east in a straight line through Survey No. 89 for about 77 chains to a point on the northern boundary of Arekoppa where the Masalemaduvu halla crosses it, then south-west in a straight line for about 46 chains along the northern boundary of Arekoppa, then south-east in a straight line for about 103 chains through Survey Nos. 27 and 13 of Arekoppa till it meets the common bandhs at the south-west corner of the Arekoppa village and the Muggur State Forest.

South.—Thence north-west along the demarcation line of the Muggur State Forest till it meets the Arkavati river at the south-west corner of Survey No. 27 of Arekoppa.

West.—Thence along the left bank of the Arkavati river to the starting point.

Remarks.

A.—The undermentioned rights of way are admitted within the Block throughout the year.

(1) *Foot-path 6 feet wide and about 120 chains long for men and cattle leading from Mulhalli to lime stone quarry in Survey No. 89 of Gollahalli.*—It enters the forest in its northern boundary at a point about 8 chains south-east from the south-west corner of Survey No. 183 of Mulhalli, goes south, south-east and south through Survey No. 44 of the said village and Survey No. 89 of Gollahalli, and enters the enclosure (lime-stone quarry) in the last named survey number.

(2) *Foot-path from Gollahalli to Masalemaduvu 6 feet wide and 60 chains long for men and cattle.*—It enters the forest in its eastern boundary at a point about 16 chains south-west from the south-east corner of Survey No. 168 of Gollahalli, runs south-west through Survey No. 89 of Gollahalli and quits the forest in its western boundary where Masalemaduvu meets the Arkavati river.

(3) *Foot-path 6 feet wide and about 5 chains long for men and cattle leading from Gollahalli to Arekoppa.*—It enters to forest in its eastern boundary at a point about 10 chains south-west from the south-west corner of Survey No. 177 of the Gollahalli village, runs south through Survey No. 89 of the same village and quits the forest in its eastern boundary at a point about 7 chains north-east from the north-east corner of Survey No. 101 of the said village.

(4) *Cart-track from Arekoppa to Muggur State Forest for men, cattle and carts, 15 feet wide and about 17 chains long.*—It enters the forest in its eastern boundary at a point about 19 chains south-west from the south-west corner of Survey No. 114 of Arekoppa, runs west through Survey No. 13 of the said village and quits the forest in its western boundary at a point about 3 chains south-east from the north-west corner of Survey No. 13.

(5) *Foot-path 6 feet wide aud about 6 chains long leading from Arekoppa to Koggedoddi, for men and cattle.*—It enters the forest in its eastern boundary about 16 chains north-west from the south-west corner of the Arekoppa village, runs south through Survey No. 13 of the village and quits the forest in its southern boundary at a point about 14 chains north-west from the south-west corner of the Arekoppa village.

B.—The following concession is allowed within the Block:—

The strip of land in Survey No. 89 of Gollahalli, adjoining the Arkavati river being a lime-stone quarry is treated as an enclosure within the Block. Access to it will be by means of foot-path No. 1 *supra*.

By Order,

B. RAMASWAMAIYA,

Secy. to Govt., Rev. Dept.

No. R. 1006-9—Ft. 74-18-4, dated 26th February 1919.

B—Register of claims to lands, rights to Forest Produce or Easements in the proposed Chunchi East State Forest.

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and
1	2	3	4	5	6	7	8
1	Khandediah, Patel of Mulhalli, on behalf of the villagers.	11-1-12	Represents that the raiyats of his village are in need of agricultural lands, as there is no assessed waste land available in his village, and prays that lands belonging to the becharak village of Halehunse Koppa (dakle of Mulhalli) may be excluded from the reserve.	...	As there is an area of about 313 acres and 16 guntas of gomal land and 283 acres and 26 guntas of kharab still remaining for communal purposes of the village, their request for more lands for cultivation may be satisfied by excluding some portion from the above gomal and kharab lands.	The preliminary demarcation line runs at the edge of many cultivated lands. This has necessarily to be removed to a distance. The line will be so shifted as to exclude a portion of the atchkat of the becharak dakle village of Holehunsekoppa up to the edge of which cultivation has already extended. I accordingly direct that the deviation of the forest boundary line be made at a point about 5 chains west from the south-west corner of Survey No. 183, so as to run in a south-easterly direction for a distance of about 13 chains and then due south for about 23 chains, then south-west for about 52 chains in a straight line, so as to meet the south-east corner of Survey No. 43. By this arrangement about 241 acres including the lands of Halehunsakoppa, well suited for cultivation, will be excluded from the reserve. C. V. RAO, Forest Settlement Officer. 13th January 1912.	
2	Earaboyi, Yajaman of Bester community, resident of Mulhalli.	Do	Claims right of way over the foot-path leading to lime-stone quarry in Survey No. 89 of Gollahalli.	...	Nil.	Right of way to the foot-path leading the lime-stone quarry in Survey No. 89 of Gollahalli will be admitted throughout the year for men and cattle, width to be 6 feet. C. V. RAO, Forest Settlement Officer. 13th January 1912.	
						Claims 3 and 4.	
3	Dyavegowda, Patel of Gollahalli, on behalf of the raiyats.	Do	Represents that, as there is no assessed waste land remaining for being taken up on darkhasts, some lands for cultivation and for goat browsing may be excluded from the extent proposed to be reserved.	...	Some portion may be excluded for cultivation out of their gomal and kharab lands measuring 349 acres and 8 guntas and 222 acres and 12 guntas respectively left to them for communal purposes. As goat browsing is incompatible with the maintenance and protection of forests, the raiyats can only be allowed to browse their goats in the kharab and gomal lands left to them.	As there is no assessed waste lands in the Gollahalli village available for being taken up for cultivation and as the demand for such lands is ever increasing, it is found necessary to exclude 246 acres, 24 guntas from the extent of lands proposed to be included in the reserve. I accordingly direct that the demarcation line be made to begin at the south-west corner of Survey No. 91 and run in a south-easterly direction for about 4 chains so as to meet the right bank of the halla, then along the said bank for about 26 chains to a point about 5 chains south from the south-east corner of Survey No 151, then due south for about 41 chains to a point on the northern boundary of Survey No. 89, 23 chains east from the north-west corner of the said survey number; then south-east in a straight line for about 77 chains to a point on the southern boundary of Gollahalli village, where the Mosale-Madavuhalla crosses, it. The Besters of the village of Mulhalli have set up a claim to the right to quarry lime-stone in Survey No. 89 and have adduced evidence in support of it These people depend for their livelihood on the said quarry, this being the only locality wherefrom lime-stone is excavated and made available for the use of the agriculturists in the neighbourhood. I therefore admit their claim and direct a strip of land in Survey No. 89 of Gollahalli on the left bank of the Arkavati river measuring 5 chains from north to south and 2 chains from east to west, be demarcated out free from reservation and treated as an enclosure. C. V. RAO, Forest Settlement Officer; 13th January 1912.	

No. R. 11006-9—Ft. 74-18-4, dated 26th February 1919.

B—Register of claims to lands, rights to Forest Produce or Easements in the proposed Chunchi East State Forest—*concld.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and financial disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
1	2	3	4	5	6	7	8
4	**Baraboyi, Yajaman of Besta community, residing in the village of Muiballi.**	11-1-12	States that it is proposed to include in the reserve the locality from which Besters collect lime and prays that the said locality may not be interfered with.	...	Nil.	.....	
5	**Dyavegowda, Patel of Gollahalli, on behalf of the public.**	Do	Requests that right of way to the foot-path leading to Arekoppa, and to the cart-track leading from Kotekoppa, and also to that leading to Arkavati river may be admitted.	...	Nil.	Public right of way to foot-path through Survey No. 89 of Gollahalli leading to Arekoppa *via* Masalemaduvu, *i.e.*, where the halla of that name joins the Arkavati river, will be admitted for men and cattle throughout the year, and to that leading to Arekoppa. Width to be 6 feet. The cart-track leading to Kotekoppa lies beyond the settled boundary of the forest. C. V. RAO, Forest Settlement Officer. 13th January 1912.	
6	**Mallikarjuniah, Patel of Arekoppa, on behalf of the raiyats.**	Do	States that as already about 70 acres in Survey No. 13 of Arekoppa has been granted on darkhast, and that there is a demand for about 100 acres more in Survey No. 27, begs that these lands may be excluded from the reserve.	...	As per Section 6 of the Mysore Forest Regulation, no fresh clearing for cultivation or for any other purpose shall be made during the interval between the publication of notification under Section 4 and that under Section 17, but such clearings have been allowed against the above sections. This may be kindly noticed.	The Forest boundary line runs around the cultivated lands of this village in a straggling way for a long distance. It includes lands recently granted for cultivation which should not have been done pending the forest settlement, and also lands for which the raiyats have put in darkhasts. It is necessary to shift the demarcation line in this village so as to obviate the inconvenience referred to. I accordingly direct that it be made to begin in the northern boundary of the village at a point where the Masalemaduvu halla crosses it and run westwards along the said boundary for about 46 chains, then south-east in a straight line through Survey Nos. 27 and 13 for about 103 chains so as to meet the common bandhs at the south-west corner of the village of Arekoppa and the Muggur State Forest. By this arrangement about 558 acres, 3 guntas will be excluded from the area proposed to be taken from the Arekoppa village. C. V. RAO, Forest Settlement Officer. 13th January 1912.	
7	**Mallikarjuniah, Patel of Arekoppa, on behalf of the public.**	Do	Requests that right of way to the cart-track shown in the village map and to the foot-path in Survey No. 13 leading to Koggedoddi may be admitted.	...	.....	Right of way to the cart-track leading to the Muggur State Forest will be admitted for men, cattle and carts all the year round, width to be 15 feet. C. V. RAO, Forest Settlement Officer. 13th January 1912 Right of way to the foot-path leading to Koggedoddi from Arekoppa, will be admitted for men and cattle throughout the year. Width to be 6 feet. C. V. RAO, Forest Settlement Officer. 13th January 1912.

C. VENKATA RAO,
Forest Settlement Officer.

Report.

No. 9843-83—Ml. 79-18-25, dated 6th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

(1) Letter No. 210-S. 24—C. 29 of 1918-19, dated 11th October 1918, from the Chairman, City Improvement Trust Board, Mysore, submitting the Administration Report of the Mysore City Improvement Trust Board for the year 1917-18.

(2) Letter No. W. A. D. I. 921, dated 20th December 1918, from the Comptroller, Mysore Government, submitting a statement of accounts of the Trust Board for the same year.

Order No. 9843-83—Ml. 79-18-25, dated 6th February 1919.

1. *Constitution.*—The constitution of the Board underwent a slight change during the latter part of the year by the appointment of a separate non-official Chairman in place of the hitherto *ex-officio* Chairman who was also the President of the Municipal Council. Rao Bahadur Rajasilpivisarada Mr. B. Subba Rao was appointed in March 1918 to the said office.

2. *Meetings.*—Fourteen meetings were held during the year, of which 12 were ordinary and 2 special, and the attendance thereat was 6·8 against 7·1 of the previous year for a total strength of 9 members on the Board. The fall in attendance was apparently due to one of the vacancies on the Board not having been filled up.

3. *Financial position.*—As in the previous year an extra grant of rupees one lakh in addition to the normal grant of Rs. 3½ lakhs was sanctioned in Government Order No. 5905-10—Ml. 95-17-5, dated 20th April 1918, for expenditure by the Board. Against this amount a sum of Rs. 2,80,455 was spent on drainage and construction works of the Board, Rs. 1,15,898 on the acquisition and demolition of properties and Rs. 17,455 on house-building loans. The remaining expenditure amounting to Rs. 28,933 was on account of establishment and contingent charges. The figures furnished by the Comptroller show an expenditure of Rs. 10,965 on works for other departments charged to the Trust Board Funds and no reference to this item has been made by the Chairman. The Chairman is requested to report the circumstances under which this expenditure has been incurred, and why it has been included in the Trust Board accounts.

The attention of the Comptroller is again invited to para 2 of the review on last year's Administration Report regarding the incorrectness of showing any opening or closing balances of the Trust Board, and he is requested to take necessary action in consultation with the Chairman to have the accounts regularised in accordance with the instructions issued.

4. *Works in progress.*—Fifty-three works are reported to have been under construction during the year, of which 32 were incomplete works of the previous year and 21 new works. The more important of the works in progress during the year and the outlay incurred thereon are shown in the following statement:—

Name of work	Total sanctioned estimate	Outlay during 1917-18	Total outlay
	Rs.	Rs.	Rs.
1. Laying pipe-sewers in Nos. II, III and to Parts 1 and 2 of IV, V, Ittigegud and Nazarbad Drainage areas	13,33,396	1,15,508	6,76,218
2. Draining the marsh below the Kukarahalli tank	11,930	6,570	13,238
3. Construction of model houses for the poor.	35,412	11,041	17,469
4. Planting avenues	22,800	5,162	13,264
5. Improvement of Devaraja Market ..	1,23,500	26,571	67,175
6. Laying out of the Chamundi Extension ..	1,12,348	37,055	68,268

No. 9843-83—Ml. 79-18-25, dated 6th February 1919.

Out of the total expenditure of Rs. 2,80,455 on works, a sum of Rs. 1,28,602 was spent on drainage and sewarage works. Of the other works, the only one of some magnitude was the laying out of the Chamundi Extension at an outlay of Rs. 37,055. Fourteen works at an outlay of Rs. 22,802 were carried out from the special allotment of Rs. 25,000 reserved out of the annual grant. The Chairman represents that progress under the drainage scheme is rather slow and unless larger allotments are made, appreciable progress cannot be made. The attention of the Chairman is invited to the programme approved in Government Order No. 7415-7—Ml. 95-17-11, dated 14th December 1918. The drainage works may from the subject of a special report.

5. *Progress of acquisition.*—Though the number of properties acquired during the year was only 58 against 116 of the previous year, the expenditure incurred under this head showed a considerable increase, being Rs. 1,15,898 against Rs. 73,927 in 1916-17. This is to be accounted for by the costly nature of the properties acquired in the Fort for which the additional grant sanctioned was intended. Out of 7,611 houses declared in all for acquisition, 5,669 properties have already been acquired, leaving 1,942 properties for future acquisition.

6. *Model houses.*—Nine model houses were constructed in the Chamundi Extension during the year and were available for sale along with the one remaining unsold at the end of the previous year. The report should have indicated the manner in which these houses are being utilised pending their sale. A sum of Rs. 7,678 is shown as being due from purchasers of the model houses. It is not stated whether the instalments are being regularly recovered. The amount outstanding is heavy and calls for prompt action.

7. *Building sites.*—Fifty new sites were formed during the year and out of the 1,121 sites in all available for sale, 111 sites were sold for Rs. 25,549. A sum of only Rs. 16,601 was credited on this account and the large balance of nearly Rs. 9,000 was again held in deposit. Attention of the Chairman is again invited to the remarks made in this connection in the last year's review.

8. *House-building loans.*—The activity under this head was not as satisfactory as in the previous year. Loans amounting to Rs. 16,860 were sanctioned to 57 persons against Rs. 39,999 for 141 persons in 1916-17. The policy of Government in regard to this important scheme underwent a change during the year and with a view to increase the scope of its usefulness it was classed in the Government Order No. 5905-10—Ml. 95-17-5, dated 20th April 1918, among the productive works to be financed out of loans raised either in open market or obtained from Government.

9. *General.*—Government in their Order No. 5905-10—Ml. 95-17-5, dated 20th April 1918, have increased the annual grant from Rs. 3½ lakhs to Rs. 4½ lakhs for the next five years with a view to enable the Trust Board to complete the more urgent and important works within a reasonable period, and have also laid down the policy to be pursued in future in regard to the other important schemes of a beneficial nature, such as the housing of the poor and of the displaced population, improvement works of a productive nature, and town extension schemes. Special attention has also been paid to the Fort improvements so as to enable the Trust Board to complete all the necessary works therein within the course of five or six years. The revised programme submitted by the Chairman for the next five years has also been approved by Government in their Order No. 7415-7—Ml. 95-17-11, dated 14th December 1918. With these facilities at its disposal, Government hope that the Trust Board will be in a position to carry out that the object of the Trust with efficiency and expedition.

The Government are pleased to record their appreciation of the satisfactory manner in which the Board have carried out their functions during the year.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Chairman, City Improvement Trust Board, Mysore.
The Chief Engineer of Mysore.
The Sanitary Commissioner in Mysore.
The Comptroller, Mysore Government.
The other Heads of Departments.

PRESS TABLE.

G. O. No. 11030-9—Ml. 156-18-1, dated 26th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Order No. 11030-9—Ml. 156-18-1, dated 26th February 1919.

The question of laying down definite rules regarding the procedure to be followed in the preparation and execution of Water-supply Projects to Municipal Towns has been under the consideration of Government for some time. No uniform procedure is at present adopted in the preliminary investigation of projects, preparation of detailed plans and estimates, and submission of proposals for financing the schemes both for capital outlay and maintenance charges. It is therefore necessary that the whole question should be reviewed and clear and complete instructions laid down for the guidance of officers of all departments concerned and of local bodies for dealing with such cases.

2. No less than 32 schemes are reported to have been either investigated or under investigation or correspondence for a long period. In only two cases, *viz.*, those of Shimoga and Koppa, have detailed estimates been sanctioned though administrative sanction has been given in the case of four others. The rough estimate for improvements to the Shimoga Town water-supply was sanctioned so long ago as 1914, but the detailed estimates which are nearly 1½ times more than the original estimates were sanctioned only in April 1916, and even these estimates were not final as a revised estimate for over a lakh of rupees has now been submitted for the consideration of Government. The liability of Government to pay a moiety of the cost has thus not been finally determined yet, and the work is pending execution during all this time. Both in this case as well as in that of Koppa the detailed estimates were sanctioned in the Public Works Department, without the Administrative Department being consulted on the financial details involved. This procedure which has been adopted in several other cases also has resulted in much correspondence being carried on with the Local Bodies concerned regarding the financing of the detailed schemes thus entailing a good deal of avoidable delay. Of the marginally noted projects for which Administrative sanction has been given and for which Government have promised a contribution of half or some other portion of the cost, none are ready for execution and every one of them is still in the stage of correspondence either with the Municipal Councils concerned or with the Public Works Department as regards financing or the preparation of the detailed estimates as the case may be. The cases of Dodballapur and Tiptur require to be noticed here as the arrival of a definite decision in regard to them has been unnecessarily delayed. In these two places the rate-payers subscribed largely for their Water-supply Schemes, and after years of correspondence the proposed scheme for Tiptur was only recently ordered to be abandoned as impracticable and the subscriptions ordered to be returned, while the case of Dodballapur is still under consideration, though first attention was due to these Municipal Towns.

1. Chikballapur.
2. Chitaldrug.
3. Saligram.

3. Various other schemes have also been similarly proposed and they show much desultory correspondence which in many cases originated without proper authority.

4. From a perusal of the correspondence in several of these cases, it is observed that this unsatisfactory state of affairs is due to the unsystematic manner in which the schemes are being taken up and dealt with. Some schemes have been initiated in the Sanitary Division without the sanction of Government in the Administrative Department, some at the request of the Municipal Bodies concerned and others again in the Public Works Department without even the consent of the Local Bodies. Such procedure leads in a majority of cases to much labour and energy being spent in drawing up alternative estimates which have no chance of being sanctioned owing to the financial incapacity of the Local Body concerned either to meet the

capital outlay or the maintenance charges. Even in cases where the Municipalities have accepted the financial responsibility for rough estimates, it has often happened that detailed estimates were so much in excess of the rough estimates that they placed the schemes beyond the competence of the Municipal Bodies concerned. The case of Shikarpur is one in point here. The rough estimate amounting to Rs. 57,000 was accepted by the Municipal Council with much difficulty, but when the detailed estimates amounting to Rs. 1,26,000 were sent to the Municipal Council, they were forced to abandon the scheme as too costly and to take up the less ambitious one of sinking new wells.

5. In view of the existing defects and difficulties noticed above, it is necessary to lay down definite instructions in the matter for future guidance and Government are accordingly pleased to direct that the following instructions be strictly followed in the preparation of Water-supply Schemes.

(1) No Water-supply Scheme for any Municipal Town should be initiated or investigated in the Public Works Department without the express Orders of Government in the Municipal and Local Fund Department.

(2) An application for contribution from State Funds will be entertained only where a Local Body has resolved to bear half the cost of the scheme and shows clearly its ability to bear the moiety of the cost and meet the annual recurring maintenance charges.

(3) The Presidents of the Local Bodies shall submit through the Deputy Commissioners of Districts concered, in the first instance, their application for administrative sanction to any scheme they have in view, furnishing complete information as regards the financial condition of the Local Body concerned, the extent of its ability and the manner in which it is proposed to meet its share of cost and the annual maintenance charges.

(4) For purposes of discussing the financing of any scheme, forecast estimates may be prepared in the Public Works Department with the previous sanction of Government provided the consent of the Local Body is supported by a promise to provide funds up to a specified extent.

(5) Administrative sanction will be given only where complete proposals for financing have been elaborated and submitted to Government.

(6) Annual recurring maintenance charges should be taken into account in considering proposals for financing a scheme.

(7) Detailed estimates should be prepared by the Public Works Department as soon as possible after the administrative sanction adverted to in clause (5) is accorded.

(8) Sanction to the detailed estimates will be conveyed in the Administrative Department of Government in accordance with Government Order No. 6983-7003—L. B. 36-17-10, dated 13th June 1918.

(9) Where large increases over the preliminary estimates are involved the Local Body should be invariably consulted with a view to ascertain whether it is able to meet the increased capital cost and maintenance charges.

(10) No work of any kind should be started without consulting the Local Body in the first instance.

(11) Immediately after sanction is accorded to the detailed estimates, arrangements should be made by the President of the Local Body concerned to transfer the amount payable by the Local Body to the Public Works Department.

(12) Full financial responsibility in respect of works taken up rests upon the Local Body concerned.

(13) The Public Works Department will be solely responsible for the proper and timely execution of works.

(14) The execution or preparation of a project should be regulated in accordance with a programme to be laid down by Government from year to year.

Two programmes—one for maturing and taking up the execution of sanctioned schemes and the other for the investigation of schemes with a view to some definite decision being arrived at are appended to this Order. The authorities responsible are requested to take such prompt action as is necessary and to see that the works are brought to completion within the time given or definite orders obtained on each scheme either sanctioning or abandoning it.

G. O. No. 11030-9—Ml. 156-18-1, dated 26th February 1919.

The programme should be revised from year to year and the necessary action should be taken by both the administrative Department and the Public Works Department at least three months before the close of each official year for the revision of the old programme or the laying down of a fresh one.

As regards contributions from State Funds to the marginally noted schemes which have been submitted in a complete form to Government, separate orders will issue in due course.

1. Improvements to Chintamani water-supply.
2. Malvalli water-supply.

Admission of Girls into the Maharani's College.

No. 7646-7—Edn. 48-18-4, dated 15th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 6417-8—E. F. 17 of 1896, dated 22nd June 1904, sanctioning certain rules for admission into the Maharani's College, Mysore.

2. Government Order No. 1475—Edn. 48-18-2, dated the 14th August 1918, calling for the opinion of the Maharani's College Committee regarding the admission of the daughters of all respectable Mysoreans to the lower classes of the Maharani's College.

3. Letter No. G. L. C. 45, dated the 20th November 1918, from the Inspector-General of Education submitting for orders of Government, a resolution of the Maharani's College Committee, suggesting that the rules may be modified as shown below:

"All classes of the Maharani's College shall be open to girls of respectable parentage, each admission being subject to the approval of the Committee."

Order No. 7646-7—Edn. 48-18-4, dated 15th February 1919.

Government are pleased to sanction the alteration of the existing rule as noted below:—

"The Maharani's College shall be open to girls of all Committees, provided that in the case of any admission which the Committee do not consider desirable for any satisfactory reason, they may refuse or disallow such admission. In the case of any such rejection the parent or guardian of the pupil concerned may appeal to the Inspector-General of Education who may confirm such rejection, or, if he disagrees, refer the matter to Government."

Scholarships to Depressed Class Students for the Study of English.

No. 7729-31—Edn. 75-18-12, dated 17th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 10580-91—Edn. 42-17-102, dated 27th April 1918, sanctioning the grant of special scholarships, varying in value from Rs. 6 to Rs. 15 per mensem to Depressed Class Students desirous of prosecuting their studies in any English School in Mysore, and calling for a set of rules for fixing the value of the scholarships, with a report as to the probable cost of the scholarships during the year 1918-19.

2. Letter No. A. C. 1143, dated the 15th November 1918, from the Inspector-General of Education, submitting for approval a set of rules called for and also stating that the estimated cost of the above scholarships during the year 1918-19 will be about Rs. 1,200.

Order No. 7729-31—Edn. 75-18-12, dated 17th February 1919.

The Inspector-General of Education recommends the following rates of scholarships:—

(i) For students of I and III English classes .. Rs. 6 per mensem.
(ii) For students of I, II and III forms .. ,, 8, 9 and 10 per mensem, respectively,
(iii) For students of IV, V, and VI forms .. ,, 12, 14 and 15 per mensem, respectively.
(iv) Entrance class .. .. .. ,, 20 per mensem.

He proposes that a student who once fails may be given a reduced scholarship, the reduction amounting to not less than one-third of the ordinary value of the scholarship according to the manner in which he has acquitted himself in the examination. Ordinarily no student who fails twice should be eligible for a scholarship and in no case a student who has failed thrice.

2. The Inspector-General of Education recommends also that in addition to the scholarships, the following facilities may be created at least for some years to come as a special encouragement:—

(i) Grant of a sum not exceeding Rs. 5 per month, out of the scholarship amount directly to the parent of each student.
(ii) Provision of a sum of Rs. 15 in the case of each boy selected to give him decent clothing.
(iii) Payment of railway charges to and from in the case of boys who have to go outside for their education.

3. Government approve tentatively of the rules submitted by the Inspector-General of Education for fixing the value of the scholarships and are also pleased to sanction the concessions recommended by him for a period of three years, the extra cost being met from the provision of Rs. 15,000 for Depressed Class Scholarships. As regards the railway fare, each student who has to go out may be allowed a single third class railway fare for each journey.

4. The Inspector-General of Education is requested to submit for the information of Government a report showing the distribution of the scholarships during the current year.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

To—The Inspector-General of Education in Mysore.

No. 7609-11—Edn. 5-17-4, dated 14th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Letter No. 11, dated 3rd July 1917, from the Secretary to the Mysore Economic Conference, submitting for orders of Government a resolution of the Education Committee, regarding the starting of a Museum as an annexe to each Government High School.

2. Correspondence ending with letter No. A. C. 2885, dated 23rd October 1918, from the Inspector-General of Education, stating that every School, Primary as well as Secondary, should be provided with facilities for forming a museum and submitting a scheme with an estimate of cost recurring and non-recurring.

Order No. 7609-11—Edn. 5-17-4, dated 14th February 1919.

The Scheme prepared by the Inspector-General of Education involves an expenditure of Rs. 39,46,764 as detailed below:—

		Recurring	Non-recurring	Total
		Rs.	Rs.	Rs.
High Schools	..	4,488	84,920	89,408
Middle Schools	..	15,240	6,83,260	6,98,500
Primary Schools	..	57,696	31,01,160	31,58,856
Total	..	77,424	38,69,340	39,46,764

2. With a view to develop the powers of accurate observation of students, Government consider that museums of the kind may with advantage be started to begin with in the High Schools. It is observed that out of the sum of Rs. 84,920 proposed for non-recurring expenditure, Rs. 77,000 is intended for buildings. As Government have sanctioned additions to High School buildings only very recently, they are of opinion that it should be possible to accommodate the museums in the High Schools without a separate building in each case. A separate peon for each school is also considered unnecessary.

3. The Inspector-General of Education is requested to take steps for starting museums in the High Schools with effect from the next official year. The total cost should not exceed Rs. 2,000 per annum recurring and Rs. 10,000 non-recurring.

4. The Inspector-General of Education is requested to submit detailed proposals for utilising the amount in connection with each High School.

Hostels for separate Communities.

No. 7168-9—EDN. 35-18-40, DATED 4TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. C. 5749, dated the 8th January 1919, from the Inspector-General of Education stating that the Lingayets at Chitaldrug have been asking for a separate hostel for the students of their community, and recommending the opening of a branch hostel for the Lingayets in connection with the District Normal School at Chitaldrug, the present grant of Rs. 95 per mensem given to the District Normal School being raised to Rs. 150 per mensem.

Order No. 7168-9—Edn. 35-18-40, dated 4th February 1919.

Government consider it inexpedient to open separate hostels for separate communities. They therefore direct that a Lingayet cook may be engaged for the District Normal Hostel at Chitaldrug and provision made for a separate dining hall. An additional grant of Rs. 30 per mensem will be sanctioned for this purpose. The Inspector-General of Education is requested to point out to the Comptroller the source from which the expenditure may be met.

2. The Inspector-General of Education is also requested to nominate a fair number of Lingayet members in the Hostel Committee.

P. G. D'SOUZA,
Secretary to Government,
Departments of Education and Agriculture.

To—The Inspector-General of Education in Mysore.
The Comptroller to the Government of Mysore.

No. 7603-4—Edn. 178-17-9, dated 14th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Orders Nos. G. 5198-9, dated the 14th April 1904, No. G. 2345-6—Edn., dated the 17th November 1903, and No. 6652-3—Edn., dated the 30th June 1904, sanctioning the opening of weaving schools at Chiknayakanhalli, Dodballapur and Molakalmuru respectively.

2. Letter No. 18318-660, dated the 1st February 1918, from the Inspector-General of Education, submitting proposals for the re-organization of the weaving schools in the State.

(Printed in extenso as an appendix to the order.)

3. Correspondence ending with letter No. 4—E. C., dated the 8th July 1918, from the Secretary, Education Committee, forwarding the opinion of the Committee on the subject.

4. Also correspondence ending with letter No. 3858-328, dated the 29th October 1918, from the Director of Industries and Commerce on the subject.

[Order No. 7603-4—Edn. 178-17-9, dated 14th February 1919.

There are at present five weaving schools in the State. Of these, the schools at Dodballapur, Chiknayakanhalli and Molakalmuru are under the management of Government, while those at Melkote and Hole-Narsipur received only grants-in-aid from Government. The Inspector-General of Education says that the above weaving schools are not working efficiently owing to want of adaptation to local conditions, want of provision for general education and shortage of funds for purchase of materials, etc., and proposes to improve the existing schools and to open eight new schools on a revised model to remedy the existing defects. The entire scheme involves a non-recurring expenditure of Rs. 2,35,600 and a recurring cost of Rs. 71,612 per annum.

2. Government are pleased to direct that the weaving school at Dodballapur may be converted into a school on the model proposed by the Inspector-General of Education as an experimental measure. The following scale of expenditure will be sanctioned in connection therewith:—

Recurring.

		Rs.
1. *Establishment*—		
1 Superintendent	.. ..	75—5—100
1 Weaving Instructor	.. ..	25—½—40
1 Weaving Shed Assistant	.. ..	15—½—25
1 Carpentry Instructor	.. ..	20—1—30
2 General Education Instructors with knowledge of drawing	.. ..	20—1—30
1 Clerk	.. ..	15—1—20
2 Peons	.. ..	8 and 7
1 Watchman	.. ..	8
	Total ..	266 per mensem or 3,192 per annum.
2 Boarding expenses	.. ..	2,520
3 Contingencies	.. ..	120
4 Carpentry branch, materials and tools	..	360
5 Excursion expenses	.. ..	200
6 Prizes and bonus	.. ..	100
	Total ..	3,300 per mensem.

No. 7603-4—Edn. 178-17-9, dated 14th February 1919.

Non-recurring expenditure.	Rs.
1 Building for the school	14,000
2 Building for the Boarding Home	3,000
3 Equipment—	
(*a*) Weaving branch	1,000
(*b*) Carpentry	500
4 Training of the Maistry	180
5 Work deposit for weaving branch ..	2,000
6 Stock of scantling for carpentry branch ..	500
Total ..	21,180

3. The Inspector-General of Education is requested to take all preliminary steps so as to give effect to the scheme from the beginning of the next official year. The Inspector-General of Education is requested to move Government in sufficient time beforehand for provision of funds in the Budget of the next year for this purpose.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. & Agri.

To—The Inspector-General of Education in Mysore.
The Comptroller, Mysore Government, through Financial Secretariat.

No. 7603-4—Edn. 178-17-9, dated 14th February 1919.

Letter No. 18318—660 Enclosures (two), dated Bangalore, 25th January 1918, from C. R. Reddy, Esq., M.A. (Cantab.), Offg. Inspector-General of Education in Mysore, to P. G. D'Souza, Esq., B.A., B.L., Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture.

I have the honor to invite the attention of Government to their Orders No. G. 5198-9, dated 4th April 1904, No. G. 2345-6—Education, dated 17th November 1903, and No. 6652-3—Education, 30th June 1904, sanctioning the opening of Weaving Schools at Chiknayakanhalli, Dodballapur and Molakalmuru, respectively, and to submit, in the light of experience gained in the working of these schools, the following proposals for the re-organisation of the existing weaving schools and for the creation and development of new ones, commensurate in number to the requirements of the different districts of the State.

1. *Defects of existing weaving schools.*—It is necessary to state the principal reasons for the deterioration and the present condition of the weaving schools in the Province and to suggest remedies for their improvement and the lines on which it is proposed to run them in future. The chief defect noticed in the course of inspections by the Technical Assistant was *the want of adaptation* to local conditions. Until quite recently no attempt had been made to teach at the school processes that would naturally lead to the manufacture of the type of articles that are made locally and sold readily. The specialities, for which places like Dodballapur, Hole-Narsipur, Melkote and Molakalmuru are famous and which derive their names from the places of their manufacture (to mention for instance, Dodballapur Sadis, Hole-Narsipur pancheys, and Molakalmuru silk towels) have rarely had much attention from the weaving schools. Though the fly shuttle looms for the increase of production with the smaller counts of yarn had been sucessfully introduced at the schools, the types of articles manufactured locally involve complicated patterns and entail very advanced practice, as the weaving necessitates extra mechanical attachments to the fly-shuttle looms, which are generally beyond the capacity of most of the maistries. In fact, such mechanical attachments are themselves only quite recent developments in the line of fly-shuttle hand-loom work. The second of the chief difficulties that these schools have had to contend with has been *a serious shortage of funds* as can be appreciated from the fact that in a school of nearly 30 students, 20 students attending daily on the average, the provision per month has been only Rs. 80 for materials, which works out at the rate of Rs. 4 per month per student. a sum absurdly low, in view of the fact that one sample of Dodballapur sadi would easily absorb all the money allowed to one student and if the student completes the sadi, even at his own rate of speed, in a week, he will practically have to go without work for the remaining three weeks of the month. A school run on these lines cannot possibly give an impression of anything like activity to a casual observer. Thirdly, to make the schools attractive *some kind of general education is also essential.* This combined with a knowledge of drawing will give the necessary elementary training to the weavers to be able to keep their own accounts and realise how the ordinary sowcar generally manipulates the accounts of their transactions with him to the sowcar's own decided advantage. The absence of the provision of such education has been a serious drawback in another line of work also, in that the student having been denied the knowledge of even the rudiments of drawing is unable to appreciate new patterns supplied nor, when appreciation is possible, to incorporate them on the loom.

2. *Remedies suggested.*—The remedy for the first of the defects mentioned, *viz.*, the adaptation of the teaching to local manufactures is now proposed to be attained by a course of instruction, which for the first three years of training according to the courses outlined below will be on general fly-shuttle work, but for the last two years will afford scope for special kinds of weaving, wich is the peculiarity of each place. As an illustration of the want of organisation of the market for the weaver as well as the disadvantage from which he acutely suffers on account of being confined to certain limited types, we might mention the fact that while raw silk is sold in the Province at between six to seven annas a tola and the best variety of manufactured silk goods of, say Molakalmuru, hardly fetch nine annas a tola in the market, the variety of silk goods which are imported from Japan and Europe fetch in the Indian market as high as Rs. 1-4-0 Rs. 1-12-0 per tola by weight of the manufactured article, a contrast which in itself sharply defines the margin of profit and the standard of comfort enjoyed by the local weaver as against his competitor in Europe and Japan. This would presuppose that the market need not necessarily be confined to the locality where the products are manufactured nor to one particular set of customers for any length of time, but that markets further afield as well as customers who are both prosperous and well dressed should be catered for. Thus it would often be to the decided advantage of the weaver at Molakalmuru to manufacture silk-coating, for which it is impossible to find a sale in the immediate neighbourhood of Molakalmuru itself, but which would be quite easily sold in a town like Bangalore and the difference in price of the manufactured articles will be as much as six to eight annas a tola over the price available for the silk towels at Molakalmuru.

It will be noticed that if an arrangement can be made to supply materials from a central concern like the Textile Factory at Bangalore and to have articles made by the different weavers from each place and have them sent out to the central office in Bangalore, the weaver stands to gain much more in the shape of wages, as a net saving on the price of the manufactured article, after the necessary deduction has been made for the value of the raw materials supplied to him. But the quality of the material which will be sold at Bangalore, leaving a wide margin of profit and wages for the weaver, must necessarily involve considerable training before it will be both pleasing and uniform. It is not often that the local weaver can be induced to adopt methods of quick production because very often in his own experience the demand for the type of things he is now capable of manufacturing is seasonal, and he is often unconvinced by descriptions of improvements effected elsewhere with which he can manufacture three sadis during the period that he is able to make only two upon his own type of loom. But if markets for afield are being catered for and the definite strength of the market in any particular article ascertained and communicated to the different centres, it will be quite a simple affair to arrange to find both a ready market for the article manufactured as well as a good margin of wages for the producer himself. But before these conditions can be satisfied, it is necessary that a certain amount of drill has to be enforced which will give the necessary training to the younger generation of weavers, to induce them to take to these designs in the natural course of events. If a certain quality of product that finds a ready sale in Bangalore has to be made in a place like Hosdurga and if it is to be made rapidly enough to meet the demand in the market at Bangalore, it often means very advanced practice on the fly-shuttle loom the popularisation of which in all its forms in the interests of the weaver, must be the chief aim of the weaving schools. The practice on the ordinary fly-shuttle loom is not often carried far enough in the existing schools to enable the pupils to turn naturally to the mechanical attachments to these looms, which will make the manufacture of the complicated patterns that find a ready sale, both easy and profitable. It would therefore follow that even if weavers from the interior can be induced to go out to a central institute like the Textile Factory at Bangalore to learn advanced work in weaving, they must have sufficient experience of ordinary fly-shuttle work to be able to take advantage of the training that is provided at the factory. It has been rarely possible, in fact, to be able to induce these weavers from the mofussil to visit or stay any length of time at Bangalore, and therefore throws more responsibility on officers connected with Industrial Education in having to provide the necessary kind of instruction and stimulate the ambition of the weaver *in the locality itself*. The practice on fly-shuttle work in the existing schools has been so far, confined only to low counts of 20's and 30's with the result that the conservative weaver often slightingly refers to these schools as "bed-sheet and towel schools" and before this stigma can be removed and before the advantages of advanced work on the fly-shuttle loom can be demonstrated, it is very essential that the local weaver should be trained at his own place in all the possible varieties of fly-shuttle work which will naturally lead to the adoption of more complicated patterns. This invloves as would be seen from the above, *three conditions:*

3. *Why weaving schools should be maintained and increased in number.*— Firstly, that as the private weaver is generally unwilling to leave his place and go elsewhere for training, he is to be given the necessary training in the locality itself. It will be impossible to provide such training through demonstrators connected with the Department of Industries as it will be impossible for any demonstrator to be kept long enough in any one place or for Government to provide him with the necessary appliances to make his teaching in the elementary lines of fly-shuttle work both substantial and profitable. *Secondly*, a weaver who is not thoroughly conversant with the manipulation of high counts of cotton yarn of the grade of 50's and 60's and who has not handled silk on the fly-shuttle loom will derive no benefit whatever on being sent to the textile factory, where such training finds no place. This is the minimum of qualifications required in a weaver who seeks training at Bangalore. *Thirdly*, the wastage of time and material involved in the change over of the local weaver from his country loom to the fly-shuttle type is generally too heavy an item of the unaided weaver to outlive, and the Technical Assistant has had personal assurances in all weaving centres in the province that in the case of the adoption of the lines of training proposed, the weaver boys will be freely sent to a school for this purpose, as the wastage incurred during the period of training will be a charge on Government funds and not on the already depleted resources of the weaver parent. Thus the *continued existence of weaving schools or the creation of new ones where they do not exist at present is an absolute necessity* and only the kind of teaching to be provided in the weaving schools and the special aim of such teaching to allow of adaptation to each locality has to be definitely settled and provision made accordingly.

In the following proposals, this aim has been steadily kept in view and an attempt has been made to provide sufficient and dependable weaving training on fly-shuttle works, so

as to naturally lead the weaver to the more advanced practice at the Textile Factory at Bangalore as well as to stimulate in him an ambition to improve his status by the earning of higher wages as the result of turning out a better quality of articles for a market which is not necessarily at his own doors.

4. *Number of weaving schools existing and proposed.*—There are at present five weaving schools in the State, those at Dodballapur (Bangalore District) Chiknaikanhalli (Tumkur District), Molakalmuru (Chitaldrug District) being under Government management and those at Melkote (Mysore District) and Hole-Narsipur (Hassan District) receiving only grants-in-aid from Government. This number of weaving schools has been found insufficient for the needs of the State and it is proposed to start additional schools in the following centres. The amount of grant given to the aided weaving schools is not enough to warrant a high grade of instruction and all the new schools that are proposed hereunder should be under direct Government management It will be seen from the details submitted below that the courses of instruction and the training to be given are too costly and elaborate to be undertaken by any existing private agency, even with the help of a Government grant. The places suggested for the opening of new schools under Government management are as follows:—

Chitaldrug	District	1 Hosdurga
Tumkur	do	2 Tiptur
Kolar	do	3 Srinivaspur and
Do	do	4 Chikballapur
Bangalore	do	5 Anekal
Mysore	do	6 Chamrajnagar and
Do	do	7 Hosaholalu
Hassan	do	8 Grama (Hassan Taluk)

The Kadur and Shimoga districts have been omitted for the present as experiments in weaving are just now being conducted in the Malnad and after they have proved a success in the climatic conditions of that area, proposals will be submitted for opening schools in these two districts also.

5. *Courses of Instruction.*—The quality of the training proposed to be given will determine the necessary establishment, the equipment and the recurring expenditure for each school and this subject has therefore been taken up first. The courses of instruction proposed are based generally upon the recommendations of a Sub-Committee of the Education Committee of the Conference, which submitted its report to the Secretary of the Committee on 30th May 1914. According to current practice, the industrial school work every day from 7-30 to 11-30 A.M. and 2 to 5 P.M. giving an average of seven working hours every week-day other than Saturday, on which they work four hours in the morning. The courses of instruction have been correspondingly drawn up with variations from the Sub-Committee's report so as to suit such a school-day. The weaving schools have to be made attractive by the inclusion of general education in the course of studies, this general education however being slightly different from what is given in purely literary schools and made to fit in with the technical training.

The general education subjects will comprise reading and writing up to the fourth standard, arithmetic sufficient to enable the student to keep his domestic and business accounts, freehand and geometrical drawing of the elementary grade; oral lessons in history and geography with special reference to commerce and industry; practical hints on personal hygiene and rural sanitation.

The Technical Education will consist of (1) Object lessons, descriptive of the materials, appliances and processes employed in weaving, (2) Manual training on ordinary lines to train the hand and the eye in the art of weaving, (3) Workshop practice, to acquire skill in the production of finished cloth, (4) Elementary training in carpentry, to enable the professional weaver to be self-reliant in effecting small repairs to the looms he uses.

The whole course will extend over five years, the subjects of study being distributed as follow:—

I. Year—

General Education as under sub-head (1) below	..	3 hours a day.	
Technical Education as under sub-head (2) below	..	2	do weaving.
		2	do carpentry.

(1) *Descriptive and practical lessons* on (*a*) Radu, Arate, Guppu, etc., (*b*) on cotton plant, fibre and yarn, (*c*) on the process of ginning, sizing and weaving.

(2) *Manual training* (*a*) Paper cutting and weaving, (*b*) winding of yarn, making of strings and weaving of tape.

II. Year—

General Education	..	..	.. 2 hours a day.
Weaving	..	..	.. 3 do
Carpentry	..	..	.. 2 do

(1) *Descriptive lessons* on (*a*) Peg warping, frame, healds, reed, shuttle, slay and other loom parts,

(*b*) leas, hanks, knots, bundles, counts, and other technical terms applied to yarn and silk, (*c*) description of various motions of the loom.

(2) *Manual training* (*a*) Winding of yarn, (*b*) weaving of book and bed straps, sacks, and sashes, (*c*) mat or bamboo weaving.

III. Year—

General Education	..	..	.. 2 hours a day.
Weaving	..	..	.. 4 do
Carpentry	..	..	.. 1 do

(1) *Descriptive lessons on* (*a*) The uses of various sizing ingredients and their effect on yarn and cloth, (*b*) warp and weft calculations.

(2) *Workshop practice* (*a*) Winding of yarn two-fold and three-fold on Araties, bobbins and pirns (*b*) peg warping (*c*) drawing in warps through healds and reeds and also twisting and (*d*) weaving of cloth of coarser counts.

IV. Year—

General Education	..	..	.. 2 hours a day.
Technical Education	..	..	.. 5 do

(1) *Descriptive lessons on* (*a*) Cloth analysis and marking down patterns on point paper, (*b*) calculating quantities and cost of materials used for weaving a particular kind of cloth.

(2) *Workshop practice* (*a*) Winding of raw silk, twisted silk weft silk or chapras, (*b*) warping on warping mills, (*c*) weaving of plain and twill cloth using medium counts of yarn, (*d*) drawing in warp through healds and reeds for twill and other weaves, (*e*) sizing warps of coarser counts.

V. Year—

General Education	..	..	.. 2 hours a day.
Technical Education	..	..	.. 5 do

(1) *Descriptive lessons on* (*a*) Setting and adjusting of looms for different patterns of cloth, (*b*) cutting patterns on tappets, setting and adjusting the same on looms, (*c*) further lessons on designing, (*d*) calculating wages for winding, warping, sizing and weaving.

(2) *Workshop practice* (*a*) Weaving of saris and panches up to 50 counts with silk and figured borders using two or three shuttles, (*b*) sizing warps of medium and finer counts up to 50's, (*c*) fitting up and line-levelling of looms and attending to minor repairs.

VI. Establishment.—It will be seen from the courses of instruction outlined above that a specially trained establishment has to be provided. The establishment should consist of the following:—

				Rs.
1. Superintendent	..	..	..	75—5—100
2. Weaving Instructor	..	..	..	25—3-2—40
3. Weaving-shed Assistant	..	..	..	15—2-2—25
4. Carpentry Instructor	..	..	..	20—1—30
5 and 6. Two General Education Instructors with knowledge of drawing	..	..	..	20—1—30
7. Clerk	..	..	..	15—1—20
8 and 9. Two peons	..	..	..	8 and 7
10. Watchman	..	..	..	8

giving a monthly average expenditure of Rs. 266 per mensem per school. The qualifications to be insisted on in the case of these men on the staff with the details of practical training proposed to be given to them, the cost to Government of the provision of such training, etc., are given below (para IX).

VII. Equipment.—This would consist of buildings, weaving looms, carpentry benches, suitable text-books, etc., (*a*) Buildings: sufficient stress cannot be laid on the fact that a suitable building will have to be provided immediately if anything like good work is to be expected at these weaving schools. For in the course of tour throughout the State, at none of the places, where the weaving schools exist or where they are proposed to be started has the Technical Assistant noticed any suitable building which can be rented for this

purpose. These weaving schools are on a different basis altogether, from the Industrial Schools teaching carpentry, smithy, rattan and allied subjects and cannot possibly be run in any of the existing buildings found at the various places mentioned. A plan and section of the proposed building has been drawn up and the estimate works out to Rs. 12,000 each. I should strongly suggest that Government be pleased to set about immediately to acquire the necessary site and start work on the buildings so that by the time the men necessary to staff these schools compete their training, the buildings will be ready for occupation. These buildings should be located in the immediate neighbourhood of the Anglo-Vernacular Schools or other leading institutions of the locality.

(*b*) *Looms.*—The appliances in the matter of weaving equipment have been drawn up on the basis of providing work for thirty boys and six trained weavers with whom the boys will have to work. The list of looms to suit this arrangement as also the courses of instruction outlined above, are as follow:—

	No.	Approximate cost Rs.
1. Tape looms	6	30
2. Mat looms	2	10
3. Looms for sashes..	2	10
4. Frame looms	4	300
5. Pit fly-shuttle looms	12	240
6. Pit looms for solid border cloth	2	40
7. Warping mills (vertical with creel and bobbins) ..	2	50
8. Sizing rods and brushes	2 sets	20
9. Hand charkas	6	30
10. Tappets	4	25
11. Healds, reeds, shuttles and other accessories ..		100

These would cost, say, Rs. 1,000.

(*c*) *Carpentry benches.*—The equipment for instruction in carpentry, as applied to loom manufacture and repairs, may be estimated to be in the neighbourhood of Rs. 500.

(*d*) *Suitable text books* have to be written up to help the teachers in imparting instruction and it is proposed that two separate text-books be written up, the first part to deal specially with the courses of instruction for the first two years, including tape weaving; and the second part to deal specially with subjects for the next three years. The books have to be written in Kannada with great care, with the help of men thoroughly conversant with the industry and will have to be amply illustrated with good half-tone pictures, so as to give the students a very correct idea of the subjects dealt with. Arrangements have already been made to start work on the publication of these text-books.

VIII. Boarding Homes.—In order to ensure the successful working of these schools, it is very essential to run Boarding homes, in connection with Industrial schools, where all the pupils under instruction may be boarded and lodged, and all the expenses of the pupils excepting dress met by the State. The effect of these boarding institutions on the progressive development of the character of the pupil and the formation in him of habits of cleanliness, regularity and communal co-operation cannot be exagerated. This system has the following distinct advantages over that of scholarships or any alternative method of payment of a living wage to the pupils while under training.

(1) The amount paid as scholarships to the pupils, who are generally minors in the eyes of the law, hardly ever benefits the recipients themselves as the needy parents of these poor boys are the artisan classes always help themselves to the stipends, leaving only a few annas, often as low as a couple of annas, for the amusement of the pupil himself.

(2) The pupil while under training is generally of an age at which he wants decent animal comforts for the proper growth of brain and muscle, and while he is deprived at home of the amount awarded as scholarship for his pains, he is on account of poverty, generally underfed and underclothed by his parents. While his growth is thus stunted, he is unable during school hours to exert himself to the utmost, and benefit to the full by the instruction offered. It would be cruel to work such a half-starved boy at school to the extent that is necessary as a minimum for him to really benefit by the training in the industry taught.

(3) No amount, however high, of scholarships offered has been sufficient inducement to retain the artisan pupil long enough at the Industrial School for him to complete the training, as there is a constant inducement through his parents or otherwise, to seek more remunerative work than the school will provide during the period of training, with the additional disadvantage that not even the full amount of such scholarship is made available for his own creature comforts.

No. 7603-4—Edn. 178-17-9, dated 14th February 1919.

(4) The attempt to make a reliable skilled workman out of the average artisan child of this country bristles with peculiar difficulties, not the least of which is the most undesirable surroundings in which the pupil grows, which he leaves every morning for school for a few hours and to which he returns after school. All instruction at school in regularity, clean living and sobriety must seem a farce to the pupil that is injected back into such surroundings for the best part of 24 hours, and such instruction may as well be abandoned, if during the most sensitive years of physical growth, and mental and moral development, the State cannot assure the means for the natural fructification of the ideas learnt at school.

(5) A sense of co-operation for communal work, and a sense of responsibility for orders taken from and to be executed for the public can only be created in the healthy atmosphere of a properly-controlled boarding home, where, by constant intercourse with the school staff, the pupil will unconsciously imbibe the guiding principles of a successful conduct of work.

Such ideas as those outlined above are not a fanciful picture of what might be imagined to be the consequences of the institution of the boarding-house system, but have the sanction of approved practice in all industrially advanced countries, and have to some extent been realised even in this country in the Boarding Industrial Schools under the management of the several Christian Missions. The example set by the Bureau of Education of the Phillippine Islands, who have started a classic precedent, is full of object lessons for us, and their system of boarding all the pupils under industrial instruction has amply fulfilled all the expectations formed of them.

The nature of the Boarding Homes proposed for these schools is of quite a different order from the hostels usually associated with High Schools or Colleges and as will be seen from the enclosed plan are expected to conform to the type to which the boys are accustomed in their own homes. Every attempt will be discouraged for the provision of luxuries of any kind and the food catered will be chiefly based on ragi and is meant to be only substantial and sufficient. The buildings proposed to house these pupils have been principally designed so as to board them with a degree of comfort to which the boys are accustomed either before they come to school or will be after they leave it, and the repairs to be effected will be only such that the boys themselves can undertake under the supervision of the instructors. It is proposed to give them good hygienic accommodation and sufficiency of substantial food. This aspect may be distinctly remembered as a set-off against any possible objection that may be raised to boarding and lodging these boys. The primary essential in these schools is that the boys should not be taken altogether out of their surroundings and made to feel that their education has given them a status which will tend to eliminate a sense of future co-operation with their fellow workmen. It is proposed to give them such drill as will be their natural heritage after they leave school and set up for themselves. The plan enclosed of the proposed quarters for these pupils will make it fairly clear that no attempt has been made at providing either buildings which may be considered to be of too high a standard for their normal life or which would overstep the limits of their everyday experience in executing repairs. It will be seen that the conditions of hygienic living which is one of the essential factors in the outturn of skilled workers from the children of artisans, have been distinctly kept in view and that all attempts at creating a sense of luxury or a degree of comfort that will tend to give a false idea of dignity to these pupils, have been scrupulously avoided.

An estimate of the expenditure on food has been obtained from people actually in charge of such Boarding Homes and it is believed that a sum of Rs. 7 per month per pupil under instruction will be amply sufficient to board them. The expenditure of only a small extra amount will be required every year to get the boarding houses repaired and it is expected that only materials with which the boys are familiar in their every-day-life and which they can always get in their own immediate neighbourhood will be utilized in the construction and are likely to be needed for repairs. It is earnestly hoped that this scheme of boarding the artisan pupils under Industrial instruction will be acceptable, as, while it is modest in the amount of comfort and convenience provided, the intentions when realised as it is hoped they will be, will contribute to the steady output of reliable skilled workmen from the material that is now allowed to run to waste through neglect and want of organisation.

The non-recurring expenditure for the provision of Boarding Homes will be Rs. 3,000 for each school or Rs. 33,000 for all the eleven schools under consideration. The recurring expenditure will, with a strength of thirty pupils at each weaving school, average Rs. 210 a month, per school, as a maximum or for all the schools Rs. 2,310 per mensem. (The higher figure of Rs. 7 per month per pupil has been taken. as the basis of calculations, but it is anticipated that in actual working, this figure may with care and

economy be reduced to Rs. 6 or even to Rs. 5-8-0). At the higher figures the total recurring cost per annum for all the eleven schools will be Rs. 2,310×12 = Rs. 27,720.

IX. Supply of raw materials for work.—For the purposes of supply of materials to the looms for the boys and the trained weavers, a scheme is submitted by which the inevitable delay in the supply of materials to the new schools through the agency of a central office will be obviated, while the necessary knowledge of details, consequent upon local control will greatly facilitate work. It is estimated that the total quantity of raw materials required for the tape looms, the mat looms, looms for sashes, frame and solid border cloth looms provided for in the equipment will cost nearly Rs. 600 a month. Instead of the provision of Rs. 600 every month, it is proposed that a deposit of Rs. 2,000 be made for each school in the local Treasury or Co-operative Society. This amount of Rs. 2,000 has been arrived at on the understanding that a period of at least three months has to be provided for between the manufacture and the sale of goods, and this amount will therefore help to keep the school going for the period during which the articles will be gradually sold out. The Superintendent of the school will be given powers of withdrawing whatever sums are required out of this amount, whenever materials are required for the school. The sale proceeds of manufactured articles should be credited into this account so that this will become a sort of current account for the school to be utilized for purchases and re-couped by sale proceeds, and at the time of inspection by any officer of the department the Superintendent should be able to show a total value of Rs. 2,000, either as cash or as value of materials, or net cost of manufactured goods or a combination of the three. This scheme will ensure that the school will have a standing credit of Rs. 2,000 and will obviate all the delays consequent upon the submission of requirements and estimates to a central office and waiting for sanction from such office for the continuance of work. There should be no difficulty in keeping this amount re-couped, as the small profits that will be made by the sale of goods manufactured by trained weavers will cover the loss in materials and inferior work turned out by the students Detailed forms of accounts will be drawn up on this basis and Superintendents compelled to maintain these forms in proper order so that the checking of these accounts will be an easy and automatic affair.

X. Practical training for the proposed staff.—The Superintendent should possess a diploma in Textile Manufactures of the Victoria Technical Institute, Bombay, or of a similar institution elsewhere. He must be given special training in handloom weaving, with some practice in general carpentry for one year. A subsistence allowance of Rs. 25 per mensem will be paid to him during the period of training. He may be attached to the Government Textile Factory at Bangalore where the details of the training to be undergone will be settled in consultation with the Textile Assistant. Already two men of the Industrial School Teachers' Class have undergone factory training under the Textile Assistant and have been posted to Molakalmuru and Dodballapur on the completion of their training. Arrangements will thus have to be made for training at least nine men (eight for new schools and one for Chiknayakanhalli) who have passed out of the Victoria Technical Institute, Bombay. The pay proposed for these men may be on the same basis as that referred to in the Government Order on the revision of Industrial Schools, *viz.*, Rs. 75-5-100. These men are to be advertised for in the *Mysore Gazette* and the best men chosen from among the applicants.

2. *Foreman or Mestri* for the weaving section. He should be preferably a weaver by caste and should have passed at least the Kannada Lower Secondary Examination of Mysore. He should also be sent up for training to the Textile Factory in fly-shuttle jacquard loom work for one year and a subsistence allowance of Rs. 15 per mensem paid to him during the period of training. After he has completed the training satisfactorily, he may be posted to the schools on a graded salary of Rs. 25—$\frac{3}{2}$—40. These men also are to be advertised for.

3. *Workshop Assistant.*—He may be a professional weaver and generally a local man with a graded pay of Rs. 15—$\frac{3}{2}$—25.

XI. The cost of the scheme.—An attempt is made to ascertain the cost to Government of these proposals, and it is assumed hereunder that the three existing weaving schools also will be brought under the operation of this scheme. The non-recurring expenditure

amounts to Rs. 2,35,600 and the recurring annual expenditure to Rs. 71,612 as per details below:—

NON-RECURRING EXPENDITURE.

			Rs.
1. Buildings for housing the eleven schools, site at Rs. 2,000; each building at Rs. 12,000			1,54,000
2. Boarding Homes			33,000
3. Equipment—			
Weaving Branch		Rs. 1,000	16,500
Carpentry		„ 500	
4. Training of the Superintendents and Mestries for one year: subsistence allowances per mensem			4,600
Nine Superintendents at Rs. 25 each		Rs. 225	
Eleven mestries	at Rs. 15 each	„ 165	
		390	
5. Work deposit for weaving branch: for eleven schools at Rs. 2,000 each			22,000
6. Stock of scantlings for carpentry branch at Rs. 500 for each school			5,500
		Total	2,35,600

RECURRING.

1. Establishment per annum for eleven schools	35,112
2. Boarding expenses	27,720
3. Contingencies (10 × 11) × 12	1,320
4. Carpentry branch, materials and tools Rs. 30 per mensem (30 × 11) × 12	3,960
5. Excursion expenses at Rs. 200 per school per annum	2,200
6. Prizes and bonus at Rs. 100 per school per annum	1,100
7. Bonus of Rs. 200 per annum for the individual school that turns out the best work of all	200
Total	71,612

Conclusion.—In conclusion, I beg that Government may be pleased to accord formal approval of the scheme outlined above, to authorize the acquisition of the necessary sites at the different places mentioned and to make arrangements to start work on the construction of school buildings and Boarding Homes. I beg that they may also be pleased to allow me to advertise for candidates with stated qualifications for the post of Superintendent and of weaving mestri to undergo practical training at the Textile Factory, Bangalore.

Mr. N. Rama Rao, as whole-time Superintendent of Sericulture.

No. 7983-8027—A. & E. 57-18-5, DATED 25TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 3767-78—A. & E. 56-16-2, dated the 25th November 1916, sanctioning the grant of an extra allowance of Rs. 50 a month to Mr. N. Rama Rao, Secretary Agricultural Committee, for assisting the Director of Sericulture in Sericultural work.

2. Government Order No. 9157-60—A. & E. 2-16-42, dated 9th May 1917, placing Mr. N. Rama Rao, in temporary charge of the Sericultural Department on the termination of the services of Signor Mari, in addition to his own duties.

3. Government Order No. 10180-230—A. & E. 139 16-1, dated 14th June 1917, appointing Mr. N. Rama Rao, as Superintendent of Sericulture, in addition to his own duties as Secretary, Agricultural Committee, Economic Conference.

4. Government Order No. 2090-3—A. & E. 60-17-1, dated 28th August 1917, raising the allowances of Mr. N. Rama Rao, in connection with sericultural work to Rs. 150 in consideration of the additional duties and responsibilities devolving upon him.

Order No. 7983-8027—A. & E 57-18-5, dated 25th February 1919.

Government consider that the activities of the Sericultural Department have so far developed in recent years as to necessitate the employment of a whole-time officer to be in charge of the Department so as to ensure the future work of development being carried on on the most systematic lines. They are accordingly pleased to appoint Mr. N. Rama Rao, Secretary, Agricultural Committee and Superintendent of Sericulture, as whole-time Superintendent of the Department.

Mr. Rama Rao will be given a salary of Rs. 500—40—700 so long as he holds the appointment of Superintendent of Sericulture and will be started on Rs. 540 per mensem.

2. The Superintendent of Sericulture will exercise the following powers:—

(1) Making appointments and transfers of all sericultural staff in the sanctioned scale when the pay does not exceed Rs. 25 per mensem. All appointments and transfers of sericultural staff in cases in which the pay exceeds Rs. 25 should be submitted to Government for orders. Changes in the allocations of the staff and selection of students for scholarships should also be reported to Government.

(2) Granting leave to the office establishment and sericultural staff when no extra expenditure is involved and the pay of the official does not exceed Rs. 30 per mensem.

(3) Incurring expenditure within the budget provision under contingent charges up to a limit of Rs. 20 in each case and incurring expenditure under cost of mulberry leaves, and petty repairs to sericultural farms, etc., where the cost does not exceed Rs. 100.

(4) The Superintendent of Sericulture should at once proceed to prepare a programme of work for the ensuing year and obtain the approval of Government thereto. He should also maintain a diary showing the work done from day to day with brief notes of results of inspection and forward the same once a quarter for the information of the Government. A half-yearly statement of progress should be submitted to Government by him furnishing full particulars regarding receipts and expenditure of the several farms which should be worked on commercial lines as far as practicable and the improvements effected in increasing the area under mulberry developing the production of silk and the expansion of the industry in all its important branches.

Grain Compensation Allowance.

No. Fl. 4001-50—G. F. 5-18-52, dated 17th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. Fl. 100-149—G. F. 5-18-1, dated the 9th July 1918, sanctioning rules for the grant of grain compensation as per scale given in Article 72, Civil Account Code, Volume I, ragi being considered as the staple food grain and the taluk the unit.

2. Government Order No. Fl. 2047-96—G. F. 5-18-29, dated the 23rd October 1918, sanctioning rules for the grant of compensation for dearness irrespective of the price of any particular grain or commodity in the two cities of Bangalore and Mysore.

Order No. Fl. 4001-50—G. F. 5-18-52, dated 17th February 1919.

In accordance with the orders read above, the grant of compensation allowance is sanctioned for the month of February 1919, to the employees in the two cities of Bangalore and Mysore and to those in the several taluks in the State as noted in Annexures A and B appended to this order and as indicated below:—

(*a*) To the employees in the taluks in Annexure A, the allowance will be at the following rates:—

(i) To those drawing a pay exceeding Rs. 16 but not exceeding Rs. 30 per mensem, Rs. 2 per mensem.

(ii) To those drawing a pay not exceeding Rs. 16 per mensem Re. 1.

(iii) When the pay is less than Rs. 5 per mensem, the extra allowance will be increased so as to bring up the aggregate pay and allowance to Rs. 6 per mensem.

(*b*) To the employees in the cities of Bangalore and Mysore and the taluks in Annexure B, the above allowances will be raised to Rs. 3 and Rs. 1-8-0, respectively, and the aggregate pay and allowance of servants on less than Rs. 5 per mensem brought up to Rs. 6-8-0 per mensem.

GENERAL AND REVENUE DEPARTMENTS.

Read.—

Letter No. T. A. D. A. *241, dated the 4th September 1918, from the Comptroller to Government, submitting balance statements of objections raised prior to 31st March 1918 and outstanding on 30th June 1918.

(In extenso:)

Vide Annexure.

Order No. Fl. 4144—G. F. 83-18-2, dated 24th February 1919.

Recorded.

2. The annual statements of outstanding objections though submitted after considerable delay, have not been prepared quite in accordance with the rules *vide* Article 1001, Civil Account Code, Volume II.

3. Full explanation against each item as to the cause of delay in the correspondence relating thereto, and in adjustment thereof, has not been given in all cases and it is not possible to find out whether in respect of outstanding items in the Bangalore District, for example, the Audit Office has taken all necessary steps.

4. Government consider that the annual statement and review of objections should continue to be submitted to Government. But the portion relating to objections in the annual appropriation report may be omitted. (*Vide* para 7 of Government Order No. Fl. 1928-77—G. F. 101-18-1, dated the 5th October 1918.)

J. S. CHAKRAVARTI,
Financial Secretary to Government.

To—The Comptroller to Government.

Exd — C. R.

Letter No. T.A.D.A. 241, dated the 4th September 1918, from the Comptroller to Government, to the Financial Secretary to Government.

I have the honor to submit herewith 16 balance statements of objections raised prior to 31st March 1918 and outstanding on the 30th June 1918. This statement prepared for the objections outstanding on 31st October 1917 was due in December last. I regret that the statement was not submitted within the prescribed time. As no useful purpose will be served by now submitting statements of objections on the 31st October 1917, I have submitted a statement showing the state of objections raised prior to 31st March 1918, but outstanding on 30th June 1918, as a report of this kind is intended to show the state of objections three months after the period for which it is prepared.

2. In this connection, I would invite attention to the report on objections included in the annual Audit and Appropriation Report. The state of objections reviewed in the Appropriation Report is for the same period for which this statement is also required to be prepared. The outstanding objections are analysed in great detail in the Appropriation Report and the analysis according to the years to which the objections relate is common to the Appropriation Report and this statement. Two reports on the same subject to Government appear to be unnecessary. The annual statement about outstandings reports objections of the same nature for each district clubbed together. This analysis according to the nature of objections is not now included in the Appropriation Report. If it is included, the submission of a separate statement of outstanding objections will be unnecessary. I would therefore suggest that the analysis of objections according to their nature now reported in the form of the annual statement, may be included in the Appropriation Report. If this suggestion is approved, the portion dealing with objections in the Audit and Appropriation Report for 1917-18 will be amplified to include the analysis of objections according to their nature.

Resource Operations for the year 1917-18.

No. Fl. 4156-65—G. F. 145-18-2, dated 24th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 1892—Bks., dated 26th December 1918, from the Comptroller to Government, submitting the Report on the Resource operations for the year 1917-18.

Order No. Fl. 4156-65—G F 145-18-2, dated 24th February 1919.

Recorded.

2. The report shows that the year under review opened with a cash balance of 66·18 lakhs as against 82·06 lakhs in the previous year and closed with a balance of 110·96 lakhs, resulting in a net addition of 44·78 lakhs due chiefly to larger realisations under several revenue heads, sales of securities and savings from grants.

3. The treasury balances are reported to have been in excess of the minimum fixed throughout the year for the different treasuries.

4. The difficulties experienced last year in getting funds from England continued during the year under report. The accumulated balance in the hands of Messrs. Coutts & Co., London was largely utilised for purchasing Madras and Southern Mahratta Railway debentures and British Treasury bills.

5. During the latter part of the year severe shortage of specie was felt and several suitable measures referred to in para 16 of the report were adopted to meet the situation.

6. Supply bills were used during the year for moving funds within the State to the extent of 4·52 lakhs as against 4·16 lakhs in the previous year, the Mysore Bank alone taking away as much as Rs. 3·30 lakhs.

The Deputy Commissioner, Kolar District.
The Comptroller to Government.

Exd.—C. R.

MEMORANDUM.

Revision of the scale of Sri Aswathanarayanaswami temple at Dodkurugod, Goribidnur Taluk.

The temple has, on an average, an income of about Rs. 1,800 per annum from all sources. As the temple has no Utsava Murti of its own, the only expenditure that is being incurred is for the celebration of ten days' Brahmotsava to the Utsava Murti of Narayanadevaru borrowed from the neighbouring village of Idugur. A number of small temples have arisen within the compound of the institution and a large number of devotees from all parts of the country attend the temple for worship throughout the year. The entire income of the temple is what is collected from the devotees in jatras and other occasions in the shape of fees for particular sevas, shop and cattle taxes, *kanikes* and other votive offerings.

2. The accounts of income and expenditure are at present maintained by the Dharmadarsis, and no regular paid establishment is maintained. The Archaks get a decent income, from occasional payments made to them by devotees. It is now proposed to entertain a paid establishment adequate for the purposes of management of the institution.

3. Deducting 25 per cent of the income for repairs and other funds, the amount available for expenditure is taken at about Rs. 1,350.

Establishment.

4. The cost of the proposed establishment is Rs. 37 per month or Rs. 444 per annum.

Nityakatle.

5. A provision of Rs. 18 per month or Rs. 216 per annum is made for Paditara and Diparadhane.

6. The surplus at the credit of the institution on 30th June 1917 was Rs. 7,418-0-2. As the temple is in need of extensive improvements, the whole of the above surplus will be required for the immediate use of the temple. A contribution of 6¼ per cent may be levied for the Muzrai Establishment Fund.

No. 2251-53—Muz. 304-18-2, dated 10th February 1919.

Statement showing the receipts of the proposals for fixing a scale of establishment and other charges in the Sri Aswathanarayanaswwami temple at Dodkurugod, Goribidnur Taluk.

No. 2304-05—Muz. 538-17-4, dated 13th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 2767-9—Muz. 755-08-10, dated 25th April 1911, accepting the offer of Mr. Y. Aswathanarayan Rao, Headmaster. Engineering School, Mysore, to deposit a sum of Rs. 4,000 with Government for the performance of certain services in the temples at Yedatore and Chunchankatte.

2. Applications dated 7th February 1918 and 15th August 1918, from Mr. Aswathanarayan Rao, to the Deputy Commissioner of Mysore, stating that out of the above, a sum Rs. 2,030 was credited to the treasury in September 1914, and that for the balance war loan bonds for Rs. 2,000 have been purchased and requesting that as the war bonds in question yield interest at 5%, they may be accepted in lieu of cash and that if that is not possible, the bonds in question may be temporarily accepted till August 1924, when the balance of money due would be paid by him and adding that interest for the last 5 years on Rs. 2,030 deposited by him may be ordered to be disbursed to him early.

3. Correspondence ending with letter No. A. C. 9 of 1915-16, dated 23rd September 1918, from the Deputy Commissioner, Mysore District, on the subject

Order No. 2304-05—Muz. 538-17-4, dated 13th February 1919.

In the circumstances represented, Government are pleased to direct in modification of their order dated 25th April 1911, that the original deposit of Rs. 4,000 be split up into two parts, the first part consisting of the permanent deposit under the charitable endowment rules of the sum of Rs. 2,030 now deposited in the Savings Bank and the second part consisting of the War Loan Bonds for Rs. 2,000 tendered by Mr. Aswathanarayan Rao, as a specific endowment to be held in trust for the performance of the services stipulated.

2. It is further directed that interest on the cash deposit of Rs. 2,030 be paid to Mr. Aswathanarayan Rao at the Savings Bank rate up to date. This amount should be transferred as a permanent deposit carrying interest at 5 per cent for 5 years subject to revision thereafter. The War Loan Bonds for Rs. 2,000 which have now been accepted as a permanent endowment should be transferred to the name of the Dewan of Mysore.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. 2514-25—Muz. 371-13-2, dated the 2nd April 1917, sanctioning the classification of Muzrai Institutions according to their income, for purposes of management, control and supervision, and also ordering that, in the case of the 3rd class of such institutions, *viz.*, those whose annual income is less than Rs. 100 no elaborate Scheme of Management is necessary and that they may be left in charge of Village Panchayets, where such exist, or to the care of pujaris under the control of the village officers.

2. Note dated 7th August 1917, from the Muzrai Superintendent in Mysore submitting for approval a set of subsidiary instructions for the guidance of Muzrai Officers and of the persons in charge of these Institutions.

Order No. 2407-2420—Muz. 126-17-12, dated 18th February 1919.

The instructions relate to the management of what are termed "village institutions" and are aimed at systematizing the work so far as these institutions are concerned. The Revenue Commissioner in Mysore and the Deputy Commissioners of Districts who were consulted in the matter, are of opinion that the instructions are generally suitable and may be adopted. Government are pleased to approve of these instructions which have now been finally revised in the light of the criticisms offered by these officers. They are printed as an annexure to this order.

2. A Kannada version of these instructions and the forms to be used should be prepared without any loss of time and distributed in sufficient numbers to the various taluks for effect being given early to the instructions.

ANNEXURE.

Instructions for the Management of Village Muzrai Institutions

A—General.

1. Register of village institutions.

(*a*) A general register of such institutions in the annexed form (Form I) shall be maintained Hobliwar at the Taluk Headquarters, copies of the same being furnished to every Shekdar.

(*b*) The work shall be assigned to a special gumasta whose duty it will be to satisfactorily maintain the register and post corrections from time to time on reports received from Sheikdars, or information furnished by the village officers. In the case of taluks having a special Muzrai gumasta on their establishments, the work shall form an important part of his duty.

(*c*) A register of such institutions will, in the first instance be prepared in the Muzrai Superintendent's office from information already received from the taluks and the entries in the register will be finally verified and brought up to date.

(*d*) After due verification and correction, three copies of the same shall be made in the Taluk Office—one for being kept in the taluk, one at the Sub-Division Office and the third by hoblis for issue to the Sheikdar of the hobli concerned.

No. 2407-2420—Muz. 126-17-12, dated 18th February 1919.

(*e*) The original register shall be returned to the Muzrai Superintendent with the corrections noted and certified to by the Amildar.

(*f*) On receipt of the corrected list, two copies of the same shall be made in the Muzrai Superintendent's Office in bound books—one being sent for record to the Deputy Commissioner's Office and the other retained in the Muzrai Superintendent's Office.

(*g*) A statement of corrections other than the fluctuating items of income and expenditure, which may have to be made in the taluk list from time to time shall be submitted by the Amildar to the Muzrai Superintendent and the Deputy Commissioner as also to the Sub-Division Officer once a year with the Annual Administration Report of these institutions (*vide 7 infra*) and these will be posted in the books maintained in their respective offices.

2. *Scales of expenditure to be sanctioned and revised.*—If a scale of expenditure be found necessary in the case of any institution not in the management of the Village Panchayet, the Amildar may himself sanction the scale in consultation with the person in charge and leading devotees and alter the same from time to time according to requirements. In the case of institutions under the Village Panchayets the responsibility of drawing up such scales will be delegated to the Panchayets.

3. *Accounts to be kept.*—(*a*) In the Taluk Office, a ledger shall be kept to exhibit their money dealings in the Taluk Treasury. The ledger shall be in the form appended (Form II) and show the deposits and withdrawals under every institution, the total balances alone being shown in the Treasury accounts as surplus Muzrai Funds of third class institutions.

(*b*) When any institution has a substantial balance at its credit, of not less than Rs. 100, a Savings Bank Account may be opened. This shall invariably be done where the amount represents the special collections of the devotees for improving the income of the institution, or for any other special purpose.

4. *The inspections of the Shekdar and the Amildar.*—(*a*) The Shekdar will inspect in detail every institution in the Hobli at least once a year and submit to the Amildar a report in the appended form (Form III). This will be retained and filed in the taluk and will form the basis of the Taluk Administration Report.

(*b*) Any remarks or instructions which the Amildar may wish to convey to the Shekdars shall form the subject of separate correspondence and be numbered and dealt with as such.

(*c*) The Amildar shall arrange to inspect these institutions at least once in every three years according to an arranged programme copy of which will be maintained in his office.

(*d*) No detailed inspection report is necessary in this case; but all matters requiring attention shall be noted in the institution book and necessary action taken accordingly.

5. *Inspection during Jamabandi.*—At the time of the Taluk Jamabandi, the Shanbhogs shall submit a statement (Form IV) as subsidiary to Form No. VIII (Register of alienated lands) which shall be scrutinised by the Hobli Gumastas and any inam not accounted for brought to the notice of the Amildar. The Amildar shall then make further enquiries of the villagers assembled as to the satisfactory condition of the institutions mentioned in the statements.

6. *Annual administration report.*—Soon after the close of the Huzur Jamabandi, the Amildar shall submit a brief report in the form appended (Form V) on the administration of these institutions. The report shall be submitted simultaneously to the Deputy Commissioner and the Muzrai Superintendent, in the former case through the Sub-Division Officer together with a statement of corrections in the Taluk Register of such institutions (*vide I* (*g*) *supra*).

B. Management of Institutions.

1. An institution book (ಸ್ಥಳ ಅನುಲು ಪುಸ್ತಕ) will be maintained:—

The person in charge of the institution shall maintain a book in which the following items of information shall be entered:—

(i) An extract from the Taluk Register of institutions.

(ii) Properties of the institution, immovable property including buildings of the institution, shall be entered first and then the movables with values attached. (Correction in the list shall be made from time to time under the signature of the Shekdar.)

(iii) A short memorandum on the nature and extent of worship conducted, the villages from which the devotees are usually drawn and the scale of income and expenditure where one is sanctioned.

(iv) A statement of the names of the Pujaris and other servants of the institution and where a servant is not a Hakdar, the name of the Hakdar, if any, and

No. 2407-2420—Muz. 126-17-2, dated 18th February 1919.

(v) A printed copy of these (Section B) instructions shall be posted in it. The book which will be known as the Institution Book (ಸ್ಥಾನ ಪಟ್ಟಿಯ ಪುಸ್ತಕ) shall also be used for noting down any remarks of inspecting officers of and above the grade of Amildar.

2. *Monthly account.*—In cases where a scale of expenditure has been sanctioned a monthly account of income and expenditure shall be kept in Form VI appended.

3. (*a*) *Repairs to buildings*—The buildings shall be kept in a state of proper repair on pain of the endowment being attached.

(*b*) *Proper utilization of income.*—The inam, grant and other income shall be carefully conserved and used for the proper maintenance of the institution.

(*c*) *Cleanliness.*—The premises shall be scrupulously clean and tidy.

(*d*) *Worship.*—The worship shall be properly conducted in a way that will conduce to the popularity of the institution and the satisfaction of the devotees.

Sri Kodandaramaswami Temple at Bowringpet.

No. 2236-38—Muz. 303-18-2, dated 8th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

This office docket No. 5083, dated 3rd May 1906, sanctioning a provisional scale of expenditure amounting to Rs. 300 a year in the Sri Kodandaramaswami temple at Bowringpet.

2. Letter No. 1118, dated 19th November 1918, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for fixing a revised scale of expenditure in the above temple, together with a memorandum thereon.

Order No. 2236-38—Muz. 303-18-2, dated 8th February 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are therefore pleased to accord sanction to the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later and separate orders issued in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore.
The Deputy Commissioner, Kolar District.
The Comptroller to Government.

Exd.—C R.

MEMORANDUM.

Proposals for fixing a revised scale of expenditure in the Sri Kodandaramaswami temple at Bowringpet, Kolar District.

The temple together with its endowment was taken under Government management in pursuance of Government Proceedings No. 3386-95, dated 28th April 1904.

2. A scale of expenditure costing Rs. 300 a year was provisionally fixed in Order No. 5083, dated 3rd May 1906.

3. In connection with the sanction of a commission of 5 per cent for the collection of rents on the temple buildings the Government requested the Deputy Commissioner to submit a regular scale of expenditure for this institution, provision therein being made for the item now in question.

4. The Deputy Commissioner has accordingly submitted a scale costing Rs. 550-12-0 a year. In the meanwhile, in connection with the recent order of Government revising the Muzrai Department, I visited the institution and discussed the requirements with the temple servants and devotees and I have slightly revised the proposals of the Deputy Commissioner with a view to make adequate provision under the various heads. A comparative statement is put up herewith which will explain in detail the difference between the two proposals.

5. It may be mentioned here that the proposals made by me are with a view of giving the temple a higher religious status by establishing a connection with an established temple (ಅಳವಟ್ಟನ) and this requires a slight re-adjustment. The temple can well bear the additional expenditure. Instead of allowing a percentage contribution for the collection of rents, etc., it seems better to have a full-time servant as Parpathegar who will attend to the collection work and also maintain temple accounts and see to the due conduct of services.

II. Nityakatle.

6. The amount for Nityakatle service has been raised from Rs. 78 to Rs. 159 a year, adequate provision being made for daily Neivedya, etc. Now that there is a paid Parpathegar, the amount fixed for Nityakatle expenses should not as heretofore be paid to the Archak, but the required quantity of provisions should be purchased and kept in the temple, the quantity fixed for the day being handed over to the responsible servants.

III. Hetchukatle.

7. The Hetchukatle expenditure under different heads recommended by the Deputy Commissioner has been provided for.

8. Making provision for all items of expenditure, there will be an estimated surplus of Rs. 225 annually for the benefit of the temple.

9. The temple can well bear a percentage contribution or 6¼ per cent on the total income for purposes of the Muzrai Establishment Fund.

10. The temple has got a cash surplus of Rs. 1,995-0-6 at its credit on 1st July 1917, but since then an estimate for Rs. 1,280 has been sanctioned for constructing a house for the Archak.

No. 2236-38—Muz. 303-18-2, dated 8th February 1919.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. 1061-70, dated the 16th February 1898, authorising the Deputy Commissioners of Districts to sanction all Muzrai estimates up to the value of Rs. 50.

2. Government Order No. 1-11—Muz. 612-16-2, dated the 4th July 1917, directing that all bills, except the final ones, should be submitted by the Amildar to the Deputy Commissioner, who should forward the same direct to the Comptroller for audit, and that final bills should be submitted to Government through the regular channels to enable them to make note of progress.

3. Subject No. 59 of the proceedings of the Second Session of the Representative Assembly held in April 1918, requesting that the Deputy Commissioners of Districts may be authorised to pay the contractors' bills, as works are executed, the estimate for these works having already been duly sanctioned.

Order No. 2393-403—Muz. 93-18-2, dated 18th February 1919.

The Comptroller to Government who was consulted in the matter is of opinion that pre-audit of Muzrai bills may be abolished altogether, that bills whether intermediate or final passed by the Deputy Commissioner, may be made payable at Treasuries ; that all payments thus made may be subjected to post-audit, as in the case of work bills of the Public Works and other Departments, care being, however, taken that such payments do not result in any overdraft ; and that in case of delay in the execution of works sanctioned, the cost of the sanctioned estimates should be regarded as ear-marked for the purpose and that the balance alone should be made available for new sanction.

2. The Government are pleased to accept the recommendations of the Comptroller which will to a large extent remove the complaint of delay in payment for Muzrai works executed. The same procedure as in the case of work bills of other departments will be adopted for purposes of audit, and no intermediate or final bill need be sent for the formal sanction of Government. But care should be taken that there is no overdraft in the institution accounts and that all claims are carefully checked with reference to recorded measurements before payments are ordered. In this work of scrutiny the assistance of the Maramat staff working under the Revenue Department should be made available without prejudice to their other duties.

3. Completion bills should, however, continue to be submitted to Government for note and record.

Read—

Letter No. 2622, dated the 11th June 1918, from the Muzrai Superintendent in Mysore, submitting among other matters the following proposals for the revision of feeding arrangements in the Government Annachattram at Chinkurli, Krishnarajpete Taluk.

Order No. 2276-78—Muz. 41-18-2, dated 11th February 1919.

The proposals of the Muzrai Superintendent are approved. The Deputy Commissioner is requested to take early action in the matter of the sale of the present building and the submission of a plan and estimate for a suitable building near the Railway Station at French Rocks.

2. The question of a percentage contribution towards the Muzrai Establishment Fund will be separately considered and orders passed in the matter in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Deputy Commissioner, Mysore District.
The Muzrai Superintendent in Mysore.
The Comptroller to Government.

Exd.—C. R.

MEMORANDUM.

Proposals for revision of feeding arrangements in the Government Annachattram, at Chinkurli, Krishnarajpete Taluk.

The Chattram is endowed with a cash grant of Rs. 862-8-0. per annum or Rs. 71-14-0 a month. The following expenditure was being incurred :—

	Rs.	a.	p.
Establishment	12	11	0
Nchimi allowances	22	12	5
Feeding charges	31	3	7
Total ..	66	11	0
Savings under establishment	1	3	0
Do Santarpane	4	0	0
Total ..	71	14	0

2. Chinkurli is situated at a distance of 7 miles from French Rocks and of 11 miles from Krishnarajpete. For years past the usefulness of this Chattram has been decreasing and now that a railway to Hassan from Mysore is an accomplished fact, it is likely to be even less useful.

3. The Chattram is located in an out of the way place at some distance from the main road and the village of Chinkurli. Owing to the bad condition of the building, feeding has now been stopped. The building is a commodious one, but it is so old and badly neglected that no patch work repairs can be attempted.

No. 2276-78—Muz. 41-18-2, dated 11th February 1919.

4. After giving the matter full consideration, it appears to me that a more advantageous use of the funds may be made by locating the Chattram at French Rocks near the Railway Station where people alight at all times of the day and night and wait often for hours either to take train or to proceed into the interior taluks.

5. It was the practice to transfer the Chinkurli Chattram to Tonnur thrice a year for temporary periods.

1. From Magha Suddha Panchami to Pournima.
2. From Vaishakha Suddha Panchami to Pournima.
3. Fifteen days during Vairamudi for the convenience of pilgrims.

It will certainly be an inconvenience to transfer a Chattram from place to place for short periods. It would be a better arrangement to give a lump sum grant of Rs. 120 from the Chattram funds to Sri Gopalakrishnaswami at Tonnur to be spent in distribution of food to Desantries or in the case of Byragis and persons unwilling to take temple food in issuing provisions at the usual scale of ½ seer per head.

6. The present Chattram building which is estimated to fetch about Rs. 600 may be sold and the amount realized may be spent for the construction of a suitable building at French Rocks.

7. The allowance of 14 seers of rice now given to the wife of the late Paricharak of the Krishnarajpete Chattram may be continued. The Chattram had a sum of Rs. 863-10-6, at its credit on 30th June 1917.

8. A percentage contribution of 6¼% may be levied on the grant towards the Muzrai Establishment Fund.

Grants to Sri Gangadhareswaraswami Temple at Gavipur and Sri Banasankariamma Temple at Sarabandepalya, Bangalore Taluk.

No. 2590-93—Muz. 419-18-2, dated 24th February 1919.

NOTE.

Subject:—

Utilisation of the grant recently released from the surplus funds of Sri Kasi Visveswaraswami temple at Gosayi Ghat, Seringapatam.

The temple of Sri Sarada at Sivaganga, Nelamangala Taluk, was in receipt of a monthly grant of Rs. 20, from the funds of Sri Kasivisveswara temple at Gosayi Ghat, Seringapatam Taluk. In the revision proposal of Sri Gangadharaswami temple at Sivaganga sanctioned in Government Order No. 1741-43—Muz. 43-18-2, dated 11th January 1919, a contribution of Rs. 20 per mensem is provided out of the recurring surplus of that temple for the benefit of the Sri Sarada temple of the place. It is now proposed to utilise the grant, thus released from the funds of Sri Kasi Visveswaraswami temple for the help of the two undermentioned institutions:—

1. Sri Gangadhareswaraswami temple at Gavipur, Bangalore Taluk.
2. Sri Banasankariamma temple at Sarabandepalya, Bangalore Taluk.

2. Sri Gangadhareswaraswami temple at Gavipur is in receipt of an annual cash grant of Rs. 29-1-0. It is reported that it has besides an average income of Rs. 150 per annum from Kanikes, marriage fees, etc., which at present are being shared by a number of persons including the Pujari of the temple. The institution is popular besides being of archæological interest but there is not sufficient provision either to have a servant always available at the place to keep the premises clean or to engage the services of a satisfactory Pujari to attend to the needs of the devotees.

It is therefore proposed to utilize out of the amount a sum of Rs. 12, to be spent as follows:—

Rs. 7, as pay of a full time servant who will be the Kavalgar, gardener and sweeper.

Rs. 5, as allowance to the Archak in addition to the present Tasdik grant of Rs. 2-6-9, a month on condition that the Archak lives at Gavipur and attends to the Puja twice a day.

3. The Sri Banasankari temple at Sarabandepalya is a temple built by one Sowcar B. Basappa Chetty of Bangalore at a cost of about 10 to 12 thousand rupees. It has a large circle of devotees and being situated close to Bangalore with spacious accommodation it is largely resorted to by people for celebrating social events. The Devi is besides the family deity of a number of communities in Bangalore who have their religious needs satisfied. The *Nityakatle* and other services are at present defrayed by the founder Mr. B. Basappa Chetty who is prepared to make a provision for the purpose but prays, that a Government contribution may also be sanctioned not only with a view to provide a satisfactory income but also to secure adequate supervision over the affairs of the temple. The question of a grant to this institution has been under consideration for a long time pending definite recommendation as to the fund from which such grants can be made.

4. The Kasivisveswara temple at Gosayi Ghat is a comparatively unimportant institution in a corner of the Seringapatam island, so full of large institutions. It is endowed to an extent much beyond its necessity and hence the present recommendation to give a subvention out of its funds to two deserving institutions near Bangalore. The diversion need not be permanent but it may be made for a period of ten years.

Leases of Lands endowed to Muzrai Institutions.

No. 2594-602—Muz. 366-18-2, dated 25th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Para 3 of Government Order No. 2514-25—Muz. 371-13-2, dated 2nd April 1917, directing *inter alia* that the Deputy Commissioners and the Muzrai Superintendent should arrange at an early date for proper scales of income and expenditure being drawn up in the case of all Major and Minor Institutions and for their revision where necessary.

2. Government Order No. 517-25—Muz. 115-16-8, dated 29th August 1917, directing that the objectionable practice prevailing in certain localities of leasing lands belonging to Muzrai Institutions for indefinite periods be put a stop to and that no leases be ordinarily granted for more than five years at a time.

3. Petitions from Shama Sastri and other Archaks of the Bangalore District, praying that the inam lands in their enjoyment may not be taken away from them and cash payments made to them instead.

Order No. 2594-602—Muz. 366-18-2, dated 25th February 1919.

In giving effect to the orders read above there appears to have been some misapprehension as to their scope and applicability. The second of the orders in question refers in terms only to leases of lands belonging to Muzrai Institutions, a description that will not apply to the servants of such institutions in the enjoyment of lands as a fair remuneration for their services. These latter will ordinarily be left in undisturbed possession and enjoyment of such lands: but for purposes of account the estimate income therefrom will have to be shown both under receipts of the institution and its expenditure under appropriate heads. This is, however, without prejudice to the right of the institution should necessity arise to resume possession of all such lands and fix a cash remuneration, or to revise the emoluments and alter the extent, etc., of the properties made over for enjoyment to the extent necessitated by such revision.

2. The order directing the fixing of scale of income and expenditure will have to be worked considerately and without dislocation of existing conditions and circumstances; but the protection of the interests of institutions and the equitable utilization of their income will of course have paramount consideration. In the nature of things no hard and fast rule can be laid down as to when payments should be on a cash basis and when lands in possession of servants should be expropriated. It would ordinarily be desirable in the case of all Major Institutions to adopt a cash basis, and for the purpose to lease out the lands belonging to the institution in open competition.

The position of village institutions is untouched by the order in question; and their case the balance of advantage would appear to lie in leaving the land endowments in the hands of the pujari who will have not only to remunerate himself but also find the wherewithal to answer the various requirements of the institution.

3. Minor institutions fall between these two extremes, every such case will have to be decided more or less on considerations of advantage to the institution concerned. If the estimated surplus in the hands of the servant in possession after meeting his legitimate claim for remuneration in cash and kind, pay and padithara is not large, it will be inexpedient to disturb his possession and it will suffice if he is called upon to produce a reasonable sum every year as reserve for repairs and occasional charges, after meeting the fixed requirements of the institutions.

No. 2594-602—Muz. 366-18-2, dated 25th February 1919.

In other cases the lands will have to be leased out either in open competition to the highest bidder or to the Vahivatdar, Pujari or other responsible person in possession for a reasonable sum to be fixed as rent in view to the various requirements of the institution being met from such rent.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS. THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Note No. R. C. 1458, dated 20th February 1919, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for fixing a revised scale of expenditure in the Sri Bhoganandiswaraswami and Sri Yoganandiswaraswami temples at Nandi, Chikballapur Taluk, together with his memorandum thereon, and stating that the proposals which were drawn up after personal investigation on the spot have been generally concurred in by the Deputy Commissioner and that a few suggestions made by the latter have been incorporated in the revised proposals.

Order No. 2621-23—Muz. 493-18-2, dated 27th February 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders issued in the matter in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept

To—The Muzrai Superintendent in Mysore, returning the enclosures.
The Deputy Commissioner, Kolar District.
The Comptroller to Government.

Exd.—G. W. B.

NOTE.

I submit herewith proposals for fixing a revised scale of expenditure in the Sri Bhoganandiswaraswami and Sri Yoganandiswaraswami temples at Nandi.

2. The proposals embodied in the accompanying statements which were drawn up as the result of a personal investigation and detailed enquiry have been generally concurred in by the Deputy Commissioner of the Kolar District.

3. The Deputy Commissioner's suggestions to treat the Hill temple as subsidiary to the main temple at Nandi and to provide for an additional establishment therefor have my approval. A few other suggestions made by him by way of supplementing the original proposals have beeen incorporated in the scheme herewith submitted.

4. The memorandum prefixed to the proposals explains the scope of the revision and explanatory notes have also been appended wherever necessary.

5. In view of the increased expenditure, the temple can only bear a contribution of 3⅛ per cent towards the Muzrai Establishment Fund.

6. I solicit early orders of Government on the revision proposals as the Deputy Commissioner wishes to introduce the scale before the next Jatra.

7. Letter No. O. C. 2980—17-18, dated 15th February 1919, from the Deputy Commissioner, together with its enclosure is submitted for reference and kind return.

No. 2621-23—Muz. 493-18-2, dated 27th February 1919.

MEMO.

Revision of the scale of Sri Bhoganandiswara and Arunachaleswara temples at Nandi, Chikballapur Taluk, Kolar District.

Both the deities are installed in the same building and the institution has on the whole a total income from all sources of about Rs. 2,330 on five years' average. With the exception of the Cash Grant of Rs. 379, the remaining income is mainly due to Jatra and Kanike collection and interest on investments. The temple is an important one both in point of architectural eminence and established reputation for sanctity and age.

The existing scale confines itself to the Cash Grant, and the Jatra expenditure amounting on an average to Rs. 825 per year is being met out of the collections after obtaining special sanction. As the jatra has grown into importance, a reasonable scale has to be fixed for the expenditure to be incurred on the occasion. The scale proposed provides for all the present needs of the temple.

Hitherto the temple of the *Mula Murti* of Bhoganandiswara and the *Utsava Murti* of Umamaheswara were being treated as separate in the Taluk accounts This distinction appears to be unnecessary and will be dropped.

Establishment.

The temple owns 18 acres 14 guntas of dry land assessed at Rs. 49-8-0 and 6 acres 32 guntas of wet and garden lands assessed at Rs. 27-8-0 yielding on an average about Rs. 150 per annum. Archak Chandrashekhara Deekshit who was in possession of these lands is now dead. It seems, therefore, more advantageous to take the lands under the management of Government Officers and lease them to the best advantage of the temple, a sum of Rs. 8 being fixed as the pay of the new Archak. As there are five shrines requiring daily worship, an Assistant Archak on Rs. 6 a month has also been provided for. The pay of the other servants has been increased in view of the increased income of the temple, though a great portion is dependent upon Jatra receipts. The total expenditure under this head is increased from Rs. 132 per annum in the existing scale to Rs. 636.

Nityakatle.

Provision is made in the proposed scale for a daily *Neivedya* of two seers of rice. This will come into operation after the cessation of the grant now being made by Pallegar lady Putta Parvatiamma.

The total expenditure under this head is Rs. 297 as against Rs. 132-15-0 in the existing scale.

Hetchukatle.

The most important item of expenditure under this head is Rathotsava and Jatra. In years when owing to prevalence of epidemic locally, the Jatra is not to be held and the congregation of the people is prohibited, a small provision has been made for Rathotsava to satisfy the Agamic rules.

The total expenditure under this head is Rs. 932-0-0 in ordinary years, but only Rs. 87 in years when Jatra is not held.

The total expenditure under all heads is Rs. 1,865-0-0 in normal years. Deducting the expenditure, the saving effected out of the net average income of Rs. 2,330 is Rs. 465 or about 20 per cent of the total income.

The surplus at the credit of the institution on 30th June 1917 was Rs. 16,461-13-5 (Rs. 3,961-13-5 uninvested and Rs. 12,500 invested in 3½ per cent of 1865). The uninvested amount and Rs. 4,500 out of the invested may be reserved for the future repairs of the temple and Rs. 8,000 may well be utilized for purposes of the General Muzrai Fund. The temple which gets such a large revenue from Jatra can well spare 6¼ per cent of its income for the Muzrai Establishment Fund. At present it meets the pay of a Caretaker for the Somesvara temple at Kolar, which will be stopped from the date the present proposal comes into effect.

The Muzrai work of the taluk requires one Deputy Gumasta on Rs. 12—1—15.

No. 2621-23—Muz. 493-18-2, dated 27th February 1919.

Constitution of a Committee for advising on the question of a suitable design for the waste weir of the Krishnarajasagara Reservoir.

No. P. W. 420-27—K. S. S. 1850-57, DATED 12TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS
THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

Public Works Secretary's Note No. D. 694, dated the 23rd October 1918, forwarding for the consideration of Government, letter No. 751—G., dated the 9th October 1918, from the Chief Engineer on Special Duty, Cauvery Valley Irrigation, submitting a detailed memorandum on the design of the waste weir for the second stage of the Krishnarajasagara dam.

Order No. P. W. 420-27—K. S. S. 1850-57, dated 12th February 1919.

The question of a suitable design for the waste weir of the Krishnarajasagara dam has been under the consideration of Government for some time. On account of the somewhat complex nature of the problem and the magnitude of interests involved both within and outside the State, the Government have thought it desirable to constitute a Committee of experienced Engineers for advising them as to the best design to be adopted.

2. They are accordingly pleased to direct that a Committee composed of the following members be constituted for the purpose:—

President.—Sir M. Nethersole, Kt., C.S.I., late Inspector-General of Irrigation in India and now Chief Hydraulic Engineer, Andra Valley Power Supply Co., Bombay.

Members.—The Hon'ble Mr. W. J. J. Howley, A.M.I.C.E., Chief Engineer for Irrigation, Madras.

" Rajasabhabhushana C. T. Dalal, Esq., L.C.E., Special Superintending Engineer, Oosman Saugara Project, Hyderabad.

" Rajasabhabhushana Karpur Shrinivas Rao, Esq., B.Sc., L.C.E. Retired Chief Engineer of Mysore.

" Rajasabhabhushana Rao Bahadur K. Krishnaiengar, Esq., B.A., L.C.E., Chief Engineer on Special Duty, Cauvery Valley Irrigation

Secretary.—Mr. M. G. Rangaiya, B.A., B.E., Executive Engineer, Mysore, Public Works Department.

3. The terms of reference to the Committee will be as noted below:—

(1) What limiting velocities may safely be allowed in the low level scouring sluices without danger of scour to the ashlar work in the bed and sides of the vents and whether any great harm is apprehended if these sluices are worked for a few hours when the maximum calculated flood occurs once in 30 or 40 years?

(2) What arrangements are best suited to dispose of the maximum flood from the catchment area, having due regard to the discharging capacity of the several sluices already built, or proposed to be built, in the body of the dam?

(3) To what extent should the flood moderating capacity of the reservoir be taken account of in fixing the discharging capacity of the weir?

(4) What should be the nature, disposition, number and dimensions of the weir sluices?

(5) What should be the exact nature of the protective works needed to prevent retrogression of levels in the waste weir channel and the eventual damage to the weir body wall?

(6) Any other points which may arise, or be raised, incidentally.

4. A report embodying the recommendations of the Committee on the above terms of reference will be submitted to Government before the 31st March 1919.

S. CADAMBI,
Secy. to Govt., P. W. Dept.

To—Sir M. Nethersole, Kt., C.S.I., Late Inspector-General of Irrigation, now Chief Hydraulic Engineer, Andra Valley Power Supply Co., Bombay.
The Hon'ble Mr. W. J. J. Howley, Chief Engineer for Irrigation, Madras.
Rajasabhabhushana C. T. Dalal, Esq., L.C.E., Special Superintending Engineer, Oosman Saugara Project, Hyderabad.
Rajasabhabhushana Karpur Shrinivas Rao, Esq., B.Sc., L.C.E., Retired Chief Engineer of Mysore.
S. Cadambi, Esq., B.A., L.C.E., Chief Engineer of Mysore.
Rajasabhabhushana Rao Bahadur K. Krishnaiengar, Esq., B.A., L.C.E., Chief Engineer on Special Duty, Cauvery Valley Irrigation.
M. N. Krishna Rao, Esq., B.A., Comptroller of Mysore, Bangalore.
Mr. M. G. Rangaiya, B.A., B.E., Executive Engineer, Mysore Public Works Department.

Mxd.—C. B

Short Notes by the Chief Engineer on Special Duty, Cauvery Valley Irrigation on the Terms of Reference to the Committee.

I. *Safe maximum velocities that may be allowed through the scouring sluices.*—The Resident Engineer, Assaun Dam, stated that velocities approaching 40 feet per second are frequently allowed while a velocity of 50 feet is rarely permitted. In the Madras Metur Reservoir Project a velocity of 30 feet per second has been allowed for sluices in the dam (*Vide* annexure B and page 159, Volume I, Metur Project).

Following the example of Assaun Dam we may, during very extraordinary floods which are of short duration and which occur once in 30 or 40 years, permit a velocity of 50 feet per second equivalent to a head of 100 feet over the centre and 106 over the sill of our sluices, *i. e.*, up to 106+12 or 118 feet above bed of river which is the M.W.L. fixed for Krishnarajasagara.

At ordinary times.—A velocity of 40 feet may be allowed. This means a head of 64 feet over the centre of sluice or+82 feet above bed.

II. *Maximum flood discharge from the catchment at Krishnarajasagara and the best way of disposing of it.*—The estimated maximum flood discharge in the river is 250,000 c.f.s. In the Madras Metur Project, the same quantity has been calculated at Bhavani 174 miles lower down, but this is certainly an under-estimate. (*Vide* page 23, Vol. I, Metur Project.) The maximum flood calculations for Krishnarajasagara have been verified in several ways and the estimate of 250,000 cusecs may be taken as very close to the actual as the floods of 1882 and 1911 have shown. Such a flood occurs once in 30 or 40 years. An uncommon flood is 200,000 c.f.s. once in 14 or 15 years, while the most usual flood every five years ranges between 120,000 and 150,000 c.f.s. (*Vide* annexure C).

The maximum flood being assumed at 250,000 cusecs, we may allow 50,000 cusecs for the flood moderating capacity of the reservoir as shown under the next term of reference. We have to provide for the balance of 200,000 being passed through or over the weir and (2) through the sluices in the dam.

The sluices that may be operated during such floods and their discharging capacities with water at+118 are noted below :—

	Discharging capacity.
1. High level scouring sluices at+50	10,563 cusecs
2. Low Level irrigation sluices at+40	2,674 ,,
3. Low Level scouring sluices at+12	28,800 ,,
4. Turbine sluices at+53	3,827 ,,
5. Supply from High Level irrigation sluice at+50	2,200 ,,
Total	48,064 cusecs

It is considered undesirable to utilise the High Level Irrigation sluices for surplusing floods on account of costly drops and regulators needed, of the necessity of a very wide discharge channel from the scouring sluices to take up the extra discharge let down from the High Level irrigation sluices if used as surplus sluices and of its interference with the lay out of the proposed power station on the North Bank.

The balance to be provided for through and over the waste weir is 152,000 cusecs.

III. *Flood moderating capacity of the Reservoir.*—This has been calculated assuming 250,000 c.f.s. as the maximum flood discharge starting from+110. To reach the maximum full supply level of+118, floods will take 25 hours. Such a long duration of maximum floods never occurs, the longest recorded period of such being 12 hours. When water reaches the level of+118, the reservoir will absorb at the rate of about 50,000 cusecs, the balance being discharged by the waste weir sluices. (*Vide* annexure D.)

IV. *The number and nature of sluices necessary to discharge the maximum flood.*—

A. If the flood moderating capacity and discharge from dam sluices is not to be considered, we require :—

25 sluices at+ 80 8′×15′	discharge	83,100 cusecs
49 sluices at+ 90 8′×15′		133,182 ,,
35 sluices at+110 10′× 8′		24,570 ,,
3 scouring sluices at+50 6′×15′		10,570 ,,
	Total	251,355 cusecs

(*Vide* alternative A on the longitudinal section of weir.)

B. In case the flood moderating capacity to the extent of 50,000 cusecs is to be allowed for but the dam sluices are not to be worked under such high heads, the arrangement suggested is :—

25 sluices at+80 8′×15′	83,100 cusecs
31 sluices at+90 8′×15′	84,258 ,,
35 sluices at+110 10′×8′	24,570 ,,
	191,928 ,,
3 High Level scouring sluices	10,503 ,,
	202,431 cusecs

(*Vide* alternative B on the above plan.)

C. In case both the flood moderating capacity of the Reservoir and the discharge through the sluices in the body of the dam are taken into account, we may have

25 sluices at+80 8′×15′	discharge	83,100 cusecs
18 sluices at+90 8′×15′ commencing from C. S. 156 and ending at C. S. 160		48,924 ,,
35 automatic sluices at+110 10′×8′		24,570 ,,
		156,594 cusecs

against only 152,000 to be dealt with.

(*Vide* para 2 *supra.*)

The discharge in this case will be divided between the two valleys and the necessity of clearance of the high ground between C. S. 145 and 165 will be obviated as also the construction of costly groyne wall to distribute the floods evenly between the two valleys.

V. *Protective works.*—These range themselves under six heads;—

(i) Construction of ogees from the lips of the several sets of sluices and dropping the discharge to the ruling level of the river bed. This need not be considered as it means a duplication of our dam, with very deep rock excavations.

(2) Construction for the present of two deeply founded curtain walls across the two valleys, and watching how the bed of surplus channel above and below may be affected by the floods. The crest of this wall may be at + 65 and the bottom at + 40·00 the level at our low level channel crossing. Further work may be designed after watching the action of floods. (*Vide* block plan of weir site in annexure F.)

Under existing circumstances, it is possible to ascertain by actual test what the action of the floods will be on the surplus channel bed.

We may raise the river gap to +80 the level for the first stage of the dam and provide a bye-wash at+80 for 500 feet between C. S. 135—145 on the South Bank. We may pass the floods of 1920 over the river gap as well as over the bye-wash and see how the floods affect the ground in rear and what the nature of rock is in the surplus channel and then decide the levels of our curtain wall, etc.

3. A number of equidistant grade walls deeply founded so as to form natural water cushions between them. The effect of floods on the wide unprotected spaces between the grade walls is uncertain and this design will be quite a make-shift requiring heavy work afterwards which once the river gap is filled in, we shall not be able to complete in the short space of four or five months of the cold season.

(*Vide* plan in annexure F.)

4. Ultimate, solid and permanent structures may take the form of water cushions terminated by an ogee.

5. Water cushions, apron and ogee.

6. Continuous apron sufficiently thick and constructed in mortar with suitable binding and retaining walls.

Types of these designs are plotted on a few cross sections of the surplus channel. Which of these types may be eventually adopted has to be settled. Then detailed estimates may be prepared with due reference to the actual foundation levels of the weir wall. As this is not yet definitely known, estimates and plans that may be now prepared on conventional foundation will be of little use for accurate guidance in execution. (*Vide* plans in annexure E)

In view of the difficulties of deciding upon the exact nature of protective works and the probability of our having to wait for a long period before permanent remedies could be effected and the consequent trouble and anxiety involved at the present site of weir, attempts were made to find out whether other suitable saddles distant from the ends of our dam could be secured for the diversion of the surplus along the ridges enclosing the reservoir. There is only one such saddle close to the Inspection Lodge at the point M where the approach road bifurcates and where the shandy or market place is now held. Longitudinal and cross sections of the saddle show that a diversion cut here will be rather a very costly affair and may cost a crore of rupees. The cost could have been reduced somewhat if the crest of dam had been placed 20 or 25 feet above the present level but it is now out of question to attempt the diversion here (*Vide* Section of Saddle M.)

VI. (*a*) *Incidental matters arising from the above discussion.* The one question that arises is the method of carrying the Right Bank Low Level sluice across the weir. Several alternative designs were worked out :—

1. Lifting dam.
2. Aqueduct.
3. Open cut beyond weir.
4. „ and tunnelling across a ridge.

Considering the magnitude of the floods and the nature of fall and foundations in the surplus channel, alternative 3 is recommended as the best. (*Vide* plans in annexure G.)

(*b*) The designs of weir that may be now settled will have to fit in with the further raising of the full supply level by 4 feet or+122 as recommended by the Arbitrator to obviate Madras objections to the present size of the reservoir on the ground of failure of sufficient supply for irrigation in some years. Mysore have agreed to the raising by altering the crest levels of the weir. The dam has been designed strong enough to withstand the pressure due to a head of 124 feet. This will also enable the numbers of sluices being reduced preferably those at+90.

Letter dated 1st March 1919, from M. G. Rangaiya, Esq., B.A., B.E., Secretary, Krishnarajasagara Waste Weir Committee, Bangalore, to S. Cadambi, Esq., B.A., L.C.E., Secretary to the Government of Mysore, Public Works Department.

With reference to Government Order No. P. W. 420-27—K. S. S. 1850-57, dated the 12th February 1919, I am directed to submit herewith a report of the Proceedings of the Krishnarajasagara Waste Weir Committee, for the consideration and orders of Government.

2. The Committee commenced its sittings on the 24th February 1919 at Mysore On the 25th idem, they inspected the waste weir site and the works. The final sitting was held on the 26th instant and the proceedings then terminated.

PROCEEDINGS OF THE KRISHNARAJASAGARA WASTE WEIR COMMITTEE.

Monday, Camp Mysore, dated the 24th February 1919.

PRESENT.

President.—Sir M. Nethersole, Kt., C.S.I.

Members.—The Hon'ble Mr. W. J. J. Howley, A.M.I.C.E., Rajasabhabhushana Mr. C. T. Dalal, Rajasabhabhushana Mr. Karpur Shrinivasrao and Rajasabhabhushana Rao Bahadur Mr. K. Krishnaiengar.

Secretary.—Mr. M. G. Rangaiya.

The Proceedings commenced at 4 P.M. The President referred to the Government Order constituting the Committee which contained the terms of reference about which they were to advise the Durbar and these were considered in the same order.

(1) "What limiting velocities may safely be allowed in the low level scouring sluices without danger of scour to the ashlar work in the bed and sides of the vents and whether any great harm is apprehended if these sluices are worked for a few hours when the maximum calculated flood occurs once in 30 or 40 years".

The President stated his opinion that a velocity of 20 feet ordinarily and 30 feet occasionally might be allowed through these sluices and asked whether other members of the Committee agreed or would wish to vary these limits.

Mr. Krishnaiengar referred to a letter from the Resident Engineer, Assuan Dam, stating that velocities up to an average of 35 feet constantly, and 40 feet occasionally were allowed there and that no trouble had been experienced since the year 1905. Sir M. Nethersole thought that the case was somewhat different as the Assuan Dam sluice vents were lined with cast iron. It was brought to notice by the Secretary that, in a paper on the Assuan Dam read at the Institute of Civil Engineers, London, in the year 1913, the author of that paper when asked to give his opinion about the relative merits of cast iron and granite lining, stated that both were equally sound but that he would give a preference to granite, as in event of undue wear the cast iron lining repairs would be difficult. Messrs. Dalal and Howley thought that the reason that cast iron was used was because labour to dress the granite was not available. These statements were verified by reference to the papers.

In this connection Mr. Howley pointed out that the capacity of the sluices to pass the supplies due to Madras had also to be considered. Assuming the quantity tentatively fixed by the Arbitration Committee, namely, 14,219 cusecs to be the maximum to be passed on to Madras, the corresponding velocity in the deep level sluice vents (8 of 6′×12′) would be about $\frac{14,219}{8\times6\times12}=24{\cdot}7$ feet per second. Considering that higher velocities were allowed in the Assuan Dam as stated above, it was generally agreed that a velocity of 25 feet might be safely allowed through the sluices for continuous working.

Mr. Dalal then asked whether it would be advisable to work these sluices under higher head when the reservoir was full. The President observed that he would not mind opening them under any condition provided the discharge was limited to 14,500 cusecs.

Mr. Howley remarked that he saw no harm if a velocity of 40 feet per second were allowed once in 30 or 40 years for a few hours during which the maximum flood would probably last.

Mr. Karpur Shrinivas Rao stated that, as velocities up to 50 feet per second were permitted though rarely at the Assuan Dam, he thought there would be no objection to use the deep level sluices on such rare occasions.

The President summing up stated that in answer to the first term of reference it might be recorded that ordinarily the deep level sluices should be limited to a velocity of 25 feet per second necessary to give the discharge due to Madras, but that they might also be used when necessary for surplusing floods, limiting the discharge to 14,500 cusecs by partial opening of the sluices.

(2) "What arrangements are best suited to dispose of the maximum flood from the catchment area having due regard to the discharging capacity of the several sluices already built or proposed to be built, in the body of the dam ?"

Mr. Dalal observed that to decide this question it was first necessary to fix the maximum quantity of flood to be surplused. The President remarked that he understood that the amount allowed for in the project 250,000 cusecs was sufficient. After some discussion it was agreed that this quantity might be assumed to be correct, although Mr. Dalal still expressed a doubt whether if the surplusing capacity of the sluices in the dam and the flood moderating capacity of the reservoir were both fully taken account, it would be safe to limit the waste weir capacity to the balance. It was agreed that this would be considered in due course, but the President pointed out that there was a very large margin of safety already allowed in the free board of 6 ft. over and above the calculated maximum full supply level.

As regards the quantity to be surplused through the sluices already fixed in the dam, figures given in the subjoined table were unanimously agreed to as safe.

Sluices at	+ 12·00 level	.. ..	14,500 cusecs
Do	+ 40·00 level	.. ..	1,000 do
Do	+ 53·00 level	.. ..	10,500 do
Turbine sluices at	+ 50·00 level	.. ..	3,000 do
Irrigation sluices at	+ 60·00 level	.. ..	1,000 do
		Total ..	30,000 cusecs

In regard to the sluices to be fixed in the waste weir, Mr Krishnaiengar referred to the preliminary plans and sections prepared for the waste weir in which three alternative proposals A, B and C were shown. Proposal A made allowance for passing the entire flood of 250,000 cusecs through the weir sluices and gates. Proposal B allowed for a flood of 200,000 cusecs after taking account of flood absorbing capacity of the reservoir. Proposal C provided for only 150,000 cusecs after making allowance for the discharge through the sluices and of 50,000 for flood absorbing capacity. In all these alternative proposals the waste weir sluices were arranged at two different levels +80 and +90 with automatic gates at +110 The discharges through these sluices with the reservoir full are given in the table below:—

	+80 Level		+90 Level		+110 Level		Total discharge
	No.	Discharge	No	Discharge	No.	Discharge	
A	25	83,100	49	133,182	35	24,570	240,852
B	25	83,100	31	84,258	35	24,570	191,928
C	25	83,100	28	48,924	35	24,570	156,594

It was generally agreed after some discussion that both the flood absorbing capacity and the surplusing capacity of the sluices in the masonry of the dam might be taken into consideration in calculating the quantity to be provided for in the waste weir

In case the alternative C was adopted, the flood would be disposed of as follows:—

Through the sluices in the dam	..	30,000 cusecs as shown above.
Through +80 sluices	..	83,100
+ 90 sluices	..	49,000
+110 sluices	..	24,570
Total	..	186,670

which leaves a balance of (250,000 − 186,670) = 63,330 cusecs to be absorbed in the reservoir.

The table attached (Appendix I) showing the flood absorbing capacity of the reservoir, indicates that this flow will raise the reservoir level by one foot in 5·6 hours and by two feet in 12 hours. It was generally agreed that the alternative C referred to above would serve to discharge the maximum flood safely.

3. "*To what extent should the flood moderating capacity of the reservoir be taken account of in fixing the discharging capacity of the weir?*"

This has been already considered under reference 2 and needs no further comment.

4. "*What should be the nature, disposition, number and dimensions of the weir sluices?*"

The President suggested a fourth alternative arrangement by which the 18 sluice gates at +90 might be dispensed with and the whole length from C. S. 145 to C. S. 171 (1,300 feet) to be raised to +110, automatic gates being used for about one-fourth of this length and ordinary lift shutters for the remainder. This would considerably reduce the cost of the waste weir sluices, the rate per square foot of automatic gates and lift gates being lower than that for deep level sluice gates, while the clearance necessary both in front and rear would also be appreciably lessened.

A road bridge might be arranged for, if necessary, by building piers for every 3 vents of ten feet.

Mr. Karpur Shrinivasrao pointed out that this proposal would facilitate the further raising of the full supply level of the reservoir up to +122 feet, as suggested in the Arbitration Proceedings, should it be decided on later. The Committee agreed that this proposal would be the most convenient and economical arrangement as illustrated in Appendix II.

APPENDIX I.

Krishnarajasagara Reservoir.

Table of flood absorption between water level +117 and +120.

Data.

Full supply level +118.
Maximum water level +120.
25 sluices 8′ × 15′ at 80.
18 sluices 8′ × 14′ at 90.
35 vents with automatic shutters 10′ × 8′ at + 110.
Intensity of maximum flood 250,000 cusecs.

From level	To level	Reservoir capacity in m. cft.	Equivalent in cusecs in one hour	Average discharge through the weir sluices	Difference between 250,000 cusecs and column 5 which will be absorbed	Time required for rise of one foot in reservoir	Total time from +117	Remarks
1	2	3	4	5	6	7	8	9
+117	+118	1,193·95	351,574	160,551	89,449	3·7	...	Sluices at + 80, + 90 as well as those in the dam are discharging.
+118	+119	1,220·26	338,866	189,946	60,054	5·6	9·3	Automatic vents also begin to discharge at + 118.
+119	+120	1,247·64	316,470	197,145	52,855	6·5	15·8	

APPENDIX II—Statement showing the proposed arrangements, etc., in case the capacity of the tank is to be raised from F. S. L. + 118 to + 122.

Details of sluices	F. S. L. + 118		F. S. L. + 122		
	Effective head	Discharge at + 118	Details of sluices	Effective head	Discharge at + 122
1. Sluices in the dam ...	...	30,000	Sluices in dam	...	Not to be opened at this level
2. Sluices in weir at +80 25 × 8′ × 15′ ...	30½	83,100	Sluices in weir at + 80 25 × 8′ × 20′	32′	113,200
3. Lift shutters sluices at + 110 90 × 10′ × 8′ ...	8′	63,180	Lift shutter sluices in weir at + 110 90 + 10′ + 12′	12′	115,830
4. Automatic gates at +110 30 × 10′ × 8′ ...	8′	21,060	Automatic gates at + 114 30 × 10′ × 8′	8′	21.060
Total ...	...	197,340		...	250,090

With water at +122 and top of dam at +124 as now designed, there will be practically no margin for flood absorption and so full maximum flood is provided for in the waste weir sluices, while the lower sluices are not proposed to be opened at all at this high level. The extra cost would be only about Rs. 75,000 giving an additional storage of nearly 5,000 m. cft.

PROCEEDINGS OF THE KRISHNARAJASAGARA WASTE WEIR COMMITTEE.

Tuesday, Camp Mysore, dated 25th February 1919

On the morning of the 25th instant, the President and the Members of the Committee visited the Krishnarajasagara Waste Weir site. Inspection was made of the nature of rock met with in the foundation trenches and in the trial pits immediately behind, in the two valleys. The prevailing variety of rock, though rather soft even at depths 20 to 30 feet below ground, was considered hard enough to withstand the floods for a number of years and it was considered that no protection works were needed at present. The floods might be allowed to pass for some years to observe their effect on the bed of the surplus channel.

It was considered advisable to completely fill the foundation trench of the weir from C. S. 136 to C. S. 171 with solid masonry.

The lie of the ground at the weir site was considered suitable for the disposition of sluices and gates as proposed in alternative 4 (*vide* Proceedings of the 24th instant) although this would require the floods of 1920, being passed over the dam in the river gap at + 80 and on the bye-wash 500 feet long at the position of the + 80 sluices Mr. Karpur Shrinivasrao's suggestion to put the automatic gates on the dividing ridge between the A and B valleys was also agreed to In order to prevent the discharges from taking a cross direction towards valley A, a training wall was proposed to be built taking off from the south end of the + 80 level sluices at right angles to the dam for about 150 feet and then along the ridge following the contours for some further distance

Mr. Krishnaiengar's proposal to have two toe walls, one across each of the valleys A and B as shown on the block plan, was considered unnecessary at present, the work being postponed till after the effects of floods on the waste weir channel have been observed. Any scour or cut along the valley line will greatly facilitate the construction of these walls by obviating the necessity for costly baling and shoring for the foundation work.

PROCEEDINGS OF THE KRISHNARAJASAGARA WASTE WEIR COMMITTEE.

Wednesday, Camp Mysore, 26th February 1919.

5th Term of Reference.

"What should be the exact nature of the protective works needed to prevent retrogression of levels in the waste weir channel and the eventual damage to the weir dam ?"

It is impossible for the Committee to predict to what extent protective works below the waste weir will be necessary and what form they should take. No reliable estimates can be prepared at this stage. It is probable that erosion will occur to correct which a series of cross walls may be necessary.

6th Term of Reference.

"Any other points which may arise, or be raised, incidentally.

A suggestion was made to carry the Right Bank Channel by means of a duct along the rear of the masonry wall of the weir instead of by a long open cut as proposed which was likely to silt up by the cross currents (*Vide* sketch attached.)

No. P. W. 465-81—E. 2042-58, DATED 17TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT

Order No. P. W. 465-81—E. 2042-58, dated 17th February 1919.

In the matters relating to minor appointments and routine work, it is observed that there is much of centralization in the Public Works Department Central Office, and the same has not been conducive to the due despatch of work. In order to remedy this state of things, Government are pleased to delegate to the Superintending Engineers, the powers as enumerated in the statement attached, in addition to those now exercised by them.

S. CADAMBI,
Secy. to Govt., P. W. Dept.

To—The Chief Engineer on Special Duty, Cauvery Valley Irrigation.
The Financial Secretary to Government.
The Superintending Engineers of Northern and Southern Circles.
The Executive Engineers of Divisions.
The Comptroller of Mysore, through the Financial Secretary, with file and two spare copies.

Exd.—C. R.

Annexure.

POWERS TO BE DELEGATED TO THE SUPERINTENDING ENGINEERS OF CIRCLES.

1. To appoint, suspend or dismiss:—
   (*a*) Clerks on a pay of Rs. 30 per mensem and below, each Circle being treated as a unit.
   (*b*) Taluk Maistries and Nala Monegars.

Note.—Superintending Engineers should submit to the Chief Engineer, not later than the 31st January every year, a gradation list of clerks, Taluk Maistries and Nala Monegars arranged in the order of seniority, with remarks on their conduct and work, in the prescribed form.

2. To sanction bicycle allowance in lieu of pony allowance.

3. To fix and recover proportionate rents for occupation of Government buildings submitting half-yearly, not later than the 15th of January and the 15th of July every year, a schedule of cases in which orders are passed under the rent rules in force.

Note.—The power exercised under this rule is to be only anticipatory, subject to confirmation by the Chief Engineer.

4. To grant triennial increments to Taluk Maistries and Nala Monegars according to rules.

5. To grant certificates to temporary officials to enable them to insure their lives in the State Insurance.

Formation of private Firms of Architects and Engineers in the City of Bangalore.

No. P. W. 291-352—M. 1463-524, DATED 5TH FEBRUARY 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

Order No. P. W. 291-352—M. 1463-524, dated 5th February 1919.

With the rapid expansion of the Cities of Bangalore and Mysore, and many of the towns in the districts, a large number of private buildings are springing up every year in all of them; but for want of sufficient guidance, the buildings are not properly designed, whether in point of architecture or sanitation, and the result is many unsuitable houses.

2. The Municipalities hardly find time to scrutinise the plans submitted to them for license, and it is more than they can do to see that the houses built are properly ventilated and capable of effective drainage.

3. Private house-builders also labour under the disadvantage of want of technical assistance in constructing their houses. They are in the hands of petty contractors, many of whom have not the necessary technical knowledge to guide them, and very often land their customers in trouble.

4. The same difficulty is experienced by the District Boards and minor Municipalities, who wish to improve their towns, but cannot afford to employ the necessary technical staff permanently. At present, they are greatly dependent on the Government Public Works Department, who hardly find time to attend to them, and many town improvement schemes are, in consequence, put off indefinitely.

5. With a view to remove the above difficulties, and to secure some sort of architectural effect from the new houses being built in the extensions to cities and towns, Government have resolved to encourage the formation of private firms of Architects and Engineers in the City of Bangalore, consisting of local professional men and contractors.

6. The firms will be authorised to furnish private parties with designs and estimates for buildings, and also undertake the construction of them, when required to do so, and the scale of fees to be charged by them for the various items of work will be fixed by Government from time to time. In intricate cases, the Superintending Engineer of the Circle may help the firm, as well as the parties, to come to an understanding as to the quality of work and remuneration.

7. City Municipalities will also be advised to consider the desirability of amending their bye-laws, so as to require plans, etc., sent up to them for licenses being prepared by such firms.

In the case of other Municipalities, the above object may be achieved by a special order passed to that effect.

8. The firms will, in addition, be permitted to advise District Boards and Municipalities, regarding works undertaken by them, such as town-planning, water-supply and drainage, furnishing them with designs and estimates and undertaking their construction, when required, on a scale of fees to be fixed, from time to time.

9. The firms will be recognised on certificates, as to their eligibility, from the Chief Engineer, Public Works Department, to whom all applications will be referred.

10. To encourage the early starting of such firms, Government have resolved, as a tentative measure for two years, to help them with an annual contribution equal in amount to the amount of fees earned by them in the performance of their business, subject to a minimum of Rs. 3,000 per annum, provided they have done satisfactory work during the year. Government are prepared to grant these concessions to three firms during the year.

S. CADAMBI,
Secy. to Govt., P. W. Dept.

To—The Municipalities and District Boards in the State.
The Deputy Commissioners of Districts.
The Heads of Departments.
The Secretaries to Government in all Departments.
PRESS TABLE.

Grant of leave to apprentices in the Railway Department.

No. R. S. 2222-25—Ry. F. 460 L-18-19, dated 12th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

Read—

Correspondence ending with Note No. 138, dated 18th September 1918, from the Agent, Mysore Railways, recommending that Apprentices in the Railway Department may be allowed 10 days' casual leave in a year in accordance with article 158 of the Mysore Service Regulations and that any leave required in excess of this limit should be granted only on medical certificate with half-pay or when a medical certificate cannot be produced as leave without allowances.

Order No. R. S. 2222-25—Ry. F. 460 L.-18-19, dated 12th February 1919.

The Financial Secretary who was consulted on the subject is of opinion that the Agent's recommendation may be agreed to subject to the modification that the concessions regarding leave with full or half-pay are allowed only in the case of apprentices appointed for periods of not less than a year or who have put in service of a like period and that the arrangement of allowing casual leave should be similar to that sanctioned for works establishment.

Government are accordingly pleased to direct that the following rules be adopted in regard to the grant of leave to apprentices in the Railway Department:—

(*a*) Apprentices who are appointed for periods of not less than a year or who have put in a service of a like period, can be granted leave on half-pay or without allowances, according as a medical certificate is or is not produced.

(*b*) Casual leave to Apprentices may be given under conditions similar to those of the Works Establishment under note 2 to Rule I of Appendix A. A. of the Mysore Service Regulations.

D. G. DANI,
Secretary for Railways, Govt. of Mysore.

To—The Secretary to Government, Financial Department.
The Comptroller of Mysore Railways.
The Agent, Mysore Railways.
The Secretary, Railway Committee.

Construction of Audit Office and Staff quarters at Mysore.

No. R. S. 2250-54—Ry. F. G. 254-18-19, dated 13th February 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT

Read—

Government Order No. R. S. 4197-4201—Ry. F. 254G-17-18, dated 29th June 1918. directing that the Railway Audit Office should be transferred from Bangalore to Mysore City, along with other Railway Offices and that the Agent, Mysore Railways, should take early steps to provide the necessary office and residential accommodation for the officers and men of the Audit Department.

2. Railway Secretary's Note No. 531, dated 30th 31st August 1918, submitting for administrative sanction an abstract estimate amounting to Rs. 4,35,000 for constructing Audit Office buildings and quarters for officers and staff at Mysore.

Order No. R. S. 2250-54—Ry. F. G. 254-18-19, dated 13th February 1919.

In the circumstances represented by the Railway Secretary, Government are pleased to accord administrative sanction to the construction of the Audit Office and staff quarters at Mysore at an estimated cost of Rs. 4,35,000 as noted in the statement accompanying this order.

2. The expenditure should be spread over three or four years commencing from 1919-20 and that detailed plans and estimates should be submitted for sanction.

3. Work should be started this year to the extent of funds that can be provided by re-appropriation for the purpose.

D. G. DANI,
Secy. for Railways, Govt. of Mysore.

To—The Secretary to Government, Financial Department.
The Chief Secretary to Government.
The Agent, Mysore Railways.
The Comptroller of Mysore, Railways.
The Secretary, Railway Committee.

PART I.

Deputation of Officers to British Indian Provinces.

No. 1006-1052—C. B. 109-18-1, DATED 1ST MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Order No. 1006-1052—C. B. 109-18-1, dated 1st March 1919.

Government are pleased to lay down the following rules regulating the conditions on which officers of the several departments of the State may be deputed for training or study to places in British India :—

1. Ordinarily not more than one officer in a department will be deputed to British Indian Provinces for training or for study at one time.

Only officers who have acquired practical knowledge in the branch concerned as far as such knowledge can be acquired by actual work in the State service will be deputed for such training or study in other parts of India.

2. Such deputation shall not *ordinarily* exceed a period of three months at a particular place or a total period of six months when deputed for training in more than one place, exclusive of the time occupied in the journey to and fro.

3. (*a*) During the period of such training the officer will be allowed to draw pay and allowance which he would have drawn but for his undergoing such training, besides the Railway fare and mileage admissible for the journeys to and fro under the Mysore Service Regulations. In addition to this—

(i) officers who are drawing a pay up to and including Rs. 500 will be allowed to draw daily allowances ;

(ii) officers who are drawing a pay above Rs. 500 will be allowed to draw a deputation allowance equal to one-fourth of their pay, but will not get any daily allowance.

(*b*) In special cases when the period of training exceeds the limits specified in rule 2, the pay and allowances admissible to these officers will be decided on their merits.

4. The period of absence of an officer on deputation will be considered as on duty.

5. A programme of training should be drawn up by the Head of the Department concerned in consultation with the office to which the officer is to be deputed and approved of by Government. This programme should not be materially deviated from without the sanction of Government.

6. The officer will maintain a diary showing the work done. As soon as the training or study is over, he should submit a report indicating fully the nature of the methods and operations which he may have been studying and including suggestions as to applying such methods or operations in the State.

7. Government reserve the right of requiring refund of the daily or other allowance drawn, if it is found that the time of the officer has not been properly employed.

8. The terms of deputation sanctioned under these rules will be in lieu of the provisions of the Mysore Service Regulations (Articles 55 and 56) *re* deputations.

Recorded.

2. The stocks of food grains (in pallas) according to the census taken on the 10th December 1918 were as follows :—

Rice.	Ragi.	Jolam.	Navane.
3,06,493	15,78,874	1,51,191	36,044

The new harvest has been estimated to yield (in pallas).

Rice.	Ragi.	Jolam.	Navane.
12,89,134	30,77,817	7,79,470	1,78,416

The total quantities (in pallas) of the several grains thus available for consumption are as follows :—

Rice.	Ragi.	Jolam.	Navane.
15,95,627	46,56,691	9,30,661	2,14,460

3. From the above figures it will be observed that the supply of food grains available in the State would be sufficient for only 7 or 8 months at the most and that it cannot possibly last till the next harvest.

4. To meet the deficit, it is absolutely necessary that suitable measures should be adopted. The necessity for conserving and making economical use of the available supply of food stuffs should be brought home to the minds of the public. It is necessary to import rice and broken rice from outside to supplement the existing stock and Government have already taken action in this direction.

5. It is also very necessary that immediate action should be taken to stimulate the cultivation of quick growing crops. The Revenue Commissioner will be good enough to submit definite proposals in consultation with the Director of Agriculture who has already taken steps in this behalf as what further measures should be adopted towards this end.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

Future Supply of rice to the State

No. G. 19937-8—P. P. 122-18-50, DATED 7TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Official Memorandum No. G. 12214-6—P. P. 122-18-14, dated 21st December 1918, authorising the Director of Civil Supplies in Mysore to proceed to Rangoon and purchase 1,000 tons of rice immediately and also make arrangements for the periodical import of rice required by the State.

2. Letter No. 7514, dated the 17—18th February 1919, from the Director of Civil Supplies in Mysore, submitting a report regarding the arrangements made by him at Rangoon and Calcutta for the future supply of rice to the State, and requesting that the arrangements referred to therein may be approved.

(Printed as an annexure to this order.)

Order No. G. 19937-8—P. P. 122-18-50, dated 7th March 1919.

The arrangements made are approved.

Chief Secretary to Government.

To—The Food Controller and Director of Civil Supplies in Mysore.
The Comptroller to Government.

Exd.—C.R.

ANNEXURE.

Letter No. 7514, dated 17—18th February 1919, from the Director of Civil Supplies in Mysore, to the Chief Secretary to the Government of Mysore.

With reference to Government Order No. G. 12214-6—P. P. 122-18-14, dated 21st December 1918, directing me to proceed to Rangoon to arrange for the purchase of 1,000 tons of rice and to conclude arrangements for the periodical imports of rice which may be required by Government, I have the honor to submit the following report for the orders of Government.

2. I arrived at Rangoon *via.* Calcutta on the 9th January and called on the Rice Commissioner Mr. J. A. Stevens, I.C.S., O.B.E. I explained to him the peculiar circumstances in which Mysore stood in regard to the import of Burma rice. The normal imports of rice into Mysore were obtained from the Madras Presidency which was at present suffering from a shortage of food stuffs and was therefore unable to export its usual supplies. The trade with Burma being practically unknown among Mysore merchants, Government had to take the initiative to obtain the necessary supplies. The Food Stuffs Commissioner had promised to permit us to import quantities required for the needs of Mysore and as he had stated that the Rice Commissioner cannot directly act as our purchasing agent I had been deputed by my Government to see what should be done to ensure periodical supplies of rice.

3. In regard to the supply of rice immediately required I persuaded the Rice Commissioner to call for tenders among the leading rice milling firms at Rangoon. After some discussion as to the cheapest method of obtaining rice we decided that it was best to promise payment on delivery of goods on board the Steamer at Rangoon and the notice calling for tenders therefore stipulated for rates F. O. B. Rangoon. I arranged through the Eastern Bank, Calcutta, to obtain funds to the extent of two lakhs of rupees at the Netherlands Trading Society, the agents of the Eastern Bank at Rangoon. Before I left Bangalore I had arranged with the Bank of Mysore for

a sum of three lakhs of rupees being placed at my disposal with the Eastern Bank out of the advances sanctioned by Government. As the Rice Commissioner said that I should obtain satisfactory quotations from millers if I could promise to provide shipping space at once, in accordance with the instructions I had obtained in this behalf from M. Gubbay, I telegraphed to the Deputy Collector of Shipping at Bombay for Shipping space to be placed at my disposal immediately to lift 1,000 tons sanctioned to me by the Food Stuffs Commissioner. I enclose for the information of Government copy of the notice issued by the Rice Commissioner calling for tenders for the supply of rice.

4. In regard to the arrangements for future supplies required by the Mysore State I enclose for the information of Government copy of telegram sent by the Rice Commissioner embodying the results of our discussion on the subject. The proposals formulated in the telegram were subsequently sanctioned by the Food Stuffs Commissioner I beg to submit that the consent of the Rice Commissioner to decide between rival tenderers and to allot shipping space to the successful tenderer has obviated the necessity of appointing a separate Government agent and has thus caused considerable saving to Government. I venture to suggest that the thanks of Government are due to the Rice Commissioner who amidst his numerous other duties has agreed to do this work for Government

5. In regard to payment, the Rice Commissioner has further agreed to endorse all bills forwarded by the successful tenderer, the shipping agents, and the Insurance Companies, and forward them to Netherlands Trading Society for payment on behalf of the Mysore Government. Before endorsing the bills of the supplier of rice he will see that the surveyors certificate regarding the quality of the rice shipped is enclosed with the bill. At the time when all these arrangements were discussed the Rice Commissioner stated as his opinion that it was best to Mysore Gavernment to buy F. O. B. Rangoon and pay for the rice in Rangoon through any Bank.

6. The Netherlands Trading Society is a Dutch Bank with a capital of over Five Million pounds and is the Agent of the Eastern Bank at Calcutta. Mr. Jurgens, the Agent of the Bank, told me that if he was placed in funds through the Eastern Bank, Calcutta, he would pay all bills countersigned by the Rice Commissioner and forward the shipping documents to Messrs. Binny & Co., or any other agents that Government might appoint to unload their rice at Madras.

7. The advantage of the arrangements I had concluded with the Rice Commissioner was immediately observed in the quotations at which old rice was offered in response to the notice of the Rice Commissioner. The London Rangoon Trading Company offered to supply rice packed in bags weighing 225 lbs (net) at Rs. 13-1-0, Messrs. Moola, who had supplied the former consignment that had arrived by S. S. "Derwent", required Rs 12-10-0, Messrs. Jamal Brothers wanted 12-8-0, and the Arracan Company offered to supply at 12-5 0, per bag Mr. Stevens said that the quotations were extremely satisfactory and to his knowledge old rice was not sold at this low rate during the current season. As Government are aware the quotation of the Arracan Company was accepted and necessary shipping space obtained in S. S. "Bulimba" that was due in Rangoon in the course of a few days.

8. I beg to submit that the arrangements outlined above may be sanctioned and I may be authorised to request the Rice Commissioner to call for tenders, select a suitable tenderer for the supply of rice, and countersign his bills after satisfying himself that the surveyor's certificate is in order and the rice is loaded on board I also beg to recommend that the Mysore Bank may be requested to cause necessary funds to be placed in the Netherlands Trading Society through the Eastern Bank so that all bills at Rangoon may be promptly met. I am confident that the arrangements if worked with care will enable Government to obtain all the rice they require at the lowest possible cost to Government. In regard to the purchases of rice at Calcutta as directed by Government I have placed the order with Messrs. Becker Gray & Co., for 500 tons of Bengal rice. I may mention that owing to the heavy drain from Bengal all stock of old rice is practically exhausted and the rice that is now sold in the market is adulterated either with old Rangoon rice and new Bengal rice. The sample that Messrs. Becker Gray & Co., were able to purchase for us at an average rate of Rs. 7 per maund contained 50 per cent new rice As I was informed that a mixture of 50 per

cent of old and new rice might be unsatisfactory owing to difference in the time required for boiling old and new rice I requested Messrs. Becker Gray to have the old and new rice packed in separate bags so that any mixing if feasible might be done at Bangalore. The Company have arranged to purchase at Rs. 7-8-0 per maund for old rice and Rs. 6-8-0, for the new rice.

9. In regard to future purchases of rice from Bengal, I beg to suggest that even new rice will cost between 24 to 25 rupees per palla. I do not therefore recommed that Government should effect any more direct purchases of Bengal rice. It is probable that if the arrangements with the Director of Civil Supplies, Madras, come to effect and we import 1,825 tons of Madras rice every month there will be no need to get any rice from Bengal at all. Even if any such necessity should arise I beg to submit that the situation would be met by distributing our monthly allotments among licensed merchants.

10. I beg to submit that the arrangements I have made at Rangoon and Calcutta may kindly be approved and the orders of Government communicated to me at an early date.

From J. A. Stevens, Esq., B.A., O. B. E., Deputy Food Stuffs Commissioner (Rice), Burma, Rangoon, to Messrs. Steel Brothers, Small Millers Assn. Bulloch Bros., Arracan & Co., Ellerman, Rice Mills Burma, Joseph Heap, Walker & Whyte., M. E. Mulla., Jamal Bros., London Rangoon Trading & Co., dated Rangoon the 9th January 1919.

Gentlemen,

Tenders are called for the supply to the Mysore Government of one thousand tons 1918 crop Small Mills Specials packed in 225lb. Heavy Cee gunnies F. O. B. Rangoon January, February shipment. Survey by Messrs. Morrisen & Co., or Dwan & Company.

Payment in Rangoon on production of shipping documents.

Tenders will be received by the undersigned up to noon Saturday the 11th instant.

I have the honor to be,

Sir,

Your most obedient servant,

J. A. Stevens,

Deputy Foodstuffs Commissioner (Rice), Rangoon.

Office of the Deputy Food Stuffs Commissioner for Rice
Rangoon.
Express telegram, Post Copy.

From Ricom, Rangoon. To Gubbay, Food Commissioner, Delhi, dated the 11th January 1919.

89. Suggest after consulting Civisup, Bangalore, following arrangements for your approval. I will call for and accept c.i,f. tenders behalf Mysore Government provided Mysore Government give me full authority to act. Civisup must arrange freight with Dep Ship and on hearing freight is so arranged I will call for tenders and allot freight to successful tenderers in same way as I now allot other Madras freight. My intervention ceases on informing Civisup details of successful tender, and allotting freight for sale on intimation received from Dep Ship. If you agree would you please arrange with Dep Ship accordingly. I have no responsibilities as to payment. No necessary for Mysore Government to appoint special agent if they can make satisfactory arrangements for payment. Have called for tenders for one thousand tons behalf Mysore Government at Civisup's request. Civisup has telegraphed Dep Ship for freight Madras to lift this quantity. Please let me know what monthly allotments has been given Mysore.

J. A. Stevens,

Deputy Foodstuffs Commissioner (For Rice).

Opening of Reserve Depots.

The Presidents, Bangalore and Mysore City Municipalities.
The Deputy Commissioners of Districts.
The Comptroller to Government.

Exd.—C. R.

ANNEXURE.

Copy of the Resolution of the Food Supplies Committee held on Saturday the 1st March 1919.

* * * *

2. The proposal of the Deputy Commissioner, Mysore District, to buy up 40,000 pallas of ragi and 40,000 kandies of paddy to be stored as a reserve was considered. In this connection, proposals received from certain other Deputy Commissioners also about the opening of Reserve Depots were considered. It was resolved—

(1) that reserve depots should be opened at all taluk headquarters where not less than 1,000 pallas of ragi should be stored ;

(2) that wherever possible, a further quantity of ragi not exceeding 4,000 pallas (or 5,000 pallas in all) for each taluk should be secured with respectable raiyats, giving them an advance of 5 to 10 per cent of the price ;

(3) that in Bangalore, Mysore and Kolar Gold Fields, efforts should be made to store large quantities, *viz.*, up to 10,000 pallas for Bangalore and Mysore and up to 5,000 pallas for Kolar Gold Fields ;

(4) that it is not necessary to buy up and store paddy, but that some whole rice and broken rice should be kept in the depot at the headquarters of each district out of the quantities imported by the Food Controller ;

(5) as to the use to which the grain stored in the depots should be put, it was resolved that as soon as prices go up higher than 7 seers of ragi per rupee, (*a*) works should be opened, on which the greater part of the wages should be given in the shape of grains (sufficient to keep the worker and dependents in health and fair efficiency); and (*b*) gratuitous relief should be given to the infirm, disabled and those who are unable to work and earn a living ; (*c*) that the grain stored in reserve depots should as a rule, be utilised for issue to labourers on works and for affording gratuitous relief as above, and only in exceptional cases to the general public.

Arrangements for supply of ragi and rice to the poor.

No. G. 20748-50—P. P. 134-18-428, dated 17th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Order No. G. 20748-50—P. P. 134-18-428, dated 17th March 1919.

During his visit to the Mysore City on the 15th and 16th instant, the Officiating Dewan inspected the arrangements for the supply of food grains by the Municipality and discussed the food situation generally with the Food Controller, the Honorary President of the Municipal Council and the Deputy Commissioner of the Mysore District.

2. The situation regarding rice is, on the whole, satisfactory. The supply, on account of the recent harvest, is plentiful and grain is freely coming to the market.

There is however some difficulty as regards ragi. The Municipal authorities have opened six depots (one of which is managed by a private merchant) for the sale of ragi, which is issued to ticket-holders at 10 seers per rupee. During February and March about 1,500 pallas were sold in this manner.

But the supply of ragi in the Municipal depots is insufficient and adequate precautions have not been taken to regulate the crowd which gathers at the depots. The ticket system also has not been carefully worked.

3. After discussing the situation with all the officers concerned, the following arrangements have been ordered:—

(i) Government will have to restrict the food distribution in the City to the poorer classes.

(ii) Statistics show that to provide for these classes 150 pallas of food grains are required daily. Seventy-five pallas of ragi and 75 pallas of Burma rice will be sold daily through ten distributing depots to persons who have obtained tickets from the Municipal Office.

(iii) The issue of tickets will be made under a carefully conducted census on the basis of the lists already prepared and the number of tickets, as well as the quantities noted therein, should be regulated with reference to the quantity of grain allotted, that is, 150 pallas per day.

(iv) Strong iron rails and barricades should be put in each place to prevent rush and danger to women and children, entrance and exits being guarded by Police men, who will insist on ticket-holders only being allowed.

(v) The supply of ragi will be made at 10 seers a rupee and Rangoon rice at 6 seers a rupee.

(vi) The Deputy Commissioner, Mysore, will, from now till the end of April, supply to the President a total quantity of 5,000 pallas of ragi according to the detailed* programme laid down to admit of a regular issue of 75 pallas a day, without fail.

*2,000 pallas (including stock already collected) to be supplied before 20th May 1919.
1,500 pallas between 20th and 31st March 1919.
1,500 pallas, between 1st and 15th April 1919.

(vii) The Food Controller will send immediately to Mysore about 4,000 pallas of Burma rice to the Honorary President for issue at the rate of 75 pallas per day.

(viii) Daily reports of distribution should be sent to the Food Controller in the following form:—

	Date	Total received	Total in hand	Total distributed	Number of persons
Ragi ...					
Rice					

(ix) One or two additional Food Inspectors to supervise the distribution should be forthwith appointed and necessary police arrangements should be made.

No. G. 20748-50—P. P. 134-18-428, DATED 17TH MARCH 1919.

(x) Hand bills and tom-tom notices should be widely given announcing the places and the arrangements.

(xi) All non-ticket-holders should be rigidly excluded.

(xii) Lists should be carefully scrutinized by Ward Committees to be appointed for the purpose, whose co-operation should be secured for the working of the scheme

4. The loss entailed by these arrangements will be borne by Government out of the sum sanctioned for the purpose.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Food Controller in Mysore.
The Honorary President, Mysore City Municipality.
The Deputy Commissioner, Mysore District.
The Comptroller to Government.

Distribution of ragi and rice to the poor.

No. G. 20895-904—P. P. 134-18-438, DATED 19TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Para 2 of Government Order No. G. 17649-60—P. P. 134-18-302, dated 17th February 1919, requesting the Deputy Commissioners of Districts to report to Government any abnormal increase in the price of ragi necessitating arrangements to sell grain to the poor at concession rates.

2. Government Order No. G. 20400-22—P. P. 134-18-413, dated 12th March 1919, approving of the proposals of the Food Supplies Committee in regard to the opening of reserve depots for sale of rice and ragi to the poor.

3. Government Order No. R. 11706—R. M. 4-18-86, dated 13th March 1919, directing that village relief works be started urgently as a relief measure, the contribution from villagers under the Village Improvement Scheme being waived.

Order No. G. 20895-904—P. P. 134-18-438, dated 19th March 1919.

Having regard to the acute situation caused by high prices of ragi and the shortage of supplies in the Cities and District Headquarter towns, Government are pleased to direct that distribution of ragi to the poor in the Mysore and Bangalore Cities and other District Headquarter towns be immediately organized.

2. In Government Order No. G. 20748-50—P. P. 134-18-428, dated 17th March 1919, orders have been issued laying down a definite scheme for such relief in the Mysore City. The Food Controller is requested to organise a similar agency in the Bangalore City fixing requisite quantities of ragi and Burma rice in consultation with the Honorary President and the Deputy Commissioner, Bangalore District, who is responsible for the commandeering of ragi.

3. Similar action should be taken by the Food Controller in consultation with the Deputy Commissioners concerned, for opening such depots at District Headquarter towns for sale according to actual necessity. Commandeering should be under the supervision of Sub-Division Officers without exception and the rate fixed according to the prevailing market rate as far as possible, the difference between this and the distribution rate at Government centres being borne by Government.

4. The expenditure under the above scheme will be met by a special grant from the famine reserve.

5. To relieve distress among working classes in rural areas, the Deputy Commissioners are requested to enlarge the programme of village works as far as possible in accordance with instructions given in the Government Order read above. They are also requested to specify the taluks where such relief is most needed and where the rule about raiyats' contributions require to be relaxed.

6. Necessary action may also be taken for opening depots at all Taluk Headquarter stations for sale of imported rice. Necessary establishments at a cost not exceeding Rs. 30 per mensem for each Taluk Depot that may be opened may be entertained.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

The Deputy Commissioners of other Districts.

Exd.—C. R.

ANNEXURE.

Notes of a Conference held at Bangalore on the 8th March 1919 at which the Revenue Commissioner, Mysore, the Chief Secretary, Mysore Government, the Deputy Commissioner, Mysore, the Food Controller and Director of Civil Supplies, Mysore, the Director of Civil Supplies, Madras, the Collectors of the Nilgiris and Malabar and the Commissioner of Coorg were present.

I. Arrangements between Madras and Mysore.

1. For March 1919.—

Mysore will continue to draw 700 tons of rice a month from the licensed exporters in Ramachandrapur Taluk. If any modification is made in the present system of licensed exporters of the Delta Districts, to ensure its better working, Mysore will have the benefit of the change in the scheme, the total amount which Mysore can draw from the deltas per month remaining unaltered. Mysore will be allowed to buy 600 tons of rice in Nellore District in March; for the Nellore rice no maximum price will be fixed for export. For that quantity (1,300 tons in all), the Director of Civil Supplies, Mysore, will issue certificates which will be countersigned by the Director of Civil Supplies, Madras. In the case of any difficulties in obtaining supplies from Ramachandrapur Taluk, the Director of Civil Supplies, Madras, will give the same assistance to Mysore, which he affords to the buying districts in Madras Presidency which are allowed to buy in the Northern Deltas. The balance of the rice which it was previously agreed, Mysore might draw in January and February, may be drawn in March from Nellore District, or if the Mysore authorities prefer in the form of Bengal rice imported into Madras by sea. Mysore does not want any part of the arrears of January and February in the form of Burma rice. The Director of Civil

No. G. 21160-4—P. P. 66-18-220, DATED 22ND MARCH 1919.

Supplies, Madras, will ascertain how much Burma rice has actually been consigned on the marginally noted certificates and this amount will be taken towards the allotment of rice allowed by Madras to Mysore. If the full amount of 700 tons a month from Ramachandrapur Taluk for January and February has not been consigned on certificates already issued and countersigned, fresh certificates will be issued or the period of validity of existing certificates extended to enable each licensee to despatch the full amount of his allotment. A similar arrangement will be made for all allotted quantities not actually consigned.

289,373, 289,379, 289,381, and 289,383 to 289,387

The arrangement now actually in force for the supply of rice and ragi to Gudalur and to the Nilgiri Plateau from Mysore will continue to the end of March; all arrears being made good.

The Director of Civil Supplies, Mysore, will pass the full allotment of 1,400 tons a month of horse gram to Madras Presidency for the months of January and February, reserving 600 tons out of this for the Nilgiris. The purchase and transport of these 600 tons to the Nilgiris will be arranged by the Collector of the Nilgiris in direct communication with the Mysore authorities. Certificates for pulses other than horse gram amounting in all to 128 tons already issued by the Director of Civil Supplies, Madras, and now pending in the Office of the Director of Civil Supplies, Bangalore, will be cancelled and returned. For the month of March, Mysore will allow Madras Presidency to draw 875 tons of horse gram. This will be certificated in the ordinary course by the Director of Civil Supplies, Madras, who will send the certificates for the countersignature of the Director of Civil Supplies, Mysore. The Director of Civil Supplies, Mysore, will intimate from time to time the centres from which, and, if possible, the merchants from whom horse gram may be drawn. Towards the allotment of 875 tons a month for the Madras Presidency for March, 4 tons to be drawn by the Malabar Wynaad for the whole month will be debited. To sum up, Mysore is to draw 1,300 tons of rice (Madras or Bengal rice but not Burma rice, unless Mysore specially asks for it) from the Madras Presidency for March, while the Madras Presidency is to draw from Mysore an equivalent quantity made up of 875 tons of horse gram, 225 tons of ragi and rice to Gudalur and 200 tons of ragi for the Nilgiri Plateau.

2. For April and subsequent months.—

The Nilgiri Plateau will get no ragi from Mysore. The Collector of the Nilgiris will be allowed to draw 50 tons of ragi and 16 tons of rice per week for Gudalur or in all 286 tons per calendar month. The Collector of Malabar will be allowed to draw 50 tons of ragi a month from Mysore for the Malabar Wynaad. Forty-four tons of horse gram per month for the Malabar Wynaad will be passed by the Deputy Commissioner, Mysore, on requisitions from the Collector of Malabar; intimations being sent to the Director of Civil Supplies, Madras. From this date (8th March 1919) onwards no rice will be exported or imported as between Malabar Wynaad and Mysore. During April and subsequent months Mysore will be allowed to draw as at present 700 tons of rice from Ramachandrapur Taluk and 300 tons from Nellore. In lieu of the 300 tons of Nellore rice or any portion thereof, Mysore may, if it prefers, draw Bengal rice from the imports from Calcutta by sea. Mysore will allow Madras Presidency to draw 620 tons of horse gram from centres to be intimated by the Food Controller and Director of Civil Supplies, Mysore, from time to time. This means that Mysore should get 1,000 tons of rice in exchange for 620 tons plus 44 tons of horse gram to Madras Presidency plus 286 tons of ragi and rice to Gudalur and 50 tons ragi to Malabar Wynaad per month.

II. Arrangements between Mysore and Coorg.

In regard to the supplies to Coorg, the Commissioner of Coorg stated that 1,200 pallas of horse gram were required by the Coorg Forest Department, and he was prepared to give double the quantity of paddy in exchange.

The procedure suggested is that the Coorg merchants who bring the paddy into Mysore should be given by the Amildar of Hunsur (on his being satisfied that paddy has been actually imported) a license for transporting half the quantity of horse gram. As to any other requirements of horse gram and as to requirements of ragi, he said he would make further enquiries and intimate to the Food Controller, Mysore.

III. The arrangement for April and subsequent months will continue to the end of June and the question of extending it will come up at a Conference to be held in the middle of June.

Revised Scale of Pay.

No. G. 21136-7—Mily. 431-17-8, dated 22nd March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. G. 957-8- Mily. 216-16-2, dated 24th July 1917, sanctioning the revision of the Mysore Infantry as a temporary measure.

Correspondence ending with letter No. 1156, dated 1st August 1918, from the Chief Commandant, Mysore State Troops, recommending only one grade of pay of Rs. 11 per mensem for all ranks, *viz.*, Lance Naiks, Sepoys, Drummers and Fifers, etc., of the Infantry Regiment.

Letter No. 907, dated 15th September 1918, from the Comptroller forwarding duly verified the Proposition Statement in the matter.

Order No. G. 21136-7- Mily. 431-17-8, dated 22nd March 1919.

Government direct that with effect from 18th February 1919 the minimum pay of the sepoys be raised to Rs. 10 per mensem and that the pay of half the men in the present first grade, *i.e.*, of 330 sepoys on Rs. 10 and also of all the Lance Naiks, Drummers and Fifers be raised to Rs. 11.

The extra cost, which will amount to Rs. 13,608 per annum will be met during the current year from reductions in the military budget which will be effected as a result of cessation of hostilities.

Proposals for the increased grant for the issue of free kit to recruits may be renewed if still required under existing conditions.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Blank Books.

No. G. 18896-955—P. & S. 9-18-102, DATED 1ST MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 871, dated 8th January 1919, from the Superintendent, Government Stationery, proposing that the books noted in the margin may be ordered to be included only in "Stationery Indents" in future and not in "Form Indents" and that the supply to each office may be limited to the number noted against each.

Two blank books for passing office orders.
Do using as Bhavaid books
Four quarto books for writing notes
Four octavo books for writing notes.

Order No. G. 18896-955—P. & S. 9-18-102, dated 1st March 1919.

Government agree with the Superintendent and direct that "Blank books" be included in indents for stationery in future. As regards the quantity, the supply may ordinarily be limited to the number specified above, but in special cases where the necessity for a larger number is made out, the indent may be complied with subject to a maximum of double the normal quantity.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Superintendent, Government Printing.
The Superintendent, Government Stationery.
The Heads of Departments and all other Indenting Officers.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No. 2526, dated 19th March 1919, from the Superintendent, Government Printing, stating that, while no objection was raised in one district during his inspection of the offices in regard to the preservation and use of stationery and forms in them, still in another there was some embarrassment caused perhaps under a misapprehension due to the absence of any such inspections in the past, and requesting, under the circumstances, that instructions may be issued in the matter to the Heads of Departments and Deputy Commissioners of Districts to afford necessary facilities to carry out his inspections without any hindrance.

Order No. G. 21415-75—P. & S. 77-18-2, dated 26th March 1919.

As an inspection by the Superintendent, Government Stationery, of the several offices in the States is deemed desirable for ascertaining the state of things there in regard to the preservation and use of stationery and forms, Heads of Departments and Deputy Commissioner's of Districts are requested to have necessary facilities afforded to the Superintendent when he visits their own offices or those of their subordinates for the purpose.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To —The Superintendent, Government Printing and Stationery
The Heads of Departments.
The Deputy Commissioners of Districts.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Correspondence ending with letter No. 526, dated the 10th March 1919, from the Compiler, *Mysore Gazette*, stating that the Heads of Departments and other officers invariably ask for the supply of spare copies of the notifications and notices published in the *Gazette* sometimes for such small numbers as 3 or 4 and sometimes for such large numbers varying from 1,000 up to 10,000 and that such demands involve much waste of time in the former case and great loss of paper and time on the machine in the latter case and soliciting instructions in the matter.

Order No. G. 21536-95 -P. & S. 58-18-6, dated 26th March 1919.

Government agree with the opinion expressed by the Superintendent and accordingly direct that indents for less than 100 spare copies of such notifications or notices should not be sent to the Government Press for compliance in future.

2. The Superintendent is requested to bring to the notice of Government all cases of abnormally large indents.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Compiler, *Mysore Gazette*.

,,	L. C 286, dated 23rd January ,,	,,	Kadur	,,

Order No. G. 19409-21—Med. 56-18-96, dated 4th March 1919.

Recorded.

The epidemic made its appearance in a mild form at Bangalore in July 1918 but died out soon after without causing any serious loss of life. It re-appeared in a virulent form in the middle of September and spread with alarming rapidity throughout the State. No district was free and very few villages escaped. The disease began to decline from the middle of November and subsided by the end of that month.

2. The Sanitary Commissioner states that it is not possible to connect the occurrence of the epidemic to meteorological or any other known specific cause. The severity of the disease and the symptoms thereof varied with individual constitution, age, and to some extent, according to locality and it was not possible to follow any uniform treatment. Some times the respiratory organs were affected and in many cases pneumonia developed owing to mixed infection. Investigations were carried out in the Public Health Institute to find out if the pneumonia supervening on the attacks of influenza might be some form of pneumonic plague and the results proved that there was no foundation for such a theory.

3. The distress became acute as whole families were laid up and there was no one to attend to the wants of the patients. A census taken in the Bangalore City on the 6th and 7th of October revealed the fact that as many as 10,000 patients were suffering from the disease on those days. The distress was further aggravated by the abnormal rise in the prices of food grains and shortage of supply in the market.

4. The total number of attacks according to the returns furnished by the Deputy Commissioners was 8,83,491 and the total number of deaths was 1,66,391 or 20·1 per mille of the population. The Tumkur District suffered most with a total motality of 35,260 and Kadur the least with a mortality of 5,867. Out of a total of 40,000 attacks in the Bangalore City, 2,074 proved fatal; the highest mortality in any one day was 142 and it was reached on the 25th October. In the Mysore City there were 36,550 attacks and 1,296 deaths. The attacks and deaths in the Lunatic Asylum 12 and 2 respectively; in the Central Jail, Bangalore, 292 and 20 and in the Mysore Jail 147 and 3. These figures go to show that with proper sanitary surroundings the mortality could be reduced to the minimum.

5. A special ward was first opened in the Epidemic Diseases Hospital, Bangalore, and to prevent overcrowding and minimise inconvenience to the patients, dispensaries were ordered to be kept open from 7 A.M. to 12 noon and again from 4 P.M. to 8 P.M. But as the disease spread, accommodation was found insufficient and so a temporary Hospital under canvas was opened in a convenient part of the City. Altogether 1,062 out-patients and 198 in-patients were treated in this Hospital; out of these, 54 died or 28 per cent of the total number admitted. One hundred and one patients were treated in the Epidemic Hospital, Mysore. Out of these, 30 died giving a death rate of 29·7 per cent of admissions.

6. Batches of medical students were deputed to work in conjunction with the medical subordinates in the Cities of Bangalore and Mysore. In other Municipal towns,

the treatment and care of the sick was left to the Sub-Assistant Surgeons in charge of the Dispensaries. Patients suffering from Influenza were admitted freely in the Mission Hospitals of Kolar and Chikballapur.

7. The medical staff was suitably augmented but as the disease spread, the demand became so great that it was not possible for the regular staff to cope with it. Qualified medical men were not available as they were in demand in all parts of India which were likewise affected and the services of local Pandits and Hakims had therefore to be utilised for the purpose. Government are glad to observe that the Pandits and Hakims did yeoman service and treated successfully a large number of patients in the cities and villages.

8. As the situation demanded rapid itineration on the part of the medical officers, permission was accorded to the District Medical Officers to engage motor cars to enable them to travel as rapidly as they could to give medical aid and relief to the people in the outlying parts of their districts. The Sub-Assistant Surgeons itinerated within their areas and supplied medicines to patients in the villages.

9. Special accommodation was provided for housing the sick by erecting sheds near the dispensaries, in the districts of Kolar, Tumkur, Kadur and Shimoga.

10. A sufficient quantity of medicines was supplied by the Senior Surgeon to all the permanent, temporary and itinerant dispensaries. Thymol, which was used, both as a curative and as a preventive, was issued from the Public Health Institute, to all the districts and cities. Leaflets explaining the nature of the disease and detailing the precautionary measures to be adopted were issued by the Sanitary Commissioner. Sufficient provision was also made for water-supply and fuel at the cremation grounds.

11. Relief parties were organised for the distribution of medicines, milk and conji to the poor and suffering. In several places, private gentlemen fully realised the needs of the situation and readily came forward to afford their help for the relief of the sick and the poor. The progress of relief measures was greatly furthered by the institution in each local area of Special Committees consisting of the most influential of the leading citizens and the chief local officers. A very gratifying feature of the relief measures was the spontaneous response of the student population to the call of the Municipality and their ready and willing co-operation with the official organisations for the relief of distress.

12. Out of the total allotment of Rs. 1,13,866, sanctioned by Government from time to time for adopting measures to combat the Influenza epidemic in the State, an expenditure of Rs. 81,386, was incurred, of which a sum of Rs. 32,186 was for the supply of medicines.

13. Two statements are appended to this order one showing the number of attacks and deaths and the other expenditure incurred in the several parts of the State.

14. Government are pleased to place on record their appreciation of the good work done by the Presidents of the Bangalore and Mysore City Municipalities, the Deputy Commissioners of Districts and the Officers of the Revenue, Medical and Sanitary Departments and the several Municipal Committees and public spirited citizens who spared no pains to alleviate the suffering of the poor people. Special credit is due to the many voluntary associations like the Amateur Dramatic Association, the Boy Scouts, etc., who rendered valuable help in taking medicine and nourishment to the doors of the sick and the needy.

Labour Supply in the Malnad.

No. G. 20308-13—San. 80-16-15, dated 10th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter dated the 5th October 1917, from Mr. Hosakoppa Krishna Rao, submitting for orders, a final scheme drawn up by him for the labour supply in malnad at a cost of Rs. 25,000 per annum.

2. Letter No. C. 344, dated the 9th October 1917, from the Deputy Commissioner and Chairman, Malnad Improvement, Shimoga District, submitting for sanction a scheme approved by the Central Committee for the organisation of a labour bureau for the malnad at a cost of Rs. 5,000 per annum, the cost being met out of the Supari Cess Fund collections of the Shimoga and Kadur Districts.

3. Petitions from the residents of South Canara, offering certain criticisms with reference to the scheme prepared by the Malnad Improvement Committee.

4. Letter dated the 13th December 1917, from Mr. Karody Subba Rao, Udipi, expressing his views about the labour scheme approved by the Select Committee of the Malnad Improvement Committee.

5. Letter No. 4737, dated the 6th February 1918, from the Secretary, Economic Conference, stating that the scheme formulated by the Secretary, Central Committee, may be tried, as it has the advantage of having been discussed at a meeting of the Central Committee of the Malnad Improvement Scheme.

6. Letter dated the 25th February 1918, from Mr. H. Krishna Rao, forwarding a copy of the Proceedings of the meeting of the Malnad Land-holders Association held at Hosakoppa on the subject.

Order No. G. 20308-13—San. 80-16-15, dated 10th March 1919.

Since the introduction of the Malnad Improvement Scheme which had the effect of setting the people in that area to think about the amelioration of their condition, the question of the supply of labour to the arecanut garden owners has been frequently urged for the consideration of Government. Much valuable thought has been bestowed on the subject, both by individual members of the Malnad Improvement Committees and by the Committees themselves as the result of which several schemes have been submitted for the consideration of Government, with a view to secure Government assistance and co-operation, while not taking state finance to any great extent. Government appreciate the earnestness with which the details of a scheme of this kind have been threshed out. After having carefully considered the subject in its several aspects, they desire to point out that the question of labour supply is essentially a social and economic problem, the success or failure of which depends upon the amount of co-operation there is among the land owners themselves, and their capacity to organise for a common purpose on definite principles. This question affecting, as it does, the interests of both employers as well as labourers, besides being intimately connected with the question of wages and the conditions of employment is, however, pre-eminently one for private initiative assisted, if and when necessary, by Government in matters relating to superintendence and advice.

2. It has been repeatedly urged, however, that in the present state of the malnad, initiative in a matter of this kind cannot be expected and that in order to infuse confidence into the minds of both the employer and the cooly, and to check the evil influences of the uncontrolled Kungani, the interference of Government in the earlier stages of the scheme is necessary. Government agree that there is need for an organisation of this kind and that a start may be made to induce the garden owners to combine for the economic development of their gardens, which form a valuable asset of the State. Government are accordingly pleased to direct that an experiment be made in this direction in respect of the taluks of Koppa and Tirthahalli in the manner and subject to the conditions set forth hereunder.

3. Before the establishment of a Labour Bureau on the lines recommended by the Shimoga District Committee, the Chairman of the Committee is requested to make a preliminary investigation into the following matters and to submit a report to Government within three months.

No. G. 20308-13—San. 80-16-15, dated 10th March 1919.

(1) Whether three-fourths of the number of labour employing garden owners in the taluks, referred to, agree, in writing, to act through this department only, becoming members thereof, and subject to such rules and conditions as may be prescribed by the department in respect of wages, manner of employment, hours of labour, etc.

(2) Whether the land owners will be prepared to contribute a moiety of the cost of the scheme, by raising a suitable acreage cess.

(3) Whether the employers of labour will provide for adequate sanitary arrangements for housing the labourers, etc.

4. On these conditions being satisfied, a labour recruiting agency will be stationed at Udipi as recommended by the Shimoga District Committee with the marginally noted establishment for dealing with the following matters:—

	Rs.
1 Labour correspondent Rs. 200 plus local allowance Rs. 50 plus fixed travelling allowance Rs. 50	300
1 Clerk	40
1 Clerk	15
1 Peon	8
3 Labour agents on Rs. 35 each with fixed travelling allowance of Rs. 10 each	135
Contingencies	50
Total per mensem ...	548
Cost per annum ...	6,776

N.B.—Maistries to be entertained on a monthly pay not exceeding Rs. 10 a month to be supplemented by payment of commission at 2 or 3 per cent on the amount paid to the coolies supplied to each owner.

(1) Obtain information as to where, when, what kind of labour and to what extent labour will be available within any specified labour supplying area.

(2) Ascertain the extent to which and the period during which labour will be required in the taluks taken up for consideration.

(3) Arrange for the preparation of a list of reliable Kanganies or cooly maistries.

(4) Suggest arrangements for regulating the payments to be made by employers either in the shape of wages or in the shape of advances.

(5) Supervise cooly interests and prevent desertion.

(6) Undertake as far as possible, the steady supply of labour at short notice. The attention of the District Committee is invited to the fact that the weak point of the whole problem seems to lie in the fact that the recruiting Kangani is ordinarily an irresponsible person who tries to fleece the cooly and to exploit the employer, and the chief effort of the scheme should therefore be to minimise the Kanganis' evil influence, by proper control. The appointment of paid maistries will, it is hoped, secure the above object and if a liberal commission is arranged to be paid to the maistry on the results of his work, the danger of his falling into a state of paid inactivity may be avoided.

5. The labour Agency will be under the control of the Shimoga District Committee, assisted by an Advisory Board of ten members elected from among the landowners, who are members of the department.

6. The scheme will be temporary for a period of two years and a moiety of the total cost in each year will be met out of the Supari Cess Fund, the other half being contributed by the labour employing landowners, calculated on the basis of the acreage under each member's holding.

7. The Chairman, Malnad Improvement Committee, Shimoga, is also requested to submit draft rules for the working of the Bureau, together with the accounts, reports and forms that may be prescribed for the Bureau, for the approval and order of Government.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Reorganisation of the Public Health Department.

No. G. 18997-9—San. 73-17-6, dated 1st March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS

THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. 5113-63--San. 86-13-35. dated the 8th February 1917, sanctioning the reorganisation of the Public Health Department.

2. Correspondence ending with letter No. G. C. 235-6, dated the 1st April 1918 from the Sanitary Commissioner in Mysore, submitting proposals for a further reorganisation of the Public Health Department.

Order No G. 18997-9—San. 73-17-6, dated 1st March 1919.

Under the arrangement sanctioned in Government Order of the 8th February 1917 read above, a full-time Sanitary Commissioner is now at the head of the Public Health Department with two Assistants for the work of the Public Health Laboratory and the Superior District Sanitary Service consists of a separate District Sanitary Officer for each of the Districts of Mysore, Hassan, Shimoga and Kadur and *ex-officio* District Sanitary Officer for each of the remaining districts. There are in addition the three Health Officers of the Cities of Bangalore and Mysore and the Kolar Gold Fields paid by the respective Local Bodies. It is found by experience that the existing staff is inadequate for the growing requirements of the Department. A sufficient reserve of trained officers is required for employment in emergencies in connection with the prevalence of epidemics and arrangements have also to be made for enabling the District Sanitary Officers to keep in touch with up-to-date scientific knowledge by working in the Public Health Laboratory from time to time. The present scale of pay of the superior staff likewise needs revision and has to be brought into line with that of the Medical Service as recently organised, in order that men with the requisite qualifications may be attracted to the Public Health Department.

2. Having regard to the considerations mentioned above, Government are pleased to revise the strength and scale of pay of the staff of the Public Health Department including the three Health Officers as follows:—

No.	Designation	Pay	Remarks
1	Sanitary Commissioner ..	1,000	....
4	Three Health Officers and one officer in charge of Public Health Institute and Office Assistant to the Sanitary Commissioner.	400—30—700	Pay of Health Officers to be borne by the Local Bodies concerned.
7	Four District Sanitary Officers, one Assistant to the Public Health Institute and two officers* (reserve).	150—15—360	One-third of the pay of the District Sanitary Officers to be met by the Local Boards and Municipalities.
4	Sub-Assistant Surgeons (reserve)*	45—[illegible]—65	*Pay of the two reserve officers on Rs. 150-15-360 and four Sub-Assistant Surgeons to be met from the lumpsum provision of Rs. 25,400 for plague charges.

No. G. 18997-9—San. 73-17-6, dated 1st March 1919.

3. There will be a District Sanitary Officer for each of the two Districts as grouped in the margin. The District Medical Officers, where they are now holding the District Sanitary charge as well, will be completely relieved of this *ex-officio* function. The District Sanitary officers will be responsible for the sanitary administration of their respective districts and it will be one of their important duties to offer advice and assistance to the Local Boards and Municipalities in all sanitary matters.

Mysore and Hassan.
Tumkur and Chitaldrug.
Bangalore and Kolar
Shimoga and Kadur

4. The Sanitary Commissioner is requested to submit detailed proposals for giving effect to the arrangements herein sanctioned consistently with the objects in view.

5. The two temporary appointments sanctioned in Government Order No. 6005-6—San. 59-17-13, dated the 27th April 1918, will be absorbed in the scale as now revised.

6. As regards the Vaccine Institute recently transferred to the control of the Sanitary Commissioner, in Government Order No. 3261-31—San. 126-17-6, dated the 20th August 1918, the existing scale of establishment will continue for the present.

7. The question of attaching a public works staff to the Public Health Department is reserved for separate consideration.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Sanitary Commissioner in Mysore.
The Comptroller, Mysore Government, through Financial Secretariat.
The Senior Surgeon in Mysore.

Rules for Combating Epidemics in rural as well as urban areas.

No. G. 21371-402—San. 101-17-12, dated 25th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Correspondence ending with letter No. G. C. 22-7, dated the 23rd December 1918, from the Sanitary Commissioner, submitting a revised set of draft rules for combating epidemics in rural as well as in urban areas.

Order No. G 21371-402—San. 101-17-12, dated 25th March 1919.

The rules proposed by the Sanitary Commissioner are approved with slight modifications. A copy of the rules is appended to this order.

The Sanitary Commissioner, the Deputy Commissioners of Districts and the Presidents of Local Bodies are requested to see that the rules are strictly enforced and submit information in their annual reports as to their working.

The President, Sanitary Board, Kolar Gold Fields.
The President of the Sringeri Municipality, through the Deputy Commissioner, Kadur District.
PRESS TABLE.

Exd —C R.

Rules for Combating Epidemics.

The term 'Epidemic' refers to diseases due to the specific microbes, *e.g*, those of cholera, small-pox, plague, etc, which affect or are likely to affect a large number of people at the same time.

Section I—Organisation, equipment and procedure in rural areas.

2. *Agency invested with responsibility for action.*—The Amildars of Taluks and Deputy Amildars of Sub-Taluks, assisted by the Local Sanitary or Assistant Sanitary Inspectors, shall be responsible for the adoption of the rules prescribed hereunder for rural areas, both the general rules, rules pertaining to procedure as well as the special ones laid down under specific diseases

3 *Prompt report of outbreaks of epidemics (a) by local officer.*—It shall be the duty of the patel or, in his absence, of the shanbhog to submit by express messenger a report to Taluk Office and another to the Medical Officer in charge of the nearest dispensary, as soon as cases of any epidemic, whether imported or indigenous, occur and, in the case of plague, immediately rat mortality is observed in the village

4 *(b) By Amildar or Deputy Amildar*—The Amildar or the Deputy Amildar on receipt of the report from any village, shall send immediate information (1) to the Medical Officer in charge of the nearest dispensary, (2) to the Presidents of Municipal Councils in the Taluk, (3) to the District Medical Officer, (4) to the District Sanitary Officer, (5) to the Deputy Commissioner of the District, (6) to the Amildars of adjoining taluks, and (7) to the Sanitary Commissioner.

5. *Preliminary action before arrival of Medical Officer (a) by patel.*—The patel, or, in his absence, the shanbhog, pending the arrival of superior officers, shall notify to the villagers the expediency of following the elementary Sanitary Rules (printed as an annexure to these rules) and make arrangements to see that the sanitation near the infected locality is carefully observed. These arrangements shall include the adoption as far as possible of such of the preventive measures as can be carried out without any professional assistance.

6. *(b) By Amildar or Deputy Amildar.*—If the Medical Officer or the Sanitary Inspector has not already proceeded to the village, the Amildar or the Deputy Amildar shall forthwith proceed to the village and personally see to the carrying out of disinfection and other preventive measures. He may leave the village before the arrival of a Medical Subordinate or Sanitary Inspector in case the hobli shekdar is left in the village to carry out his instructions. Special endeavour should be made to encourage and develop local initiative, by enlisting the co-operation of the Village Improvement Committees and of voluntary workers possessing influence in the villages.

7. *Form of report and frequency of submission.*—The report alluded to in the preceding paragraph should be in the following form :—

Date	Attacks	Deaths	If imported wherefrom	Nature of action	Names of Village Improvement Committees or of voluntary workers engaged in the adoption of preventive measures or affording relief
1	2	3	4	5	6

The report should be submitted by the patel daily till after a week of the occurrence of the last case of the epidemic in the village.

8. *Stock of disinfectants and medicine.*—The Deputy Commissioner and President of the District Board should see that each Taluk Office is supplied with a sufficient quantity of disinfectants, and a sufficient number of medicine chests, the quantity and number of these articles being fixed in consultation with the Sanitary Commissioner and the Senior Surgeon respectively. Each medicine chest should contain, in the vernacular, a complete set of instruction for the use of the medicine and disinfectants. The Amildar or the Deputy Amildar will be responsible for maintaining sufficient stock of medicine and disinfectants in the taluk.

9. *Custody and issue of disinfectants and medicine.*—The stock of medicine and disinfectants should be kept in the Taluk Office but its issue will be regulated by the Local Medical Officer who, on receipt of first information of an outbreak of an epidemic, will advise the Amildar or the Deputy Amildar as to the quantity of medicine and disinfectants that may be issued for use in the affected area. If the Medical Officer himself proceeds to the village, he shall take with him both disinfectants and required medicines. In the case of villages with a population of over 1,000, the Amildar or the Deputy Amildar should arrange to leave with the patel, or the Chairman of the Village Panchayet as the case may be, a sufficient quantity of disinfectants and a couple of medicine chests with clear written instructions for use.

10. *Application for Medical assistance and extra sanitary staff.*—If the epidemic breaks out in more than one village at the same time and the services of the Sanitary Inspector and the Medical Subordinate are otherwise fully employed, the Amildar shall apply, without loss of time, to the District Medical Officer for medical assistance and to the Deputy Commissioner for additional sanitary staff. In the meantime, suitable arrangements should be made for the adoption of preventive measures, a temporary gang for disinfection and observation work being employed, if necessary. The Presidents of Taluk Boards should arrange to train a few men in the permanent conservancy staff in the technique of disinfection so that they may be deputed for preventive duty their places being taken by the temporary gang newly employed. Similar training should be given through the Sanitary Inspectors to a few local men in all important villages.

No. G. 21371-402—San. 101-17-12, dated 25th March 1919.

11. *Organisation of preventive and Medical Staff.*—Should it appear to the Deputy Commissioner that any epidemic imminently threatens to spread into several villages at the same time, he should immediately organise a preventive and medical staff and place it at the disposal of the officer responsible for working these rules. The staff should be stationed in a central place in the affected area and will operate in the villages situated within a radius of five miles from such place. The apparatus, disinfectants and medicine chests required by the staff should be issued from the nearest Taluk Office, the stock being replenished whenever necessary from the same source.

12. *Personnel of the staff.*—The staff shall ordinarily consist of:—

(i) The reserve Sanitary Inspector for the district, or in case he is already posted for charge of a preventive staff constituted in some other part of the district, local Sanitary Inspector.

(ii) One mestri and a gang of temporary coolies not less than six in number, and

(iii) a Sub-Assistant Surgeon drawn from the special reserve in the Medical Department and trained in modern methods of cholera treatment.

Duties of the staff.—It will be duty of the members of the preventive staff to obtain early information as to the cases of the epidemic occurring in the Circle, to visit every house in which a case has occurred, to thoroughly disinfect the infected house, including the floors, the walls and the furniture, with a solution of phenyle or cyllin.

The Sub-Assistant Surgeon also shall reside in a central place and be available for attendance free of charge on the sick in their own houses. The Village Improvement Committees, if any, in the area should, as early as possible, be associated with the work of the staff both preventive and medical. They should be frequently consulted, as to the course of action consistently with these rules, and their suggestions for payment of compensation, construction of temporary isolation sheds, sinking of temporary wells, duly carried out.

13. *Powers of sanction of the Deputy Commissioner.*—Deputy Commissioners are empowered to sanction, within the limits of the budget provision—

(*a*) the employment of temporary gangs,
(*b*) the purchase of diet articles and country medicines,
(*c*) other contingent charges pertaining to relief measures and
(*d*) compensation for infected, bedding and clothing destroyed.

In case of the available grant in the budget being found inadequate by reason of an unusual severity of prevalence of the disease in the district, a special grant-in-aid may be applied for through the Sanitary Commissioner.

14. *Imprest for expenditure.*—The Amildar or the Deputy Amildar as the case may be should be provided with a permanent advance of Rs. 50 for expenditure under epidemic charges, the whole or a part of which may be given to the subordinate officer immediately responsible for working the rules, the advance being recouped from time to time by bills supported by vouchers.

15. *Final report of measures adopted.*—The Amildar or the Deputy Amildar should, fifteen days after the occurrence of the last attack in the area, submit a report on the epidemic and the action taken, to the Deputy Commissioner who will transmit the report to Government through the Sanitary Commissioner.

Section II.—Organisation, Equipment and Procedure in Urban Areas other than City Municipalities.

16. *Agency.*—The Chairmen of the Municipal Councils, assisted by the local Sanitary or Assistant Sanitary Inspector, shall be responsible for taking prompt and effective measures to prevent the spread of epidemic diseases in the Municipal areas.

17. *Information of out-break of epidemics.*—The Chairmen of the Municipal Councils should arrange to obtain the earliest possible information of cases of any epidemic occurring within the Municipal limits or within close proximity to the Municipality. Such arrangements include the formulation and the effective working of Bye-laws if necessary under the provisions contained in the Municipal Regulation for the compulsory notification of cases of illness due to epidemic diseases. It is also open to the Municipal Council to invest selected members of its regular staff with the duty of finding out and reporting the occurrence of epidemic diseases.

18. *Report to higher officers and adjoining taluks.*—On receipt of the first report of an epidemic, the Chairmen should send immediate information to:—

(i) the Medical Officer in charge of the local dispensary, if there is one, or the nearest dispensary,
(ii) the President of the Taluk Board,
(iii) the District Sanitary Officer,

(iv) the District Medical Officer,
(v) the Amildars of the adjoining Taluks,
(vi) the Deputy Commissioner of the District,
(vii) the Sanitary Commissioner in Mysore.

19. *Committee to be appointed.*—In every Municipality, a Committee should be appointed, in consultation with the Deputy Commissioner of the District, consisting of two or more of the Municipal Councillors whose duty it will be to advise and assist the Chairman in all matters relating to the epidemic disease prevention in the Municipality. The Committee will have power to associate volunteers possessing influence in the local area in the arrangements made for preventing the epidemic or affording relief to the people.

20. *Organisation of preventive staff.*—In every Municipality, a few of the permanent hands, preferably among the existing Sanitary Conservancy Staff, should be trained in the special work of disinfection and observation. When an epidemic actually breaks out or when there is reason to apprehend its outbreak, the trained men should be withdrawn from their current duties and detailed for special work, their places being taken by temporary men. The Chairman is empowered to appoint a temporary staff consisting of one peon and not more than two totis for every thousand of population, to replace the permanent men withdrawn for special duty or to augment the preventive staff whenever necessary.

21. *Powers of sanction of Presidents.*—The Chairmen are empowered to incur, within the limits of the budget provision, and on the advice of the Special Committee expenditure, on—

(*a*) the employment of temporary gangs as detailed in the preceding paragraph.
(*b*) the purchase of diet articles and country medicines.
(*c*) other contingent charges pertaining to relief measures.
(*d*) compensation for infected bedding and clothing destroyed.

In case of the available grant in the budget being found inadequate by reason of unusual severity of the prevalence of the disease, the Municipal Council may apply to the Government for a special grant-in-aid through the Sanitary Commissioner.

22. Necessary provision should be made in the budget of the Municipal Councils for epidemic charges calculated on the basis of Rs. 1,000 for every 10,000 of population.

23. *Stock of disinfectants and medicines.*—The Chairman should have, in the Municipal Stores, a sufficient quantity of disinfectants and the necessary apparatus for carrying out disinfection, the nature and the quantity of the articles to be stocked being determined in consultation with the Sanitary Commissioner. He should also obtain a few medicine chests from the Senior Surgeon and stock them for use during emergencies by the local Medical Officer, or if there is none, pending the arrival of the Medical Officer from the nearest dispensary. Each medicine chest should contain, in the vernacular, a complete set of instructions for the use of medicines.

24. *Duties of preventive staff.*—It will be the duty of the members of the preventive staff to obtain early information as to the cases of the epidemic occurring in the Municipality, to visit every house in which cases have occurred, to thoroughly disinfect the infected house and generally to carry out all instructions issued by the Chairman on the advice of the Committee or the local Medical Officer.

25. *Permanent facilities and equipment.*—Arrangements should be made in every Municipality for the construction of sheds according to approved designs, the number of such sheds depending upon the population of the Municipality and the frequency of the prevalence of the epidemics. These sheds should be used as:—

(*a*) Health camp for the temporary occupation of the people required to vacate their own houses for disinfection purposes.
(*b*) Contact sheds.
(*c*) Isolation wards for the segregation and treatment of the sick.

Each of the three groups of sheds should of course be at some distance from one another, the isolation sheds being preferrably located as near as conveniently possible to the dispensary buildings. The isolation wards should be furnished with cots, bedding and clothing and other equipment.

26. *Trend of Policy in Municipal Councils in regard to epidemic prevention.*—With a view to minimise the ravages of plague and cholera, Government expect early action being taken in every Municipality for the formation and effective working of Bye-laws relating to,

(*a*) House construction.
(*b*) Enforcement of rat-proof conditions in existing dwellings.
(*c*) The formation of well planned town extensions and the prevention of the

contamination of the water-supply by fitting up pumps wherever feasible or other items that require continuous attention.

27. *Medical aid.*—It shall be the duty of the Medical Officer to arrange for the treatment of cases of epidemic diseases in Municipalities where there are no hospitals. In other cases, the local Medical Officer should render the necessary medical assistance. Should, however, the epidemic assume a serious aspect, the Chairman will apply to the District Medical Officer for extra medical aid and the latter officer should make the necessary arrangements after inspecting the locality, if necessary.

28. *Final report of measures adopted.*—The Chairman should submit, a fortnight after the epidemic has completely ceased, a detailed report of the outbreak of the epidemic and measures taken to combat it, to the Deputy Commissioner of the District and also to the Sanitary Commissioner.

The preventive staff may be continued for two weeks after the last case has occurred and then disbanded.

Section III—Special Rules for Cholera.

29. *Mode of spread of cholera and objects aimed at in preventive methods.*—The infection of cholera is conveyed by the microbes that exist in the excreta of persons attacked by the disease Cholera is usually spread by persons infecting the drinking water supply, frequently also by flies infecting food and occasionally through persons who although are apparently healthly, yet harbour the microbes in their intestines. The present rules aim primarily at providing for either the immediate destruction of these microbes or for minimising the chances of their being conveyed into substances in which they will be swallowed by other persons.

30. *Occasions when special vigilence is needed.*—It shall be the duty of the local authorities to keep themselves informed of the occurrence of the cholera cases in adjoining towns and villages and to lose no time in taking precautionary measures when an outbreak is apprehended or appears imminent. Special caution should be exercised when there is a movement of large number of people to places outside the local area for purposes of attending fairs and festivals or when pilgrims pass through the town or village on their way to or from places of pilgrimage, whether the latter places be or be not actually affected with cholera at the time.

31. *Precautionary measures when an outbreak of cholera is imminent or apprehended.*—The general precautionary measures to be adopted on such occasions are:—

(*a*) Prevention as far as possible of outsiders from having access to and fouling the water-supply.

(*b*) Sinking, and temporary use, of infiltration wells in case the water-supply in the town or village is obtained from tanks and streams.

32. As a general precaution, all wells in the local area should be permanganated thoroughly once during the hot weather every year whether there is cholera or not. If pottassium permanganate is not readily available, quick lime may be used with equally good results.

33. *Disinfection of sources of water-supply.*—Immediately on an outbreak of cholera all wells in the affected area should be treated with sufficient quantity of Potassium Permanganate so as to leave a pink colour for twenty-four hours. In the absence of Potassium Permanganate, a couple of baskets of quicklime should be used for each well. The same precaution should be taken in the case of wells in the adjoining villages, though they may be uninfected.

34. During epidemic times, watchmen, preferably policemen, wherever available, should be placed near step-wells, tanks, or streams, to prevent the contamination of water by bathing or washing of clothes. In the case of draw wells, it would be well to employ a high caste man to draw water and supply it for drinking purposes to all who resort to the well.

35. *Prevention of the multiplication of flies.*—Special attention should be paid to the frequent removal of night-soil and other refuse to a distance from the town or village. The rubbish should be either buried deep or covered with a layer of quicklime to prevent the breeding of flies.

36. *Facilities to be provided to people for personal prophylaxis.*—Every house from which a cholera case is reported should be promptly supplied with—

(*a*) a solution of phenyle with instructions that the people who attend on the patient should wash their hands with it each time they touch the patient or the excreta.

(*b*) one grain packets of Potassium Permanganate for internal use in solution, by the patient as well as contacts.

No. G. 21371-402—San. 101-17-12, dated 25th March 1919.

37. *Segregation of patients and contacts.*—On the occurrence of a case of cholera, the people should be persuaded to send the patient to the isolation ward, if there is one and themselves remove to the Health Sheds. If facility for segregation is not in existence, it is desirable that the local authorities should arrange to put up temporary huts.

38. *Disinfection (a) of excreta.*—Great care should be taken to see that all choleraic vomit and excreta are at once collected, mixed with saw dust, paddy husk or other combustible matter, and burnt on or near the premises, if not burnt, the excreta buried deep far away from the sources of water-supply.

39. *(b) of effects.*—All infected material, if of no value, should be burnt, if valuable, they should be immersed in boiling water and then dried in direct sun-light. Compensation claimed on account of valuables destroyed should in all cases be paid.

40. *(c) of the infected house.*—After a case of cholera, the house and especially the room occupied by the patient should be thoroughly disinfected with Phynile solution. All drains which discharge into the open should be flushed with the same solution.

41. In cases in which the attack of cholera proves fatal, it shall be the duty of the local authority to see that the mode of disposal of the dead body does not constitute a source of infection, special arrangements being made to ensure that the dead bodies are properly buried and away from sources of water-supply.

42. The occurrence of cholera in any place should be made known to the people who should be warned to boil all the drinking water.

Section IV—Special Rules for Small-pox.

43. *Prompt vaccination of unprotected children.*—As soon as a case is notified in any area, the local authority should send an urgent requisition to the Sub-Assistant Surgeon or the Taluk Vaccinator, as the case may be, to vaccinate all the unprotected children in the area. The re-vaccination of persons who have not been vaccinated for five years previously should be encouraged as far as possible. It shall be the duty of the local authority to assist the Sub-Assistant Surgeon or the vaccinator in finding out all cases to be vaccinated.

44. *Concentration of vaccination staff wherever necessary.*—If the affected area is large such that one vaccinator cannot be expected to speedily vaccinate all the unprotected children, a report should be at once submitted to the higher authorities bringing to notice the need for employing additional vaccinators. The authority receiving the report should, if satisfied with the need for extra assistance, lose no time in posting one or more additional vaccinators withdrawing them from stations where their services are not in urgent demand.

45. *Other preventive measures.*—People should be advised to avoid going to the house infected with small-pox or freely mix with the contacts until the epidemic has completely subsided. All houses in which small-pox cases have occurred should be disinfected by the process of desiccation.

Section V—Special Rules for Plague.

46. *Prompt desiccation of infected houses.*—The infected rat-flea being the connecting link for the transmission of plague from rat to man, it is essential that prompt action should be taken, having for its object the destruction of the infected flea before it is able to convey the infection to other rats or to man. The rat-flea is easily killed by desiccation or the application of dry heat. As soon as a dead rat is observed in a house, such house along with the adjoining ones should be subjected to a process of thorough desiccation.

47. *Desiccation how carried out.*—Desiccation is simple to carry out and is done by spreading, uniformly in all parts of the house, paddy-straw, dry-leaves or other inflammable material setting fire to it. To ensure that the required degree of heat is generated, it is best that desiccation is always carried out by trained staff in towns. In the case of affected villages, an itinerant gang may be employed during seasons of plague to practically demonstrate the method to the villagers.

48. *Disinfection of grain.*—All grain infected with rat-fleas should be exposed to bright sun light for at least a couple of hours.

49. *Evacuation of infected houses.*—To facilitate desiccation, people in the houses proposed to be desiccated should be shifted with their belongings to the Health Camp if there is one or to temporary sheds specially put up for the occasion. After ten days, desiccation should be repeated in the same houses, when the people may be permitted to re-occupy the houses. Should they choose to remain in camp for some time longer, they should be required to remove to sheds of their own and make room for others that may need the special sheds.

No. G. 21371-402—San. 101-17-12, dated 25th March 1919.

50. *Whole-sale evacuation of houses.*—If notwithstanding disinfection, a whole-sale evacuation of a town or a village is desired by the people, it should be actively proceeded with, the necessary facilities in the shape of supply of shed materials gratis or at cost price being provided. But a thorough desiccation of the houses should invariably precede evacuation.

Once a town or village is evacuated, people should be dissuaded from opening and visiting the houses for any reason whatsoever, unless it is for reoccupation, in which latter case, the house should once again be desiccated.

51. *Inoculation and medical relief.*—The earliest possible requisition should be made on the nearest Medical Officer for (*a*) inoculation and (*b*) a medical relief. Such Medical Officer will, as far as possible attend to these measures himself and, if assistance be needed, apply to the District Medical Officer. At the same time that a requisition is sent to the local Medical Officer, a copy thereof should, if the requisitioning officer be a patel, be submitted to the Amildar of the taluk.

52. Immediately the Medical Officer arrives, it shall be the duty of the local authority to co-operate with him in encouraging people to get themselves inoculated and patients to receive medical treatment.

53. *Rat destruction.*—In every town and village, attention should be directed to the destruction of rats in the off-plague season. A cheap and effective method of trapping rats will be described in the form of a pamphlet which will be issued by the Sanitary Commissioner.

Section VI.—Procedure in Emergencies when Epidemics other than Cholera, Small-pox or Plague occur.

54. *Procedure when other diseases of an epidemic nature occur.*—Whenever there is a marked rise in the mortality or sickness in any town or village and the cause thereof is at the time unknown, the local authority shall have power to take such measures in consultation with and on the advice of the local Sanitary Medical Officer and incur such expenditure as may be necessary to reduce the sickness and the mortality in the town or village. These measures include organisation of staff, medical relief and provision of nourishment to the sick. In all emergencies, the local authority shall take the initiative without delay, pending instructions from the higher authorities.

(Annexure to Rule 5)

VILLAGE SANITATION RULES.

How to be Healthy.

Rules which every resident in a village should endeavour to follow.

1. *Personal cleanliness.*—Keep your person and your clothes clean by bathing and washing.

Try to persuade all members of your family, and all persons over whom you have influence, to likewise keep themselves and their clothes clean.

Bedding and other unwashable materials should be frequently exposed to the sun.

2. *Water.*—Procure your supply of drinking water from pure wells or springs wherever possible.

No tanks, ponds, wells or other sources of water-supply used for drinking should be allowed to be polluted.

No leaves or other decaying matter and no dirty vessels or clothes should be allowed to come into contact with such water.

Make separate arrangements for water-supply to cattle.

Food.—Eat wholesome and easily digestible and well boiled food.

3. *Clothing.*—The dress should always be sufficient for purposes of decency, if not of comfort. In the cold weather, provide yourself with warm clothing and, in the hot weather and during the rains, with a cover for the head to protect it from the sun and rain.

4. *Healthy houses.*—Houses should be built on a high and dry site free from damp, with a proper basement. They should not be near stagnant pools or pits or wet cultivation.

There should be a sufficient number of doors and windows to allow of free ventilation.

All articles in the house should be dusted and cleaned frequently and kept in their proper places. Every nook and corner of a house should be kept scrupulously clean.

No. G. 21371-402—San. 101-17-12, dated 25th March 1919.

No moist substances should be allowed to rot near or in any part of the house.

5. *Cattle sheds.*—Cattle and other domestic animals should be kept in separate sheds which should be clean and dry and, as far as possible, detached from the dwelling rooms of houses.

Liquid refuse should be collected in a pit and used as manure. Manure should be deposited in pits and have earth or dry leaves spread over it once a week.

6. *Refuse, flies, etc.*—No dirt, ashes or other refuse should be allowed to collect in or near dwelling houses or thrown indiscriminately into streets and public places. They should be deposited in dust bins or other receptacles and removed at intervals

Try to have your house and surroundings clean, in order to keep out mosquitoes, worms, insects and flies of every description.

7. *Latrines.* Where latrines are not provided, people should go far away into the fields. No streets or public places and no places within 100 yards of a dwelling house should be allowed to be polluted. The practice of using wells or deep pits for latrines should be at once discontinued. A layer of fresh dry earth or ashes should be spread over the privy pit every time it is used.

8. *Sewage.*—No sewage should be allowed to accumulate or soak into the ground whether inside or outside the house. Where no public drains exist, the sewage should be collected in a bucket, jar or cess-pit of masonry, not more than two feet deep and removed at least once a week or as frequently as possible.

Special arrangements will be necessary to remove liquid refuse in our villages because most people are unaccustomed to handle sewage on account of caste scruples.

9. *Vacant sites.*—All lands should be kept free from damp and undergrowth within one furlong of a small village or within two furlongs of a large one.

All pits and hollows within the same limits and inside the village should be drained off or filled.

10 *Roads.*—Roads should be neatly formed with gravel or murrum or hard soil and be provided with proper side drains, constructed in stone or brick or other lasting material.

11. *Precautionary measures.*—Always sleep on a plank or bedstead, at some height above the ground and do not sleep in crowded and ill-ventilated rooms.

Never spit on the floor or on the walls of a house.

Take sufficient exercise and spend as much time as possible in the open air.

12. *Epidemic.*—Try to prevent small-pox by vaccination, plague by immediate evacuation as soon as rats begin to die, cholera by partaking only of warm food and boiled water and malaria by avoiding damp and mosquitoes. Cure malaria by quinine.

The Plague Administration Report for the year 1917-18.

No. G. 19472-82—San. 68-18-3, dated 5th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

The Plague Administration Report for the year 1917-18, received with letter No. G. C. 235, dated the 12th November 1918, from the Sanitary Commissioner.

Order No. G. 19472-82—San. 68-18-3, dated 5th March 1919.

Recorded.

2. During the year under review, there was a perceptible decrease in the number of plague attacks and deaths which numbered 13,955 and 9,859 against 16,552 and 11,755, respectively, in the previous year. The number of deaths from plague compared with the total mortality was highest in the Bangalore District and lowest in the Hassan District. As in the previous years the victims were mostly persons between 20 and 40 years of age, and the deaths among males outnumbered those among females.

3. The epidemic was prevalent practically throughout the year and in almost all the taluks, and the highest figures were reported in the month of October in which there were 2,164 attacks and 1,492 deaths.

4. The measures adopted to combat the disease were, as usual, evacuation, inoculation and disinfection. The number of persons inoculated was 49,799 against 93,931 in the preceding year and it is satisfactory to note that only 8 out of these (or one in 6,225) were attacked by plague. Government are glad to observe that the prejudice against anti-plague measures is gradually wearing away and that the effectiveness of inoculation in particular, is more and more widely appreciated and availed of by the people. To obtain full benefit from inoculation, however, it should be resorted to when the epidemic is in its incipient stage, instead of when it is at its height as it is unfortunately the tendency of the people to do. Government hope that the Sanitary Officers will impress upon the people, the advantages of early inoculation and take measures to start inoculation campaigns in large places, at least, as soon as there is a sign of the disease spreading.

5. The percentage of recoveries to admissions in the plague hospitals in Bangalore, Mysore and the Kolar Gold Fields was 42·2, 23·1 and 33·3 but the number of patients admitted was small being only 128, 13 and 3 respectively. Government consider that there is much scope for improvement in these institutions. The Sanitary Commissioner is requested to study the requirements and submit necessary proposals at an early date.

6. The total expenditure incurred on account of plague preventive measures during the year amounted to Rs. 35,717-4-3.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Sanitary Commissioner in Mysore.
The Presidents of Municipalities and District Boards.

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT,
Bangalore dated the 31st March 1919.

OFFICE MEMORANDUM.

In continuation of Office Memorandum No. J. 4847-58—Legis. 47-15-2, dated 13th June 1916, the following supplemental instructions are issued regarding the preparation in the Secretariats of answers to interpellations by non-official members of the Legislative Council:—

In preparing draft replies to questions under para 7 of the Memo of 13th June 1916, it should be stated, in cases where the information required is not readily available or has been called for from the Head of the Department concerned and has not been received, that the information will be placed on the table at a subsequent meeting.

2. Statements and other information promised to be called for in reply to interpellations and received subsequent to the meeting will be placed on the table at a subsequent meeting for the information of the members are published, where necessary, along with the proceedings of such subsequent meeting.

By Order,
C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Secretary to Government, Financial Department.
The Secretary to Government, Public Works Department.
The Secretary to Government for Railways.

No. G. 20922-31—Cts. 146-18-2, dated 20th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Order No. G. 20922-31—Cts. 146-18-2, dated 20th March 1919.

Instances have come to the notice of Government of undue delay in giving intimation to the Jail Authorities of the recovery of fine in cases where prisoners are sentenced to suffer additional imprisonment in default of payment of fine. There is reasen to think that such delay is in great part due to the circumlocutory procedure, in vogue according to which the warrant for the levy of fine has to pass through the hands of a number of District Magistrates and other intermediate authorities in cases where the prisoner belongs to a place outside the jurisdiction of the Magistrate issuing the warrant.

2. With a view to prevent such delays, the Government are pleased to direct that where the term of substantive sentence is less than six months the fine-levy warrant to the Police, shall invariably issue simultaneously with the imprisonment warrant to the Jail or Lock-up concerned and that in all cases the fine warrant shall be returned direct to the convicting Court after execution.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

ANNEXURE

Order No. 2827, Home (Judicial), dated 21st December 1918, of the Government of Madras.

Under Section 544 of the Code of Criminal Procedure, 1898, the Governor in Council, with the previous sanction of the Government of India, is pleased to make the following amendments to the rules for the payment of the expenses of complainants and witnesses attending Criminal Courts in this Presidency:—

* * * *

II.

Rules for the payment of the expenses of complainants and witnesses attending Criminal Courts in the Madras Presidency outside the Presidency town.

Add the following to Rule 1:—

The Courts may make reasonable advances to witnesses compelled to attend to give evidence when such prepayment is considered necessary.

2. The Statutory Rules for the payment of expenses of complainants and witnesses attending Criminal Courts in the Madras Presidency as revised up-to-date are printed in the annexure to these proceedings and will be published in the *Fort St. George Gazette.*

The various requests of the Press Representatives.

No. G. 20181-240—G. M. 122-18-6, DATED 10TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

(1) Letter dated 5th December 1918, from Mr. V. S. Sanjiva Rao, submitting for the orders of Government a list of specific requests on behalf of the Press Representatives in Mysore, who met at Mysore in October 1918.

(2) Letter dated 13th January 1919, addressed to the Private Secretary to His Highness the Maharaja, by Mr. E. Chinnaswami Pillai, *Daily Post* Correspondent, submitting a copy of such of the representations above referred to, as have been approved of by the representatives and requesting that the Government may sympathetically dispose of the same at an early date.

Order No. G. 20181-240—G. M. 122-18-6, dated 10th March 1919.

After a careful consideration of the various requests made by the Press Representatives, Government are pleased to pass the following orders:—

(1) All official papers meant for publication including the reports of public events and advance copies of speeches made by the Members of Government during Dasara and other important occasions will be furnished to such of the accredited Press Representatives as are able to produce in good time, a requisition from their respective Editors that this procedure will meet their requirements. In other cases, the present practice of communicating the reports direct to the Editors will continue. Government do not consider it expedient or necessary to employ any special agency for summarising speeches for the use of the Press Correspondents, as such work should be attended to by the Reporters themselves.

(2) As far as possible, suitable seats will be provided for Press Correspondents at public functions.

(3) The Editor of the *Mysore Economic Journal* has no connection with Press reporting work, and when specially deputed to report the proceedings of any public function, his reports will be used only for official record and not for communication to the Press.

(4) The request that local representatives should be given preference over Madras reporters is a matter for the respective Editors to decide. When however Government engage private reporters for official reporting, the claims of local men will receive adequate consideration.

(5) As regards other facilities, such as payment for boarding, lodging and other incidental expenses at Mysore during special seasons, Government regret they are unable to revive the practice which was recently ordered to be discontinued. The granting of free passes to the Press Correspondents for travelling by railway is a matter for consideration by the Railway administrations concerned. The practice on State Railways is to grant such passes only on important occasions.

(6) Necessary orders have been issued to improve the Press Room attached to the General and Revenue Secretariat, Bangalore, so as to make it more useful to the Press generally. Instructions have also been issued to all the Secretaries to Government to place papers of public interest on the Press Table without delay.

(7) Admission to the Press Room will as heretofore be by passes issued by the Chief Secretary to Government to the accredited representatives of newspapers of recognised standing on receipt of applications from the Editors concerned. These passes will be tenable for one calendar year and applications for their renewal should be made one month before the close of that year.

C. S. BALASUNDARAM IYER,
Chief Secy. to Govt.

To—The Secretaries to Government.
The Heads of Departments.
The Deputy Commissioners of Districts.

Report of the Archæological Department.

No. G. 21501-10—G. M. 172-18-2, DATED 26TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Report of the Director of Archæological Researches in Mysore on the progress made in the Archæological Survey of Mysore for the year ending 30th June 1918.

Order No. G. 21501-10—G M. 172-18-2, dated 26th March 1919.

Recorded with the observation that the report has been perused with interest.

2. The Director toured in the months of February, March and June 1918, in Tumkur, Chitaldrug, Mysore and Hassan Districts with the object of making a re-survey of portions of these districts and of inspecting some temples of Archæological interest. He inspected 187 villages and examined 304 new records.

3. *Work at Headquarters.* The work done at headquarters is given in detail in paragraphs 50—67 of the report. Sixty-six coins consisting of 8 gold and 58 copper pieces were examined in the course of the tour besides some at Nanjangud. These 8 gold coins were received from the Archæological Superintendent, Western Circle, Poona and the copper pieces from Mr. M. N. Rangaswami Iyengar, Triplicane. These consist mostly of the coins of Vijayanagar. Mysore, Gandikota and the Dutch East India Company and of Sivaji.

Certain selections concerning matters of historical and social interest from inscriptions in the volumes of the Epigraphia Carnatica are being worked upon. Those that relate to history and religious belief are being investigated.

About 650 photographs of views of temples of artistic merit were prepared and sent to the Deputy Commissioners of Hassan, Mysore and Kadur for sale to the public. About 40 photographs were also sold at the Archæological Office.

4. Necessary proposals for the preparation of an Index to the Archæological Report referred to in paragraph 3 on page 70 of the Report, may be submitted separately for the orders of Government.

5. The Report was received late. It is understood that the delay was due to the want of sufficient type required for the printing of inscriptions. The Superintendent, Government Printing, will, in consultation with the Director of Archæology, make proposals for getting the additional quantity of diacritical and accented type required, so that the report may be printed in time from next year.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

Administration Report of the Public Works Department.

No. G. 21982-4—G. M. 148-18-4, DATED 29TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Correspondence ending with letter No. M. 862, dated 23rd January 1919, from the Chief Engineer of Mysore, forwarding the Administration Report of the Public Works Department for the year 1917-18.

Order No. G. 21982-4—G. M. 148-18-4, dated 29th March 1919.

Recorded.

2. Rajasabhabhushana Mr. Karpur Srinivasa Rao, B.Sc., L.C.E., was in charge of the Department till he proceeded on combined leave for seven months and thirteen days with effect from the 14th December 1917, preparatory to retirement, when Mr. Śrinivasacharya Cadambi, B.A., L.C.E., was appointed to officiate as Chief Engineer, and Secretary to Government, Public Works Department, in addition to his duties as Chief Engineer for Irrigation and Joint Secretary to Government. Rao Bahadur Mr. K. Krishna Iyengar, B.A., L.C.E., returned from long leave on 25th January 1918, and was appointed Chief Engineer on special duty in connection with the Madras-Mysore Cauvery Arbitration case and was in addition, placed in charge of the Cauvery Valley Irrigation.

3. Two new Public Works Divisions designated "The New Palace Division" and "The Architectural Division" were constituted during the year, the former for the construction of a New Palace in the Mysore City for the accommodation of Royal guests at an estimated cost of about Rs. 19 lakhs, and the latter to cope with the increasing work of providing artistic designs for buildings in Mysore and Bangalore Cities and also in the districts. For the investigation of new irrigation projects and for the preparation of estimates for the restoration of the existing tanks, 8 project Sub-Divisions were newly added one for each district.

4. The control and management of the Bangalore City Telephone system was transferred to the Electrical Department from the Water-Supply Division of the Public Works Department from the beginning of the year. In accordance with the orders of Government on the proposals of the Special Officer Mr. K. L. Datta, M.A., a system of payment of work bills by Treasuries on presentation of regular bills instead of by cheques drawn by Public Works disbursing officers was adopted from 1st August 1917.

5. *Total grant and outlay.*—The total grant for the year under all heads amounted to Rs. 69,51,216 and the outlay incurred amounted to Rs 59,22,669 as against a grant and outlay of Rs. 67,60,198 and Rs. 62,94,114 respectively in the preceding year. The average expenditure during the past five years has been Rs. 61,59,309.

The difference between the outlay during the year under review and that in the previous year is mainly due to the reduced capital expenditure on the Krishnaraja Sagara and Allied Works.

The year's operations resulted in a net lapse of Rs. 10,28,547 as against Rs. 6,97,332 and Rs. 8,50,148 respectively in the preceding years, the lapse under State Funds alone being Rs. 8,33,160. Government regret to observe that the lapses are so heavy and that the explanation offered therefore unsatisfactory. Part of the lapses can be avoided by a strict adherence to the budgetted programme of works and by taking up only works for which estimates are ready.

6. *Irrigation.*—Fair progress was made in the restoration of tanks damaged last year on account of heavy rainfall. It is reported that the area under sugarcane cultivation under certain controlled tanks has increased as a result of the development of the system of scientific regulation of water. The expenditure on account of the restoration of minor tanks is as usual unsatisfactorily small, not even a half of the

No. G. 21982-4—G. M. 148-18-4, DATED 29TH MARCH 1919.

grant of Rs. 2½ lakhs being spent. Eight tanks are reported to have been examined with a view to test the adequacy of their storage and experiments in clearing silt carried out in some malnad tanks.

7. *Civil Works.*—The most important works that were in progress during the year were (1) The Technological Institute and (2) the Daly Memorial Hall at Bangalore City (3) a New High School at Hassan and (4) The Krishnarajendra Hospital at Mysore. All these buildings are reported to have almost been completed, only the accounts having yet to be closed in some cases, but it is unsatisfactory that many of them have gone on for several years and not been closed in proper time, *e. g.*, the Minto Ophthalmic Hospital and the Krishnarajendra Hospital the accounts of the former having been closed only during the year under review. Repairs to Government buildings require greater attention. Under miscellaneous improvements Government observe that little progress has been made in carrying out sanitary improvements to Shimoga and Hiriyur Towns.

8. *Communications.*—The amount spent on the maintenance of roads during the year was Rs. 8,66,055 as against Rs. 8,09.647 in the year 1916-17 and the amount spent on original works was Rs. 1,85,394 as against Rs. 89,866 in the last year. Government wish to emphasise the need for increased attention on the part of the Department to road repairs.

The bridge across the Bhrugu river on the Hunsur-Begur road, Mysore District, was opened to traffic during the year. The bridge across the Thungabhadra river at Honnali is almost complete and will be opened for traffic very shortly. In regard to this bridge the figures furnished in the report show that against the sanctioned estimate of Rs. 2,64,693 work costing in all Rs. 3,06,707 has been carried out to the end of the year. It does not appear if a revised estimate has been sanctioned to cover the excess. Steps should be taken to have necessary estimates sanctioned early. The other works should be pushed through.

9. *Krishnaraja Sagara Dam Works.*—The Dam rose to a height of 98 feet in the flank and 63 feet in the centre and the gap serves as a temporary waste weir during construction. A length of about 30 miles along the high level canal which is intended to afford facilities for bringing under irrigation about 1,20,000 acres was surveyed during the year. Seventeen miles of branch channel also were traced. Estimates for the portions surveyed should be submitted shortly.

10. *Water-supply.*—In spite of the wearing out of the pumping machine, the Water-supply from Chamarajendra Water Works, Bangalore City was satisfactory. Immediate steps should be taken to replace the boilers thus avoiding the necessity of purchasing water from the Civil and Military Station.

The work of laying out pipe-lines to the Chamundi and the Chetnahalli extensions in the Mysore City should be put on hand.

11. *Establishment.*—The charges on account of establishment amounted to Rs. 10,65,286 as against Rs. 10,31,870 in the year 1916-17. The proportion to the total expenditure is 21·6 per cent as against 20·1 per cent during the last year.

12. *General.*—Inspection work during the year appears to have been inadequate especially on the part of the Executive Engineers and Sub-Division Officers.

The remarks in paragraph 159 relating to precision in budgetting requirements on the part of subordinate officers of the Department may be communicated to them. Government have repeatedly laid stress on this point and trust that lapses due to lack of precision will be minimised in future.

The Chief Engineer will report early to Government the result of the examination of the Atchkats of tanks and of the experiment in silt clearing in Malnad tanks referred to in paragraphs 162 and 163 of the report.

In conclusion Government observe that the report has been received late. Arrangements should be made for its timely submission in future.

C. S. BALASUNDARAM IYER,
Chief Secretary to Government.

To—The Chief Engineer in Mysore.
The Revenue Commissioner in Mysore.
The Secretary to Government, Revenue Department.

Vani Vilasa Sagara Channels.

No. R. 12087-91—L. R. 42-18-12, DATED 22ND MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. F. C. 216, dated the 6th March 1919, from the Revenue Commissioner in Mysore, recommending sanction to the grant of certain concessions for growing food grains, etc., under the Vani Vilasa Sagara Channels in view of their apprehended scarcity.

Order No. R. 12087-91—L. R. 42-18-12, dated 22nd March 1919.

The Revenue Commissioner reports that the proposals of the Deputy Commissioner, Chitaldrug District, on the subject, were discussed at a meeting of the Central Irrigation Board on the 3rd March 1919, and that the Board were of the opinion that sanction of Government may be obtained to the grant of the following concessions:—

(1) Remission of full water-rate on the block lands on which food grains are grown this year, instead of industrial crops as usual ;

(2) Grant of permission and supply of water during the *current* year to grow paddy on the *full* area instead of one-third of the area under blocks ;

(3) Permission to take water free of water-rate for the current year from the channels by cutting trenches in the bunds to feed deep wells for irrigating lands above the channels with dry irrigated crops ;

(4) The removal of the prohibition against the growth of irrigated dry crops such as jola, ragi, navane in the prohibited area and supply of water thereto, as an experimental measure, this year ;

(5) Grant of waste lands to *bona fide* applicants for

A. temporary cultivation of food crops for one year free of cost and free of water-rate ;

B. permanently for an upset price (based on the average realisations of previous years) instead of by public auction on the following terms:—

(*a*) Price to be recovered in three annual instalments at the discretion of the Deputy Commissioner ;

(*b*) Remission of assessment and water-rate during the first year, one-third water-rate during the second year, two-third water-rate during the third year, and full water-rate from the fourth year ; and

(*c*) Cultivation with food crops during the first two years.

Government are pleased to sanction, as a special case, the recommendation of the Committee and direct that these concessions be shown only to those who apply therefor before the end of June 1919. The concessions should be widely notified by the Revenue Commissioner without delay.

2. A report should be submitted to Government as regards disposal of waste lands on a permanent tenure.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Revenue Commissioner in Mysore.
The Chief Engineer of Mysore.
The Deputy Commissioner, Chitaldrug District.

The Report on the Adminstration of the Revenue Department.

No. R. 11926-75—L. R. 285-18-6, DATED 19TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

The Report on the Administration of the Revenue Department for the year 1917-18, received with the Revenue Commissioners's letter No. C. Per. 94, dated 1st October 1918.

Order No. R. 11926-75—L. R. 285-18-6, dated 19th March 1919.

Recorded.

2. *Personnel.*—Mr. K. Doraswami Iyer continued to be Revenue Commissioner, till the 12th September 1917, when he took leave on account of illness to which he unfortunately succumbed on 22nd September 1917, after a distinguished service of nearly 29 years. In their Order No. G. 5271-320—G. M. 309-17-2, dated 8th October 1917, Government have placed on record their high appreciation of his services to the State.

Mr. P. Raghavendra Rao succeeded Mr. K. Doraswami Iyer and continued till his appointment as Member of Council, and he was in his turn succeeded by Mr. K. R. Srinivasiengar.

3. *Season and Agriculture.*—The seasonal conditions during the year were, on the whole, satisfactory, although the average rainfall during the year 1917 was 43·09 inches, being 5 inches less than that of the previous year.

The Mungar rains were timely and copious in the Bangalore, Kadur and Chitaldrug Districts but poor and scanty in the other districts, which gave cause for some anxiety in the beginning. The later rains of September were, however, copious.

There is no information in the report regarding the damage said to have been caused to crops by the caterpillar pest. The action taken thereon by the Agricultural Department should be reported to Goverenment.

All the tanks received a sufficient supply of water and no difficulty was felt either for fodder or drinking water anywhere. The outturn of the important crops was a little less than in the previous year but the yield under sugarcane was better than in 1916-17.

The net result of the year's darkhasts and razinamas was an increase in the area under occupancy by 32,241 acres bearing an assessment of Rs. 19,935, the increase occurring in all districts except Mysore, where there was a fall chiefly due to resignation of a third portion of the raiyats' dry holdings in three taluks to provide for grants to expropriated raiyats under Krishnarajasagara. This increase represents only a very small fraction of the large extent of nearly 8 lakhs of acres of assessed waste land still available for cultivation. An extent of 1¼ lakhs of acres of Amrut Mahal kaval lands have recently been thrown open for cultivation. Government have passed orders separately about the early sub-division of these lands with a view to effect prompt disposal of darkhasts.

The total cropped area fell from 65,25,850 acres to 64,36,789 acres, but the proportion of cropped to occupied area rose from 81·7 per cent to 82·3 per cent. The fall is attributed to failure of Mungar rains in the Tumkur District, and the paucity of labour in Shimoga. One noticeable feature was the partiality shown to industrial crops in consequence of which there was a shrinkage in the area devoted to food-crops ; thus the areas devoted to sugarcane and cotton are both reported to have increased, while there was a fall of 3,199 and 10,440 acres in the area devoted to ragi and cholum respectively. As against this, it is satisfactory to note that there was an increase of 6,149 acres under paddy due to the expansion of wet cultivation under the Krishnarajasagara. It is desirable owing to any likely shortage of food-grains, to

encourage the extension of cultivation in tank-beds and other lands lying waste and the Revenue Commissioner is requested to report, in his next report, the result of the orders issued recently giving concessions in respect of such cultivation. The Revenue Commissioner is also requested to furnish in future reports figures relating to the area under cotton, similar to those furnished in respect of paddy, ragi, cholum, horse-gram and sugarcane and to review the extent to which this crop has replaced food-crops.

4. *Condition of the people.*—The year was on the whole a prosperous one. The outturn of crops was fair. The produce fetched better prices owing to great demand from outside and conditions brought about by the war. Landless classes, however, suffered much, as also agricultural labour owing to the abnormal rise in the prices not only of all staple grains but of clothing and of almost every necessary of life. Trade was generally dull owing to shortage of railway waggons and consequent transport difficulties. The money market was tight. Coffee planters in spite of good crops, suffered owing to the embargo on coffee. With a view to afford relief to them, Government sanctioned a special scheme of loans to them.

Public Health was not satisfactory. The number of births decreased by 16,359. In spite of the decrease of deaths from plague, the total number of deaths was 6,194 more than in the previous year, due mainly to cholera particularly in Kolar and Mysore Districts.

5. *Cattle.*—Owing to the prevalence of Rinderpest in a virulent form in almost all the districts and of Black-quarter in parts of Mysore, Tumkur, Kolar, Hassan and Chitaldrug Districts, the total cattle mortality rose from 89,023 in 1916-17 to 97,036 during the year under report. The number of cattle inoculated during the year against Rinderpest and Black-quarter was, however, less than in the previous year, being only 26,302 against Rinderpest and 1,739 against Black-quarter as against 34,181 and 5,152 respectively in 1916-17. Government note with regret that the mortality continues to increase unabated. The loss of such a large number of cattle from illness is a serious drain on the economic resources of the agricultural population and every endeavour is necessary to reduce the mortality by effective measures. There was a rise in the total number of cases admitted into the Veterinary Hospitals and Dispensaries during the year. Four new Dispensaries were opened during the year at Chikballapur, Maddagiri, Saklespur and Tarikere and orders passed for the opening of four more at Nanjangud, Dodballapur, Chintamani and Honnali. The improvement of the existing Veterinary institutions which in most cases are located in unsuitable buildings and devoid of necessary conveniences, requires the urgent attention of the Revenue Commissioner. Orders were passed in February 1918, sanctioning the scheme for a re-organization of the Civil Veterinary Department to which a reference was made in last year's review. The order should be given effect to as early as possible.

6. *Darkhasts.*—It is reported that there was a slight increase in the number of darkhasts received in the districts of Shimoga, Kadur and Mysore, while there was a decrease in the other districts resulting on the whole in a decrease in the number of receipts by 2,664 as compared with the previous year. The total number of cases including arrears at the beginning of the year that had to be dealt with during the year was 19,195 of which 9,587 cases were disposed of, leaving a balance of 9,608. Of the pending cases, 1,648 are reported to be more than two years old and 1,777 more than three years. The delay in the disposal of many of the pending cases is said to be due to want of suitable agency to effect the necessary sub-divisions which require to be made before the lands applied for could be disposed of. Government regret that there was no improvement in the disposal of darkhasts during the year under review. Government have passed orders on the proposals made by the Revenue Commissioner to expedite sub-division work, but they are constrained to remark that the large pendency of applications for land at the close of every year not only causes loss of revenue to Government but also retards extension of the arable area and is not creditable to the Revenue Department.

7. *Darkhast under special rules.* As the period for which the scheme of Eksal cultivation had been sanctioned expired long ago, it is not clear how applications were entertained under it. The Revenue Commissioner is requested to expedite the submission of the special report about this scheme which is long overdue.

No. R. 11926-75—L. R. 285-18-6, DATED 19TH MARCH 1919.

The progress under the Large Landed Estates Scheme is disappointing. Since the inception of the scheme, only 14 estates covering an aggregate area of 1,481 acres are reported to have been formed. The number of applications pending disposal is large, and special efforts should be made to reduce the arrears. It is hoped the arrangements sanctioned in Government Order No. R. 8951-9000—L. R. 65-17-23, dated 28th February 1918, will tend to popularise the scheme.

8. *Revision Survey and Settlement.*—Revised rates of assessment were sanctioned by Government in respect of Koppa and Arsikere Taluks, during the course of the year. The revision takes effect from 1918-19. Revised rates sanctioned already for Tarikere Taluk was brought into effect during the year under report.

9. *Jamabandi.*—Government regret that in spite of repeated instructions, the Jamabandi operations still continue to be rushed and completed long after the due date. Default in the latter respect was most noticeable in the Tumkur, Hassan and Shimoga Districts and in the former respect in the Kadur District.

10. *Demand, Collection and Balance.*—The Land Revenue current demand for the year was Rs. 1,09,27,385 or Rs. 92,949 more than in the previous year. The increase was chiefly due to the introduction of revision settlement into the taluks of Kadur and Tarikere and to some extent to the expansion of cultivation.

Inclusive of the arrears pending at the beginning of the year which were reported to be Rs. 14,66,172 in last year's report, but which are now reported to be Rs. 15,34,474, the total gross demand for the year was Rs. 1,24,61,879. The discrepancy shows that the arrear accounts require closer scrutiny at Jamabandi. Out of the gross demand, a sum of Rs. 99,25,135 (or 90·8 per cent against 91·2 per cent in 1916-17) was collected on account of the current demand and Rs. 9,61,634 (or 62·6 per cent against 68·1 per cent in 1916-17) on account of arrears while a sum of Rs. 73,859 out of the arrears and a sum of Rs. 157 on account of the current demand were remitted as irrecoverable. The total collection thus amounted to Rs. 1,08,86,769 or 87·8 per cent of the net recoverable demand against 88·2 per cent in 1916-17. The balance at the end of the year was Rs. 15,01,094 against Rs. 15,34,494 at the end of the previous year out of which Rs. 49,900 related to the arrears of previous years and Rs. 10,02,093 to the current demand

Collection work was good in the Chitaldrug and Shimoga Districts where the collections amounted to as much as 97·1 and 93·3 per cent of the net recoverable demand and poor in the Districts of Hassan, Kadur and Mysore where the percentages are as low as 79·5, 85·2 and 84·4 per cent respectively.

Mohatarfa.—Excluding the Mysore District for which no return is reported to have been received, the total current demand under Mohatarfa for the other 7 districts was Rs. 2,34,073 and the total demand including arrears was Rs. 2,63,933 and the total collection including remissions was Rs. 2,31,756 or 87·8 per cent of the total demand against 88 per cent in 1916-17. The percentage of collection was best in the Chitaldrug and Tumkur Districts being 97 and 95·2 per cent respectively, good in Bangalore with 90 per cent and bad in the other districts especially in the Hassan District with only 73·1 per cent.

Coercive processes.—The number of coercive processes issued during the year was less than in the previous year by 13,326 and the amount realised by these measures amounted to 8·10 per cent of the total collections against 8·92 in 1916-17. Over 93·9 per cent of the amount recovered by coercive processes came in by the issue of mere demand notices. There was an increase in the number of sales of occupancies and alienated holdings under Section 159 only in Tumkur, Mysore and Hassan Districts.

Raiyats receipt books.—The system of granting receipts from counterfoil books where pattas are not produced was introduced in all the districts during the year.

11. *Land Improvement and Takavi Loans.*—Out of Rs. 1½ lakhs allotted for Takavi advances and Land Improvement Loans, only Rs. 85,330 or 56·9 per cent (against 62 per cent in 1916-17) were utilised, out of which Rs. 31,510 were given as Takavi advances in 203 cases, Rs. 4,500 for the sinking of irrigation wells in 36 cases and Rs. 49,320 for other land improvements in 221 cases. Out of a total of 1,348 applications under all heads that had to be dealt with, loans were sanctioned

only in 460 cases and refused in 280 cases, leaving a large balance of about 600 cases. The result cannot be considered satisfactory. The instalments that fell due during the year including arrears were Rs. 92,509, 41,193 and 68,087 respectively under the above three heads, out of which Rs. 62,747, Rs. 34,254 and Rs. 44,601 were collected representing 67·8 per cent, 83·1 per cent and 65·5 per cent against 72·9 per cent, 83·3 per cent and 64·2 per cent respectively in 1916-17 and 64·2 per cent and 66·3 per cent and 44·04 per cent in 1915-16. Government regret that there has been no improvement during the year in the disposal of loan applications and that the work of collection of instalments was worse than in the previous year.

12. *Tanks.*—Three hundred and nineteen major and 596 minor tanks were restored or repaired during the year at an outlay of Rs. 1,98,305 and Rs. 1,46,284 respectively against 558 and 468 such tanks dealt with in 1916-17 at a cost of Rs. 2,35,178 and Rs. 1,02,002 respectively. Mysore and Kadur Districts are reported to have shown the best results in the matter of the restoration and repair of minor tanks and the Bangalore District, the poorest. Only 236 tanks are reported to have been inspected by the Deputy Commissioners as against 363 in the previous year. The inspection of tanks by Deputy Commissioners and Assistant Commissioners leaves a good deal of room for improvement.

There was no appreciable improvement during the year in the progress of work under the Minor Tank Restoration Scheme. Only 108 tanks having been completed at an outlay of Rs. 1,35,604 out of 700 tanks under restoration against 96 tanks at an outlay of Rs. 98,729 in 1916-17.

13. *Tank Panchayet Scheme.*—Inclusive of 16 Panchayets, the constitution of which was sanctioned during the year, the total number of Panchayets sanctioned from the commencement of the scheme is 100. It is reported that except in the Tumkur District where 58 Tank Panchayets have been sanctioned, of which 40 have been formed, the other districts have not given much attention to the scheme, as observed by the Revenue Commissioner. The good work done by the marginally noted Panchayets in the Mysore District is noted with satisfaction.

1. Yaruna.
2. Devecrammanakere and
3. Agale.

14. *Village Improvement Scheme.*—The number of Committees rose from 8,661 in 1916-17 to 8,820 at the end of the year and the number of villages served by the Committees from 15,127 (93 per cent of the inhabited villages) to 15,389 (94 per cent nearly) leaving only 816 Government villages for which Committees have yet to be formed, besides a few Inam villages where the Inamdars are not keen about forming Committees.

The estimated cost of works sanctioned or undertaken under the scheme was Rs. 1,38,342 (against Rs. 1,24,553 in 1916-17) towards which the villagers contributed Rs. 83,127 in the shape of cash or labour and Rs. 55,215 was sanctioned as Government grant-in-aid.

15. *Viliage forests.*—Forty-five blocks comprising 17,830 acres, 15 guntas were notified during the year against 35 blocks measuring 14,833 acres, 24 guntas in 1916-17 and Panchayets for management of 19 village forests were also appointed during the year. Government agree with the Revenue Commissioner that it would be useful to issue a simple set of rules and instructions for the working of village forests. The Revenue Commissioner is requested to take needful action in the matter.

16. *Public buildings.*—The submission of the complete and up-to-date programme of new buildings and extensions of existing buildings required for the Revenue Department, with a view to provide sufficient accommodation to the several offices located therein, should be expedited. The progress made in the preparation of the estimate for constructing an additional block of buildings in the compound of the Public Offices, Mysore, should be reported. The condition of the Revenue Office buildings throughout the State is by no means satisfactory and prompt measures are necessary to bring them under a regular system of annual maintenance and repairs.

17. *Record-sorting.*—The temporary staff sanctioned for record-sorting has done useful work but was not exclusively employed in clearing old arrears. The Revenue Commissioner is requested to submit special report in April next on the state of record work and the need for any special establishment during 1919-20.

No. R. 11926-75—L. R. 285-18-6, DATED 19TH MARCH 1919

18. *Itineration and inspection*.—The Revenue Commissioner toured for 73 days during the year (against 45 days in 1916-17) and inspected one District Office, two District Treasuries, three Sub-Division Offices, six Taluk Offices, and two Veterinary Hospitals. Except the Deputy Commissioners of Chitaldrug, Kadur and Mysore, none of the others have camped out (within the district) the prescribed number of days. Only four Sub-Division Officers, *viz.*, of Closepet, Chikballapur, Sagar and Davangere have toured the prescribed number of days and the Sub-Division Officer, Maddigiri toured out 169 days *i.e.*, very nearly the prescribed number of days. The Sub-Division Officers of Closepet and Maddagiri have camped out longest, *viz.*, 166 and 164 days respectively. The itineration of the Sub-Division Officers of Dodballapur, Mysore, Gubbi and Chitaldrug is not satisfactory.

Four District Treasuries, *viz.*, those at Kolar, Tumkur, Mysore and Shimoga, all the Taluk Treasuries in Kolar and Shimoga Districts and most of the Taluk Treasuries in the other districts, except Mysore and Bangalore, are reported to have been inspected twice and the other District Treasuries and Taluk Treasuries only once.

19. *Treasuries*.—The new Treasury procedure in regard to the simplification of work, and revision of forms and registers in District and Taluk Treasuries is reported to have been brought into force from 1st August 1917. A report about its working is awaited. The Revenue Commissioner is requested to address Government separately about the revival of the District Treasury at Bangalore.

20. *Inspection of boundary marks*.—It is unsatisfactory that none of the Deputy Commissioners, except Kolar and Mysore, furnished statements embodying the result of inspection as required in Rule 85 of the Land Revenue Rules. Such omissions should be avoided in future. It should be explained why the Bondh Pahani Rules prescribed last year had not come into working order, in any of the districts, except Shimoga, during the year under review.

21. *Avenue trees*.—It is gratifying to note that the planting of avenue trees has been receiving increased attention and that 92,791 trees were planted during the year against 65,476 in 1916-17.

22. *Village officers and shekdars*.—It is reported that a large percentage of patels are still illiterate and have to be replaced gradually by literate men in course of time and that about 550 patels have till now received training in elementary survey work.

Out of 354 shekdars in all the districts except Chitaldrug, for which complete information is said to have not been furnished, 239 Shekdars belong to the new scheme. The opening of a Shekdari Training School at Bangalore was sanctioned during the year to remedy some of the defects in the present system of recruitment and to improve the efficiency of the shekdari service generally. Provision has therein been made for giving practical training to such of the candidates as are new to service.

The promised proposals for the reconstitution of noblis, for prescribing a form of diary to shekdars and for giving office accommodation and clerical assistance to shekdars should be expedited.

23. *District and Taluk offices*.—The scheme for the reorganisation and strengthening of the establishments in Taluk offices which was engaging the consideration of Government during the year was sanctioned in July 1918. Proposals for the revision of the District and Sub-Division Establishments are engaging the consideration of Government.

The Revenue Commissioner is requested to make a separate reference to Government in the matter of the reconstitution of the Sub-Division in the Mysore District.

24. *Conclusion*.—The statistical information furnished in the exhaustive report by the Revenue Commissioner does not show a very satisfactory state of affairs in all branches of Land Revenue Administration. General inspection work and superintendence on the part of the Deputy Commissioners and their assistants were inadequate. The Taluk Administration was consequently inefficient. The several schemes sanctioned by Government for helping the raiyats and materially improving their condition received little attention. Agricultural loans, Village Forests, Tank Restoration Schemes did not receive sufficient impetus. The routine work of the Department which

No. R. 11926-75—L. R. 285-18-6, DATED 19TH MARCH 1919.

is in arrears did not show any signs of progress. Collection work was indifferent, darkhasts were ill-attended to. Veterinary work suffered from lack of adequate staff and Jamabandi was conducted carelessly without due regard to the main objects thereof.

The defects above indicated were carefully examined by Government and a general reorganization of the Department was very recently ordered, which yet remains to be given full effect to. The Revenue Commissioner is requested to impress on all Revenue Officers the duty of regarding their departmental duties as of supreme importance, the necessity of being in close touch with the people and their grievances, more frequent inspection of the work of subordinate offices and village officials and more systematised touring and inspection of interior villages and a more personal interest in the several schemes in operation. It is necessary to conclude this review with a note of warning that unless appreciable improvement in all these directions is shown in the current year, officers holding responsible executive charges will have to heavily answer for the continuance of the defects which Government have so often noticed in reviewing the Administration Reports of the past few years.

Period of Tour by Amildars and Deputy Amildars.

No. R. 12330-79—L. R. 370-18-1, DATED 26TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 5458-65—R. 1792, dated 20th December 1897, directing that an Amildar should camp out not less than ten days in every month regularly according to a programme which he ought to lay down so as to bring every part of the taluk within the scope of his tour.

2. Government Order No. 4665-72—L. R. 1560, dated 14th December 1900, directing that the days on which an Amildar returns to his headquarters be excluded in the calculation of days camped out.

Order No. R. 12330-79—L. R. 370-18-1, dated 26th March 1919.

In supersession of the instruction contained in the orders read above, Government are pleased to direct that every Amildar and Deputy Amildar should 'tour' not less than fifteen days in each month.

2. The day or days on which the Amildar or Deputy Amildar returns to headquarters after midday will be included in calculating the period of fifteen days.

3. The Amildars and Deputy Amildars should visit every village in their charges at least once in six months. For this purpose, a register of villages in the taluk or sub-taluk, noting therein the villages inspected each month, should be maintained by them in the appended form. Villages with a population of 1,000 and over should be inspected once in every quarter.

4. The Amildars and Deputy Amildars should attach to their monthly journals a statement showing the names of the villages visited by them during the month and the dates of inspection.

5. The Deputy Commissioners and Sub-Division Officers should carefully scrutinize and check the diaries of the Amildars and Deputy Amildars and satisfy themselves that these rules are strictly observed.

Register of villages inspected by the during the year

Name of hobli	Name of village	Distance from the headquarters	Date of inspection											
			July	August	September	October	November	December	January	February	March	April	May	June
1	2	3	4											

NOTE.—(i) All the villages in the taluk or hobli, should be entered in column 2.
(ii) If any particular village is inspected more than once in the same month, the dates of all such inspections should be entered in column 4.

Inam Villages under Government Management.

No. R. 12153-4—L. R. 40-18-2, DATED 22ND MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. C. Per. 88-9, dated the 18—20th February 1919, from the Revenue Commissioner in Mysore, submitting the annual Report* on the Administration of Inam Villages under the Government management for the year 1917-18.

*Printed in extenso as an accompaniment

Order No. R. 12153-4—L. R. 40-18-2, dated 22nd March 1919.

Recorded.

2. The report which was due here on 1st October 1918, has been received only on 22nd February 1919. The delay is noted with dissatisfaction.

3. Out of a total number of 193 village and estates under Government management, Survey and Settlement are reported to have been introduced into 160 villages.

4. Deputy Commissioners and Sub-Division Officers conducted Jamabandi of 62 and 100 villages and estates respectively.

5. *Demand, collection and balance.*—Out of total demand of Rs. 3,87,495 including the previous arrears of Rs. 2,22,489, the arrears that remained outstanding at the end of the year 1917-18, were Rs. 2,21,674. The arrears are heaviest in the Hassan, Bangalore and Mysore Districts, being Rs. 83,966, Rs. 64,189 and Rs. 56,240 respectively. Prompt measures should be taken to reduce the arrears appreciably. The percentage of collection to demand (42·7 per cent) in the Inam villages, compares very unfavourably with that (88 per cent) in the Government villages. This is not satisfactory. Government regret to note that in a normal year like the one under review, the arrears should have been allowed to accumulate in the Chitaldrug, Tumkur and Kolar Districts. Regarding the time-barred arrears, the attention of the Revenue Commissioner is invited to paragraph 5 of Government Order No. R. 10194-5—L. R. 64-17-7, dated 8th April 1918, reviewing the report for the previous year 1916-17, in which it is observed that Government are not responsible for the recovery of arrears which had accrued prior to the assumption of the management of the villages by them. In spite of specific instructions, no action seems to have been taken in the matter of ascertaining and obtaining (if necessary) the orders of Government for the elimination, from the accounts, of the arrears that had accrued before the assumption of the management of the villages by the Revenue Department. This information should be obtained and furnished to the Government without further delay.

6. The statement of loans outstanding against the encumbered estates has not been furnished, as directed in paragraph 6 of the Government Order referred to above. These figures should be obtained and sent to the Comptroller and the Inamdars of the villages for verification before submission to Government.

7. The special reports promised in the case of the Inam village Dodathahalli, Krishnarajpete Taluk, Nandagudi Estates, Hoskote Taluk, and the Inam villages of Mr. Siddaraj Urs and Krishnajammanni Avaru in the Mysore District, should be submitted early for the orders of Government.

No R. 12153-4—L. R. 40-18-2, DATED 22ND MARCH 1919.

ACCOMPANIMENT

Preliminary.—This is the second report submitted in the form prescribed in Government Order No. R 9496-505—L. R. 205-16-12, dated 14th March 1917 The reports from the Deputy Commissioners which were due in this office on 1st September 1918, were received from the several districts on the dates noted below:—

District	*Date of receipt.*
Bangalore	14th October 1918
Kolar	21st September 1918
Tumkur	27th September 1918
Mysore . ..	2nd September 1918
Hassan . .	26th September 1918
Shimoga (*nil* report) .. .	18th July 1918
Kadur do	17th September 1918
Chitaldrug	12th October 1918

PARA I.

Estates under Government management.—The following statement shows the number of estates under Government management under the several heads during the year under report:—

District	Estates belonging to Palace		Estates belonging to Muzrai and other public institutions		Estates attached under Sec. 130 of the Land Revenue Code		Estates taken as security for loans advanced to Inamdars		Estates taken under Government management on the application of owners or other persons		Estates taken under Government management during the year		Estates handed over to the Inamdars during the year		Total number that remained under Government management at the end of the year	
	Villages	Estates	Villages	Estates	Villages	Estates	Villages	Estates	Villages	Estates	Villages	Estates	Villages	Estates	Villages	Estates
Bangalore	1	1	16	7	.		5	8	1	1			.		29	17
Kolar				21				2		3						26
Tumkur	1		11												15	
Mysore	7	1	21	3	2		20	8					3		50	12
Hassan				18		3		19								40
Shimoga																
Kadur																
Chitaldrug			3								1				1	
Total	12	2	51	49	2	3	28	37	1	4	1		3		98	95

2. No villages and estates were taken under Government management during the year. The Inam village of Myakalurlahalli, Hiriyur Taluk, which has been under Government management and which apparently had been left out of account in the report for the year 1916-17, is reported to have been now brought on the list. The Inam villages of Karadihalli, Mangala and Vaderahosahalli in the Mysore District were restored to the Inamdars during the year.

No. R. 12153-4—L. R. 40-18-2, DATED 22ND MARCH 1919.

PARA II.

Introduction of survey and settlement.—The following statement shows by districts the number of Inam villages into which survey and settlement have been introduced.

District	Previously introduced	Introduced during the year	Not introduced	Remarks
	Villages and estates	Villages and estates	Villages and estates	
Bangalore ...	42	...	4	
Kolar ...	22	1	3(*a*)	(*a*) One of these was surveyed but settlement has not been introduced yet.
Tumkur ...	14	...	1(*b*)	(*b*) Surveyed but settlement not yet introduced.
*Mysore ...	44	...	6(*c*)	(*c*) The inamdar is against the introduction of survey and settlement in one case (Asavala village, Hunsur Taluk) and the question has been ordered by Government to be dropped in another (Hariyala village, Gundlupet Taluk). Steps are being taken to introduce Survey and Settlement in the remaining four cases.
Hassan ...	33	...	7(*d*)	
Shimoga ... } Kadur ... }	...	...	...	(*d*) Five were surveyed but settlement not yet introduced.
Chitaldrug ...	4	...	...	
Total ...	159	1	21	

* Details are not furnished in the case of the remaining twelve estates in the Mysore District.

PARA III.

Jamabandi.—The following statement gives particulars of Jamabandi held by Revenue Officers and shows the number of cases of encroachments and of transfers of patta dealt with during the year.

District	Conducted by		Number of cases of encroachments	Number of applications for transfer	
	The Deputy Commissioner	The Sub-Division Officer		Disposed of	Pending
Bangalore	3	31	.....	16	.....
Kolar	2	20	.....	3	.....
Tumkur	7	8	Information not furnished		
Mysore	19	29	3	37	1
Hassan	29	10	Information not furnished		
Shimoga ... ... } Kadur ... }	.....	.....	.....	.....	.....
Chitaldrug	2	2	.....	.....	.....
Total ...	62	100	3	56	1

The Deputy Commissioners conducted the Jamabandi of 62 and the Sub-Division Officers of 100 villages and estates. Information has not been furnished in the District reports as to whether the Jamabandi of the remaining 31 villages and estates have been conducted and by whom. Further report on this point has been called for.

2. Three cases of encroachment were dealt with in Mysore District. There were 57 applications for transfers of patta, of which 56 were disposed of

No. R. 12153-4—L. R. 40-18-2, dated 22nd March 1919.

3. The demand was settled before the commencement of the collection season in all the villages of the Chitaldrug District, in most of the villages of the Kolar District and in the villages of Gundlupet, T.-Narsipur, Mysore, Heggaddevankote, Hunsur and Yedatore Taluks of the Mysore District. The other District reports are silent on the point.

4. *Steps taken for the proper maintenance of boundary marks.*—The Deputy Commissioner, Bangalore District, states that steps are being taken to replace certain missing bandhs in the Palace Gardens at Santhimoganahalli in the Channapatna Taluk. The Deputy Commissioner, Kolar, reports that boundary marks in many of the settled villages were inspected by the village officers and maintained in proper condition. The Deputy Commissioner, Mysore, observes that though special instructions had been issued, none of the Amildars furnished information regarding the numbers of bandhs inspected, number in disorder and the number set right. Thr Deputy Commissioner, Chitaldrug, remarks that boundary marks were all in good condition.

5. The accompanying statement shows the demand, collection and balance of revenue in the Inam villages under Government management during the year under report:—

District	Demand			Collection including remission	Balance	Percentage of collection to the total demand
	Arrear at the beginning of the year	Demand for the year	Total demand			
	Rs.	Rs.	Rs.	Rs.	Rs.	
Bangalore ...	64,605	28,508	93,113	28,924	64,189	31·0

6. The arrears at the beginning of the year amounted to Rs. 2,22,489 and the demand for the year was Rs. 1,65,006. The total demand was thus Rs. 3,87,495 and the collection including remissions to the amount of Rs. 3,673 was Rs. 1,65,821. The percentage of collection to the total demand in the several districts and in the State is shown in the statement. In Kolar, Tumkur and Chitaldrug Districts, not even the current demand was realised.

7. The balance at the end of the year was Rs. 2,21,674 (for particulars *vide* statement attached).

*(Particulars not furnished for the remaining Rs. 14,418 relating to Muzrai villages.)

No. R. 12153-4—L. R 40-18-2, DATED 22ND MARCH 1919.

The arrears in the districts of Hassan, Bangalore and Mysore are very heavy. The Deputy Commissioners concerned will be requested to pay particular attention to this matter and to impress on subordinate officers the necessity for making strenuous endeavours to appreciably reduce the arrears during 1918-19.

PARA IV.

Increase of revenue.—The Deputy Commissioner, Bangalore District, states that the renewal of the lease for the collection of revenue in Kodiyala, Karanahalli and Seshagirihalli villages belonging to Sri Vyasarayaswami Matt fetched an increase of Rs. 124. The sale of two building sites in Kilaganahalli village, Anekal Taluk, is said to have brought an additional sum of Rs. 32 to the Sri Sivaganga Matt. The Deputy Commissioner of Kolar observes that only one darkhast was received and that the increase in the demand, *viz.*, Rs. 8,081 was due to the increase under certain miscel' ieous items, chiefly "Amarayi," in Mulbagal and Sidlaghatta Taluks. The Deputy Commissioner, Mysore District, states that seven darkhasts were received in the Chamrajnagar Taluk in addition to the five pending at the end of the previous year and that four of them were disposed of. The Deputy Commissioner, Chitaldrug, states that no darkhasts were received during the year. The Deputy Commissioners of Tumkur and Hassan Districts are silent on the point.

PARA V.

Village servants.—Except the Mahal Jodi Vibhutipura village, Kolar Taluk, where a Patel had to be appointed, all the other Inam villages in the State had their village servants The Patels are said to be generally illiterate.

PARA VI.

Village accounts.—The Deputy Commissioner, Bangalore District, states that the prescribed village accounts are maintained in all the villages except Tirupalya in the Anekal Taluk. In the Kolar District such accounts are said to have been maintained in all the settled villages and only Accounts Nos. 14 and 15 in the two unsettled Sarvamanya villages of Kondarajanahalli and Kanaganakoppa. In the villages of Tumkur, Mysore, Hassan and Chitaldrug Districts, accounts are said to have been maintained as in Government villages.

PARA VII.

Coercive processes.—Forty-two notices of demand were issued in the Bangalore District for the recovery of a sum of Rs. 795. A sale was held in the Magadi Taluk, resulting in the recovery of Rs. 88

2. Demand notices were issued in the taluks of Kolar, Sidlaghatta, Mulbagal and Goribidnur and a sum of Rs. 76 was realised in the Sidlaghatta Taluk. Adoption of coercive processes fetched Rs. 4,766 in the Mysore District, Rs. 1,584 in the Hassan District and Rs. 16 in the Chitaldrug District.

3. Two Civil suits were filed in the Mysore District for the recovery of a sum of Rs. 81. No Civil suits were filed in any of the other districts

PARA VIII.

Improvement of estates.—The Deputy Commissioner of Bangalore states that three village improvement roads were opened in the Anekal Taluk Instructions regarding the improvement of Palace Estates and villages in the Channapatna Taluk are said to be awaited from the Palace Controller who visited the said villages and estates.

2. The Deputy Commissioner, Kolar District, reports that a drinking water well was being sunk in Jodi Purasanahalli village, Malur Taluk, and that a well was proposed to be sunk in Jodi Halali village, Kolar Taluk. The repairs of the tank of Kondarajanahalli Sidlaghatta Taluk, is reported to be in progress A grant-in-aid school is said to have been opened in Sarvamanya Kanaganakoppa village, Goribidnur Taluk Improvement of sanitation of all the villages is also said to have engaged attention

3. The Deputy Commissioner of Tumkur, states that the Village Improvement Committees at Dammanakuppe and Huliyapura are working well Repairs to two minor tanks at Sathanahalli were undertaken and estimates called for for repairing the tank and darga at Kesaramadu. A site was also selected for constructing a matt at Halkurki village and the estimate is pending sanction

4. The Deputy Commissioner of Mysore, reports that there are 19 Village Committees in his district. Twelve schools including a night school and a mat-weaving class are reported to be working. Attempts are said to be made to constitute a Village Panchayat for Gandanahalli village and to start a reading room at Kadakola. Repairs to roads drains and water kattes were executed in the Inam villages of Chamrajnagar, Nanjangud and Mysore Taluks and prickly pear was also removed.

No. R. 12153-4—L. R. 40-18-2, DATED 22ND MARCH 1919.

5. The Deputy Commissioner of Hassan, reports that the improvement of a katte in Ramanahalli village, Hole-Narsipur Taluk, was put in hand and that a Reading room, a Co-operative Society, an Aided English School and a Girls' School were opened in Jodi Gubbi village.

6. The Deputy Commissioner, Chitaldrug, states that no special work was undertaken for the improvement of the villages but that due attention was being paid to the improvement of their sanitation.

PARA IX.

Financial result of the year.—The following statement shows the details of expenditure on the management of Inam villages during the year.

Statement showing the total expenditure on management of Inam villages under Government management.

No.	District	Income during the year	Expenditure during the year: Expense of management	Government cesses, etc.	Government loan and interest, if any, for the year	Payments to the Inamdar	Adjustment to arrears of revenue, etc.	Total	Remarks
		Rs	Rs.	Rs.	Rs.	Rs.	Rs.	Rs	
1	Bangalore	28,163	1,931	3,654	.	18,519	9,160	33,267	
2	Kolar	7,205	211	2,302	.	4,867	97	7,477	
3	Tumkur	12,476	2,255	799		.		3,054(a)	(a) Rs. 1,098 were credited to Muzrai Funds and Rs. 1,006 to Palace Funds. The rest is unaccounted for.
4	Mysore	1,05,297	7,085	13,417	40,893	797		62,192(b)	(b) Rs. 10,827 is said to have been reserved for expenditure during next year on the management of "loan" villages. The rest is unaccounted for
5	Hassan	24,570	2,989	3,936	7,221*	5,245+ 1,226*	3,851	24,471(c)	(c) *Rs. 7,224 sent to Deputy Commissioner, Mysore, for adjustment towards loan and Rs. 1,226 credited to Palace Estates.
6	Shimoga	.	.	.	..	...	...		
7	Kadur	...	.	..	.	...	..	.	
8	Chitaldrug	1,422	832	296	.	..	..	1,128	
	Total	1,82,193	15,306	21,404	48,117	30,651	13,108	1,31,589	

2. The financial condition was not satisfactory in the Inam villages belonging to Sri Gangadhareswaraswami temple and Sri Sivaganga Matt in the Nelamangala Taluk, Bangalore District and in certain Inam villages belonging to Sri Anjaneyaswami at Mulbagal and Sri Ramalingeswaraswami at Avani in the Mulbagal Taluk.

3. In the case of the Inam village of Dodathanahalli, Krishnarajpete Taluk, the income (Rs. 1,766) fell short of the expenditure (Rs. 1,880) by Rs. 34. The Deputy Commissioners concerned will be asked to separately investigate these cases and submit special reports about them. The Deputy Commissioner, Bangalore, has merely mentioned that there was an increase of revenue of Rs. 1,706 in the Nandagudi Estates, Hoskote Taluk, and that the collection work was bad. A special report about these estates will also be called for.

4. The Deputy Commissioner, Mysore District, reports that the income from the Inam villages of Mr. Siddaraj Urs and Krishnajammanni Avaru is not enough even to pay the current interest and that the loan issued to them cannot therefore be adjusted in a reasonable time. A special report regarding the financial situation of the aforesaid Inam villages will be obtained and submitted to Government for orders.

5. Regarding the loan account of Mr. D. Devaraj Urs, the Deputy Commissioner, states that the matter is under the consideration of Government and that their orders are awaited.

Darkhast Quarterly Return.

No. R. 12174-224—L. R. 367-18-1, DATED 22ND MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ AGAIN—

Appendix C—Form of Darkhast Quarterly return prescribed in Government Order No. R. 3820-68—L. R. 89-16-5, dated 11th October 1917, issuing revised instructions with a view to secure expeditious disposal of darkhasts.

Order No. R. 12174-224—L. R. 367-18-1, dated 22nd March 1919.

As there are reasons to believe that the information required to be furnished in the darkhast quarterly return, has not been correctly understood, especially with regard to cases to be included under serial 6 'phod' darkhasts, Government are pleased to issue the following explanatory instructions for the guidance of the officers concerned.

(i) The term "Phod darkhasts" in the return refers only to darkhasts for parts of survey numbers for cultivation.

(ii) Serial numbers 1 to 5 in the return are exclusive of each other and make up the total number of darkhasts for part and entire survey numbers under each class, and serials 6 and 7 are intended to show the number actually coming under these two special classes out of those shown against serial numbers 1 to 5.

(iii) When part of a survey number is granted under the rules for speedy disposal of darkhasts by fixing a temporary assessment the case should be shown as disposal in the return.

(iv) When pakka phod of a part survey number is complete and the same is brought on to the Akarband, an entry to that effect should be made in red ink in the remarks column of the darkhast register at the same time that the particular entry in the supplemental Khetwar patrik is struck off.

2. The supplementary notes referred to in (i) to (iii) above should be printed as notes under the form of darkhasts quarterly return, and number (iv) under the Darkhast Register (Appendix C. and B1 of the Government Order respectively in the future supply of copies of the said forms.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Revenue Commissioner in Mysore.
The Excise Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Superintendent, Revenue Survey and Settlements in Mysore.
The Heads of the other Departments.
The Deputy Commissioners of Districts.
The Superintendent, Government Printing.

Exd.—G. W. B.

D. C. B. Returns and Registers of the Revenue Department.

No. R. 11455-505—L. R. 345-18-1, DATED 8TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. R. 5042-80—L. R. 199-06-2, dated 15th November 1906, in vesting the Revenue Commissioner with powers to receive and review certain returns.

2. Government Order No. R. 7816-24—L. R. 354-16-18, dated 27th January 1917 directing the discontinuance of the submission to Government of certain annual returns mentioned in Appendix C of the Government Order read above.

3. Government Order No. R. 6016-62—L. R. 336-17-2, dated 9th January 1918 issuing instructions for the revision, curtailment and standardisation of the forms of Registers and Returns in the Revenue Department.

Order No. R. 11455-505—L. R. 345-18-1, dated 8th March 1919.

The forms of Demand, Collection and Balance returns as now revised including the revised Irsal Patti as detailed in the enclosed Statement A are approved. These will surpersede the forms shown in the enclosed Statement B.

2. Forms for the following registers that have to be maintained in the District Office are also approved:—

1. Register of Demand, Collection and Balance of Land Revenue and Land Revenue Miscellaneous, Interest and XIII Miscellaneous.
2. Register of Demand, Collection and Balance of Mohatarfa.
3. Register of D. C. B. of Cesses.

The figures that should be posted in the Registers will be the totals for each main head of revenue, such as Land Revenue, Land Revenue Miscellaneous, etc., shown in the Taluk monthly Demand, Collection and Balance statements received in the District Office. This will facilitate the preparation and submission of Demand, Collection and Balance Returns to Revenue Commissioner. The Taluk monthly and annual Demand, Collection and Balance Returns should also be regularly filed in the District Office as they furnish figures under detailed heads.

B. RAMASWAMAIYA,

No. R. 12671-81—L. R. 329-18-4, DATED 31ST MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No, 163, dated 31st January 1919, from the Superintendent, Revenue Survey and Settlements in Mysore enquiring whether the Railway Cess now being levied in some of the districts is to be taken into consideration in calculating the potgi of the village officers as such cess which is based on the gross revenue collections of the village seems to be one of a permanent character for the purpose of potgi settlement and as the village officers do not appear to be separately remunerated for collecting this cess.

2. Correspondence ending with letter No. D. Dis. 696, dated 5th March 1919 from the Revenue Commissioner in Mysore, stating that the cess should as proposed by the Survey Superintendent be taken into account in calculating the potgi payable to the village officers so long as the cess is collected by them and no other agency is employed for the purpose.

Order No. R. 12671-81—L. R. 329-18-4, dated 31st March 1919.

The Railway cess may as proposed be included in the gross revenue collections of a village in calculating the potgi payable to village officers.

No. R. 12141-3—L. R. 42-18-13, DATED 22ND MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letters Nos. C. per. 41-1 and 41-2, dated 5th August 1918, and 26th February 1919, respectively from the Revenue Commissioner in Mysore forwarding copies of letters Nos. Sc. 67, Rev. and C. per 65-1—Rev. 18-19, dated 26th July 1918 and 20th February 1919 respectively from the Deputy Commissioner, Chitaldrug District, submitting reports showing the progress made during the half-years ended 30th June 1918 and 31st December 1918 in connection with the expansion of cultivation under the Block system of irrigation under the Vani Vilasa Sagara Channels.

Order No. R. 12141-3—L. R. 42-18-13, dated 22nd March 1919.

Recorded.

2. The appended statements show the progress made during the two half years under review in respect of the several items mentioned.

3. Government observe that the progress shown in respect of the extent and disposal of block lands is satisfactory during both the half years under report, though the shortage in the realisations therefrom during the latter half year is said to be due to the fact that the lands now sold were of inferior quality and more inaccessible. The extent under occupation during the period under review increased by 194 acres and 8 guntas. The extent of unauthorized cultivation has increased during the second half year. This should not have been allowed.

Government note with satisfaction that complaints regarding shortage of water supply were few and that they were promptly redressed.

Government are glad that the two poineer Irrigation Panchayats which were constituted in the Channel area during the half-year ended 31st December 1917 are doing good work.

It is reported that the area under cocoanut cultivation is 57 acres and 28 guntas. The Deputy Commissioner is of opinion that special encouragement should be given for raising cocoanut and similar crops in the block area. He is requested to make definite proposals through the Revenue Commissioner for the consideration of Government.

The balance remaining unrecovered at the beginning of the period under review (*i. e.*, 1st January 1918) was Rs. 12,259 and the demand for the year 1917-18 was Rs. 67,414. Out of this total amount of Rs. 79,673, Rs. 69,655 was collected before 30th June 1918 and Rs. 6,187 remitted. Of the balance of Rs. 3,831 remaining unadjusted at the commencement of the current official year, Rs. 1,562-7-2 has been recovered leaving a balance of Rs. 2,268-8-10 unadjusted on 31st December 1918. Of this a sum of Rs. 1,517-12-4 has since been brought on the remission lists. Coercive processes have been taken for the recovery of Rs. 740-2-3.

In view of the peculiar conditions prevailing in the block area, the collection may be regarded on the whole as satisfactory.

4. Government agree with the Revenue Commissioner that the Deputy Commissioner's action in having held out assurances regarding relaxations of block system rules and certain other concessions to bidders at the auction sales on 22nd March 1918 before obtaining the sanction of Government was not in order.

5. The Deputy Commissioner suggests that, as some of the lands now included in blocks are rocky and cut up here and there and otherwise unfit for cultivation, the present block lists should be revised. The Chief Engineer is requested to enquire into this matter at a very early date.

6. The following points have been raised in the reports now under review.:—

(i) Organisation of a Colony of Woddars and Lumbanies in three centres of the irrigated tract to remedy the keen-felt paucity of labour in the channel area by grant of lands and other concessions;

No. R. 12141-3—L. R. 42-18-13, DATED 22ND MARCH 1919.

(ii) Development of garden cultivation especially of cocoanut and arecanut in
(*a*) the prohibited area under the channels and
(*b*) on lands situated much above the channels which are reported to be eminently fitted for dry garden crops by grant of certain concessions to the raiyat;

(iii) development of the growth of manurial crops such as honge on dry lands with the aid of channel water, wherever possible, free of charge; and

(iv) simplification of the existing cumbrous procedure for inclusion under and exclusion from, blocks of lands by delegating the power to the Deputy Commissioner, as a temporary measure, after the Irrigation Range Officer's opinion has been recorded, every such disposal being formally forwarded to the Irrigation Executive Engineer in due course.

The Revenue Commissioner is requested to submit detailed proposals in regard to items (i), (ii) and (iii) referred to above at a very early date.

7. As regards item No. (iv)—*i. e.*, simplification of the procedure referred to above, separate orders will issue in the Public Works Department.

8. *General remarks.*—During the five years and a half of the working of the block system of irrigation under the Vani Vilasa Sagara Channels, the extent of block lands has increased from 7,427 to 11,356 acres, *i.e.*, by 50 per cent along with a rise of 26 per cent in the extent of the occupied area, the corresponding increase in revenue derived being about 56 per cent. The area commanded by the Channels is 32,731 acres of which only 34 per cent has been included in blocks and 26 per cent is actually under occupation. In view of the liberal concessions shown from time to time and considerable remissions of revenue granted year after year, the progress so far achieved cannot be regarded as altogether gratifying.

Village Relief Works.

No. R. 11706—R. M. 4-18-86, DATED 13TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. R. 11706—R. M. 4-18-86, dated 13th March 1919.

In view of the present acute food situation caused by the high price of ragi, etc., Government consider it desirable as a measure of relief to waive the recovery of contribution from villagers for Village Improvement Works in selected taluks, and to start such works urgently. The Revenue Commissioner is requested to submit at once a list of taluks or parts of taluks, where such relief is called for. It will be noted in this connection that in Government Order No. R. 7098-106, dated 9th December 1918, sanction had been accorded for starting Village Improvement Works in the Gundlupet Taluk, up to a certain limit without recovery of the usual contribution from the villagers till the end of December last. Progress of works started under that Government Order should also be reported.

No. R. 12493-504—R. M. 4-18-95, DATED 28TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. C. Per. 24-2, dated 25th February 1919, from the Revenue Commissioner in Mysore, forwarding the report of Progress of Village Improvement work in the several districts during the quarter ending 30th September 1918, together with a copy of his review thereon.

2. Letter No. C. Per. 24-3, dated 10th March 1919, from the same Officer, forwarding a similar report for the quarter ending 31st December 1918, with a copy of his review thereon.

Order No. R. 12493-504—R. M. 4-18-95, dated 28th March 1919.

Recorded.

2. The returns are again belated, that for quarter ended 30th September 1918, due to Government on 1st November 1918, having been received only on 25th February 1919, and that for the quarter ended 31st December 1918 due on 1st February 1919, on 10th March 1919. The attention of Deputy Commissioners is invited to the instructions regarding the preparation and submission of these returns laid down in Government Order No. R. 3586-97—L. R. 12-17-25, dated 9th October 1917, and the subsequent Government reviews. The instructions should be strictly followed and such delays avoided in future.

3. The number of Village Committees which was 8,820 at the end of June 1918, rose to 8,848 at the end of the first and to 8,917 at the end of the 2nd quarter of the current official year. It is also reported that the number of villages in which Committees have yet to be formed were respectively 816,831 and 911 at the end of the successive three quarters, the progress reports relating to the last two of which are under review. These figures require explanation.

4. It is seen from the appended statements showing the progress in the working of the scheme in the several districts that there was a marked fall in the quantity of work turned out under every head during the period under review.

5. *Essential duties under the scheme.*—There has been a decided decrease in the number of Committees that attended to the essential duties under the scheme as the following statement shows:—

Number of Committees that	For the quarter ended 30th June 1918	For the quarter ended 30th September 1918	For the quarter ended 31st December 1918
	Rs.	Rs.	Rs.
(a) devoted half a day per week for communal work ...	5,209	5,079	4,872
(b) subscribed for one or more newspapers	5,282	5,273	5,182
(c) held weekly meetings for recreation and instruction ...	3,956	4,084	3,690
(d) carried out special works of improvement	1,342	1,208	882

6. *Special village improvement works.*—The value of works carried out with the aid of Government grant during the two quarters under review is reported to be Rs. 24,053 and 14,726, respectively, as against Rs. 60,936 in the quarter ending 30th June 1918. The total amount actually spent on account of these works during the two quarters is Rs. 14,228 which is only 14½ per cent of the allotment of Rs. 98,000 made for village improvement works for the current year.

No. R.12493-504—R. M. 4-18-95, DATED 28TH MARCH 1919.

7. The total value of works executed without the aid of Government grant has also fallen from Rs. 1,14,418 in the quarter ended 30th June 1918, to Rs. 85,370 and 24,917, respectively, in the two quarters under review.

8. *Cart-tracks.*—The total length of cart-tracks newly opened or improved during the two quarters is said to be 408 miles, 5 furlongs and 224 miles, 6 furlongs as against 705 miles, 7 furlongs in the quarter ended 30th June 1918.

9. The amount of Village Common Fund collected during the two quarters is also less as compared with the previous quarter, being only Rs. 12,886 plus 410 seers of grain and Rs. 2,887 plus 128 seers, as against 17,457 rupees in the quarter ended 30th June 1918.

10. No satisfactory explanation is offered for the decrease in the activities under the Village Improvement Scheme in the first quarter of the year. The influenza epidemic and seasonal conditions are apparently responsible for the set back in the second quarter.

11. The following Amildars and Deputy Amildars are reported to have done good work under the scheme during the two quarters under review.

For the quarter ended 30th September 1918.

(1) Mr. Abdul Khalak, Chamrajnagar Taluk.
(2) „ Shama Rao, Krishnarajpete.
(3) „ K. Subba Rao, Shikarpur.
(4) „ A. J. Donne, Chikmagalur.
(5) „ S. Srinivasiengar, Kadur.
(6) „ Narasinga Rao, Hiriyur.
(7) „ E. H. Thompson, Hosdurga.
(8) „ M. S. Seshagiri Rao, Hoskote.
(9) „ M. Shankarappa, Closepet Sub-Taluk.

For the quarter ended 31st December 1918.

(1) Mr. Abdul Khalak, Chamrajnagar.
(2) „ Dwarkanath, Yedatore.
(3) „ S. Srinivasiengar, Kadur.
(4) „ K. Subba Rao, Shikarpur.

12. The local officers are requested to give their personal and sympathetic attention to the development of the scheme, upon which the welfare of the rural population so largely depends.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

The Report on the Administration of the Forest Department for the year ending with the 30th June 1918, received with the Conservator of Forests' letter No. 4303, dated 1st October 1918.

Order No. R. 11325-37—Ft. 73-18-3, dated 6th March 1919.

Recorded.

2. *Area of State Forests and reserved lands.*—The area of State Forests increased from 3103·74 square miles to 3178·27 square miles. Twelve blocks covering an area of 74·58 square miles, were notified during the year. There were at the close of the year ninety-six blocks of reserved lands with an area of 521 square miles of which fifty blocks with an area of 367 square miles were pending settlement or issue of final notification. The pendency is heavy and the disposal of the cases should be expedited.

The Conservator of Forests is requested to make a separate reference to Government in consultation with the Revenue Commissioner and the Amrut Mahal Superintendent, after the close of the current year on the question of the transfer of the management of Amrut Mahal Kavals to the Forest Department.

Government note the views of the Conservator of Forests, regarding the need for a further expansion of the Forest Area and await proposals for fresh reservation in accordance therewith.

3. *Village Forests.*—Forty-nine village forests were constituted as against 36 in the year previous. The suggestion of the Conservator of Forests, regarding the necessity for his being consulted before proposals are sent up for the constitution of village forests, is under consideration separately and orders will be issued in this behalf in due course.

4. *Demarcation*—New lines to a length of 120 miles were cut against 159¾ miles in the previous year and repairs were executed to a length of 4,060 miles. The cost incurred was Rs. 11,222 as against Rs. 8,639 in the previous year. The increase is reported to be due to the extensive repairs effected and to the dearness of labour in the Malnad where the work was concentrated.

5. *Surveys.*—The total area surveyed during the year was 223·5 square miles, which is slightly in excess of the figure for the previous year.

6. *Working Plans.*—Working plans for an area of 93 square miles of forests in the Mysore South and West Divisions were sanctioned during the year and reports in respect of 106 square miles in the Shimoga District were prepared and submitted to Government for approval since the close of the year. Field work and preliminary inspection have been completed in respect of large areas of forests in the Kadur and Shimoga Districts, which lie in the area allotted to the Iron Smelting Industry. Work is in progress in the Bangalore District also.

The areas for which no working plans exist were as usual worked under provisional plans based on local conditions and sanctioned by the Conservator of Forests.

7. *Communications and Buildings.*—A sum of Rs. 12,917 was spent on new roads, etc., and Rs. 16,314 on maintenance and repairs of existing ones, making a sum total of only Rs. 29,231 as against a budget allotment of Rs. 35,000. The lapse is heavy. An expenditure of Rs. 23,179 was incurred under buildings and about Rs. 6,000 on miscellaneous improvements, (*e.g.* new wells, improvements of old wells and of compounds of forest lodges, etc.,) against Rs. 33,000 and Rs. 6,974 the previous year. The progress is not quite satisfactory. Mr. G. Krishnamurthi Naidu, M. F. Deputy Conservator, has been placed on special duty to study among other things, the existing transport facilities, and the directions in which they could be improved.

8. *Protection.*—There was a slight increase in the number of cases reported, *viz.*, 1,186 as against 1,177 in the previous year. But as usual about 90 per cent of these were of a trivial nature. The percentage of convictions in cases taken to court was 71 as against 69 in the year previous. Out of 1,211 cases compoundable under Section 59 of the Forest Regulation, 1,147 were compounded and 3 cases were discharged leaving a balance of 61 cases.

The disposal by Revenue officers of cases of injury to Sandal trees is far from satisfactory. The number of cases reported are on the increase and disposal is very slow. The Deputy Commissioners are requested to issue strict instructions in the matter and to report to Government, the names of such Revenue officers as are most dilatory in the disposal of these cases in their respective Districts.

9. *Fire Protection.*—Much damage was done by fires in Tumkur and Mysore Districts. The percentage of success in fire protected areas was 95·7 as against 98·5 in the year previous, and the decrease is attributed to the protracted fire season brought about by the drought.

10. *Grazing.*—Exclusive of the cattle of the Amrut Mahal Department enjoying free grazing in State Forests, the number of private cattle licensed to graze in State Forest was about 360,000. The fees realised under this head was Rs. 66,598 against Rs. 1,70,203 for last year which (latter figure), however includes a sum of Rs. 1,02,807 on account of nine years' demand of the kavals leased out to the British Grass Farm Department.

11. *Exploitation.*—The timber operations were not as extensive as in the year previous. This is attributed to various causes, *e.g.*, heavy stocks of previous years, elephants not being available for transport purposes, tractors being disabled for work and the shortage of Railway Waggons.

12. *Sandalwood.*—The total revenue from sandalwood was Rs. 24,82,241 against Rs. 33,02,288 in the previous year. The decrease is accounted for by the suspension of auction sales, almost all the wood being supplied to the Sandalwood Oil Factories at fixed rates, only a small quantity 3 tons 16 cwts. having been sold retail for Rs. 3,986.

Though spike disease in sandalwood continued to be virulent, no new areas were affected during the year. A conference of the Forest officers of Mysore and Coorg with Mr. Hole, Forest Botanist, Forest Research Institute and College, Dehra Dun, was held in October 1917 to discuss and formulate proposals for the investigation of the disease.

The present system of working is confined to the removal of dead and diseased trees. It is reported that till the valuation Survey of Sandalwood which is in progress yields definite data extraction on the present lines is the safest course to adopt.

13. *Minor Forest Produce.*—The exploitation of minor forest produce was transferred wholly to private agency on lease.

There is a large decrease in the value of produce exploited and sold by departmental agency, *viz.*, from Rs. 39,82,000 in 1916-17 to Rs. 31,61,000 in the year under report. The fall is mainly under Sandalwood; and this accounts for a decrease of Rs. 8,20,047. There was also a fall of about Rs. 14,000 under fire-wood and charcoal which is said to be due to the stoppage of fuel supply to the Sandalwood Oil Factories.

There was further a decrease of about Rs. 7,00,000 under revenue on produce worked by private agency as compared with the previous year, which is due chiefly to Government having taken over the control of tanning barks for War purposes and the consequent re-adjustment of the existing and time-expired leases at a considerable sacrifice of the rental based on the average of 1913-16.

14. *Financial.*—The total demand inclusive of the previous years' balance of Rs. 15,84,045 amounted to Rs. 54,74,927, out of which a sum of Rs. 43,81,636 was collected or written off the accounts, leaving a balance of Rs. 10,93,291 at the close of the year. The outstandings are heavy and strenuous efforts should be made to recover them early.

The total expenditure under all the heads was Rs. 10,61,751 as against Rs. 9,49,162 in the year previous. The increase is mainly due to the re-organization

of the Department, which came into force from 1st March 1918, and to a large number of officers having been deputed for special duty.

The year's working resulted in a surplus revenue of Rs. 33,31,000 as against Rs. 35,59,556 in the previous year. But for the loss of revenue under tanning barks and the deficit working of sandalwood, the extra expenditure during the year would have been more than met by the extra income.

15. *Inspection.*—The Conservator of Forests camped out for 175 days and inspected all the ten District Forest Offices, seven Ranges, three Koties and five Depots.

16. *General.*—During the year, a number of improvements were effected in the working of the Department. The executive, protective, ministerial and menial establishments were revised and re-organised at an annual additional cost of Rs. 56,000 with a view to increase the efficiency of the Department. The re-organization has been in force from 1st March 1918. The bifurcation of the Revenue Districts of Mysore and Shimoga into 2 forest divisions each, was confirmed and the number of Ranges was increased from 52 to 75. The system of keeping accounts in the Department, was revised according to the suggestions of Mr. Datta.

As a result of the Khedda operations started last year, 34 elephants were captured of which 9 were sold for Rs. 15,000, 20 were reserved for the Department, 1 escaped and 3 died. The number of departmental elephants was increased and the elephant establishment was re-organised since the close of the year under report.

The saw mill was permanently removed from Kumsi to Shimoga, during the latter part of the year. The tractors working in the Shimoga Forests were put in order. An additional class for the training of a second batch of candidates in the Ranger's school was opened and provision was also made for the training of guards.

An additional establishment of two Sub-Assistant Conservators with the requisite staff was sanctioned for the valuation Survey of sandalwood on a scientific basis in order to maintain a steady supply of sandalwood to the Sandalwood Oil Factories. About three lakhs of trees of various girth classes have been enumerated in Shikarpur and Hunsur Taluks, and very valuable information has been gathered regarding the life history of the tree.

Mr. Hajee Ismail Sait's contract for the supply of timber to the Gold Fields was terminated in the year and the Depots were thrown open to all the purchasers. To bring down the price of fuel in the Bangalore City, which had gone up abnormally owing to scarcity of private fuel supply, the Department undertook to supply fuel for consumption in Bangalore. This has had a very beneficial effect and brought down prices to the normal level.

In addition to the the usual working plans for the forests, special plans for the working of bamboo areas for paper pulp were under preparation. The preliminary investigation connected with the manufacture of straw boards from bamboos, lantana, elephant grass, waste paper, etc., having been completed, regular work was started since the close of the year. Certain kinds of new species of wood suitable for pencils and match splints were tested with good results.

Royal Preserves.—Certain areas in the Mysore and Kadur Districts were constituted as Tiger preserves and added on to the list of Royal preserves.

Personnel.—The acknowledgments of Government are due to Mr. M. G. Rama Rao, the Conservator of Forests, for the efficient manner in which the department was administered during the year under review

B. RAMASWAMAIYA,

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. Camp R. 3-12, Forest 155-09-8, dated 19th October 1912, directing with certain modifications, the continuance of the tentative classification of unreserved trees ordered in Government Order No. R. 6529-38—Ft. 50-05-6, dated 9th April 1908, for a further period of three years.

2. Government Order No. R. 957-66—Ft. 184-12-2, dated 28th July 1913, directing further modifications to the said classification.

3. Letter No. 8819, dated 5th February 1919, from the Conservator of Forests in Mysore, submitting for sanction (1) lists of classified trees in District Forest with revised rates of seigniorage and (2) lists showing rates of seigniorage for removal of forest produce from State Forests, by permits.

Order No. R. 11087-95—Ft. 137-18-2, dated 1st March 1919.

The revised rates proposed by the Conservator are sanctioned.

2. These rates will be notified in the Gazette.

B. RAMASWAMAIYA,
Secy. to Govt., Revenue Department.

To—The Conservator of Forests in Mysore.
The Deputy Commissioners of Districts.

B. Ramaswamaiya,
Secretary to Government,
Revenue Department.

No. R. 12161-71—Ft. 143-16-6, dated 22nd March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. 2280, dated the 11th September 1917, from the Conservator of Forests in Mysore, submitting his views with regard to the position of the Deputy Commissioner in the Forest Department and recommending that, following the example of Madras, the District Forest Officers may be made independent of the Deputy Commissioner, and that the ministerial establishment of the Forest Department may be provincialised.

Order No. R. 12161-71—Ft. 143-16-6, dated 22nd March 1919.

According to the existing orders, the position of the District Forest Officer is that of an Assistant to the Deputy Commissioner who is the head of the Forest administration in the district. Practically the whole of the District and Range ministerial staff is now appointed by the Deputy Commissioner. The management of the District Forests is vested in him ; and in the case of State Forests he is required, in theory, to see that prescriptions of working plans are duly complied with. As regards responsibility for the administration of the Department, however, it is the Forest Conservator as Head of the Department and the District Forest Officer who are more or less, solely, held responsible.

2. The system in the Madras Presidency which was similar to that now in vogue in the State, has recently been revised and the District Forest Officers have been made solely responsible for Forest administration in the Districts subject to the control of the Head of the Forest Department in all professional, departmental and financial matters, the Collectors being always consulted in matters where the department comes in contact with the public or other departments, such as, on questions of Forest reservation, disafforestation, levy of fees, etc. The Conservator recommends the introduction in the State of a similar change in the working of his department.

3. Government have considered the subject carefully and agree with the Conservator of Forests that some change in the system of administrative control is necessary; and they are accordingly pleased to direct that the following changes defining the relation between the Conservator and the Deputy Commissioner and District Forest Officer in the working of the Department be brought into effect at once.

4. The general administration of the forests in the whole State shall vest in the Conservator of Forests as the Head of the Forest Department, subject to the control of the Government in the Revenue Department. District Forest Officers will be directly subordinate to him and receive orders and instructions from him. The Deputy Commissioners shall exercise no control over the District Forest Officers on matters which are not specifically provided for in this order.

(*a*) The District Forest Officer shall be responsible for the general management of the State and reserved Forests and plantations situated in his district and shall exercise control over the forest establishment employed therein. His powers in respect of District Forests will be subject to the control of the Deputy Commissioner under the standing orders of Government.

(*b*) The Conservator shall have complete control over the District Forest Officer in respect of all matters connected with the Forest Administration of the district, except in cases where his control is subject to the powers vested in Deputy Commissioner.

(*c*) The Deputy Commissioners shall be presumed to be interested in all matters where the Forest Department comes into direct contact with the raiyats or with other departments, such as, proposals for reservation and disafforestation, rules for the management of reserved and unreserved lands and levy of seigniorage, game

No. R. 12161-71—Ft. 143-16-6, dated 22nd March 1919.

rules, timber and other transit rules, grazing, supply of firewood to the public, the issue of timber for domestic and agricultural purposes and the like. In all these matters proposals emanating from the District Forest Officer should be submitted through the Deputy Commissioner and those emanating from the Conservator of Forests should be submitted to Government after consulting the Deputy Commissioners of the districts to which the proposals relate.

(*d*) In cases of orders passed by Deputy Commissioners under the existing rules relating to District Forests, which the District Forest Officer considers prejudicial to forest interests, he should address a communication to the Conservator through the Deputy Commissioner who shall forward it with his remarks to the Conservator simultaneously sending copies of both to the Revenue Commissioner for information. In case of difference of opinion, both the Revenue Commissioner and the Conservator may address Government.

5. Under Government Order No. R. 8727-37—Ft. 54-16-15, dated 22nd February 1918, sanctioning the re-organisation of the Forest Department, the whole of the ministerial establishment has been placed on a provincial scale. The whole staff of the Forest Department including the executive, ministerial, protective and menial establishments will be under the control of the Conservator, subject to standing orders of Government and the Deputy Commissioner shall exercise no power in respect of appointments, promotions, transfers, postings, leave and punishments or in respect of appeals in such matters. The powers of the District Forest Officer in respect of these matters will be confined to posts on Rs. 25 and below. A statement showing the location of powers of the Conservator and the District Forest Officer in these matters is appended.

6. In future, confidential reports on the work of the gazetted officers attached to districts will be submitted by the District Forest Officers through the Conservator and those on the work of the District Forest Officers and others by the Conservator himself along with those of the Deputy Commissioners. Copies of the District Forest Officer's Orders under Section 59 of the Forest Regulation should be submitted to the Conservator direct. Sales of tangadi and other minor forest produce requires the confirmation of the Conservator (and not the Deputy Commissioner as heretofore), when the value exceeds Rs. 500 in each case, the District Forest Officer himself passing final orders in other cases.

7. In all cases of proposals for the constitution of village forests, the District Forest Officer should be consulted. In order to watch the working of the village forests in each district, the Revenue Commissioner considers that the services of a Ranger for each district under the Deputy Commissioner are necessary. The Revenue Commissioner is requested to consult the Conservator of Forests regarding his requirements and to send up proposals for the orders of Government.

8. All communications from the District Forest Office will issue in the name of the District Forest Officer and all communications intended for the District Officer shall be addressed to him.

9. The Conservator of Forests is requested to submit an amendment slip to the Forest Code showing the changes effected by this order. He is also requested to show clearly the channel of correspondence between the District Forest Officer and the Conservator in the several matters which require the opinion of the Deputy Commissioner. A list showing the different matters on which the District Forest Officer himself can pass orders and those in which he should seek the orders of the Conservator, should also be submitted for the orders of Government.

No. R. 12296-9—Ft. 112-18-4, dated 25th March 1919.

Notification No. R. 12300—Ft. 112-18-4, dated 25th March 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st May 1919 the area, the boundaries of which are set forth in the schedule annexed to this Notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

SCHEDULE.

District.	Taluk	Area	Name of Block	Boundaries
Shimoga ..	Sagar ..	A. G. 1,295 32 or 2·02 square miles.	Chipli.	*North.*—Starting from a point about 10 chains east from the south-east corner of Survey No. 31 of Nedarvalli, the line runs north-east for about 53 chains through Survey No. 36 of the said village to the north-east corner bandh of Survey No. 26; then along the common boundary between Telaginamane and Nedarvalli villages to the quadro-junction bandhs of the said villages, Chilpi and Chikbilagungi; then along the common boundary between Chikbilagungi and Bydarakoppa villages for about 12 chains to meet the Nandihole.

East.—Then the line passes along the right bank of Nandihole to a point about 22 chains north from the north-east corner of Survey No. 1 of Chipli village; then south-west for about 71 chains through Survey No. 8 of Chipli to a point on the common boundary between Chipli and Aiganabailu about eight chains south-west from the south-west corner of Survey No. 7 of the former village; then south-east for about 7 chains through Survey No. 39 of Aiganabailu to a point about five chains south-west from the south-west corner of Survey No. 7 of Chipli; then east for about 10 chains to a point about 5 chains slightly south-east from the southernmost corner of Survey No. 7 of Chipli; then north-east for about 12 chains to a point about 8 chains south-east from the south-east corner of Survey No. 7 of Chipli; then again north-east for about 11 chains to a point on the right bank of Nandihole about 7 chains slightly south-west from the southernmost corner of Survey No. 4 of Chipli; then along the right bank of Nandihole to a point about 7 chains north-east from the north-east corner of Survey No. 42 of Aiganabailu.

South.—Then the line goes slightly north-west for about 68 chains through Survey No. 39 of Aiganabailu to a point about 5 chains slightly north-east from the north-west corner of Survey No. 40, then south-west for about 9 chains to a point on a katte about 8 chains north-west from the above named corner; then again south-west for about 30 chains to a point about 16 chains north-west from the north-west corner of Survey No. 3; then south-west for about 20 chains through Survey Nos. 39 of Aiganabailu and 54 of Hosagunda to the north-east corner of Survey No. 53 of the latter village; then along its north side to its north-west corner; then slightly north-west for about 35 chains through Survey Nos. 54 of Hosagunda and 5 of Jambekoppa to the north-east corner of Survey No. 4 of the abovenamed latter village; then along its north side to its north-west corner; then west for about 11 chains through Survey No. 5 of Jambekoppa to the northernmost corner of Survey No. 32.

West.—Thence the line continues along the common boundary between Nanditale and Jambekoppa to a point about 15 chains south-east from the south-east corner of Survey No. 22 of Nedarvalli; then north-east for about 22 chains through Survey No. 37 of Nedarvalli to a point about a chain east from the south-east corner of the tank Survey No. 38; then north-west for about 18 chains to the south-east corner of Survey No. 42; then along its east side to its north-east corner; then north-east for about 37 chains through Survey Nos. 37 and 36 to a point about 10 chains north-east from the easternmost corner of Survey No. 6; the north-west for about 30 chains through Survey No. 36 to meet the starting point.

Remarks.

The following rights of way are admitted through the block throughout the year for use by men, cattle and carts in case of cart-tracks which are 12 feet in width and by men and cattle only in case of foot-paths which are only 6 feet in width.

I. *Cart-track leading from Nedarvalli to Chipli.*—It enters the forest in the western boundary of the block at a point about 2 chains north-east from the north-east corner of Survey No. 42 of Nedarvalli and runs north-east and slightly south-east for

No. R. 12296-9—Ft. 112-18-4, dated 25th March 1919.

about 82 chains through Survey Nos. 37 and 38 of the said village and 8 of Chipli and leaves the forest at a point about 21 chains south-west from the south-west corner of Survey No. 2 of the latter village.

II. Cart-track from Chipli to Honagodu, a Majre of Aiganabailu.—It enters the forest in the eastern boundary of the block at a point about 9 chains south-east from the south-east corner of Survey No. 7 of Chipli and runs south-east and south-west for about 28 chains through Survey No. 39 of Aiganabailu and quits the forest at a point about 7 chains north-east from the north-west corner of Survey No. 42.

III. Foot-path leading from Honagodu, a Majre of Aiganahalli to Nedarvalli.—It enters the forest in the southern boundary of the block at a point about 6 chains north-east from the northernmost corner of Survey No. 41 and runs north-west for about 88 chains through Survey Nos. 39 of Aiganabailu and 37 of Nedarvalli and joins the cart-track No. I *supra*.

IV. Cart-track leading from Nedarvalli to Hosagunda.– It branches from the road No. 8 *infra* at a point about 9 chains south-west corner of Survey No. 39 of Nedarvalli and passes south-east for about 41 chains through Survey Nos. 5 of Jambekoppa and 54 of Hosagunda and quits the forest at the north-east corner of Survey No. 53 of Hosagunda.

V. Cart-track from the high road to Nanditale.—It enters the forest in the western boundary of the block at a point about 25 chains south-east from the south-east corner of Survey No. 22 of Nedarvalli and runs south-west in a curve for about 13 chains and quits the forest at the northernmost corner of Survey No. 32 of Jambekoppa.

VI. Foot-path from Nedarvalli to Hosasanthe via *Telaginamane.*—It enters the forest in the western boundary of the block at a point about 10 chains north-east from the easternmost corner of Survey No. 6 of Nedarvalli and runs north-east for about 55 chains through Survey No. 36 and quits the forest at a point about 21 chains south-east from the north-east corner of Survey No. 26.

VII. *Cart-track from Nedervalli to Sagar-Ananthapur High road.*—It enters the forest in the western boundary of the block at a point about a chain west from the south-east corner of Survey No. 38 of Nedervalli and runs south-east for about 17 chains through Survey No. 37 and meets the high road at the tri-junction bandhs of Nedervalli, Aiganabailu and Hosagunda villages.

VIII. *High road leading from Sagar to Ananthapur.*—It enters the forest at a point about 11 chains south-west from the south-west corner of Survey No. 39 of Nedervalli and runs south-east along the northern boundary of Survey No. 5 of Jambekoppa and 54 of Hosagunda and quits the forest in the southern boundary of the block at a point about 16 chains north-west from north-west corner of Survey No. 3 of Aiganabailu.

Concessions.

The villagers of Chipli are allowed to take fuel for their domestic use and bamboos for hedges for sugar-cane fields on free permits issued by the Forest Department.

Letter No. 89, dated 25—30th July 1918, from the Forest Settlement Officer in Mysore, Bangalore, to the Revenue Commissioner in Mysore, Bangalore.

I have the honour to report on the conclusion of the Settlement of Chipli Block in Sagar Taluk, Shimoga District.

2. The initial Notification under Section 4 of the Mysore Forest Regulation, proposing to constitute the area into a State Forest appeared on pages 389—390 of the English issue of the Gazette, Part I, dated 10th May 1917. The proclamation under Section 5 of the said Regulation was issued on 25th May 1917 and the same published on pages 704—706 of the Kanarese issue of the Gazette, Part II, dated 14th June 1917. The spare copies of the Notification were got served on the villagers concerned through the Amildar, Sagar Taluk.

3. I inspected the locality and perambulated the whole line with the Range Officer, villagers and village officials concerned on 17th and 18th January 1918.

4. The following 18 claims were preferred to me during my enquiry :—

(i) Five claims to right of way,
(ii) Two claims to right of water,
(iii) Eleven claims to miscellaneous rights.

The claims in (i) and (ii) were admitted. Out of 11 claims in (iii) 3 were admitted and the rest rejected.

5. The Deputy Commissioner in his docket No. Mis. C. 1133, 1917-18, dated 4th July 1918, intimates that no appeals have been preferred to him against my decision relating to the block.

6. The following records are herewith submitted.

(i) "B" Register. (ii) "C" Register.
(iii) Boundary Notification. (iv) Sketch map.
(v) Topo tracing.

7. The date from which the reservation is to take effect may kindly be inserted in the draft boundary Notification.

No. R. 12296-9—Ft. 112-18-4, dated 25th March 1919.

B—Register of claims to lands, rights to forest produce or easements in the proposed Chipli State Forest.

No.	Names of claimants	Date of persentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settle-
1	2	3	4	5	6	7	8
1	Chennabasappa, Patel of Nedaravalli, on behalf of the villagers.	16th Jan. 1918.	Says that the line touches cultivated lands and should be shifted further away. (2) The tank Survey No. 38 which irrigates their lands should be excluded. (3) The western portion of Survey No. 26 has been taken for Ullur State Forest. If Survey Nos. 36 and 37 are now taken away they will be very much inconvenienced for grass, fuel and manure, etc. (4) Foot-path to Honagodu should be granted.	...	May be shifted 5 chains away from the cultivated land. May be excluded. The shifting of the line named above adds some more lands to the area already left. The villagers can have all their requirements from these lands. Foot-path may be granted.	Survey Nos. 3, 4, 5, 6, 8, 9 and 35 being cultivated lands and as the line has come too near them. I have ordered that it should be taken 10 chains further away. (2) I have changed the time and excluded the tank from the proposed forest as it irrigates some lands. (3) The people say that the western portion of Survey No.26 of this village is taken for the Ulloor State Forest. I sent for the Government Order No. R. 2877-81—Ft. 161-11-4, dated 22nd November 1912, approving of the constitution of Ulloor Block as a State Forest. The (c) statement attached to it does not show that any lands of this village have been taken. This is purely a misconception of the villagers. Out of a total gomal area of 1,023 acres about 579 acres are proposed for the forest. This will leave 444 acres still for the villagers. There are 70 acres of soppinbetta and 28 acres of assessed waste lands. These coupled with about 52 acres now left off by the change of the line will be more than ample for 156 cattle, 10 houses and 51 people in the village. (4) Two foot paths each 6 feet in width branching from the cart-track to Chipli one going to Honagodu and the other to Hosasanthey are allowed. Two cart-tracks each 12 feet in width, one going to Chipli through Survey Nos. 36 and 37 and the other going to Sagar-Ananthapur high road passing through Survey No. 37 are admitted.	
2	Lingappa, Patel of Chipli, on behalf of the raiyats.	17th Jan. 1918.	States that Survey No 8 may be taken if free grazing and facilities for agricultural implements, fuel etc., are given to the villagers. (2) Cart-tracks to Nedaravalli, Honagodu and Chennasettikoppa, etc., and are required.	..	The village being situated in the midst of the forest may be treated as an enclosure. Free grazing with the necessary agricultural and domestic requirements may be granted (2) Rights of way may be allowed.	There are three houses recently built in Survey No. 8 and about 7 survey numbers are under cultivation. These people want gomal for their cattle 34 in number and wood for their agricultural and domestic requirements. I therefore decide to change the line as shown in the sketch This will give the villagers about 95 acres which added to the bit of Survey No. 8 of Byderkoppa to the west of Nandiholi and the 10 acres of Aiganabalu which is allowed by leaving the cultivation margin, will be about 121 acres in all. This is more than enough for the small village. The villagers are allowed to take dry fuel for domestic purposes and bamboos for hedges for sugarcane fields on free permits issued by the Forest Department. (2) Cart-tracks 12 feet width leading to Nedaravalli and Honagodu will be allowed cart-track to Chennasettipalya is one side the block.	
3	Narainappa, Patel-gumasta of Byadarkoppa.	16-1-18	Prays for the exclusion of all the lands proposed for the block from his village as the village which has since become populated will be seriously inconvenienced if they are included.	..	...	The statement of lands furnished by the Forest Department shows that about 200 acres out of the old Survey No. 4 and the whole of assessed waste Survey No. 6 (old) are proposed to be taken for the forest from this village. The re-survey settlement has taken place after the proposal was made and the old Survey No. 6 is now Survey No. 1 and the old Survey No. 4 is now Survey Nos. 8 and 2. The sketch map prepared by the Forest Department shows that what is now proposed to be taken out by old Survey No. 4 now becomes the western portion of new Survey No. 8 and a bit of Survey No. 2 just close to the stream called Nandiholi on its eastern side. But according to the village accounts it is said that the whole of Survey No. 8 has been taken to Malandur State Forest. I sent for the boundary notification of the said forest and the western boundary thereof at this point is the Nandiholi itself. So the portion marked in the sketch has already be-	

No. R. 12296-9—Ft. 112-18-4, dated 25th March 1919.

B.- -Register of claims to lands, rights to forest produce or easements in the proposed State Forest—*concld.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by them	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of Final Appeal and Settlement
1	2	3	4	5	6	7	8
						come part of Malandur State Forest and is not available for Chipli block. As for Survey No 6 there are no sufficient data to ascertain whether it is an enclosure or a part of Malandur State Forest. Anyhow it is clear that even this survey number cannot be taken for the Chipli block. There will be only two small bits of Survey No 8 available to the west of Nandihoh which can be included in the Chipli block The village accounts shows that whole of this survey number is taken for Malandur State Forest and these bits are so situated that they are of no practical use to the villagers so I decide to include these bits in the Chipli block	
4	Sivalingiah, Patel of Aiyanabailu on behalf of the villagers.	16-1-18	Represents that if the portion of Survey No 39, now marked is taken for the forest the cattle will be deprived of grass and so should not be taken. (2) The tanks known as Honegodukere mingates Survey Nos 40 and 41 and 42 and it should be excluded (3) Right of way to the foot-path from Honagodu to Hosa santhe *via* Chipli should be granted. (4) Free grazing and permission to bring fuel and agricultural implments from the forest should be granted	. .	May be excluded May be granted. Not necessary	Out of 983 acres, 10 guntas of gomal in the village about 400 acres are proposed to be taken for the block leaving 583 acres for the use of the village cattle which are only 192 in number This is enough to supply all the requirements of the village To this about 46 acres more by the change of the time to allow cultivation. Margin to Survey Nos. 41 and 42 and for excluding Honagodu tank will be added (2) The tank is excluded (3) A foot path 6 feet wide to Nedaravalli and a cart track 12 feet wide to Chipli both from Honagodu will be allowed (4) Not granted	
5	Naranappa, Patel of Hosagunta, on behalf of the villagers.	Do	Requests that more lands should be left for then use. (2) Fuel, leaves for paddy fields, agricultural implments and free grazing should be granted (3) The line is too near. Survey No. 53 which is an assessed waste and should be shifted away. (4) Right of way to the cart-track leading to Nedaravalli should be granted.	Not necessary. Do As the land is situated under the tank may be conveniently taken up on cultivation hence margin may be allowed. May be allowed	. .. .	About 56 acres of gomal out of 562 acres in the village are proposed leaving about 506 acres for 145 cattle in the village There are 19 acres 3 guntas of assessed waste and 137 acres of soppinbetta All these put together is more than enough for the village No other concession is necessary (2) Not granted (3) This being assessed waste land no margin is necessary (4) Right of way is allowed	
6	Chennabasappa, Patel of Jambekoppa, on behalf of the raiyats.	Do	Says that the cattle cannot go to the lands to the south of Koogan-halla during the rainy season as the halla cannot be crossed easily Survey No 19 contains little or no grass so no lands should be taken. (2) Right of way to cart-tracks leading to Nedaravalli and Hosagunda may be allowed (3) Dry fuel, green leaves, agricultural implements, and timber may be granted free from the forest	.	A small area of about 100 acres has been proposed leaving 517 and add acres. This in no way inconveniences to the villagers They can get all their requirements from the left portion. (2) May be allowed.	The total gomal area in the village is 617 acres, 24 guntas the area actually taken for the forest is 82 acres out of Survey No 5 The village has still 535 acres for the cattle which are 101 in number The villages represent that the cattle cannot cross Koogana halla during the rainy season to go to Survey No. 19. I found that it is not an obstacle as the halla is a very small one and even the floods only last for a couple of days. Dabbargudda Survey No. 19 was said to be hilly and green no grass lent. I found that it was as good as Survey No 5 in growth of grass. There being such large area available for the village and only a small bit of land having been taken from the village no further concession of any kind seems called for. The preliminary demarcation line is therefore confirmed. (2) A cart-track from the high road to Hosagunda and another from the high road to Nauditale both 12 feet in width are allowed. (3) Not granted B BASAVARADHYA, Forest Settlement Officer in Mysore.

* Taken to Malendur State Forest

BANGALORE,
25th March 1919

B. BASAVARADHYA,
Forest Settlement Officer in Mysore

No. R. 12427-30— Ft. 114-18-4, dated 27th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Notification No. R. 4054—Ft. 38-16-2, dated 3rd November 1916, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Thammadihalli Forest Block in the Shimoga Taluk.

2. Letter No. C. 1935 Gl., dated 20th—23rd December 1918, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter *No. 91, dated 30th July 1918, reporting on the conclusion of the settlement of the block.

3. Letter No. 9306, dated 19th February 1919, from the Conservator of Forests, agreeing to the issue of the final notification in the matter.

*Printed with the B. and C. Registers as accompaniments.

Order No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

The settlement effected by the Forest Settlement Officer is approved. The Notification under Section 17 of the Forest Regulation constituting the block a State Forest with effect from 1st May 1919 will be published in the Gazette.

2. The Deputy Commissioner, Shimoga District, is requested to duly promulgate the boundaries of the block in the villages concerned.

B. RAMASWAMAIYA,
Secetrary to Government, Revenue Department.

To—The Revenue Commissioner in Mysore.
The Conservator of Forests in Mysore.
The Superintendent of Revenue Survey and Settlement in Mysore.
The Deputy Commissioner, Shimoga District, with map and registers.

Exd—C. R.

No. R. 12431—Ft. 114-18-5, dated 27th March 1919.

NOTIFICATION.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st May 1919 the area, the boundaries of which are set forth in the schedule annexed to this notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

Schedule.

District	Taluk	Area	Name of block	Boundaries
Shimoga	Shimoga	3,206 acres and 17 guntas or 5·01 square miles.	Thammadihalli	*North.*—Starting from the tri-junction bandhs of Umblebile-Hunasekatte-Basavanhalli and Tammadihalli villages, the line runs along the common boundary between Thammadihalli and Hunasekatte-Basavanhalli for about 75 chains; then north-east for about 75 chains through survey Nos. 13 and 42 of Hunasekatte-Basavanhalli to the south-east corner of survey No. 43; then slightly north-east for about 51 chains through survey No. 42 to the south-east corner of survey No. 41; then along the east side of the said survey number to its north-east corner, then north for about 52 chains through survey No. 42 to the southernmost

No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

corner of survey No. 2 of Kalankatte; then north-east along the eastern boundary of the said survey number to its easternmost corner.

East.—Then the line passes south-east along the west sides of survey Nos. 4 and 5 to the southernmost corner of the latter survey number; then south along the common boundary between Inam Tarikatte and Kalankatte villages to the junction bandhs of the said two villages on the northern boundary of Kambadal-Hosur; then west along the common boundary between Kalankatte and Kambadal Hosur villages for about 26 chains to a point on the northern boundary of survey No. 29 of Kambadal Hosur about 17 chains north-east from the north-east corner of survey No. 13; then south-west for about 72 chains through survey No. 29 of Kambadal Hosur to a point on the common boundary between Kambadal Hosur and Hunsekatte—Basavanhalli village abou 18 chains north-east from the north-east corner of survey No. 41 of the abovenamed latter village; then along the said common boundary to the trijunction bandhs of the same villages and Honnehatti; then along the common boundary between Honnehati and Hunasekatte-Basavanhalli villages to the trijunction bandhs of the said villages and Thammadihalli; then south-west for about 45 chains through survey No. 25 of the above mentioned last village to a point about 6 chains north-west from the north-east corner of survey No. 27; then south-west for about 29 chains to the north-wet corner of survey No. 29; then slightly south-west for about 15 chains to a point about 7 chains south-west from the south-west corner of survey No. 30; then south-west for about 10 chains to a point about 5 chains west from the north-west corner of survey No 21; then again south-east for about 11 chains through survey Nos. 25 and 22 to a point 4 chains south-west from the south-west cornea of survey No. 21; tnen in the same direction for about 33 chains through survey No. 22 to a point about 33 chains northwest from the north-west corner of survey No. 15 of Maligenahalli; then south-east for about 14 chains through survey No. 21 oi Gonibedu to meet its southern boundary at a point about 25 chains west from the north-west corner of survey No 15 of Maligenahalli, then in the sams direction for about 84 chains through survey No. 14 of Maligenahalli to meet the trijunction bandhs of the said village, Malenahalli and Tararaghatta.

South.—Thence the line follows the permanent demarcation line of Aldar State Forest along the common boundary between Maligenahalli and Tavaraghatta villages to the trijunction bandhs of the said villages and Bairapur.

West.—Then the line continues along the Aldhar State Forest demarcation line to meet the starting point.

Remarks.

A. The following rights of way are admitted through the block.

The foot-paths and cart-tracks noted below are 6 feet and 12 feet in width respectively and may be used throughout the year by men and cattle only in case of the former and by men, cattle and carts in case of the latter.

I. Local Fund road from Umblebile *via* Hunasekatte—Basavanhalli to Benkipur.

It enters the forest in the northern boundary of the block at a point about 11 chains north-east from the northernmost corner of survey No. 34 of Hunasekatte-Basavanhalli aud runs north-east for about 111 chains through survey Nos. 42 of Hunasekatte-Basavanhalli and 6 of Kalankatte and quits the forest in the eastern boundary at a point about 8 chains north-west from the southernmost corner of survey No. 5 of Kalankatte.

II. Foot-path from Kambadal-Hosur to the High road.

It enters the forest in the eastern boundary of the block at a point about 9 chains north-west from the north-east corner of survey No. 13 of Kambadal-Hosur and runs north-west and north for about 29 chains through survey No. 29 of Kambadal Hosur and 6 of Kalankatte and joins and Local Fund road No. 1 *supra.*

III. Cart-track leading from Hunasekatte-Basavanhalli to Hiriyur.

It branches from the High road No. I *supra* at a point about 13 chains south-east from the southernmost corner of survey No. 2 of Kalankatte and passes in a north easterly direction for about 100 chains through survey Nos. 7 and 6 and leaves the forest near the southernmost corner of survey No. 4.

IV. Cart-track leading from Huliyur-Ramankoppa to Honnehatti.

It enters the forest in the northern boundry of the block at a point about 42 chains south-west from the southernmost corner of survey No. 3 of Kalankatte and runs south-east for about 83 chains through survey Nos. 7 and 6 and quits the forest at a point about 6 chains south from the southernmost corner of survey No. 5.

V. Cart-trakc to Siddapur.

No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

It branches from the cart-track No. IV *supra* at a point about 19 chains south-west from the southernmost corner of survey No. 4 and runs north for about 42 chains through survey No. 7 and follows the demarcation line for about 10 chains and leaves the forest near the southernmost corner of survey No. 3.

VI. Foot-path from Kambadal-Hosur to Hunasekatte-Basavanhalli.

It enters the forest in the eastern boundary of the block at a point about 19 chains west from the north-west corner of survey No. 15 and runs north-west for about 33 chains through survey Nos. 29 of Kambadal-Hosur and 42 of Hunasekatte-Basavanhalli and quits the forest at a point about 8 chains north-east from the south-east corner of survey No. 34 of the latter village.

VII. Foot-path leading from Tammadihalli to Hunasekatte-Basavanhalli.

It enters the forest in the eastern boundary of the block at a point about 8 chains north-west from the north-east corner of survey No. 29 of Thammadihalli and runs north-west for about 57 chainst through survey Nos. 25 and 24 of Thammadihalli and 13 of Hunasekatte-Basavanhalli and leaves the forest in the northern boundary of the block at a point about 38 chains south-west from the south-west corner of survey No. 43 of Hunasekatte-Basavanhalli.

VIII. Cart-track from Thammadihalli to Hunasekatte-Basavanhalli.

It enters the forest in the eastern boundary of the block at a point about 7 chains north-east from the north-west corner of survey No. 2 of Thammadihalli and runs north-west, north and again north-west for about 49 chains through survey No. 25 of Thammadihalli and 42 of Hunasekatte-Basavanhalli and quits the forest at a point 11 chains east from the south-east corner of survey No. 43 of the latter village.

IX. Cart-track from Kambadal-Hosur to Hunasekatte-Basavanhalli.

It enters the forest in the eastern boundary of the block at a point about 18 chains north-east from the north-east corner of survey No. 41 of Hunsekatte-Basavanhalli and runs north-west for about 17 chains through survey No. 42 and leaves the forest in the northern boundary of the block at a point about 8 chains south-east from the south-east corner of survey No. 34.

X. Foot-path from Thammadihalli to Singanmane.

It enters the forest in the eastern boundary of the block at a point about 9 chains south-west from the south-west corner of survey No. 31 (tank) and runs south-west and south for about 115 chains through survey Nos. 25 and 22 of Thammadihalli, 21 of Gonibidu and 14 of Maligenahalli and enters the demarcation line of Aldhar State Forest at a point about 8 chains south-east from the south-west corner of the block.

XI. Foot-path from Tammadihalli to Maligenahalli.

It branches from the foot-path No. X *supra* at a point 54 chains south-west from the south-west corner of survey No. 21 of Tammadihalli and runs south-east for about 92 chains through survey No. 22 of Tammadihalli; 21 of Gonibidu and 14 of Maligenahalli and quits the forest at a point about 19 chains south-west from the south-west corner of survey No. 15 of Maligenahalli.

B. Concessions

The villagers of Maligenahalli are entitled to get from this State Forest seebu, dry fuel and agricultural implements on free permits issued by the Range Officer.

The villagers of Arlekoppa are allowed to graze their cattle free in the State Forest during the prescribed season.

2. The villagers of Tammadihalli and Honnehatti are allowed to take seebu on free permits issued by the Range Officer whenever they grow sugar-cane in their fields.

By Order,

B. RAMASWAMAIYA,

Secy. to Govt. Rev. Dept.

To—The Compiler, *Mysore Gazette.*

Exd—C. R.

No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

B—Register of claims to lands, rights to forest produce or easements in the proposed Thaminadiballi State Forest.

No.	Names of claimants	Date of presentation of claim	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
1	2	3	4	5	6	7	8
1	Thammegowda, patel-gumasta of Kalankatte on behalf of the villagers.	22-12-17	Requests that the tank known as Gavi-siddikere in Survey No. 2 which is used by the villagers of Hiriyur Bommankatte, Siddapur, Honnehatti, Kembadal Hosur, Arakikoppa Balemaradhalli for taking their cattle to drink water may be excluded (2) Rights of way to the cart-tracks from Ramakoppa to Honnehatti from Hunasekatte Basavanahalli to Hiriyur and the local fund road from Hunasekatte Basavanhalli to Benkipur should be granted		Access to the tank and the right of taking cattle for water may be conceded so far as the cattle of Hiriyur are concerned As regards the other villages there appears to be no need as they are pretty far away from the block proposed (2) The right of way from Ramanakoppa to Honnehatti and the public road may be given	I found during my inspection that the tank Gavi Siddikere has been included in the old Unletibile State Forest and no concession of the kind can now be granted in respect thereof (2) The following rights of way are admitted (a) Local fund road from Benkipur passing through Survey Nos. 6 and 7 is admitted, (b) cart-track twelve feet in width from Ramanakoppa to Honnehatti; (c) from Hunasekatte Basavanahalli to Hiriyur, (d) from the cart-track, to Siddapur and a foot-path 6 feet wide from Kembadal Hosur to meet the local fund road passing through Survey No 6 are also admitted	
2	Chandappa, patel of Kembadal, Hosur and Gurubasappa, patel of Arlekoppa	Do.	Represents that they have right to graze their cattle in the Kalankatte jungles as per sanad in the Khetwar of Kalankatte against Survey Nos 1, 2, 6 and 7 and the same should be allowed to remain intact		They say in the red to graze their cattle in Survey No 6 and 7 include in the block during the years.	The [illegible] village and there is no cultivation [illegible] village limits [illegible] right to graze their cattle [illegible] lands. The [illegible] have secured a sanad [illegible] year of Kalankatte against Survey Nos. 1, 2, 5, 6 and 7 The villages noted in the Sharara (1) Hiriyur Bommankatte, (2) Honnehatti, (3) [illegible] (5) Arlekoppa, (6) Kembadal Hosur Sharara is to the effect they [illegible] survey [illegible] to the [illegible] village assuming [illegible] the survey [illegible] portion in have power [illegible] lot the lands of the village as [illegible] [illegible] the basis on which [illegible] [illegible] the [illegible] [illegible] Bhadrapur [illegible] I also [illegible] [illegible] but they [illegible] [illegible] without prejudice to [illegible] these lands for [illegible] [illegible] is entitled in the [illegible] Kalankatte lands making the [illegible] absolute. Perhaps the survey department has obtained special [illegible] of Government to so deal in this case which I have no means of knowing [illegible] go into details as to how the [illegible] villages deserve them Hiriyur [illegible] the first village in the list has an aggregate area of 406 acres and 32 guntas of gomal for 378 cattle. In my opinion the pasture area is more than ample for the cattle in the village and as much no additional pasture is needed for them Bommankatte the second village contains 219 acres and 20 guntas of gomal for 130 cattle including 50 calves. Even this village does not require any extra grazing concession. Honnehatti has 565 acres and 1 guntas for 77 cattle and 53 calves. It is most ridiculous to think of any additional pasture for the village. Next comes the furnished part of the concession clause in the khetwar. Inam Tarikatte is one of the villages entitled to graze its cattle in the Kalankatte lands. I fail to understand how the cattle of an inam village become entitled to grazing rights in Government village lands. Of course this being a jodi village. I have not the benefit of the village accounts, to see what tale they have to tell in this respect. Next comes Kembadal Hosur which is one of the villages affected directly by this proposal. I have said in my decision under that village that 321 acres of gomal is enough for the small number of cattle in the village. So I still hold that no title is made out by the village to the grazing rights in Kalankatte lands.	

No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

B.—Register of claims to lands, rights to forest produce or easements in the proposed Thammanahalli State Forest—*contd.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by them	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of Final appeal and settlement
1	2	3	4	5	6	7	8
						The case of Arlekoppa is quite different. It has only 71 acres 4 guntas of gomal for 340 cattle and 44 sheep and goats. There is scarcely enough for the cattle to eat. They are therefore allowed to graze in the reserve free. The Forest Department had made a slight mistake in the sketch map of the proposed block in excluding Survey Nos. 1 and 2 of Kalankatte from the Umblilile Forest. I observed during my perambulation on the ground that these two lands already included in the said State Forest. The shara in the village accounts also supports this. The Range Officer who accompanied me also admits that mistake. Accordingly the line of this block will be changed and made to run from the easternmost corner of Survey No. 2 to the southernmost corner of Survey No. 3 of Kalankatte.	
	Chandappa, Patel of Kambadal Hosur, on behalf of raiyats.	23-12-17	Prays for the exclusion of the portion of Survey No. 29 taken for the Forest. (2) for allowing their right to graze their cattle in Kalanakatte lands as per shara in the Khetwar of Kalankatte against Survey Nos. 3, 4, 5, 6 and 7 to remain in fact.	. .	They may be allowed to graze their cattle in Survey Nos. 6 and 7 included in the block during the rains.	Out of the gomal Survey No. 29, (107 acres 16 guntas) it is proposed to take only about 86 acres for the Forest. This leaves 321 acres 16 guntas of gomal for the village cattle which are 213 in number including 7 goats. There is therefore sufficient pasture for the cattle and supply to the villagers of all their requirements.	
	Forest Settlement Officer.	.....	.....	.....	.....	(2) *Vide* decision to claim No 2 right way to the two foot-paths one to Kalankatte and the other to Hunasekatte are admitted.	
	Viswanatha Rao, Shanbhog of Kembadal Hosur.	Do	Requests that the bund of Oddu *alias* Lingiah's Oddu in Survey No. 29 of Kambadal Hosur, is going to be reaised and people are asking for lands below it for cultivation. About 100 acres of gomal Survey No. 29 are being thus asked for for cultivation. If these lands are granted for cultivation the gomal becomes still less. So Kalankatte lands may be left for them.	.....	The right of grazing cattle may be allowed in Survey Nos. 6 and 7 in the season.	Shanbhog says that the "oddu" in Survey No. 29 will have its bund raised and that about 100 acres under it have been applied for for cultivation He says if the grant for cultivation applied for is sanctioned, its gomal will still be less and adduces this as an additional reason why Kalankatte lands should be allowed as pasture for this village. This is more in the nature of a speculation and a contingency that may never occur and cannot be admitted as a valid reason for grant of any concessions. On the contrary anything to diminish the existing gomal area is detrimental to the interest of the village and should not countenanced.	
	Sheriff Sabi, Patel of Hunasekatte Basavanahalli on behalf of the villagers.	22-12-17	States that some lands were already taken for a State Forest. If now remaining lands are also taken the villagers will have to leave the village.	.....	There is sufficient forest, left out for this village.	This is a very small village with 23 houses and a population of 85. There are 105 heads of cattle in the village Out of a total area of 3,621 acres 11 guntas in the village they have brought only 191 acres 35 guntas under cultivation, and there are still available 180 acres 4 guntas of assessed waste. Out of the total kharab area of 2,332 acres 21 guntas, 1,965 acres 6 guntas have already been taken for Umblibile State Forest out of the remaining kharab area about 50 acres only are proposed to be taken. About 370 acres of gomal out of Survey No. 42 which is 555 acres 8 guntas in area are proposed for the forest. The rest (*i.e.*,) 185 acres of this number together with other gomals in the village will come to 529 acres 36 guntas. This area wih 317 acres 15 guntas of kharab will be more than ample to supply all the needs of the villagers. I therefore confirm the preliminary demarcation line.	

No. R. 12427-30—Ft. 114-18-4, dated 27th March 1919.

B.—Register of claims of lands, rights to forest produce or easements in the proposed Thammadihalli State Forest—*concld.*

No.	Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of the evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of final appeal and settlement
1	2	3	4	5	6	7	8
	Forest Settlement Officer.	...	.....	.....	.....	.. .. The following rights of way are admitted :— Foot-path 6 feet wide from Thammadihalli to Hunasakatte Basavanhalli Two cart-tracks one to Thammadihalli and the other to Kambadal Hosur, both 12 feet in width together with the Local Fund road to Benkipur	... ...
6	Chandappa, Patel of Thammadihalli.	22-12-17	Says that the land now proposed for the block will take away all the available lands. Seebu for all the surrundering villages is supplied by the hillock in their village.	.....	Right to remove, seebu at 2 or 3 cart loads a but may be given to Thammadihalli villagers.	This is a very small village of only fourteen houses but with extensive gomal and kharab lands of nearly 1,658 acres. There are 92 cattle in the village. The Forest Department proposes to take about 1,000 acres of kharab and 269 acres of gomal for this block, leaving about 235 acres of gomal. This with some more acres of kharab and gomal left by changing the line to give cultivation margin to Survey Nos. 26, 30 and 20 will be more than enough for the villagers. As the hillock of this village alone is said to contain seebu, the villagers will be allowed to take necessary seebu from the hillock in question free whenever they raise sugar-cane in their fields.	...
	Forest Settlement Officer.	...	...	.....	.....	Right of way to the two foot-paths 6 ft. wide one to Hunasakatte Basavanahalli and the other to Singammaney and a cart-track 12 feet in width to Hunasakatte Basavanahalli from this village are admitted.	...
7	Sankarappa of Honnehatti.	22-12-17	Says that no lands from his village should be taken. They were getting fuel seebu and agricultural implements from Thammadihalli lands.	..	No lands are taken up from this village. The concessions asked for can be well exercised from their own village lands.	People of Honnehatti are allowed to take seebu free from the State Forest, near Thammadihalli hillock. No other concession is considered necessarily as no lands of this village are taken for the block under settlement.	...
8	Siddaramappa, Patel of Gonibeedu on behalf of the villagers.	22-12-17	Represents that if the strip of land of survey No. 21 proposed by the Forest Department is taken away, the villagers will be inconvenienced for grass fuel and seebu	... ..	Only a bit of forest land is taken from this village. There is ample area left for communal purposes.	About 30 acres out of 438 acres and 11 guntas of the only gomal of this village has been taken to Aldhara State Forest and the Forest Department has proposed 170 acres but the actual area taken as per sketch is only 85 acres the area left *i. e.* 323 acres of gomal is more than enough to meet all the requirements of this small village containing twenty houses and 91 cattle. Right of way to the two foot-paths 6 feet wide are allowed to Thammadihalli as shown in the sketch	...
9	Siddaramappa, Patel of Maligemhalli on behalf of the villagers.	22-12-17	Says that there is no gomal in this village and the raiyats were using the kharab survey No. 14 for grazing. If 600 acres are taken now as proposed the villagers will be very much inconvenienced. Fuel, seebu and agricultural implements were being supplied to them by survey No. 14.	.....	Concession to remove seebu may be given. The fuel, etc., can be got from the District Forest still left to them.	The village accounts show that Survey No. 14 is a gomal of 1,034 acres 34 guntas but of this 262 acres 10 guntas is said to have been taken in the western corner for the Aldahara State Forest long ago. About 26 acres are now proposed for this block. Then 159 acres 24 guntas will remain in this number. This together with the other 4 gomal Survey Nos. 3, 6 22, and 25 will be of the aggregate area of 215 acres 4 guntas. This is more than ample provision for 148 cattle in the village. The villagers say that they were taking seebu, fuel Aleykoradu and agricultural implements from Survey No. 14, naturally this source of supply becomes very small. The Range Officer concedes that "Seebu" only may be given. I decide that the villagers will be entitled to get from this State Forest not only seebu but also agricultural implements and dry fuel free on free permits issued by the Range Officer.	...
	Forest Settlement Officer.	...	.....	.....	.....	Right of way to the two foot-paths each 6 feet wide one from Thammadihalli and the other to Gonibeedu through Survey No. 14 are allowed. B. BASAVARADHYA, Forest Settlement Officer.	...

Forest Settlement.

No. R. 12432-5—Ft. 111-18-4, dated 27th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Notification No. R. 1943—Ft. 52-17-2, dated 22nd August 1917, issued under Section 4 of the Forest Regulation in the matter of the proposed constitution of the Avinahalli Forest Block in the Sagar Taluk.

2. Letter No. C. 1930—Gl., dated 20—23rd December 1918, from the Revenue Commissioner in Mysore, forwarding the Forest Settlement Officer's letter* No. 80, dated 17th July 1918, reporting on the conclusion of the settlement of the block.

3. Letter No. 9304, dated 19th February 1919, from the Conservator of Forests agreeing to the issue of the final notification in the matter.

(B. and C. Registers printed as Accompaniments.)

Order No. R. 12432-5—Ft. 111-18-4, dated 27th March 1919.

The settlement effected by the Forest Settlement Officer is approved. The notification under Section 17 of the Forest Regulation constituting the block a State Forest with effect from 1st May 1919 will be published in the Gazette.

2. The Deputy Commissioner, Shimoga District, is requested to duly promulgate the boundaries of the block in the villages concerned.

3. The assessment of the marginally noted assessed occupied and waste lands included in the block, should be written off the accounts.

The Superintendent of Revenue Survey and Settlement in Mysore.
The Deputy Commissioner, Shimoga District, with map and registers.

Exd.—G.W.B.

No. R. 12432-5—Ft. 111-18-4, dated 27th March 1919.

Notification No. R. 12436—Ft. 111-18-5, dated 27th March 1919.

The Government of His Highness the Maharaja of Mysore are pleased to declare, under the provisions of Section 17 of the Mysore Forest Regulation (XI of 1900) that from 1st May 1919 the area, the boundaries of which are set forth in the Schedule annexed to this Notification, shall be deemed to be a "State Forest" subject to the exercise of rights specified at foot thereof:—

Schedule.

District	Taluk	Approximate area	Name of block	Boundaries
Shimoga	Sagar	1,626 Acres or 2·54 square miles.	Avinahalli	*North.*—Starting from the north-east corner of Survey No. 67 of Brahman Bedur, the line runs south-east for about 38 chains through Survey No. 58 of Udri to a point about 7 chains south-east from the south-east corner of Survey No. 68; then again south-east for about 15 chains through Survey Nos. 58 and 21 to a point about 5 chains south-west from the south-west corner of Survey No. 22; then south-east for about 35 chains through Survey No. 58 to a point about 6 chains south-west from the south-west corner of Survey No. 46; then again south-east for about 28 chains through Survey No. 58 to the southernmost corner of Survey No. 50; then south-east for about 5 chains through Survey No. 58 to a point about 7 chains south-west from the south-east corner of Survey No. 50; then south for about 30 chains through Survey Nos. 31, 29 and again 31 of Avinahalli to the westernmost corner of Survey No. 56 of Udri; then along its west side for about 8 chains to a point about 5 chains north from its south-west corner; then south-west for about 8 chains through Survey No. 31 of Avinahalli to a point about 5 chains south-west from the south-west corner of Survey No. 56 of Udri; then slightly south-west for about 15 chains through Survey No. 31 of the former village to a point about 7 chains south-west from the south-west corner of Survey No. 55 of the abovenamed latter village; then south-east for about 8 chains through Survey No. 31 of Avinahalli to a point about 5 chains south-east from the south-east corner of Survey No. 55 of Udri; then north-east for about 5 chains to a point about 5 chains south-east from the southernmost corner of Survey No. 53 of Udri; then north for about 14 chains to meet the southernmost corner of Survey No. 54 of Udri; then along its west side to a point about 7 chains south-east from the easternmost corner of Survey No. 56 of Avinahalli; then along the common boundary between Hosur and Udri to a point about 5 chains south-east from the south-east corner of Survey No. 52 of Udri; then south-east for about 52 chains through Survey Nos. 2 and 124 of Hosur to the southernmost corner of Survey No. 139; then in the same direction for about 27 chains through Survey Nos. 124 of Hosur 31 and 32 of Avinahalli to the north-west corner of Survey No. 33 of the latter village. *East.*—Thence the line passes along the west side of Survey No. 33 of Avinahalli to a point about 8 chains north-west from the north-west corner of Survey No. 36; then south-west for about 7 chains to a point about 5 chains north-west from the abovenamed corner; then south for about 11 chains through Survey No. 32 to a point about 5 chains slightly north-west from the westernmost corner of Survey No. 36; then south-east for about 12 chains through Survey No. 32 to a point about 7 chains south-west from the said corner; then slightly south-west for about 10 chains to a point about 7 chains north-west from the north-east corner of Survey No. 52; then south-west for about 47 chains through Survey Nos. 32 and 46 to a point about 5 chains north-west from the north-west corner of Survey No. 48. *South.*—Then the line goes in a north-westerly direction for about 21 chains through Survey Nos. 46 and 31 of Avinahalli to a point about 4 chains north-west from the north-east corner of Survey No. 18; then north-east for about 19 chains through Survey No. 31 to the easternmost corner of Survey No. 20; then along its east side to its north-east corner; then north-west for about 10 chains to a point about 5 chains north-east from the south-east corner of Survey No. 23; then north-east for about 4 chains to a point about 5 chains due east from the easternmost corner of Survey No. 23; then north-west for about 6 chains to a point about 7 chains south-east from the north-east corner of Survey No. 24; then north-east for about 17 chains to a point about 7 chains north-east from the north-east corner of Survey No. 25; then north-east for about 13 chains to a point about 6 chains north-west from the northernmost corner of Survey No. 25; then south-west for about 18 chains to a point about 5 chains north-west from the westernmost corner of Survey No. 24; then south-west for about 20 chains to a point about 4 chains north-east from the northernmost corner of Survey No. 27; then south-west for about 8 chains to the north-west corner of Survey No. 28; then along its west side to

its south-west corner ; then south-east for about 8 chains to a point about 5 chains slightly south-west from the south-east corner of Survey No. 28; then east for about 20 chains to a point about 7 chains south-east from the south-east corner of Survey No. 26; then along the high road leading from Kallurkatte to Sagar for about 7 chains to a point about 5 chains north-west from the westernmost corner of Survey No. 22; then south-west for about 5 chains to a point about 6 chains north-west from the north-west corner of Survey No. 21; then south-west for about 5 chains to a point about 5 chains west from the south-west corner of Survey No. 21 ; then south-east for about 11 chains to a point about 3 chains north-east from the northernmost corner of Survey No. 14 (tank); then north-west through Survey Nos. 31, 12 and again 31 for about 39 chains to a point about 5 chains south-east from the north-east corner of Survey No. 157; then north-west for about 4 chains to a point about 5 chains north-east from the said corner, then north-west for about 7 chains to a point about 5 chains slightly north-east from the northernmost corner of Survey No. 157 ; then slightly north-west for about 58 chains through Survey Nos. 31 and 135 to a point about 10 chains north-east from the northernmost corner of Survey No. 140.

West.—Then the line continues in a north-easterly direction for about 13 chains through Survey No. 102 of Chikmattur to a point about 5 chains east from the eastern-most corner of Survey No. 98; then north-east for about 21 chains to a point about 6 chains north-east from the north-east corner of Survey No. 95; then north-west for about 29 chains through Survey No. 102 to a point about 5 chains east from the north-east corner of Survey No. 71; then along the common boundary between Brahman Bedur and Chikmattur to the south-east corner of Survey No. 74 of the former village; then along the east side of Survey No. 74 to its northernmost corner; then along its north side to a point about 5 chains north-east from the north-east corner of Survey No. 31; then north-west for about 15 chains through Survey No. 30 to a point about 10 chains north-west from the north-west corner of Survey No. 31; then along the eastern boundary of Survey No. 29 to meet the starting point.

Remarks.

The following rights of way are admitted within the block for use by men and cattle in case of foot-paths which are 6 feet wide and by men, cattle and carts in case of cart-tracks which are 12 feet wide, throughout the year.

1. *Cart-track from Chikmattur to Udri and on to Kaslimane*:—It enters the forest in the western boundary of the block at a point about 19 chains south-east from the northernmost corner of Survey No. 29 of Brahman Bedur and runs north-east for about 13 chains through Survey No. 30 and then north-west for about 5 chains through Survey No. 58 of Udri and quits the forest at a point about 8 chains south-west from the south-west corner of Survey No. 59.

2. *High road leading from Kallurkatte to Sagar*:—It enters the forest in the southern boundary of the block at a point about 2 chains north-west from the north-east corner of Survey No. 28 of Avinahalli and runs in a north-easterly direction for about 21 chains and leaves the forest at a point about 5 chains south-east from the south-east corner of Survey No. 55 of Udri.

3. *Cart-track from Avinahalli to Sagar, via Udri*:—It branches from the High road No. 2 *supra* at a point about 6 chains north-west from the south-west corner of Survey No. 19 of Avinahalli and runs north-west for about 181 chains through Survey Nos. 31 of Avinahalli, 76 of Brahman Bedur and 58 of Udri and quits the forest at a point about 9 chains south-west from the south-west corner of Survey No. 22 of Udri.

4. *Foot-path leading from Brahman Bedur to Avinahalli*:—It enters the forest at a point about 7 chains west from the south-east corner of Survey No. 74 of Brahman Bedur and passes south-east for about 25 chains through Survey Nos. 102 of Chikmattur and 76 of Brahman Bedur and joins the cart-track No. 3 *supra*.

5. *Cart-track leading from Avinahalli to Sagar, via Hosur*:—It enters the forest at the north-east corner of Survey No. 18 of Avinahalli and runs north-east for about 109 chains through Survey Nos. 31 of Avinahalli and 124 of Hosur and quits the forest at a point about 8 chains south-west from the southernmost corner of Survey No. 138 of Hosur.

By Order,
B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Compiler. *Mysore Gazette.*

Exd.—G. W. B.

No. R. 12432-5—Ft. 111-18-4, dated 27th March 1919.

3—Register of claims to lands, rights to forest produce or easements in the proposed Avinahalli State Forest.

Names of claimants	Date of presentation of claims	Nature and extent of claims preferred	Brief summary of evidence adduced in support of claims	Brief summary of the Forest Officer's arguments and evidence produced by him	Brief abstract of decision and final disposal of the claims by the Forest Settlement Officer	Brief abstract of decision, if any, of Court of Final Appeal and Settlement
Thimmappa, Patel of Hosur.	9-1-18	(1) Says that the villagers cannot spare the lands that have been proposed for the block as they are required for their cattle and for manure for Bagayat and wet lands.	...	Only 90 acres have been proposed out of 1,058 and odd acres of Gomal So the remaining portion is more than enough for their requirements.	To allow cultivation margin to Survey Nos. 65 of Hosur and 51 and 52 of Udri, the line is slightly changed. As only about 61 acres are now taken from this village, this does not in the least inconvenience the villagers.	...
	.....	(2) A Right of way to Sagar shewn in the village map should be allowed.	.....	May be allowed.	A cart-track 12 feet wide from Avinahalli to Sagar passing through Survey No 124 is allowed.	...
Ganapiah Udupa, Patel of Avinahalli on behalf of the villagers.	9-1-18	States that the villagers will be inconvenienced for fuel, soppu for manure and grass for the cattle if the lands proposed are taken away for the block	...	About 1,042 acres of Gomal and 829 acres of Kharab are still remaining for the villagers which is more than ample for their requirements.	As 1,042 acres of Gomal and 829 acres of Kharab are still left for the village which are in my opinion enough to supply the villagers all their requirements, no further concession seems called for	...
	..	(2) The Preliminary Demarcation line has come too near the village and cultivation lands. Some lands are even included in the block. So the line should be changed	...	A margin of 5 chains may be allowed near the lands in cultivation. As regards the enclosures, beg to suggest that they may be excluded from the block leaving a margin of 5 chains for the lands in cultivation	To give cultivation margin to Survey Nos. 159, 142, 157, 48, 56, 51, 52 and 36, the line is slightly changed and made straight. Survey Nos. 19 to 28 hadbeen proposed as an enclosure by the Forest Department. But considering that it would be more convonient for both parties concerned I have excluded it from the Reserve altogether with a cultivation margin wherever it was necessary.	.....
	..	(3) The villagers require— (a) the high road to Sagar. (b) two old roads going to Sagar via Brahman-Bedur and Guddahatti.	...	Rights of way to the cart-tracks and Sagar, Avinahalli high road may be admitted.	The High road passing through Survey No. 31 and also a cart-track branching from the road abovenamed and going to Sagar via Brahman Bedur and another from this village to Sagar via Hosur are also allowed.	...
Veerabhadrappa, Patel of Chikmathur	9-1-18	Says that the line should be taken away from the cultivation lands.	...	Cultivation margin may be allowed	The Demarcation line is changed to give cultivation margin for Survey Nos. 71, 73, 74, 76, 77, 87, 89, 90, 93, 98 and 100.	.....
	...	(2) No lands from their village should be taken for the reserve as the villagers will be seriously inconvenienced.	...	The area proposed to be taken for the forest is a very small one and so requires no consideration.	About 100 acres were proposed to be taken for the forest. The margin left in para 4 above still lessens the area taken. The village still has 1,360 acres of other gomal left which is more than enough to supply all the requirements of the village. B. BASAVARADHYA, Forest Settlement Officer	...
Ramappa, Patel of Udri on behalf of the villagers	9-1-18	Represents that the villagers will be deprived of the grass and green leaves for manure, etc., if the lands proposed are taken away and so no lands should be taken from their village for the block.	.	Ample provision has been made at the time of the formation of the proposal and their grievance is nothing but imaginary.	A foot-path 6 feet wide passing through Survey No. 102 from one part of Bedur to another is allowed. To allow cultivation margin to Survey Nos. 62, 63, 64, 65, 66, 68, 22, 24 and 37 and to make the demarcation line straight, the same is altered. This alteration will give more lands to the villagers.	....
	...	(2) Survey No 55 which is in the holding of Seshiah bin Ramiah should be excluded.	..	This may be excluded	This is excluded from the forest with a cultivation margin. B. BASAVARADHYA, Forest Settlement Officer	...
Manjappa, patel of Brahman-Bedur on behalf of the raiyats	10-1-18	Requests that the tank to the east of Survey No. 31 which irrigates many lands should be excluded from the forest.	.	The prayers of the Patel may be granted and the line may be shifted 5 chains away from Survey No. 31.	A cart-track 12 feet wide from Brahman-Bedur to Kasimane and another from Avinahalli to meet the above as shewn in the village map are granted The tank is excluded from the forest.	.....
	...	(2) The preliminary demarcation line should be taken further away from Survey No 31	...		The preliminary demarcation line is shifted to give cultivation margin and also to exclude the tank to the east of Survey No. 31.	.....
	.....	(3) The following rights of way may be admitted. (a) Cart-track from Chikmathur to Udri. (b) Cart-track from Avinahalli to Sagar.	.....		A cart-track leading from Chikmathur to Udri and another from Avinahalli to Sagar as well as the foot-path leading from Bedur to Avinahalli are allowed. B. BASAVARADHYA, Forest Settlement Officer.	.....

No. 11777-99—L. B. 32-18-32, DATED 15TH MARCH 1918.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

The Administration Reports of the District Boards, for the year 1917-18.

Order No. 11777-99—L. B. 32-18-32, dated 15th March 1919.

The report of each District Board has been reviewed separately and the progress made by all the District Boards collectively during 1917-18 will be reviewed in this order.

2. *Development of Local Self-Government.*—To give effect to the orders of Government on the development of Local Self-Government a Local Boards and Village Panchayets Bill was passed and it became Law from the 1st July 1918, as Regulation VI of 1918, and repealed the Local Boards Regulation II of 1902.

3. *Constitution and working of Local Boards.*—There were as in the previous year, 8 District Boards, 77 Taluk Boards, and 264 Union Panchayets. All the District Boards and 75 of the Taluk Boards held the prescribed number of meetings. Fifteen of the Panchayets did not meet at all during the year. Of the remaining 249 Panchayets only 39 held the prescribed number of meetings during the year. The average attendance of members at the meetings of the District Boards, Taluk Boards and Union Panchayets, was 74, 50 and 71 per cent, respectively, of the average strength and was generally satisfactory.

4. *Finance Committees, and audit of accounts.*—None of the Committees except that of Chitaldrug met regularly once a month to audit the accounts. The Committees in the Mysore and Hassan Districts held only one and two meetings, respectively, during the year. This is not satisfactory. The Presidents should make proper arrangements for the regular conduct of the audit by the Finance Committees. It is satisfactory to note that the audit of the accounts by the Local Audit staff of the Comptroller's office did not disclose any grave irregularities. With a view to introduce the half-yearly audit of the accounts, the accounts up to the end of December 1917, were fully audited in the Bangalore and Tumkur Districts. The defects noticed during audit do not call for special remarks.

5. *Financial Position.*—The income and expenditure of the District Boards during the year compare with those of the previous year, as shown in the following statement.

Items	1917-18	1916-17
Receipts.	Rs.	Rs.
1. Allotment from Local Cess	6,13,988	5,61,964
2. Railway cess	2,33,240	1,77,876
3. House, shop, and mohatarfa taxes ..	3,92,035	1,37,346
4. Tolls	39,153	45,415
5. Ferries	7,149	5,806
6. Markets	23,552	23,662
7. Accommodation to travellers	3,377	3,612
8. Fines under Sanitation Rules	758	765
9. Interest on investment	12,436	9,330
10. Contributions	42,756	5,85,489
11. Deposits	27,814	45,221
12. Drinking Water Wells Fund	64,307	2,30,125
13. Other items	1,23,826	1,10.356
Total Receipts ..	15,84,391	19,36,967

No. 11777-99—L. B. 32-18-32, DATED 15TH MARCH 1919.

Items	1917-18	1916-17
Expenditure.	Rs.	Rs.
1. Public works executed by Public Works Department	448,472	4,11,652
2. Public works executed by Civil Department .	103,078	1,28,964
3. Administration and collection	68,111	67,591
4. Conservancy and sanitation	89,930	85,886
5. Medical relief	89,343	92,775
6. Accommodation for travellers	28,475	27,279
7. Railway construction	31,512	1,91,353
8. Repayment of deposits	24,523	31,903
9. Drinking Water Wells Fund	75,213	85,897
10. Other items .. .	93,433	1,35,755
Total Expenditure ..	10,52,090	12,59,055

The non-adjustment of the contributions sanctioned for the Drinking Water Wells Fund in the accounts of the Tumkur, Mysore, Hassan and Shimoga Districts for 1917-18 and the transfer of a sum of rupees five lakhs forty-six thousand and ninety, at the credit of the Local Funds General to the District Boards in the account of the previous year, accounts for the apparent decrease under receipts during the year under review. The assignment of the District Boards of mohatarfa in rural areas and of portion of the local cess on Abkari and other items of revenue which was heretofore credited to the Local Funds General (abolished from 1st July 1917) accounts for the increase under "House, Shop and Mohatarfa taxes" and "Local cess" respectively. The increase under Railway cess was due to the levy of the cess in the Mysore District for the first time, and to its levy throughout the year in the districts of Shimoga and Kadur as against the latter half only in the previous year. The decrease under expenditure was chiefly under Railway construction, as the Kolar District Board Railway was almost complete. The shorter outlay on public works undertaken in the Civil Department and under the Drinking Water Wells Fund was to some extent counterbalanced by the larger expenditure on works carried out by the Public Works Department during the year. The Kolar District Board continued to have a minus balance against it, on account of the overdrawals permitted for meeting the cost of the construction of the Kolar District Railway. The District Board has been allowed one year's time to adjust the overdrawal by selling the Government of India Securities held by it.

6. *Demand, collection and balance.*—The assignment of Mohatarfa in rural parts to the District Boards enhanced the current demand under House, Shop, and Mohatarfa taxes, from Rs. 1,42,395 in 1916-17 to Rs. 4,21,087 in the year under review. Out of this demand, only Rs. 66,042, or about 15·7 per cent was left uncollected at the end of the year. Out of the arrears of previous years under this head, which amounted to Rs. 1,24,033 at the beginning of the year, only 30 per cent was collected and a sum of Rs. 86,893 remained uncollected at the end of the year. The outstandings in the Mysore, Bangalore and Shimoga Districts were very heavy. The arrears under tolls in the Mysore District (Rs. 3,705) and under ferries, in the Shimoga District (Rs. 4,045) were also very heavy. The attention of the Presidents is invited to the observations of Government in para 6 of the General Review for 1916-17, and they are requested to take prompt action to write off all irrecoverable items and collect all recoverable items without undue delay.

7. *Public Works.*—The outlay incurred in the Public Works Department amounted to Rs. 4,48,472. Of this 74 per cent was spent on repairs, mainly of roads. In the Civil Department a sum of Rs. 1,03,078, was spent on public works and out of this 39 per cent was incurred in the Unions. The condition of roads in the Kolar District is reported to have shown no improvement to enable the District Boards to maintain the roads in a more satisfactory condition, the mileage grants in the Bangalore, Shimoga and Kadur Districts have been suitably increased and the advisability of submitting suitable proposals in the matter has been pointed out to the

No. 11777-99—L. B. 32-18-32, DATED 15TH MARCH 1919.

Presidents of the Kolar, Tumkur and Hassan District Boards. In connection with a general scheme for improving road facilities in the State, Government in their Order No. 6541-51—L. B. 191-13-28, dated 21st May 1918, sanctioned a sum of Rs. 50,000 for the construction of one important road in each district besides allotting a similar sum for each of the next five years to induce the District Boards to take up the construction of new roads.

Fifty-four per cent of the grants for public works in the Civil Department was allowed to lapse during the year, the lapses ranging between 30 per cent in the Bangalore and Kolar Districts, and 68 per cent in the Shimoga District. This is not satisfactory. All the incomplete works of previous years should be completed and their accounts closed at a very early date. New works should be commenced and executed according to a carefully prepared programme and systematic adherence to the programmes and regular inspection and supervision of works in progress by the local officers should be insisted upon to minimise lapses of budget grants.

8. *Railways.*—The gross earnings of the "Kolar District Railways" from Bowringpet to Chikballapur, (63·98 miles amounted to Rs. 1,58,400, and the working expenses to Rs. 1,05,735, or 66·75 per cent of the gross earnings. The net earnings amounted to Rs. 52,665 which represents a return of 2,75 per cent on the capital outlay. The preliminary survey for the opening of a line from Kolar to Mulbagal was sanctioned by Government, and the alignment of the line was also approved by the District Board during the year. The survey of the line from Chitaldrug to Sira *via* Hiriyur was completed during the year. The construction work of Chikjajur-Chitaldrug Railway was begun in January 1918. The cost of construction of the line is to be met to the extent of one-half by the Chitaldrug District Board and the rest by Government. To provide the required funds the District Board have raised a Debenture Loan, the collections under which amounted to Rs. 72,052 up to the end of the year.

9. *Rural water-supply*—Two hundred and thirty-nine wells were completed during the year against two hundred and eight in the previous year. The expenditure incurred was Rs. 75,213 against Rs. 85,897 in the previous year. The progress was not satisfactory. The Musto's Boring Plant purchased by the Chitaldrug District Board was found useful and satisfactory. The purchase of the plant one for the Mysore District and another for the Tumkur District has also been sanctioned. The attention of the Presidents is invited to the Government Order of the 18th November 1918, reviewing the progress under the Rural Water Supply Scheme which demands closer supervision.

10. *Conservancy and sanitation.*—The amount spent on conservancy and sanitation rose from Rs. 85,886 to Rs. 89,930. The Village Sanitation Rules were in force in 10,724 villages. There were at the end of the year 1,221 villages into which the rules had still to be introduced and of these 558 were in the Mysore District. Prompt steps should be taken to introduce the rules into the remaining villages as early as possible. Six hundred and thirty-seven persons were prosecuted for breach of the rules and 295 were convicted during the year.

11. *Medical relief and vaccination.*—In the 120 Local Fund Dispensaries subsidised in part by the District Boards, 1,289,634 patients were treated against 1,216,542 patients in the previous year. The increase was chiefly in the Chitaldrug District and has not been explained. The number of persons vaccinated was 68,009 against 65,096 in the previous year, the decrease being chiefly in the Kadur, Chitaldrug and Hassan Districts. The pay and prospects of vaccinators have since been improved and the District Boards have now been given jurisdiction over the staff and its work. The Presidents of the District Boards are requested to watch the results.

12. *Vital Statistics.*—The total number of births and deaths recorded during the year was 90,785, and 95,512 against 99,421 and 86,056, respectively, in the previous year. There was a general increase in the number of deaths in all the districts except Kadur principally on account of the prevalence of cholera in a severe form in the Kolar, Tumkur and Chitaldrug Districts, and of both cholera and small-pox in the Mysore District.

13. *General.*—The administration of the District Boards during the year was on the whole fair but improvements in respect of collection of revenue and execution

No. 11777-99—L. B. 32-18-32, DATED 15TH MARCH 1919.

of public works are urgently called for. Rural sanitation also deserves greater attention. A scheme for the improvement in the pay and prospects of Sanitary Inspectors is now engaging the attention of Government. With the facilities afforded by the revision of the establishments of the District and Taluk Boards and their reconstitution under the new Regulation and with the larger powers and responsibilities devolving on the Local Boards under the new Regulation as well as increase of resources chiefly through the transfer of the Revenue under Local Fund General, it is hoped that the Boards will endeavour to administer their affairs more efficiently and enlist the co-operation of the non-official public to a larger extent.

GENERAL AND REVENUE SECRETARIAT,
Bangalore, dated the 3rd March 1919.

CIRCULAR MEMORANDUM.

(See G. O. No. P. W. 291-352—M. 1463-524, dated 5th February 1919.)

Government have, after careful consideration for sometime past, recognised the necessity for the * formation and existence of firms of Architects and Engineers in the City of Bangalore, to advise private parties and public bodies in the preparation of designs and execution of works. It is further the desire of Government that all Municipalities and District Boards should consult, whenever possible, such firms as regards works to be undertaken by them. The scale of fees to be paid to the firms for such consultation will be fixed by Government from time to time.

By Order,
B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

To—The Presidents of the City Municipal Councils, Bangalore and Mysore.
The Deputy Commissioners of Districts for communication to the Town and Minor Municipal Councils.
The President of the Sringeri Municipality, through the Deputy Commissioner, Kadur District.
The Presidents of the District Boards and the President of the Sanitary Board, Kolar Gold Fields.

Trust Board.

No. 11222-5—Ml. 155-18-1, dated 3rd March 1919

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read Again—

Government Order No. 4836-40—Ml. 156-17-1, dated 28th February 1918, directing that separate officers be appointed for each of the offices of the President, City Municipal Council, Mysore, and the Chairman, City Improvement Trust Board, Mysore, and appointing with effect from 11th March 1918, (1) Rajasabhabhushana Dewan Bahadur C. Srikantesvara Aiyar to the former office and (2) Rajasilpivisarada Rao Bahadur B. Subba Rao to the latter office.

Order No. 11222-5—Ml. 155-18-1, dated 3rd March 1919.

In modification of the arrangement sanctioned in the Government Order of 28th February 1918 read above, Government are pleased to direct that the Chairmanship of the Trust Board be amalgamated with the Presidentship of the Mysore City Municipal Council, with effect from the 11th March 1919, and that for the present the services of an Executive Engineer be placed at the disposal of the President to help him in the work of the Trust Board.

B. RAMASWAMAIYA,
Secy. to Govt., Rev. Dept.

No. 11557—Ml. 79-18-37, dated 10th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The Administration Reports of the Minor Municipal Councils in the Bangalore District, for the year 1917-18 and the Deputy Commissioner's reviews thereon.

Order No. 11557—Ml. 79-18-37, dated 10th March 1919.

Government resolve in this order to review the progress made in the Administration of the ten Municipalities, noted below, during 1917-18 :—

1. Closepet.
2. Anekal.
3. Devanhalli.
4. Nelamangala.
5. Tyamagondlu.
6. Hoskote.
7. Kankanhalli.
8. Magadi.
9. Sarjapur.
10. Vadigenhalli.

The first three of these, had Municipal Councils constituted under the Municipal Regulation VI of 1906. The remaining 7 continued to be governed under the executive orders of Government and preliminary action was taken to notify these areas as permanent Municipalities under the Regulation. The total area of the 10 Municipalities under review is 1·58 square miles and their aggregate population 40,306.

2. *Meetings and attendance.*—Only one Municipal Council, *viz.*, that of Nelamangala, did not hold the prescribed number of 12 meetings. The average attendance was 5·8 against an average strength of 10·7 members for each Municipal Council. The attendance of official Members was rather poor in the Vadigenhalli, Sarjapur and Tyamagondlu Municipalities.

3. *Elections.*—The privilege of election, which was withdrawn from the ratepayers of Anekal in June 1915, was restored during the year. For the reconstitution of this Municipal Council as also those of Closepet and Devanhalli, whose terms were to expire shortly, general elections were held during the year. The percentage of attendance of voters at the elections was fair (62 per cent) in Closepet. But it was not quite satisfactory in Anekal and Devanhalli.

4. *Demand, collection and balance.*—The current demand for the year 1917-18 under "House and Mohartafa taxes" was Rs. 20,663. Of this, Rs. 5,440 or 27 per cent was left uncollected, while out of the arrears of Rs. 13,782, 69 per cent or Rs. 9,442 remained uncollected. The collection of current taxes in Closepet and of arrears in Hoskote, Closepet, Nelamangala, Kankanhalli, Magadi and Devanhalli was not satisfactory. The indifference of the village officers in Closepet, and the failure of issue of processes in Nelamangala and the prevalence of plague during the collection season in Kankanhalli, account for the large arrears outstanding in the accounts. This is not satisfactory. The Presidents of the Municipal Councils concerned should make effective arrangements for the prompt collection of all recoverable items, and take action for the writing off of such irrecoverable items as encumber the accounts at present.

5. *Incidence of taxation.*—The incidence of taxation for the district was Re. 0-12-4, and ranged between Re. 0-8-5 in Vadigenhalli, and Rs. 1-13-3 in Nelamangala.

6. *Finances.*—The income and expenditure for the year, amounted to Rs. 34,983 and Rs. 28,367 against Rs. 33,336 and Rs. 28,359 respectively in the previous year. The variations are insignificant and call for no remarks. The figures furnished for 1916-17 are not complete and correct. These should, in future, be based on the figures furnished in the State Finance and Revenue accounts.

7. *Medical Relief.*—In the Local Fund Dispensaries, subsidised in part, from the Municipal Funds, 70,350 patients were treated against 67,933 in the previous year. One thousand and twenty-nine persons were vaccinated, as against 990 in the previous year.

No. 11557—Ml. 79-18-37, dated 10th March 1919.

Vital statistics.—One thousand and fifty births, and 1,181 deaths were recorded during the year, against 1,154 and 1,322, respectively, in the previous year. Plague accounted for 371 deaths in all during the year.

9. *Conservancy and sanitation.*—Most of the Municipalities had no system of satisfactory drainage or water-supply. Schemes in regard to these, which are within the means of the Municipal Councils concerned, should be considered by them and submitted for the sanction of Government.

Six persons were prosecuted for breach of Sanitary Rules, and 4 were convicted. The fines levied amounted to Rs. 14-4-0.

10. *Public Works.*—The expenditure on public works was Rs. 4,187 against 4,238 in the previous year. The works executed were mainly repairs of roads and drains. Thirty-eight per cent of the total budget grant under Public Works lapsed during the year. No expenditure was incurred in the Magadi Municipality on account of the prevalence of plague. In the Sarjapur Municipality, the entire budget grant of Rs. 200 was spent during the year. The lapses were heavy in Hoskote, Nelamangala, Tyamagondlu, Kankanhalli and Closepet. Better progress should be shown during the current year.

11. *General.*—The reports and appendices have not been prepared with the requisite care and attention. The Presidents of the Municipal Councils should devote their personal attention to the preparation of the reports in future, and submit them punctually and in proper form to the Deputy Commissioner.

B. RAMASWAMAIYA,
Secretary to Govt., Rev. Dept.

To—The Deputy Commissioner, Bangalore District.
PRESS TABLE.
Exd.—C. R.

No. 12410—Ml. 79-18-43, dated 26th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

The Administration Reports of the Minor Municipal Councils in the Kolar District for the year 1917-18 and the Deputy Commissioner's Reviews thereon.

Order No. 12410—Ml. 79-18-43, dated 26th March 1919.

Government resolve in this order to review the progress made in the Administration of the five Municipalities noted below during 1917-18.

1. Srinivaspur.
2. Bagepalli.
3. Gudibanda.
4. Goribidnur.
5. Malur.

These areas continued as Non-Regulation Municipalities during the year and were governed under the executive orders of Government. Minor Municipal Councils have since been constituted in these areas under the amended Municipal Regulation with effect from 1st July 1918. The total area of these Municipalities is ·422 square miles and their population 14,613.

2. *Meetings and attendance.*—With the exception of the Municipal Council of Bagepalli, all the other Councils held the prescribed number of twelve meetings. The average attendance was 6·69 against an average strength of 11·4 members for each Municipal Council. There is still scope for much improvement in this direction.

3. *Demand, Collection and Balance.*—Out of the demand of Rs. 7,215 under assessed taxes due for 1917-18, Rs. 1,500 or 21 per cent was left uncollected, while out of the arrears of Rs. 2,021 due for the previous years, Rs. 941 or 46 per cent remained uncollected at the end of the year. The collection of arrears in Malur and of both current taxes and arrears in Srinivaspur was very unsatisfactory. The Presidents concerned should take prompt steps to collect all recoverable arrears and write off all irrecoverable items which encumber the accounts at present.

Appendix V of the report does not show the details of Demand, Collection and Balance under "Taxes on Buildings" separately. The Deputy Commissioner is requested to show the figures separately in the reports of future years.

4. *Incidence of taxation.*—The incidence of taxation for the district was Re. 0-9-10 and ranged between Re. 0-6-8 in Bagepalli and Rs. 1-0-6 in Goribidnur.

5. *Finances.*—The income and expenditure for the year amounted to Rs. 11,631 and Rs. 8,604 against Rs. 12,202 and Rs. 9,398 respectively in the previous year. The variations are trifling and call for no remarks.

6. *Medical relief.*—Only the Local Fund Dispensary at Malur was subsidised in part from the Municipal Funds, and in this institution 8,815 patients were treated against 8,451 in the previous year. Four hundred and nine persons were vaccinated as against 557 in the previous year. Vaccination work requires greater attention.

7. *Vital statistics.*—Four hundred and eighty-two births and 378 deaths were recorded against 574 births and 296 deaths in the previous year. Plague and cholera accounted for 99 and 44 deaths respectively in all during the year.

8. *General.*—No expenditure was incurred on Public Works in Srinivaspur, Bagepalli and Gudibanda and on lighting in Bagepalli during the year. This is not satisfactory. The financial position of these Municipalities also is not good and it behoves the new Municipal Councils to adopt energetic measures to improve their existing sources of income by a systematic revision of taxes and arrange for the prompt collection of the annual demand, as otherwise they will not be in a position to carry out any schemes of public utility such as Water-supply, Drainage, Town extensions, etc.

Read—

Letter No. 3113, dated the 28th October 1918, from the Registrar, Mysore University, forwarding the Annual Report of the University of Mysore for the year 1917-18.

Order No. 8320—Edn. 226-18-4, dated 6th March 1919.

Mr. H. V. Nanjundayya continued to be the Vice-Chancellor of the Mysore University and Mr. Denham, Registrar, and the University was strengthened by the appointment of two new Professors one for History and the other for Commerce.

2. *Finance and attendance.*—The income of the University from all sources was Rs. 5,50,420 and the expenditure Rs. 4,82,227 during the year. The number of students under instruction in the various Colleges was 619 including 5 students in the College Classes of the Maharani's College.

3. *Developments.*—The most important developments during the year were the establishment of College of Engineering at Bangalore and the introduction of a Commerce course in the Maharaja's College at Mysore. The first year's class in the Engineering College started with a select batch of 45 students. The question of starting an Agricultural College at Mysore with effect from 1920-21 is under the consideration of Government.

4. *Examinations.*—The first Mysore University Examinations were held during the year. Out of 30 candidates sent up for the First Year's Certificate, 11 passed. Of 76 candidates that appeared for the B. A. Degree, 40 passed in both parts and 20 in one part only. Out of 403 candidates for the Entrance Examination, 138 or 34·24 per cent passed. The low percentage of passes indicates the high standard of the University Examinations. The result of the Entrance Examination, however, leaves a doubt regarding the efficiency of the High Schools.

5. *Libraries.*—The University Library buildings were occupied in April 1918, and a beginning was made towards the formation of a University Library with 2,311 volumes transferred from the Maharaja's College Library and the Oriental Library. Arrangements are reported to have been made for large additions to this Library. The University Librarian was deputed to visit important Libraries at Madras, Calcutta, Baroda, Bombay, Delhi and Lahore, to study the details of their organisation and working.

6. *Hostels.*—The problem of providing accommodation to students who are too poor to bear the high cost of living in hostels is a difficult one. The proposals of the University in this respect will be awaited with interest.

7. Government have recently sanctioned a post-graduate course of teaching and also a concurrent optional course for the B. A. Degree. The detailed scheme is awaited.

8. The Calcutta University Commission visited the University in connection with their enquiry into the conditions of University Education in India. The Senate met twice during the year and discussed important schemes for the development of the University.

9. Government are pleased to express their appreciation of the satisfactory manner in which the development of the University has proceeded and to convey their thanks to the Vice-Chancellor, the Registrar and other Members of the University Council and the staff of the University for the high level of administrative and academical efficiency reached during the year.

Disbursement of grants to aided Village Elementary Schools and Salaries to Teachers of Village Elementary Schools.

No. 8529-39—Edn. 33-18-3, dated 8th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Correspondence ending with letter No. Glc. 1598, dated the 8th October 1918, from the Inspector-General of Education in Mysore, regarding the disbursement of grants to aided Village Elementary Schools and salaries to teachers of Village Elementary Schools.

Order No. 8529-39—Edn. 33-18-3, dated 8th March 1919.

The present system of disbursement of grants on consolidated bills was prescribed by the Comptroller with the sanction of Government in his Circular No. T. A. D. 11—1208, dated 25th April 1917, whereby only one consolidated bill is prepared for the grants payable to all the Village Elementary Schools by the District Inspector of Education and forwarded to the Amildar of the taluk concerned for encashment and disbursement in the same way as the pay of Village Elementary School masters through the agency of Shekdars. The procedure in both the cases as regards preparation of bills, refund of undisbursed amounts, maintenance of acquittance rolls, etc., is the same and has been laid down in Comptroller's Circular No. 7758—T. A. D. 11—1097, dated 24th April 1916.

The present system entails considerable delay and consequent dissatisfaction among the schoolmasters. It also hampers the discharge of the legitimate duties of Shekdars. Government have received from time to time several suggestions for remedying these evils. Disbursement of the amounts by postal money order, direct payment at the Treasury, payment by Patels out of imprest given to them for the purpose, payment by a special agency of the Education Department are some of the important suggestions.

2. On a careful consideration of all the above suggestions, Government are of opinion that the system of direct payment at the Treasury may be adopted in the case of payment of salaries and grants to teachers of Village Elementary Schools within a distance of 10 miles of the Taluk headquarters. In the case of villages beyond this distance, the pay and grants may be remitted by postal money order, the commission being borne by Government until separate special arrangements are made with the postal authorities therefor.

3. Two consolidated bills one for grants to aided institutions and the other for salaries of Village Elementary schoolmasters will be prepared by the Assistant Inspector of Education for all the Village Schools in each taluk in his charge and forwarded to the Amildar of the taluk concerned for encashment and payment to the schoolmasters in the manners described above. An acquittance roll may be maintained in the Treasuries to note disbursements. Payments may be arranged to be made on or after the 5th of every month. To enable the schoolmasters to receive payment at the Treasury or the Post Office, such of them as are at a distance of over 5 miles from the Treasury or the nearest Post Office may be allowed to close the school for one day. No travelling allowance will be given for journeys made to draw the pay.

4. The Inspector-General of Education is requested to submit detailed proposals indicating the number of schools falling under the two classes mentioned above and approximate expenditure involved in remitting grants and salaries by Postal Money Order.

Earmarking Library grants and curtailing the system of awarding prize books.

No. 9009-10—Edn 18-18-19, dated 18th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. 9009-10—Edn. 18-18-19, dated 18th March 1919.

The Inspector-General of Education represents that the present grant for the purchase of books for the High Schools is very small and that, as the greater part of this amount is being spent in the award of prizes to students, it is impossible to improve the Libraries of the schools and suggests that instead of giving prizes, diplomas may be awarded. In modification of their letter to the Inspector-General of Education No. 5414—Edn. 253-18-2, dated the 16th December 1918 in the matter, Government are pleased to direct that the Library grants should be earmarked in future and that the system of awarding prize books may be curtailed to the minimum, diplomas or certificates taking its place.

Scholarships for Girls.

No. 9011-12—Edn. 18-18-20, dated 18th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read.—

Government Order No. 5676-7—Edn. 18-18-17, dated 21st December 1918, approving of the proposals submitted by the Inspector-General of Education for the award of scholarships for girls in the Government Girls' School at District Headquarters and also a set of rules for the grant of such scholarships and stating that the above scholarships are not tenable in the aided institutions.

Order No. 9011-12—Edn. 18-18-20, dated 18th March 1919.

The Inspector-General of Education recommends that these scholarships may also be made tenable in the aided institutions and the rates of scholarships of the Maharani's College, *viz.*, Rs. 12 per mensem reduced to the same scale as in other schools.

2. Government are pleased to approve of the proposal of the Inspector-General Education to make the scholarships tenable also in aided schools, the scholarships being awarded to the most eligible pupils irrespective of the institutions attended by them. They are of opinion that the higher rates of scholarships in the Maharani's College may be retained, but they should only be given to students coming from the mofussil, *i.e.*, from outside Mysore City and that in the case of local pupils, *i.e.*, residents of Mysore City, the rate may be Rs. 8 per mensem, Government are also pleased to direct that similar rates of scholarships, *i.e.*, Rs. 12 and Rs. 8 may be given in the Vani Vilas Institute also for the High School Classes, to non-resident and resident pupils of the Bangalore City, respectively. The Inspector-General is requested to submit for the information of Government a list showing the distribution of the scholarships among the various institutions during the current year.

Additional Powers to the Inspector-General of Education.

No. 8540-1—Edn. 173-18-7, dated 8th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. 3627-30—Edn. 57-14-7, dated the 30th March 1915, sanctioning among other things the delegation of certain powers to the Inspector-General of Education in connection with the opening of new schools and the improvement of the existing ones, under the Compulsory Education Scheme.

2. Government Order No. 9258-9—Edn. 123-17-11, dated the 15th March 1918, indicating the principles to be followed in formulating proposals for the improvement of the existing schools.

3. Letter No. A. C. 1740, dated the 29th September 1918, from the Inspector-General of Education, urging the necessity for the delegation of additional powers to him in regard to the appointment of additional hands, etc., for the several grades of schools, and requesting that powers under the following items may be given to him by way of facility in carrying on the work of the Department satisfactorily:—

		Rs.
1.	Anglo-Vernacular Schools—additional staff, etc., up to ..	10,000 a year
2.	High Schools do do ..	10,000 do
3.	Assistant Inspectorate—according to the number of schools opened up to	5,000 do
4.	Elementary Schools up to	10,000 do
5.	Increase of grants, etc.	2,000 do

Order No. 8540-1—Edn. 173-18-7, dated 8th March 1919.

In the first order read above, Government have empowered the Inspector-General of Education to sanction the opening of new schools and improvements to existing schools in the areas notified under the Compulsory Education Regulation subject to approval of Government within three months from the date of the starting of a new school, Government or Aided. In the Order dated the 15th March 1918, the Inspector-General of Education has been authorised to propose an additional teacher for every 25 students and to adopt the following scales of pay in schools with more than two teachers:—

No. of teachers.	*Scale of pay.*
Three	15, 12, 10.
Four	15, 12, 10, 10.
Five	20, 15, 12, 10, 10.
Six	20, 15, 12, 10, 10, 10.
Seven	25, 15, 12, 12, 10, 10, 10.

2. In view of the rapid expansion of education and the absolute necessity for prompt appointment of teachers, etc., to the schools to be newly opened and those already existing, the Inspector-General of Education requests that the powers given to him in the case of the schools started under the Compulsory Education Scheme may be extended in regard to other schools also, subject to the same conditions.

3. With a view to enable the Inspector-General of Education to provide additional teachers to existing schools promptly, Government are pleased to permit him to exercise the following powers:—

(*a*) *Elementary Schools.*—In the case of Government Elementary Schools where the existing scale of establishment fails below that indicated below, he may sanction additional teachers not exceeding the limits prescribed in each case:—

Any school with fewer than four standards ..	One teacher.
Any number of pupils less than 30 in 4 standards ..	One teacher.
A school with 30-50 pupils in 4 standards ..	Two teachers.
A school with 61-90 pupils in 4 standards ..	Three do
Any number of pupils less than 25 in 5 standards ..	Two do
A school with 46-75 pupils in 5 standards ..	Three do
A school with 76-100 pupils in 5 standards ..	Four do
Upwards of 100 in 5 standards	Five do

No. 8540-1—Edn. 173-18-7, dated 8th March 1919.

(*b*) *Anglo-Vernacular Schools.*—One additional teacher when the strength in any single class exceeds 50 pupils.

(*c*) *High Schools.*—In the case of High Schools also similar additions may be sanctioned subject to the condition stated in (*b*).

Sanction should not be anticipated unless there is provision in the budget and the maximum expenditure incurred in anticipation should not exceed Rs. 10,000, Rs. 5,000 and Rs. 3,000 per annum, in the case of Elementary Schools, Anglo-Vernacular Schools and High Schools, respectively.

4. Formal sanction should however be obtained within three months from the date of incurring such additional expenditure. In appointing additional teachers the scale of pay paid down in Government Order No. 9256-9—Edn. 123-17-11, dated the 15th March 1918, should be strictly adhered to. In the case of High Schools the appointments should be only in the last grade, *viz.*, Rs. 50—4—70.

5. In regard to opening new schools Government in their Order No. 3174-5—Edn. 123-17, dated the 3rd October 1918, have authorised the Inspector-General of Education to open new Panchama Schools during the current year in anticipation of sanction. Government are also pleased to empower the Inspector-General of Education to sanction the opening of new Government Elementary Schools in places where there are no schools at present, either Aided or Government, within a radius of 5 miles, subject to the condition that the budget provision is not exceeded. Previous sanction of Government should, however, be obtained in regard to the conversion of Aided Schools to Government Institutions. The Inspector-General of Education is also authorised to sanction within the Grant-in-aid Rules increase of grants up to Rs. 500 in any one Circle provided there is provision in the budget for such increase.

Correspondence ending with letter No. Gle. 6111, dated the 14th February 1919, regarding the revision of Rule VII, clause 4, of the Mysore Grant-in-aid Code, regarding grant-in-aid to buildings.

Order No. 9008—Edn. 22-18-13, dated 18th March 1919.

Government are pleased to direct that Rule VII, clause 4, of the Grant-in-aid Code be revised as follows:—

"If a building for the acquisition, construction, extension alteration or repair of which a grant has been drawn, or if land, for the acquisition of which a grant has been drawn, or which has been given free or at concession rates has, prior to the expiration of forty years from the date of payment of the grant or delivery of possession of the land, been diverted to purposes other than educational purposes approved by the Government, the Manager shall refund such portion of the grant or the price of the land as may be determined by the Government. If the Manager fail to make such refund, the Government may summarily take possession of the building till the amount is refunded or recover the amount by such means as they may think fit"

Government Order No. 11086-9—Edn. 131-17-7, dated the 11th May 1918, sanctioning the continuance of the appointment of the Magic Lantern Exhibitor attached to the office of the Inspector-General of Education and requesting the Education, Committee to enquire and report how far effect can be given to the scheme formulated by them in regard to Visual Instruction.

2. Letter No. 30, dated the 12th August 1918, from the Secretary, Education Committee, stating that the Committee are of opinion that the scheme should be brought into operation at the District Headquarters immediately, as a part of the general scheme and submitting a provincial estimate of cost involved.

3. Correspondence ending with letter No. Glc. 2531, dated the 15th January 1919, from the Inspector-General of Education, stating that only four lanterns are available in the Department which require to be repaired and that efforts will be made to buy more lanterns if the scheme is sanctioned and funds are allotted.

Order No. 9139-41—Edn. 177-18-7, dated 21st March 1919.

Government are pleased to direct that the scheme of Visual Instruction be introduced as an experimental measure in one Malnad and one Maidan District Headquarters, *viz.*, Shimoga and Chitaldrug, and the same be worked under the supervision of the Education Department, the services of the Lantern Exhibitor attached to the office of the Inspector-General of Education being also utilised in this connection. The Inspector-General of Education may select other representative districts if he considers them more suitable for giving effect to the experiment and report the same to Government if any alteration is proposed. A sum of Rs. 2,000 will be provided for the purchase of the new lanterns required and repairing of old ones.

The following scale of expenditure for establishment, etc., is sanctioned in connection with the experiment at each District Headquarter.

	Rs.	
One Operator	50+30	fixed travelling allowance.
One Attender	10+ 5	
Cost of carriage of each ..	15	
Contingencies	15	
Total ..	125	

The Inspector-General of Education is requested to arrange for the purchase of new and repairs of existing apparatus required in this connection. He is also requested to make the necessary arrangements to give the operators the requisite training in lecturing and demonstration work, for enlisting popular interest in such demonstration and for efficient supervision of the work. The cost will be met from the provision of Rs. 15,000 under Visual Instruction in the budget of the Education Department. A report should be submitted to Government before the end of July 1919 in regard to the working of the scheme during the current year.

No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. Glc. 5122, dated 9th December 1918, from the Inspector-General of Edi tion, submitting the Report of Public Instruction for the year 1917-18.

Order No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

Mr. M. Shama Rao held the office of the Inspector-General of Education till 1st January 1918, when he proceeded on leave prior to retirement and was succeeded by Mr. C R. Reddy.

The brief statistical summary given below represents the progress in education in 1917-18 as compared with the previous year:—

	1916-17	1917-18	Difference
I Number of institutions ...	7,436	9,633	+2,197
II Their strength	301,948	338,872	+36,924
III Percentage of boys at schools to population of school-going age ...	62·2	68	+5·8
IV Percentage of girls at school to female population of school-going age	13·3	14·2	+ ·9
V Expenditure on public institutions...	Rs. 32,97,561	31,43,346	−1,54,215
VI Total grants-in-aid	3,77,540-9-11	4,54,770	+77,229-6-1
VII Average cost of education ...	0-9-3	0-8-9	−0-0-6
VIII Proportion of area to each school ...	1 for 3 sq. miles	1 for 2¾ sq. miles	.....
IX Proportion of pupils to population...	1 in 18	1 in 16	.....

Out of the total number of boys, 88·25 per cent were in primary schools, 9·88 per cent in the middle and 1·87 per cent in High Schools; and of girls 94·23 per cent in Primary Schools 5·57 per cent in the middle and 0·20 per cent in High Schools.

Expenditure.—The total expenditure in the year on education was Rs. 31,43,346 as against Rs. 32,97,561 in 1916-17, the decrease being due to the transfer of expenditure on Arts Colleges to the Mysore University. Of this, 61·54 per cent was met from State Funds, 18·66 per cent from local funds, 1·21 per cent from Municipal Funds, 11·04 per cent from fees and 7·90 per cent from all other sources. Rs. 14,48,533 were spent on Government Institutions, Rs. 6,52,944 on Aided Institutions, Rs. 3,44,260 on buildings and furniture, Rs. 6,74,215 on other items of expenditure. Of Rs. 3,55,956 realised from fees, Rs. 1,30,202 were credited to private funds.

(*A*) *Collegiate Education.*—Including the entrance class at Shimoga, started in July 1917, there were five Collegiate High Schools in 1917-18 with 383 pupils. Two additional science sections in the Government Collegiate High Schools and Entrance Classes in History in the Wesleyan High Schools at Bangalore and Mysore have since been opened to provide for the large number of students seeking admission to the Entrance Classes. Out of 407 candidates for the Mysore University Entrance Examination only 138 or 34·24 per cent passed. Government have recently on the recommendation of the Inspector-General of Education, sanctioned the appointment of a large number of Honours graduates who have passed with distinction to the staff of the Collegiate High Schools and they have also approved of the improvement of the staff of the High Schools by the appointment of specially trained and capable teachers. Government trust that every effort will be made in the coming year to increase the efficiency of teaching in the High Schools which leave much room for improvement

No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

(B) Secondary Education.

High Schools.—The number of English High Schools for boys increased from 14 to 16 and for girls from 2 to 3. Their strength increased from 5,730 to 6,247 and 39 to 70, respectively. A new English High School at Davangere was opened during the year. The number of Kannada High Schools was six. The District Normal Schools at Bangalore, Tumkur and Shimoga were raised to the status of Kannada High Schools. Out of 1,050 candidates for the S. S. L. C. Examination, 591 or 56 per cent were declared eligible for the Collegiate course and the Public Service. 208 candidates passed under the compartmental system. Of the successful candidates 475 were Brahmins, 93 other Hindus, 18 Mahomedans, 4 Christians and 1 Jain.

The reforms introduced in Secondary Education were (i) the introduction of the compartmental system of examination, (ii) the grant of permission to appear for the public examinations by private study, and (iii) the revision of the curriculum of studies by regrouping and recombination of optional subjects so as to afford greater facilities for Industrial and Commercial Education. The question of further remodelling Secondary Education so as to introduce poly-technic courses is under consideration. Government note that the various aspects of the improvement of Secondary Education are receiving the special attention of the Inspector-General of Education.

Anglo-Vernacular Schools.—The number of Anglo-Vernacular Schools in the State was 228. English classes were opened in 52 schools in the year. The number of Vernacular Middle Schools rose from 89 to 93. 3,550 candidates appeared for the Kannada Lower Secondary Examination of whom 886 or 25 per cent passed. The low percentage is due largely to failures among private candidates. 2,461 candidates appeared for the English Lower Secondary Examination of whom 910 or 37 per cent passed. The Inspector-General of Education reports that increase in staff and recruitment of better qualified staff are necessary to secure better results. Some of his proposals in regard to increase of staff have since been sanctioned.

(C) Primary Education.

The number of Primary Schools in the State rose by 1,934 and their strength by 21,145. At the end of the year the total number of Primary Schools was 8,207 with a strength of 233,624. Of these 54,041 were Lingayets, 19,972 Brahmins, 25,229 Mahomedans and 12,535 Depressed Classes. The number of Adult Schools rose from 1,020 to 2,284 and their strength from 23,000 to 41,804. The expansion of Primary Education on the grant-in-aid basis has been effected on a large scale in recent years and there is at present one Primary School for every 2¾ square miles or for a population of every 600 roughly. Government agree with the Inspector-General of Education that in future greater attention should be devoted to secure increased stability, popularity and efficiency in regard to the schools already started and further expansion determined with reference to the resources of the Department to adequately cope with them.

The question of timely payment of salaries and grants to the large number of schools situated in the interior of taluks has engaged the attention of Government and orders have been recently issued on the subject.

Government have sanctioned increase of teaching staff to Primary Schools at an additional cost not exceeding Rs. 44,824 per annum on the basis of one additional teacher for every thirty students.

Compulsory Education.—An important development of this scheme during the year was its application to the girl population in the Bangalore and Mysore Cities between the ages of 7 to 10. In respect of boys, 170 new centres were brought under the operation of this scheme. The scheme has been applied in respect of a population of 650,000 and has been in active operation in 68 centres. Preliminaries connected with the taking of the necessary Census, formation of attendance Committees, etc., were completed in 170 centres during the year. In all the Compulsory areas, 12,707 boys were newly admitted to schools. 1,972 warnings were issued and 11 prosecutions instituted, 3 ending in conviction.

(D) Special Instruction.

Training Institutions.—Arrangements were made for increasing the supply of trained teachers for boys by increasing the number of vacation training classes, the opening of additional classes in Normal Schools and the institution of additional

scholarships for teachers of the Government and Grant-in-aid Schools and of 100 scholarships of Rs. 6 each per mensem for private students joining the Lower Secondary Class of District Normal Schools. An Institution for training Hindustani School mistresses was opened in August 1917 and 17 pupils were admitted therein of whom 8 were trained during 1917-18. Stipends were instituted in Upper Secondary Classes of Kannada Girls' High Schools and arrangements were made for attaching a Kannada High School Department to District Normal Schools and for opening Upper Secondary Training sections in Kannada High Schools. A batch of thirty-seven teachers underwent a short course of 6 to 8 weeks in Agriculture. It is proposed to run longer courses of one year in connection with the Training College, Mysore.

There were in all eleven training institutions in the year with a total strength of 488 (448 males and 40 females) against 469 (437 males and 32 females) in the previous year. The total number of teachers trained during the year was 488 and the total number of trained and untrained teachers at present is 1,454 and 2,919, respectively. 360 teachers were also trained in the special vacation class for six weeks in April and May.

Industrial Education.—There were twenty-two Industrial Schools for boys and four for girls against twenty-four for boys and three for girls in the previous year with a total strength of 1,627 (including 210 girls) against 1,526 (including 183 girls) in the previous year.

The courses of studies in the Industrial Schools are being revised so as to coordinate the various grades of Industrial Education. To improve the efficiency of the Industrial Schools, the Inspector-General suggests the establishment of boarding houses, the provision of adequate work deposits, the enforcement of the attendance of pupils throughout the scheduled course of studies and increase in the value of the scholarships. His detailed proposals are under consideration. Out of the total number of 1,015 pupils in all the Government Industrial schools, 371 were Brahmins, 31 Kshatriys, 24 Lingayets, 22 Vokkaligars, 124 Mahomedans, 50 Christians, 237 caste Hindus and the rest other classes. The Chamrajendra Technical Institute continued to work satisfactorily. Out of 35 candidates sent up for the Madras Government Technical Examinations, 27 passed, of whom 9 were in the first class. The subjects taught in the Institution are:—(1) Carpentry and cabinet making, (2) Smithy and Fitters' work, (3) Metal Work, (4) Rattan and mat making, (5) Wood carving, (6) Inlaying, (7) Engraving, (8) Portrait and painting, etc., (9) Decorative art, and (10) Modelling.

Government are glad to note that several of the schools did good work this year, the Industrial School at Channapatna in particular, as regards lacquer work. The good work said to have been done by the Superintendent of this school Mr. M. G. Ramachandra Rao is also noted.

The carpentry schools are reported to have been popular. Government approve of the Inspector-General's recommendations to continue the system of deputing the Superintendents of Industrial Schools for a time to undergo further training in firms or Industrial Schools elsewhere to improve their efficiency.

Weaving Schools.—During the year under report there were 5 weaving schools, 3 Government and 2 aided with a total strength of 63. The Government schools imparted instruction in carpentry as applied to loom-making and repairing in addition to the regular courses in weaving. Government have since sanctioned the remodelling of the weaving school at Dodballapur on the lines recommended by the Inspector-General.

Practical Instruction.—These classes continued to be popular. The number of classes increased from 170 to 290 and their attendance from 3,101 to 7,906. The Inspector-General of Education reports that the pay and qualifications of the teachers should be raised and that better accommodation should be provided for these classes. His detailed proposals are awaited.

School of Mechanical Engineering, Bangalore.—The strength of the institution rose from 133 to 170, of whom 117 were Brahmins; 66 were under training in the higher grade courses in Electrical and Mechanical Engineering and 104 in the lower grades in these subjects and in Motor Mechanics. In the first Technical Board Examinations held during the year 49 passed out of 75. The work of the other Engineering Schools was also satisfactory. Four Assistant Commissioners were trained in Elementary Engineering.

No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

Commercial Schools.—The Government Commercial School continued to work satisfactorily. Its strength rose from 187 to 217. The results of Examinations were also satisfactory. The strength in the Commercial Section of the Chamrajendra Technical Institute rose from 123 to 167. Three more Commercial Classes were opened in the High Schools. Government are pleased to note the growing indications that Commercial Education is increasing in popularity. The Inspector-General is requested to devote special attention in the current year to the extension of Commercial Classes in English in High Schools and in Kannada in Anglo-Vernacular Schools and to see that they meet the need of persons engaged in business.

The school for the Deaf, Mute and the Blind continued to work satisfactorily. Government have recently sanctioned increase of grant-in-aid to the school.

Oriental Studies.—The Maharaja's Sanskrit College had a strength of 211. The Inspector-General of Education reports that the strength of the Chamrajendra Sanskrit College, Bangalore, fell from 114 to 56. The sudden decrease requires explanation. The results of the Vidwat examinations were satisfactory, 32 passing out of 39 examined. Sanskrit Education in the State was reorganised during the year and placed on a sounder basis. The main features of the re-organization related to:—

(1) The introduction of a revised curricula of studies into the Sanskrit Schools in the State.

(2) Revision of the syllabus for the Vidwat and Mahavidwat courses.

(3) Institution of scholarships and prizes for all grades of studies.

(4) Re-organization of the Sanskrit Colleges at Bangalore and Mysore.

(5) Appointment of a strong independent Board in addition to Managing Committee to supervise the examinations and to maintain an efficient standard of qualification of the candidates.

(6) Compilation of text-books and the introduction of improved methods of teaching in the earlier stages.

The number of Sanskrit Schools rose from 53 to 64. The total strength of all Sanskrit Schools rose from 2,263 to 2,566. It is interesting to note that of the pupils 17 were Mahomedans and 147 girls.

(E) Women's Education.

The strength of the Maharani's College rose from 372 to 398, of whom 50 were in the College and High School classes. The strength of the Vani Vilas Institute rose from 215 to 370.

The number of girls' schools rose from 607 to 683 and their strength from 35,009 to 37,948. Including the number of girls in the boys' schools, the total number of girls under instruction was 59,944. The percentage of girls under instruction to the total female population of school-going age rose from 13·4 to 14·2. The number of Home Education Classes rose from 6 to 17 with a strength of 297 adult ladies, of whom 70 were under instruction in the Mahilasevasamaja. Among important reforms for the advancement of women's education may be mentioned the introduction of compulsory education for girls in the Cities of Mysore and Bangalore and the scheme of scholarships. Proposals for the re-organisation of the Inspectorate for Girls' Schools are under consideration of Government. The general condition of the Girls' Schools was on the whole satisfactory. The common needs of most of the schools are more women teachers, buildings, adequate contingent grants and provision for teaching music. The question of revising the courses and curricula of studies in girls' schools so as to suit the requirements of women and the employment of a separate inspecting agency is under the consideration of Government.

(F) Education of Special Communities.

During the year there were 4 schools for Europeans and Eurasians with a strength of 569, of whom 477 were Europeans.

Education of Mahomedans has been receiving special attention. The number of schools for Mahomedans rose from 701 to 815. Of these 6 were Anglo-Hindustani Schools, 55 Middle Schools for boys, 32 for girls, 600 primary boys' schools and 122 for girls. The total expenditure on Mahomedan Education during the year was

Rs. 1,92,593 and the total number of pupils under instruction 41,594. The percentage of Mahomedan boys and girls under instruction to the total Mahomedan population of school-going age is reported to be 137·21 and 48·94 respectively. Government were pleased to sanction several special facilities for the education of Mahomedans. The rates of cart-hire to girls' schools were raised. Special arrangements were sanctioned for appointing an adequate number of qualified Mahomedan teachers from outside the State for the efficient organisation of Mahomedan education as local candidates were not available. There were 8 Mahomedan pupils in the Arts Colleges, 297 in the High Schools, 10,576 in the Middle Schools, 29,485 in the Primary Schools, 45 in the Training Schools, 191 in the Industrial, and 992 in the practical instruction classes. Government infer from the above figures that the number of Mahomedan pupils reaching higher standard is considerably low. The Inspector-General is requested to submit detailed proposals for encouraging higher education of Mahomedans.

Backward and Depressed Classes.—Considerable attention was devoted during the year to the education of the Backward and Depressed Classes and numerous facilities were sanctioned during the year. The number of schools for Depressed Classes rose from 349 to 496 and their strength from 10,521 to 12,358. The proposal to meet the cost of school buildings for backward classes wholly from the Government Funds has been sanctioned and a special provision of Rs. 25,000 for this purpose and an allotment of Rs. 25,000 for equipment for these and other schools were also sanctioned. A special grant of Rs. 50,000 was made for the development of Panchama Education. A Panchama Boarding School for Tumkur and one on a smaller scale for Chikmagalur were sanctioned. Out of the above provision of Rs. 50,000 a Central Training Institute for Panchamas was started at Mysore. The Course of instruction in the Central Panchama Institute, Mysore, combines both General and Industrial Education. The chief industries taught are carpentry, smithy, weaving, mat-weaving boot and shoe-making. The school has earned a reputation for the excellence of the work turned out in weaving and shoe-making. A provision of Rs. 1 lakh was sanctioned for scholarships to the backward and depressed classes and the administrative control of these scholarships was transferred from the Education Committee to the Inspector-General of Education in Mysore.

Physical culture.—Physical culture class was opened in the Collegiate High School, Bangalore, on the 8th April 1918 and Scout training was introduced during the year with Mr. Frank C. Irwin as Scout Master. The scheme has been working satisfactorily. Thirty teachers were trained both in Physical Education and Scouting. Government regret to note that there was no systematic medical inspection of pupils during the year. The Inspector-General of Education is requested to arrange in consultation with the Senior Surgeon to enlist the co-operation of the District Medical Officers in this important matter on the lines set forth in Government Order No. 5220-68—Edn. 164-14-2, dated 24th March 1916.

Religious and Moral Education.—The instruction in the lowest classes was confined to devotional songs and stories and in the higher classes religion is taught on non-sectarian lines. Government agree with the Inspector-General that the utmost care is necessary in the selection of teachers for these subjects, who should be men with real aptitude and enthusiasm for the work and as far as possible qualified by their own character and behaviour to enforce the principles taught.

Book Depot.—The transactions of the institution continued to be very heavy. Books worth Rs. 11,977-7-9 were supplied to schools and officers. No regular stock taking has been done and without this it is not possible to judge whether the transactions in the Depot have resulted in loss or gain to the Depot. The re-organization of the department is under consideration of Government.

Grant-in-aid.—The total amount disbursed as grant-in-aid during the year was Rs. 4,54,770, of which Rs. 4,30,461 was from State Funds, Rs. 5,165 from Village School Funds and Rs. 19,144 from Municipal Funds. Of the State grant, Rs. 16,560 was spent on High Schools, Rs. 3,540 on Anglo-Vernacular Schools for girls, Rs. 23,844 on Sanskrit Schools, Rs. 11,209 on Industrial Schools, Rs. 16,130 on students' hostels and Rs. 9,567 on special institutions.

A sum of Rs. 13,057 was spent from State Funds towards building and other lump sum grants, of which Rs. 9,915 was paid for building works, Rs. 7,142 for books, maps, furniture and other appliances.

No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

Text-books.—A large number of books was reviewed, revised, printed and patronised in the year and a large number of books is under preparation.

Buildings.—A total expenditure of Rs. 2,04,991 was incurred on Educational buildings during the year, Rs. 1,40,903 from the State Funds (Rs. 43,164 for High Schools, 59,494 Taluk Schools and Rs. 38,245 on special institutions) and Rs. 63,588 on village school buildings from the State Fund grant for the construction of primary school buildings. The Public Works Department spent Rs. 1,62,958 (Rs. 1,20,715 from the Department of Public Works budget and Rs. 42,243 from the State grant village school budget against a sum of Rs. 82,008 placed at its disposal) and the Education Department spent Rs. 41,533 from both State and Village School Funds.

Work of the controlling agencies.—The Inspector-General of Education toured 60 days in four districts and visited 136 different institutions of all grades.

Sufficient information has not been given about the work of the Technical Assistant regarding inspection, school supervision, etc. Full information should be furnished in future on the work of the officer in all branches of work. The nature of work done by the Special Officer, compulsory education, is also not reported upon.

The Inspectorate.—The Circle Inspectors of Bangalore and Mysore inspected 345 and 525 schools respectively. Among District Inspectors the largest number of schools was inspected by Messrs. M. Ramaswamaiya and M. Venkatasubbaiah, *viz.*, 450 and 448 respectively. Messrs. Tirumalachar, K. Narayana Rao and Mahomed Davood did also a fair amount of inspection. The inspection work of others was not satisfactory as the number of schools inspected and the period of itineration is reported to have been below the average. The Inspector-General is requested to issue detailed instructions to the inspecting officers so as to secure adequate intineration and detailed inspection and to avoid hurried visits.

The work of the Assistant Inspectors was on the whole satisfactory as regards itineration and efficiency of inspection. Government are glad to note that apart from the duty of inspection some of these officers devoted themselves to the organization and management of Teachers' Association, popularisation of education in backward rural areas and stimulating private enterprise in the cause of education. The Inspector-General of Education reports that the strength of the subordinate inspectorate is inadequate as at present there is only one inspecting officer for every 200 schools. Orders have recently been passed regarding the re-organizatian of the Inspectorate at an additional expenditure of Rs. 50,000 per annum.

The Supervisors are reported to have worked energetically most of them having toured for over 220 days. The Inspector-General is however not emphatic about the educational value of their inspections. With the recruitment of only experienced officers and regular interchange between the inspecting and teaching staff Government trust that the efficiency of all grades of the Inspectorate will be raised.

Hostels.—The number of recognised student hostels in the State increased from 32 to 33. All the hostels continued to be popular. The question of increasing the facilities for the accommodation of students from rural parts by opening hostels at District and Taluk Headquarters is under the consideration of Government. They agree with the Inspector-General about the need for the systematic medical inspection of the boarders at the hostels and await the Inspector-General's proposals in the matter.

Co-operation of the people.—Government are glad that in the spread of Education the Village School Committees are reported to be co-operating enthusiastically. In fact the Inspector-General expresses indebtdness to them for the high tone of efficiency and discipline of several village schools. Contributions of over half a lakh of rupees were received from public spirited gentlemen for the cause of education during the year and have been suitably acknowledged.

The work of the Department during the year on the whole was satisfactory. But Government consider that the development of the work of the Department for some time to come should be directed more towards the perfecting of the existing system than in merely increasing the number of schools. There is considerable work to be done in the consolidation of the existing primary schools, in the improvement of secon-

No. 8765-8809—Edn. 226-18-2, dated 13th March 1919.

lary schools, in the training of teachers, in the encouragement of the attendance at chool of the backward and depressed classes, and in securing the closest co-ordination etween the various grades of education in courses and curricula, and raising them to higher standard of efficiency. In several matters connected with these all important uestions, proposals have been received from the Inspector-General of Education. They are now under the consideration of Government with a view to their laying down continuous policy of improvement and expansion.

In conclusion Government are pleased to place on record their appreciation of the eal and ability with which Mr. Reddy has endeavoured to deal with the more urgent nd complex problems connected with educational development and hope that the fforts of the Department as a whole will result in a higher standard of efficiency and he adoption of a liberal policy of expansion and encouragement in regard to the Backward Communities throughout the State.

Dasara Industrial and Agricultural Exhibition Committee.

No. 9442-88—A. & E. 45-18-45, DATED 27TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. R. 7208-57—Agri. 109-13-2, dated 13th March 1914, transferring the management of the Dasara Industrial and Agricultural Exhibition to the Industries and Commerce Committee and directing that three representatives from the Agricultural Committee, *viz.*, the Director of Agriculture in Mysore, the Economic Botanist and the Superintendent of Government Gardens and one non-official member and two representatives from the Education Committee might be associated with the Industries and Commerce Committee so as to enable the latter to satisfactorily consider questions relating to the Agricultural and Educational sides of the Exhibition.

2. Government Order No. 5669—A. & E. 1-15-41, dated 6th April 1916, No. 7701-2—A. & E. 1-15-63, dated 30th June 1916, Government Order No. 5512-4—A. & E. 1-15-40-A, dated 1st April 1916, Government Order No. 11430-4—A. & E. 46-17-51, dated 22nd May 1918, Government Order No. 10430-33—A. & E. 46-17-43, dated 20th April 1918, sanctioning the appointment of certain other officers and non-official gentlemen as additional members of the Committee.

Order No. 9442-88—A. & E. 45-18-45, dated, 27th March 1919.

As the Dasara Industrial and Agricultural Exhibition in 1919 will be confined to State products only, Government consider that it would be enough if its management were undertaken by a Committee consisting of 13 members as follows:—

1. Six members to be selected by the Industries and Commerce Committee from among its members.
2. The Revenue Commissioner in Mysore.
3. The Director of Agriculture in Mysore.
4. The Inspector-General of Education in Mysore.
5. The Deputy Commissioner, Mysore.
6. Three non-official gentlemen to be nominated by the Chairman of the Industries and Commerce Committee.

2. The Secretary, Industries and Commerce Committee will, as usual, be Secretary to the Exhibition Committee and attend to the work connected with the Exhibition.

Industrial and Agricultural Exhibition.

No. 8890-936—A. & E. 45-18-43, DATED 15TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Letter No. 1893, dated the 15th February 1919, from the Secretary, Industries and Commerce Committee, addressed to the Secretary, Economic Conference, soliciting orders as to whether the Dasara Industrial and Agricultural Exhibition should be held in 1919 and if so, whether it should be confined only to the State or thrown open to all India as in the year 1918.

Order No. 8890-936—A. & E. 45-18-43, dated Bangalore the 15th March 1919.

Government are pleased to direct that the Exhibition be held, as usual, during the Dasara of 1919, with as few formalities as possible. The Exhibition will, however, be confined to Mysore State products only.

2. The Secretary, Exhibition Committee, is requested to draw up detailed prospectuses, etc., which after consideration by the Exhibition Committee should be submitted to Government for approval before the end of April 1919.

3. The attention of all Heads of Departments connected with economic development in the State, the Sanitary Commissioner, the Deputy Commissioners of Districts is invited to para 4 of Government Order No. 9136-85—A. & E. 46-17-39, dated 13th March 1918.

4. An estimate of the cost of the Exhibition should be submitted to Government so as to allow for a suitable provision being made in next year's budget. Meanwhile the Comptroller will be requested to provide, provisionally, in the budget a sum of Rs. 15,000 on this account.

No. 9384-427—A. & E. 118-17-7, DATED 26TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No. C. Per 82, dated the 31st January 1919 from the Revenue Commissioner in Mysore submitting the consolidated return of Village Statistics in Mysore with his review thereon.

Order No. 9384-427—A. & E. 118-17-7, dated 26th March 1919.

Recorded.

2. There has been again a delay of nearly 3½ months in the submission of the return to Government which is not satisfactory.

3. The year was marked by a fair amount of expansion of the Village Improvement activities in all directions. The number of Village Improvement Committee rose from 10,070 in 1916-17 to 10,929 in 1917-18, the largest increase being in the Kolar District. There is still a large number of villages in all the Districts which are not served by Committees. The Deputy Commissioners are requested to take early steps to bring these villages also within the operation of the Scheme. There has been however no marked improvement in the number of really active Village Committees the increase over last year being only 122. The value of village improvement works executed during the year rose from Rs. 6,09,791 in 1916-17 to Rs. 7,29,519 in 1917-18. There was an increase of 12,228 in the number of days on which the people worked for half a day a week for the improvement of their villages.

4. The increase in the number under instruction in 1917-18 over what it was in 1914-15 is nearly 64,000, the rise in the case of adults being as much as 14,000. The percentage of literacy in the villages rose from 4·95 in 1914-15 and 5·30 in 1916-17 to 5·58 in 1917-18. In the majority of cases the increase is however in the lowest standard. The number of reading rooms rose from 1,246 to 1,671.

5. There are no marked variations in the number of people employed in the various occupations. There is a slight increase in the number engaged in silk-worm rearing and silk reeling industry, but this is inappreciable having regard to the scope for expansion of this industry and not at all commensurate with the attention paid to sericultural improvement in recent years.

6. There has been a general fall in the area under food-crops during the year, while some increases are noticeable under Commercial crops such as sugarcane, mulberry and cotton. The increase in the value of agricultural production is estimated at nearly Rs. 72 lakhs mostly due to the prevailing high prices. There has also been an increase in the average yield per acre from 15·3 in 1916-17 to 16·7 in 1917-18. In this connection Government desire to refer to the necessity of revising the standard outturn per acre for the different crops in the State, as the estimates now furnished are greatly vitiated by being based on incorrect standards. The Agricultural Department are carrying on every year certain experiments in crop cutting and this coupled with similar experiments by a few intelligent land-holders in each District might give sufficient valuable information to enable the Department to lay down more up-to-date and reliable standards for future guidance.

7. The figures given as shewing the earning power of the men engaged in various occupations are interesting though only approximate. The average annual earnings of an agriculturist work out at Rs. 26·8, of a weaver Rs. 33·3, of silk-rearer 36·1, potter 19·9. The Revenue Commissioner has given the average annual earnings of a non-agriculturist as Rs. 5·2. This cannot be considered accurate, the method of calculation adopted being defective as the non-agricultural population includes a large number of persons engaged in other than industrial pursuits. The increase in the total

No. 9384--427—A. & E. 118-17-7, DATED 26TH MARCH 1919.

industrial out put from Rs. 45·23 lakhs in 1916-17 to Rs. 50·12 lakhs can be hardly deemed to be satisfactory when special impetus was given to local production by difficulties in getting articles from abroad. There has been a fall under the heads silk-worm rearing and other industries which is not explained.

8. Improved ploughs, oil and sugarcane mills continue to become popular. The figure given in the column pumping installations requires verification as it does not agree with that given by the Department of Industries and Commerce. The number of installation in the years 1915-16, 1916-17, 1917-18 are shown as 118, 109 and 189 respectively. The variations are so marked that it is not possible to accept the figures as correct without proper explanations.

9. The Revenue Commissioner's attention is invited to the remarks of Government in para 10 of the last year's Review wherein he was requested to suggest methods for rendering the statistics, which are still only very rough, more accurate and reliable. He is requested to expedite the submission of his views after consultation with the Directors of Agriculture and Industries and Commerce. Government consider the information now obtained will cease to serve any useful purpose unless it can be made more accurate and instructive in future.

10. The statistics reflect the hard economic struggle which a combination of adverse causes coupled with rise in prices has imposed on all classes but which has on the whole been less unfavourable in its effects on the rural population than on the others not dependent on agriculture.

11. In their Order No. 342-55—A. & E. 4-17-1, dated the 11th July 1917, Government prescribed a form for the collection of statistics for urban areas similar to village statistics so that both the sets of statistics might be reviewed together. Government regret however that neither the two City Municipalities nor the Deputy Commisioners of Districts except in the case of the two Districts of Hassan and Chitaldrug, have made the least attempts to forward the statistics to Government in time to be included in this review. Without these additional statistics it is not possible to arrive at a correct estimate of the economic condition of the people in the State. The statistics after being completed will however be reviewed separately and in the meantime Government desire to signify their displeasure at their orders not being given effect to by the officers responsible for the collection and compilation of these statistics and expect that in future these statistics will also be systematically collected and compiled simultaneously with the village statistics.

No. 8605-18— I. & C. 154-18-10, DATED 10TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. 523-8—I. & C. 47-16-22, dated the 17th July 1918, directing, among other matters, that the Textile Assistant of the Government Weaving Factory should, in future, be chiefly employed in developing weaving in the districts, the factory proper being placed in direct charge of a Superintendent, subject to the general supervision and control of the Textile Assistant.

2. Government Order No. 2507-15—I. & C. 134-18-3, dated the 17th September 1918 appointing a Committee, presided over by Mr. Alfred Chatterton, to consider and submit a scheme for the development of hand-loom weaving with special reference to the following points:—

I Supply of yarn to weavers.
II Supply of improved looms.
III Supply of capital to weavers.
IV Marketing of finished goods.

3. Letter No. 1380, dated the 11th November 1918, received from Mr. Alfred Chatterton, Chairman of the Special Committee, submitting the opinion of the Committee and enclosing a copy of his note on the subject (printed *in extenso*).

4. Letter No. 5244, dated the 9th December 1918, received from the Registrar of Co-operative Societies submitting, in connection with the development of Weavers' Co-operative Societies, proposals regarding the deputation of a Weaving expert of the Industries and Commerce Department as an Assistant to the Registrar of Co-operative Societies for a period of three years to give technical advice and help and supervise the working of these Societies.

Order No. 8605-18—I. & C. 154-18-10, dated 10th March 1919.

There are at present 25 Weavers' Co-operative Societies in the State with a membership of 1,400 and a working capital of Rs. 70,000. Having regard to the importance of the hand-weaving industry in the State, the number of societies existing at present can hardly be said to be adequate. Most of these societies, moreover, are engaged solely in finding funds for their members. The lines on which these societies work are more or less defective, and for want of technical aid, they have been unable to deal with the more serious problems relating to the supply of yarn, the marketing of finished goods and the introduction of improved methods of hand-loom weaving.

2. In view of the difficulties experienced by the weavers generally, in obtaining supplies of raw materials required by them and disposing of their manufactured articles, as the result of the dislocation of the market due to war conditions, Government appointed a Special Committee, with Mr. Alfred Chatterton as Chairman, to consider the question of the development of the weaving industry in all its bearings and submit a workable scheme for bettering the prospects of the weavers. The Committee are of opinion that the Weavers' Co-operative Societies should, besides furnishing credit, deal with the various industrial problems connected with weaving; and they recommend the following measures for immediate adoption:—

I. Increasing the number of Weavers' Co-operative Societies,
II. Altering their constitution so as to bring within their objects the supply of raw materials, the sale of woven goods and the introduction of improved looms, and
III. Deputing a weaving expert to the Department of Co-operative Societies to improve the technical details of the work.

In the report read above from the Registrar of Co-operative Societies on the development of these weavers' societies, he has also requested that he may be given the help of a weaving expert for a period of three years to enable him to better supervise and control the working of these societies.

No. 8505-18—I. & C. 154-18-10, DATED 10TH MARCH 1919.

The subject was also considered by the Industries and Commerce Committee who are in substantial agreement with the recommendations of the Special Committee.

3. In their order sanctioning the re-organisation of the weaving factory, Government have directed that the Textile Assistant should be chiefly employed in developing weaving in the districts. As the most satisfactory results are likely to be attained by concentrating development for some time through the medium of Co-operative Societies, the Director of Industries and Commerce will be requested to arrange to give the Registrar of Co-operative Societies the assistance of the Textile Assistant whenever required for developing weaving in the districts. Separate orders will issue regarding the deputation of a weaving expert to work under the Registrar of Co-operative Societies as requested by him.

4. In addition to assisting the Registrar in the work mentioned above, the Textile Assistant will, as heretofore continue to supervise the work of the factory and study the conditions and methods of improving the industry generally throughout the State.

5. As regards the marketing of finished goods, the Special Committee recommend that the sales depot attached to the Government Weaving Factory might be utilized for selling finished goods made by the hand-loom weavers, individually, or as members of the weavers' societies. The employment of an expert salesman and the provision of a sum of Rs. 25,000 to purchase goods directly from the weavers have been suggested in this connection. The Industries and Commerce Committee consider that the Co-operative Department should make arrangements for the sale of goods manufactured by the societies. Government agree with the Industries and Commerce Committee that the marketing of the goods should also be attended to through the medium of Co-operative Societies, but they have no objection to arrangements being made to stock and sell the goods through the sales depot attached to the Government Weaving Factory, a Commission of three pies in the rupee being charged on the total sales effected.

6. The Registrar of Co-operative Societies is requested to prepare in consultation with the Director of Industries and Commerce, half-yearly programme of work which the Textile Assistant may have to do in connection with the weavers societies and to report quarterly progress to Government. The diaries of the Textile Assistant should be forwarded to the Director of Industries and Commerce through and after scrutiny by, the Registrar of Co-operative Societies.

7. To assist Co-operative Societies to obtain funds for purchasing yarn and other necessary raw materials and for making suitable marketing arrangements, a sum of Rs. 50,000 will be placed at the disposal of the Registrar of Co-operative Societies as an advance to be met from the Ways and Means Estimate. Where loans are sanctioned to the Co-operative Societies out of this advance, they should carry interest at 5 per cent, and in case any part of the advance is used for purchasing the output of the societies, a commission at the rate of 5 per cent on the sales should be recovered. The Registrar is requested to submit detailed proposals as to the manner in which the amount will be utilised and the precautions that have to be adopted for the recovery of the amount and to ensure its being used to the most advantageous extent possible.

8. The thanks of the Government are due to Mr. Alfred Chatterton and the other Members of the Committee for the comprehensive manner in which they have dealt with the question and the sound and practical suggestions with which they have favoured Government.

P. G. D'SOUZA,
Secy. to Govt., Depts. of Edn. and Agri.

To—The Registrar of Co-operative Societies in Mysore.
The Director of Industries and Commerce Committee.
The Deputy Commissioners of Districts.
The Secretary, Economic Conference.
The Comptroller, Mysore Government.
The Secretary, Industries and Commerce Committee.
Mr. Alfred Chatterton, F.C.G.I., C.I.E., (Chairman of the Special Committee)

Exd.—C.R.

No. 8605-18—I. & C. 154-18-10, DATED 10TH MARCH 1919.

No. 1380—Enc. I. dated 11th November 1918, from Alfred Chatterton, Esq., F.C.G.I., C.I.E., Bangalore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture.

With reference to Government Order No. 2507-15—I. & C. 134-18-3, dated the 17th of September 1918, and in continuation of my letter No. 1072, dated the 27th of September 1918, I have the honour to state that a second meeting of the Special Committee was held on the 28th of October, when only some of the official members were present.

I regret to state that one of the members had, in the interval between the two meetings, died of influenza in Mysore. This outbreak, as Government are aware, has seriously dislocated current business and the Director of Industries had, in consequence, been unable to do much towards carrying out the arrangements he had agreed to at the previous meeting. A few standard cloths had been made and were exhibited; but it had not been practicable to start work in the Central Jail or to erect the shed for the accommodation of the extra looms at the Factory. Work was further complicated by the fact that in the interval between the two meetings, the price of yarn and cotton goods had seriously fallen.

I enclose a copy of a note on Handloom Weaving which I prepared for the information of the members of the Special Committee, and the members present were unanimously of opinion that the policy therein advocated should be recommended to Government for adoption to be carried out by the Director of Industries. This officer stated that he considered it unnecessary for the Special Committee to go into details as these were already being dealt with departmentally.

It, therefore, only remains for me to specifically reply to the various questions raised in the Government Order appointing the Committee :—

(1) Supply of yarn to weavers : The Special Committee are of opinion that this can only be done through the agency of Co-operative credit societies and that the Registrar of Co-operative Societies should have, as special assistant, a member of the Industries Department with special technical knowledge deputed to work with Weaving Co-operative Societies.

(2) The supply of improved looms so as to increase the out-put and the use of electro-motor looms : The Director of Industries furnished information regarding the work already done and the Special Committee were of opinion that no further action was necessary, except such as can be taken departmentally. In regard to the use of electro motors for driving single looms in the weavers' houses, it was pointed out that this was a very highly specialised problem ; that looms had been ordered from England 3 years ago and had not yet been supplied ; that the Director of Industries had recently purchased half-a-dozen second-hand power looms with which he is going to make experiments and it was, therefore, considered unnecessary to make any further recommendations to Government.

(3) The supply of capital to weavers : This was considered only practicable by the development of Weaving Co-operative Credit Societies.

(4) The formation of Co-operative Credit Societies amongst them : The Special Committee recognised that a considerable field exists for work in this direction and that it can best be undertaken jointly by the Director of Industries and by the Registrar of Co operative Societies. The Committee consider, however, that something more can be done to improve the condition of weavers than is possible by merely establishing amongst them Co-operative Credit Societies. They think that the function of the Co-operative Societies may extend, beyond furnishing credit, to dealing with the various industrial problems connected with handloom weaving. They, however, recognise that very little in this direction can be done without expert assistance and expert guidance furnished by the Department of Industries and they, therefore, desire to recommend to Government the provision of a number of competent weaving experts to be employed in directing the operations of such Co-operative Societies as can be established to deal with the technique of handloom weaving.

(5) The marketing of finished goods : It was brought to the notice of the Special Committee that the Director of Industries has opened a show-room alongside the weaving shed, where he effects the sale of articles manufactured in the weaving shed and such sales recently have, in some months, amounted to as much as Rs. 5,000. It was considered by the Special Committee that, in the first instance, this Depot might be utilised for the marketing of finished goods made by handloom weavers, either individuals or members of Co-operative Credit Societies. They recommend the employment of an expert salesman and the provision of a sum of Rs. 25,000, wherewith to purchase stock directly from the handloom weavers. It was considered that probably the capital could be turned over once in three months and that, in addition to the sale of the products prepared in the

weaving factory, additional sales of hand-loom goods could be effected to the extent of about a lakh of rupees a year. Business transactions on this scale, it is thought, will involve little or no risk to Government and will furnish a large amount of experience, which will be a useful guide for further development. The Committee recognise that, at the present time, there are very great difficulties in the inception of this commercial enterprise and that considerable experience, both in the buying and selling of woven cloth, will be necessary, owing to the frequent violent fluctuations in value both in the yarn and cloth markets. For these reasons, they consider it undesirable to make large advances to weavers or to incur expenditure on the purchase of cloth which is not likely to meet with a very ready sale.

Handloom Weaving. (Enclosure to the above.)

For the past six years, the improvement of the weaving industry in the Mysore State has been carried on by a superior technical staff consisting of only one man who received his training in the Victoria Jubilee Technical Institute at Bombay. A number of assistants have also been employed; but none of them possess qualifications or experience of the kind required to initiate improvements. An experimental weaving shed has been working through the whole period referred, to and during a great part of the time, parties have been out in the districts taking measures to popularise the use of the fly shuttle loom. A recent census shows that about 2,000 such looms have been set up and this is comparatively a small proportion of the total number of handlooms at work in the State. We have no reliable information to show what that number is; but it is generally assumed to be about 30,000. The value of the products turned out in handlooms is even more uncertain. Including silk, cotton and wool, it is probably of the order of a crore of rupees per annum.

Handloom weaving problems are much the same in Mysore as in other parts of India and it is likely, as the result of the report of the Indian Industrial Commission, that a good deal of experimental work will be done with a view to ascertaining what practical improvements can be introduced into the methods now employed by handloom weavers. The Mysore State may, therefore, await developments elsewhere, or it may take the lead and make better provision than has hitherto been made for the study of handloom weaving problems. Primarily, the most important matter is to organise the industry, to take steps to deliver the weaver out of the hands of the *Sowcar* and to provide him with a market for his goods. Probably the greatest difficulty handloom weavers experience at the present time is in the disposal of their wares and comparatively few of them are steadily employed throughout the year.

Without making one single change in the technique of the industry, the status of the weavers could be considerably improved by the introduction of an organisation of a hihger type than that now supplied chiefly through the agency of the Sowcars. Some attempts in this direction have been made through the agency of Co-operative Societies; but for lack of expert assistance, the results are insignificant. It seems, therefore, desirable that the Director of Industries and the Registrar of Co-operative Societies should work together to establish handloom Weaving Co-operative Societies with the object of supplying weavers with raw materials on favourable terms and obtaining for their goods a wider market than at present exists. In this connection, attention may be drawn to the necessity of studying possible markets and to the supply of new designs There is considerable scope in this direction even in cotton weaving, but it is almost illimitable in the case of silk goods and of goods made of mixtures of cotton, mercerised cotton, silk and linen. So far as I know, throughout the whole of India, there is not a single person employed on work of this kind, and I am of opinion that a skilled designer should be attached to the experimental weaving shed and that there should be at his disposal a sufficient number of looms and of skilled weavers to enable him to work out his ideas and to produce patterns which could be distributed over the country not only to the weavers but to the traders engaged in the sale of textiles So far, then, we arrive at the conclusion that an expert business man is required to assist the Weaving Co-operative Societies and a textile designer to furnish new patterns.

The efforts to improve handloom weaving during the last 15 years in India have really resulted only in one definite advance and that is, the introduction of the fly shuttle on a very extended scale in many parts of the country. The weaver still prepares his warps on old-fashioned lines and the next step which must undoubtedly be taken, either through the agency of Co-operative Societies or by the establishment of small handloom factories, is to introduce methods of warping and sizing which will be much less laborious than those now used and yet capable of turning out better, or at any rate, warps of equal quality. Some experimental work in this direction has already been done both in Madras and in Mysore; but the work is incomplete and it is really necessary that an expert should be employed to

complete it, and to devise warping and sizing processes which will prove suitable to the conditions which will gradually evolve as organised production is introduced amongst the handloom weavers.

We must recognise that it is no use attempting to develop handloom weaving in competition with power loom. What should be done is to bring out the possibilities of the handloom to the utmost extent and to discover, or if necessary, create, markets for its goods. That they already exist, is obvious from the fact that there are probably 2,000,000 handloom weavers working in India. The one thing that is wanted is a more efficient means of bringing the weaver into touch with the markets. This doubtless means the standardisation of production and the introduction of piece-goods dealing on lines similar to those pursued by the power loom industry. Very large quantities of goods are imported into India which could well be made on swivel looms, and attention has already been directed to the possibilities of manufacturing such articles by the Indian Munitions Board; but what is not sufficiently appreciated is the fact that the handloom weaver in India could turn out enormously large quantities of high class goods which would find a market in other parts of the world. The Chinese have a large trade in this direction and the products of their handlooms are held in high esteem. This brings me to the question of improvement of the Mysore silk industry. Some 30 lakhs of rupees worth of raw silk is exported every year and a considerable quantity is used in the State. The improvement of Sericulture is a matter which only directly concerns us in so far as an improvement in the quality of the Mysore silk naturally facilitates improvement in the goods manufactured therefrom. Assuming it to be the function of some other Department of Government to deal with Sericulture, we are here concerned with the industry beyond the cocoon stage. Reeling, twisting, dyeing and weaving are all matters of vital importance and the little that has been done so far has not been maintained or developed. A silk reeling house is necessary and between the silk reeling house and the experimental weaving shed, the necessary arrangements should be provided for dyeing and twisting. The silk weavers of Mysore are said to be hopelessly conservative; but it is probably because no one has ever taken them properly in hand. Their hereditary craft is powerless to make head-way against the products of the organised industry elsewhere. The training of the silk weaver beginning with his general education offers great possibilities, the ultimate goal being the complete cessation of the exports of raw silk.

It is undesirable at this stage to go into details, the object of the present note being to show the inadequacy of the means at present employed to deal with the existing state of things. The Department of Industries has been created to assist in the development of industries in Mysore ; but the Director can do little unless he is provided with an adequate technical staff. Both the Government and the people of the State, as voiced by the representatives in the Economic Conference, are dissatisfied with the progress that has been made; but very little more is likely to be achieved unless action is taken along the general lines which I have just indicated. Instead of one qualified assistant in the Department, there should be at least half-a-dozen, each working at one principal phase of the general problem and all co-operating where joint action is of advantage, under the general direction of the Head of the Department. It is very creditable to the assistant in charge of the experimental weaving shed that within six years of its establishment, the shed should be yielding a profit to Government; but this profit may easily be earned at the expense of much wider interests. At any rate, it clearly indicates that the time has come for a further advance and the Government may well be recommended to move forward boldly.

Home Industries Institutes at Bangalore and Mysore and Home Industries Classes.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 6954-6—A. & I. 155-15-2, dated the 25th May 1916 sanctioning the opening of a Home Industries Institute in Bangalore.

2. Government Order No. C. 2-6—I. & C. 114-16-7, dated the 21st October 1917, sanctioning the proposal of the Education Committee to open a Home Industries Institute in Mysore.

3. Government Order No. 11965-7—I. & C. 279-17-4, dated the 11th June 1918, continuing the establishments of the Home Industries Institutes at Bangalore and Mysore till the end of June 1919.

4. Letter No. 60, dated the 25th September 1918, from the Secretary, Education Committee forwarding a report on the working of the Home Industries Institute, Bangalore, for the year 1917-18.

5. Letter No. 43, dated the 4th September 1918, from the same officer forwarding a report on the working of the Home Industries Institute at Mysore for the year 1917-18.

(4 and 5 printed as Annexures.)

Order No. 8141-53—I. & C. 32-18-7, dated 1st March 1919.

Both the Home Industries Institutes continued to work under the management of the Committees constituted for the purpose and subject to the general control of the Education Committee. In connection with the Home Industries Institute in the Mysore City an advisory Committee of ladies was also constituted in February 1918.

2. The Bangalore institute registered 360 home workers to whom materials of the value of Rs. 1,507 were issued. The value of manufactured articles received back was Rs. 1,130 and the wages paid amounted to Rs. 183. In the Mysore institute 327 home workers were registered but no advances were made to them in the shape of either materials or money. In both the Institutes articles manufactured by the home workers, as well as in the Home Industries classes affiliated to them, were received and sold, the total value of articles so sold being Rs. 2,428 and Rs. 530 in the Bangalore and Mysore Institutes, respectively. In addition to the above, several demonstrations in improved methods of carrying on Home Industries were held and a special Home Industries stall was also organised in connection with the last Dasara Agricultural and Industrial Exhibition.

3. The Bangalore institute had 34 affiliated Home Industries classes with 457 students in different centres of the city teaching seven important Industries. There were three such groups of classes in the Mysore City with a total attendance of 256. Several new Industries were introduced by these Institutes of which mention may be made of the manufacture of packing tape and matches, weaving of mats after the Japanese pattern and wick manufacture.

4. The total expenditure on the scheme in Bangalore City was Rs. 14,902-7-3 and in Mysore City Rs. 12,313-8-5.

5. The Government consider that the scheme for the development of Cottage Industries has, more or less, passed the experimental stage and that the time has arrived when the Education Committee may be desirably divested of the responsibility of conducting the Institutes and the classes. It is also considered desirable to separate the working of the institutes, which is essentially commercial in character, from the Industrial classes, which on the other hand are mainly educative. Government are, therefore, pleased to direct that the management of the two Institutes in Bangalore and Mysore Cities be in future made over to the Department of Industries and Commerce. The Education Department will similarly take over the future management of the several Industrial classes both in the cities as well as in the mofussil.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MARCH 1919.

6. With a view to avoid any duplication of work carried on by the practical instruction classes already started by and under the control of the Education Department and the Home Industries classes now to be transferred to the control of the Department, Government are pleased to invite the attention of the Inspector-General of Education to paragraph 6 of their order dated the 24th August 1917 where Government have clearly laid down that the attendance at these Industrial classes should be strictly restricted to adults.

7. The Inspector-General of Education is requested to examine each of the existing Industrial classes and in case it is found that any of them are not serving a useful purpose as at present located or where there are other institutions in the locality under the control of the department imparting similar instruction, the Inspector-General may transfer such classes to places where, in his opinion, it is considered necessary to arrange for training in rural Industries that already exist there or may be newly introduced with advantage.

8. Government desire also to invite the particular attention of the Inspector-General of Education to paragraph 8 of the order dated the 24th August 1917 and direct that in all cases where private individuals or associations can be induced to undertake the management of the classes they should be encouraged to do so subject to the condition that the course of the instruction imparted should have the approval of the Department.

9. The present order will come into force with effect from the 1st April 1919.

10. The Director of Industries and Commerce and the Inspector-General of Education are requested to submit to Government detailed proposals regarding the changes in the personnel and other requirements that may be considered necessary to carry on the work of the institutes and the classes, and to obtain orders in time.

Exd.—R. K.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MAY 1919.

Letter No. 60, dated 25th September 1918, from V. Subramanya Iyer, Esq., B.A., Secretary, Education Committee, to P. G. D'Souza, Esq., B.A., B.L., Secretary to Government, Departments of Education and Agriculture, Bangalore.

With reference to your letter No. 1867—I. & C., dated 24th August 1918 and in continuation of this office letter No. 43, dated 5th September 1918, I have the honor to forward herewith a copy of the Report of the Cottage and Home Industries Institute, Bangalore showing the financial and other results attained and the lines on which it is proposed to be worked, etc.

The Chairman of the Bangalore Institute Committee says that the report has yet to be placed before the Institute Committee. If the Institute Committee should make any alterations when confirming the report, they will be intimated to you in due course.

REPORT ON THE WORKING OF THE COTTAGE AND HOME INDUSTRIES INSTITUTE, BANGALORE, FOR THE YEAR 1917-18.

I. Management.—The Institute continued to be managed by a Committee of 10 members with Messrs. K. R. Srinivasa Iyengar, M.A., P. S. Achyuta Rao and Rajakaryaprasakta Rao Bahadur M. Shama Rao, M.A., in succession as Chairman with the Superintendent of the Institute in direct charge.

II. Finance.—(1) Statement "A" shows the allotment and expenditure under different budgetted heads during the year 1916-17 and 1917-18. For the current official year a sum of Rs. 3,000 only has been sanctioned for wages, tools and plants and other contingencies and the continuance of the existing establishment has also been sanctioned.

(2) Statement "B" shows the amount sanctioned for payment of grants-in-aid to Industries classes and the amount spent in 1917-18. Under this item a sum of Rs. 1,354-8-11, lapsed to Government, as the bill for the amount was returned unpassed by the Comptroller's Office under the wrong impression that there was no amount available under this head on account of a wrong entry in the books of the Comptroller's Office. The arrears of grants due to classes had therefore to be paid out of Rs. 10,000 sanctioned for this year.

(3) The sale proceeds of articles during the last year amounted to Rs. 2,427-14-2, out of which a sum of Rs. 179-7-6, was paid to the different classes for the articles sent to the Institute for sale. A sum of Rs. 1,821-15-8, was remitted to the Treasury.

III. Home-workers.—There are at present 360 registered home-workers, working under different industries, such as, dress-making, knitting, book-binding, embroidery and rattan work. Raw materials to the value of Rs. 2,186-6-10, were purchased and materials to the value of Rs. 1,507-1-3 were issued to them. Manufactured articles to the value of Rs. 1,130-5-1, were received and an amount of Rs. 182-15-0 was paid towards wages.

Endeavours are being made to give special attention to this branch of the work of the institute and introduce other industries also among the home-workers. The Committee at the meeting held on the 25th May 1918 resolved to depute Raphæl, Demonstrator of the Institute to this important work as he has good experience

IV. Affiliated Classes.—There are at present 34 classes in different centres of the city, with a strength of 452 students. Two classes in Shankarapuram and 4 classes in Sultanpet were closed last year for want of proper attendance. Four classes in Gavipuram, two in Basavangudi Mahomedan block, and three in Seshadripuram were newly opened. Besides, there have been half a dozen applications for opening about 15 classes which are pending before the Committee.

The important industries that are being taught in these classes are:—

Knitting,	Drawn thread work,
Rattan work,	Toy making, and
Dress making,	Bamboo furniture making.
Embroidery,	

V. New Industries.—In the current year industries such as, brush making, house decoration, walking-stick making, money purse and hand bags making are proposed to be introduced.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MARCH 1919.

VI. Proposals under consideration.—(1) Starting a workshop for making small implements, machines, according to Mr. S. Raghavendra Rao's proposal.

(2) To instal a 2½ H. P. motor in the institute to work a lathe for turning out horn and bone articles and for demonstrating some other useful industries.

(3) To open work centres for the use of home-workers on factory basis.

(4) To collect and store indigenous raw materials which can be converted into many useful articles by home-workers.

(5) Advertisement of work done in the institute classes and home-workers and the industries taught, etc., to attract more people to learn home-industries.

M. SHAMA RAO,

Chairman, Cottage and Home Industries Institute Committee.

Bangalore, September 1918.

Statement "A"—Comparative statement showing the allotments and expenditure under different budget heads for the years 1916-17 and 1917-18.

		Rs. a. p.		Rs. a. p.
	January 1918..	681 7 5	May 1918..	....
	February „ ..	663 0 5	June „ ..	700 0 0
	March „ ..	610 15 3		
	April „ ..	607 13 4	Total ..	6,845 7 10

N. B.—In the month of October 1917 the Comptroller's Office made a wrong entry that sums of Rs. 663-5-8 + Rs. 776-10-5, were drawn. But under this item only Rs. 776-10-5 was drawn and the other amount ought to have been charged to Institute accounts. Again Rs. 700 drawn in June 1918 is included in the total grant of Rs. 7,500. But Rs. 700 is a quite different item. Hence the money could not be drawn.

Letter No. 43, dated 4th September 1918, from V. Subramanya Iyer, Esq., B.A., Secretary, Education Committee, to P. G. D'Souza, Esq., B.A., B.L., Secretary to Government, Departments of Education and Agriculture, Bangalore.

With reference to your reminder letter No. 1867, dated 24th August 1918, I have the honor to submit herewith a copy of the report received from the Secretary, Cottage and Home Industries Institute, Mysore, on the working of the institute and to state that a third reminder has been issued to the Chairman of the Cottage and Home Industries Institute, Bangalore, for immediate submission of the report on the working of the Bangalore Institute. As soon as it is received it will be submitted.

(*Enclosure to the above.*)

Detailed Report as to the working of the Cottage and Home Industries Institute, Mysore, the Financial and other results attained during the year 1917-18, and the lines on which the Institute is proposed to be worked during the current official year.

I. Management.—The Cottage and Home Industries Institute, Mysore, was started on the 5th November 1917, with the following Managing Committee sanctioned in Government Order No. 6347-9—I. & C. 145-17-7, dated 7th January 1918:—

1. T. G. Lakshmana Rao, Esq., L.C.E. (Chairman).
2. M. Venkatakrishnayya, Esq.
3. Rajakaryaprasakta B. Ramakrishna Rao, Esq.
4. H. G. Alderon, Esq., U. B. A. (Paris).
5. M. Humza Hussain, Esq., B.A., B.L.
6. Sri Narasimha Sastri, Esq., District Economic Superintendent.
7. Lokasevaniratha Amble Anniah Pandit, Esq.
8. V. Tiruvengadam Mudaliar, Esq.
9. Mahomed Jaffer Saheb, Esq.
10. M. L. Vardhamanayya, Esq.
11. M. Srinivasa Rao, Esq., B.A. (Secretary).

Mr. T. G. Lakshmana Rao continued as Chairman till the 6th March 1918. Rajasabhabhushana Dewan Bahadur C. Srikanteswara Iyer, Esq., B.A., B.L., was appointed Chairman of the Committee in Government Order No. 9900-3—I. & C. 145-17-17, dated 5th April 1918, in place of Mr. T. G. Lakshmana Rao who was transferred from Mysore.

A Ladies' Advisory Committee in connection with the institute consisting of

1. Mrs. K. D. Rukminiamma
2. „ Subbamma
3. „ Rangamma
4. Mrs. M. Srinivasa Rao
5. „ Alderton
6. Miss Moore

was sanctioned in Government Order No. 7857-60—I. & C. 145-17-11, dated 6th February 1918.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MARCH 1919.

Mr. M. P. Lingappayya, who was Economic Lecturer, Mysore City, was appointed as Superintendent in Government Order No. 5635-7—I. & C. 145-17-4, dated 13th December 1917 and No. 9361-7—I. & C. 145-17-14, dated 19th March 1918.

The Home Industries schools in three centres, *viz*, Kille Mohalla, Chamaraja Mohalla and Mandi Mohalla were under the direct management of the Institute Committee. The schools at Kille Mohalla and Chamaraja Mohalla were under the supervision of the Superintendent and the Honorary Secretary. The school for gosha ladies at Mandi Mohalla was supervised by Mr. Mahamed Jaffer, the organiser of the school. Arrangements were made to teach men only in the school at Kille Mohalla and only women were admitted to the school at Chamaraja Mohalla. In the latter a general education class was also opened.

II. Progress.—The work done by the Institute during the year 1917-18 is detailed below:—

(1) The economic condition of poor people in Mandi Mohalla, Idga Extension, Lashkar Mohalla, Krishnaraj Mohalla, Ittegegud, Nazarbad, Bellikattige Misel, and Sunnadakeri were studied. Proposals were made to start Home Industries classes for the benefit of—

(*a*) Paddy husking people, most of whom are now thrown out of work by the establishment of rice mills in the city;
(*b*) Bhavasara Kshatriyas (Tailors);
(*c*) Poor labouring classes in the Idga Extension and in Krishnaraj Mohalla;
(*d*) Devadasis who desire to have separate classes in the Lashkar Mohalla.

The miserable condition of poor Mahomedan women who can hardly earn about 2½ annas a day was noticed and their names were brought on the list of home-workers.

In all 327 home-workers were registered during the eight months of the year under report.

(2) There were no advances made to the home-workers during the period, as no provision was made under this head in the budget.

(3) During the six months of the year under report, finished articles worth Rs. 1,157-9-11 were received and the sale amount of the Institute came up to Rs. 529-14-0. The profits realised by the Institute on the sales were Rs. 47-0-11. The receipt of the finished articles, the sale proceeds and the profits realised were small on account of non-supply of raw materials to the registered home-workers as the amount sanctioned for this purpose was placed at the disposal of the Institute only in the last week of June 1918.

(4) No loans were given to the Home-workers as the amount of Rs. 1,000 placed at the disposal of the Institute for this purpose was received only at the beginning of the current official year.

(5) There were no borrowers under the above head for the reasons referred to above.

(6) In addition to the class-work, demonstrations were held in bamboo-work, and new patterns of nine bamboo works were shown and explained to Koramars, Gowligars and Medars. Demonstrations were also held in machine knitting.

(7) On the whole, 82 demonstrations in bamboo-work and 63 in knitting by machine were conducted during the year.

(8) With a view to introduce new industries, successful experiments were made in match manufacturing, mat weaving after Japan pattern, and wick making; and these were being conducted as Cottage and Home Industries.

(9) A library was opened in the Institute containing books on technical subjects, such as, tailoring, clay modelling and plaster casting, tin plate work, book binding, bamboo work, house decoration, toy making, ticket writing and sign painting, gramophones and phonographs, etc. A museum has also been opened, wherein some of the best specimens of foreign and local Home Industries articles are exhibited.

(10) Ten meetings of the Committee for the management of the Institute were held during the eight months of the year 1917-18.

(11) On the 30th June 1918, the total number of men and women under training was 115 and 141 respectively, and the amount of wages earned by the learners was Rs. 72-0-3 in course of training in the Home Industries classes.

No. 8141-53—I. & C. 32-18-7, DATED 1ST MARCH 1919.

(12) The following statement shows the number of men and women that underwent training in the Home Industries Institute and the classes; and they are now earning their livelihood independently in Public Institutions or in private concerns:—

In public Institutions		In private concerns		Monthly income
Number of		Number of		
Men	Women	Men	Women	
				Rs.
..	1	1	...	30 per month
1	2	1	..	20 ,,
..	1	4	1	15 ,,
..	..	1	..	12 ,,
..	..	5	2	10 ,,
..	..	4	..	.. ,,
1	4	16	3	Total 24

III. Financial Results.—The total receipts, expenditure and the balance of the Institute and the affiliated schools during the year 1917-18 are given below. The accounts were audited by Messrs. Mahomed Jaffer Saheb and V. Tiruvengadam Mudaliar on the 2nd June 1918.

Receipts.—The total receipts for the Institute during the period under report was Rs. 2,190-10-0 consisting of:—

		Rs.	a.	p.
1.	Amount drawn from the Treasury out of the amount sanctioned in the budget	1,660	5	6
2.	Amount realised by sales of the articles received from (*a*) the schools of Home Industries, (*b*) the bamboo and knitting demonstration classes and (*c*) Home-workers	482	13	1
3.	Postal charges recovered on articles sent by V. P. P.	0	6	6
4.	Profits realised by the Institute on the sales effected	47	0	11
	Total ..	2,190	10	0

Expenditure.—The total expenditure of the Institute was Rs. 2,083-2-8 for which details are given below:—

		Rs.	a.	p.
1.	Establishment charges, house rent, initial expenses for the purchase of furniture, etc., (equipment) and Printing and other contingent charges ..	1,515	5	6
2.	Sale proceeds of the articles of the Home Industries Schools, demonstration classes and the profit realised by the Institute, deposited in the District Savings Bank, Mysore, to the credit of the respective accounts	412	15	8
3.	Sale proceeds paid to the affiliated Schools and the Home-workers for the articles received from them	54	13	6
4.	Imprest at the Institute	100	0	0
	Total ..	2,083	2	8

Balance—On hand on the 30th June 1918 was Rs. 107-7-4.

No. 8141-53—I. & C. 32-18-7, dated 1st March 1919.

The total receipts, expenditure and balance of the affiliated schools under the management of the Institute Committee were as follows:—

Receipts.

		Rs.	a.	p.
1.	Amount drawn from the Chairman, Cottage and Home Industries Institute Committee ..	9,137	12	9
2.	Sale proceeds and other receipts	1,274	9	6
	Total ..	10,412	6	3

Expenditure.

		Rs.	a.	p.
1.	Establishment charges	6,314	0	6
2.	Other expenses, such as house rent, purchase of furniture, tools and implements and raw materials as well as contingent charges and the sale proceeds deposited in the Savings Bank	3,916	5	3
	Total ..	10,230	5	9

Balance—On the 30th June 1918 was Rs. 182-0-6.

IV. Lines on which the Institute is proposed to be worked during 1918-19.—

1. A grant of Rs. 25 per month will be given for each industrial class containing 10 women or 15 men with a fair attendance. Poor persons who do not know any industry will be taught in these industrial classes. All affiliated classes will follow the syllabuses approved by the Education Commtttee.

2. Raw materials will be supplied to poor people who know industries, after registering their names as home-workers. Whenever they are in need of small labour saving machines, recommendations will be made to the Deputy Commissioner, Mysore District, for sanctioning loans to buy such machines. The finished products sent by home-workers will be received for sale in the Institute. As the organisation for helping the home workers is completed now, it is proposed to aid more home-workers in improving their economic conditions.

3. As desired by, and with the aid of, Rao Sahib Mr. M. Rama Rao, Special Forest Officer in Mysore, arrangement is made for spreading match industry in the City of Mysore and in the suburbs. Forty women are already under training in making match boxes out of the bamboo ribbons. Efforts are also being made for the preparation of chemical compositions. Suitable woods are secured for making splints. The course of training for women in manufacturing match boxes is expected to be completed in two months.

4. In addition to bamboo and knitting demonstrations, toy making, rattan work, rope and coir work, papier-mache, tape weaving, basket work, decorative painting, chicks making, match industry, mat weaving will also be demonstrated in the Institute.

5. Special attention will be given to develop bamboo furniture work, toy making and Papier mache, rattan work, dress making, knitting, by hand machine, embroidery and tape making.

6. New industries, such as, manufacture of indigenous inks. Book binding, rope and coir work, etc., will be introduced into the Home Industries Schools.

To conclude, every endeavour is being made to render the working of the Institute as successful as possible within the means and scope available.

M. SRINIVASA RAO,

19th August 1918. *Honorary Secretary.*

No. Fl. 4352-402—G. F. 63-18-5, dated 3rd March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. Fl. 1275-324—G. F. 55-15-4, dated the 30th August 1916, sanctioning the starting of a Collecting Savings Bank in the Bangalore City as an experimental measure for one year.

2. Government Order No. Fl. 1561-609—G. F. 28-17-2, dated the 15th September 1917, extending the period of the Collecting Savings Bank for another year.

3. Government Order No. Fl. 2391-2—G. F. 63-18-3, dated the 16th November 1918 extending the period to another two years, increasing the pay of the Collector to Rs. 45 and directing the Comptroller to submit proposals for placing the institution on a permanent basis and for affording similar conveniences to the inhabitants of other cities and towns and of rural areas.

4. Letter No. G. A. D. 352, dated the 11th December 1918, from the Comptroller to Government submitting proposals in the matter.

Order No. Fl. 4352-402—G. F. 63-18-5, dated 3rd March 1919.

Government are pleased to note that the Bangalore City Collecting Savings Bank, introduced as an experimental measure, has worked successfully and accordingly direct that the Institution be made permanent, and the Collector thereof confirmed on a pay of Rs. 50 with a conveyance allowance of Rs. 15 per month. He will also be provided with two khaki suits every year.

Government also direct that the scheme be introduced into Mysore City, as well as Bowringpet (including Kolar Gold Fields), as an experimental measure for one year, as recommended by the Comptroller and that the Collectors thereof be started on a pay of Rs. 40 with a conveyance allowance of Rs. 15 per month. They will also be provided with two khaki suits. Detailed rules for the working of these institutions are appended to this order. The Superintendent, Government Printing, is requested to print and supply the rules, forms, and registers to the District and the Taluk Treasuries concerned.

The cost of the scheme sanctioned will be met during the current year out of the grant for the development of Feeder Banks, and necessary provision will be made therefor in the next year's budget.

J. S. CHAKRAVARTI,
Financial Secretary to Government.

To—The Comptroller to Government.
The Deputy Commissioners, Bangalore, Mysore and Kolar Districts.
The Superintendent, Government Printing.
The other Heads of Departments.

No. Fl. 4352-402—G. F. 63-18-5, dated 3rd March 1919.

RULES FOR THE WORKING OF THE MYSORE GOVERNMENT COLLECTING SAVINGS BANK.

Object.

At present there are Government Savings Banks, only at the District or Taluk Headquarters and a large proportion of the public do not find it convenient to go and wait there to deposit or withdraw money. Therefore the establishment of Branch Banks, styled the Collecting Savings Banks, is deemed necessary to afford the entire public full facilities to lay by their savings, however small, and thereby foster their habits of economy and thrift. A Collecting Savings Bank was started experimentally in the Bangalore City in November 1916 and it has been found to work successfully. Similar Banks will be opened at the Mysore City and Bowringpet including the Kolar Gold Fields area to afford convenience to the inhabitants of these localities. They will be worked under the rules described below.

Part I.

General Rules of Business.

1. *Officer in charge.*—The Collecting Savings Bank, will have its office at the premises of the District or Taluk Savings Bank. The Officer in charge of the District or Taluk Savings Bank will also be the Officer in charge of the Collecting Savings Bank.

2. *Collector.*—It will be in immediate charge of an official of known probity and established character, who will work under the control of the Officer in charge of the Government Savings Bank. He will be styled as Collector and will be required to give a cash security of Rs. 500. He will be provided with a distinctive uniform and a Letter of Authority signed by the Deputy Commissioner, duly specifying his duties in English and Kannada.

When necessary, more than one Collector will be employed each with separate jurisdiction.

3. *Places and hours of business.*—The Deputy Commissioner will divide the City and its extensions into convenient parts and the Collector will in places approved by the Deputy Commissioner conduct business on days of the week specified by the Deputy Commissioner for each of such parts from 7 to 10 A.M. daily.

He will similarly divide the taluk area including the Taluk Headquarters into 6 parts, so that the Collector may visit each centre at least once a month.

The Collector will also visit on such specified days private residences of persons who require him to do so to deposit or withdraw money.

He will also visit all small offices, institutions and factories, as often as possible and at least once a week, between 3 and 5 P.M. He will select for the purpose pay days in offices and factories as far as possible.

He will be accessible to the public in the market places, weekly fairs or other business places on days and hours to be fixed by the Deputy Commissioner or the Amildar as the case may be.

A depositor may, irrespective of his place of residence, transact business with the Collector in any and every place of his business specified by the Deputy Commissioner during business hours.

4. *Who may deposit or withdraw money.*—All persons having Savings Bank Accounts of their own or on behalf of minors in the Government Savings Bank, as also those who intend to open accounts therein either on their own behalf or on behalf of minors, may transact business through the Collector in exactly the same manner as they would do at the Government Savings Bank under the Rules of the Mysore Government Savings Bank in force from time to time.

5. *What may be deposited.*—Any sum which is not less than one anna or which does not involve fractions of an anna may be deposited. There is no limit to the amount that may be deposited in a year or to the amount that may be held at any time by a depositor.

6. *First deposits how received.*—When a person wants to open an account, he will fill in an Index Card and give it to the Collector. The latter will see that the form is correctly filled in and examine the money brought by the depositor.

The money will then be dropped into the Government box kept by the Collector, who will simultaneously make the necessary entries in the trifoil receipt and in the Pass Book to be issued to the depositor after it is countersigned by the Government Savings Bank Officer.

The Collector will give next two copies of the receipt to the depositor who will drop one of them into the box after examining it and retain the other with him as voucher for the money received from him till the return of the Pass Book from the Government Savings Bank.

7. *Subsequent deposits how received.*—Subsequent deposits will be dealt with similarly; but fresh Index Cards will not be taken in such cases and the Pass Books will not be sent to the Government Savings Bank.

The production of Pass Books with the subsequent deposits will not also be insisted on; but the deposits will be received, the usual receipt being given at the time and the Pass Book written out when produced next; the Collector will in such cases indicate the Pass Book or Account number of the depositor from his Alphabetical Index and make a note that the Pass Book was not produced both on the counterfoils of the receipt given to the depositor and on the original thereof, striking it off when the Pass Book is presented and the necessary entries are made in it.

A depositor having opened an account through the Collector may himself go and transact business directly at the Government Savings Bank, whenever he finds it convenient or necessary to do so Conversely, a depositor, who has already opened an account in the Government Savings Bank, may transact business with it through the Collector, whenever he finds it necessary to do so, in exactly the same manner as he would do in the Government Savings Bank.

8. *How transactions are recorded at the Treasury.*—The Treasury Officer will record the transactions in the Ledger and Journal against the dates on which they actually take place at the Treasury, and attest the entries in the Pass Books whenever they are produced thereat, after comparison with the Ledger. The Treasury will give an account number to every depositor who has opened an account through the Collector in exactly the same manner as if the transaction had taken place at the Treasury directly and hold the amounts paid by him from time to time at his credit for repayment with interest, either wholly or in part

as may be required. A separate set of Ledgers should be maintained for the transactions of these institutions, the letters C. S. B. being prefixed to each account number to differentiate the series of account numbers from transactions opened directly with the Treasuries.

But the daily transactions will be recorded in the Journal used for Treasury transactions, so that there will be only one weekly Journal for each Treasury.

9. *How to withdraw money.*—When a depositor wants to withdraw money, he will give the Collector his Pass Book together with a withdrawal form duly signed by him, noting the particulars required.

The Collector will forthwith return the Pass Book to him, after verifying from it that the amount required is at the credit of the depositor. He will draw the money on such withdrawal forms from the Treasury and pay it to the depositors when he next meets them either by appointment or in the ordinary course of business making the necessary entries in the Pass Books.

10. *Urgent cases of withdrawals.*—In urgent cases, the Collector will make repayments of Rs. 10 and under immediately on demand. In such cases, special forms of withdrawal across which the words "For repayments made by the Collector immediately on demand" have been printed in red ink will be used.

In urgent cases, where the amount required to be withdrawn is in excess of Rs. 10 the depositor himself may go to the Treasury and withdraw money therefrom, obtaining, in case his identity cannot be verified by the Treasury, the countersignature of the Collector on the withdrawal voucher. The Collector will be available to all such depositors at the Government Savings Bank between 2 and 3 P.M. or between 3 and 4 P.M. as may be arranged every day except on Sundays and holidays.

The District Savings Bank will make the repayments after attesting all the entries in the Pass Book, duly verifying them with the Ledger.

11. *Interest how calculated and allowed.*—Interest is calculated at 5 per cent per annum on the amounts kept for a whole official year, at 4 per cent per annum on amounts kept for 6 months or more, but less than 12 months, and at $3\frac{1}{8}$ per cent per annum on the amounts kept for less than 6 months.

Interest is calculated at the rate of one pie for every two rupees per month. Fractions of two rupees do not earn interest.

The Collector will get together all the Pass Books of the depositors and take them to the Treasury for the entry of the interest, or the depositors themselves may do so, as soon as the production of Pass Books for entry of interest is called for by a notice in the *Mysore Gazette* once each year. If the Collector takes them to the Treasury, he will give a receipt therefor showing the name of the depositor, his account number and the balance at his credit. He will return the Pass Books to the depositors when he meets them next either by appointment or in the ordinary course of business taking back the receipts from them with a certificate recorded by the depositors that the Pass Book was returned and found correct.

12. *Verification of Pass Book balances.*—At the end of each official year, the Comptroller will obtain from the depositors their Pass Book balances for verification with

those of the Ledgers. It is also open to the depositors to have such verifications effected from time to time either at the Comptroller's Office or the District or Taluk Savings Bank either in person or by correspondence.

13. *General.*—All matters not covered by these rules will be governed by the rules of the Mysore Government Savings Bank in force from time to time.

Part II.

Procedure.

1. The names of the officials appointed as Collectors, the places at which each of them works, as also the days of the week and the working hours in each of such places, will be notified to the public in the *Mysore Gazette* by the Deputy Commissioner from time to time.

2. A copy of such notification together with the Letter of Authority given to the Collector by the Deputy Commissioner will be suitably mounted and exhibited to the public in a suitable manner, whenever and wherever the Collector conducts the business of the Bank. Copies of such notices should also be freely supplied to the public.

3. The Collector should invariably be in his uniform while on duty, and should be polite to all people who transact business and make enquiries and issue the pamphlets freely to all likely depositors. He should attend to the people with all possible despatch.

4. He will be provided with a small box, duly locked and sealed, containing a slit to drop coins or notes brought by the depositors and the counterfoils of receipts given by the Collector to the depositors for the moneys received from them. The box will be suitably labelled with the words "Mysore Government Collecting Savings Bank." The key of the box will be in the personal custody of the Treasury Officer and will never be given to the Collector. The Treasury will after removing its contents, daily lock and seal it before handing it over to the Collector. The Collector is personally responsible for the box and the contents dropped into it by the depositors.

5. The Collector will attend the District or Taluk Savings Bank between 2 and 3 P. M. or between 3 and 4 P. M. as the case may be, every day, except on Sundays and holidays, where the money will be taken over from the box and credited to the several depositors' account after comparison with the duplicate receipts dropped into the box by the depositors and with the cash book maintained by the Collector.

6. To meet urgent but small demands of Rs. 10 and under, of depositors who cannot wait till the Collector can meet them next, the Collector will be provided with an imprest of Rs. 50 which he may recoup every day at the Treasury on presentation of withdrawal forms the amounts of which he has paid.

7. The Collector will account for the imprest daily at the Government Savings Bank either in cash or by vouchers or by both. The imprest will never be mixed with the moneys received from the Treasury for repayment to the depositors; but it will be kept in a distinct bag from that used for the other moneys. Nor can the latter be used for the purpose for which the imprest is intended. No separate account of imprest will be kept as all transactions which pass through him will be in the cash book.

No. Fl. 4352-402—G. F. 63-18-5, dated 3rd March 1919.

8. He will maintain a stock of:—

(1) Index cards (to S. B. No 1.)

(2) Withdrawal forms (special and ordinary) (C. S. B. No. 5.)

(3) Bilingual Pass Books (C. S. B. No 2)

(4) English and Kannada pamphlets, containing these Rules framed for the working of the Bank.

9. He will also maintain:—

(1) A cash book to be written and closed daily by 2 P.M. (C. S. B. No. 6.)

(2) A bilingual receipt book in triplicate, with pages machine numbered. which should be surrendered to the Government Savings Bank on completion and before a new book can be issued to him (C. S. B. No. 4.)

(3) An alphabetical index of the names of depositors who transact business through him. The index will show the account numbers given to their accounts in the Treasury.

10. The Head Accountant of the District Treasury and the Treasury Officer or Nagadi Gumastha as the case may be, will examine and attest the entries in the Pass Books whenever they are presented at the Treasury and check the cash book of the Collector daily with the counterfoils of receipts dropped into the box and attest the same.

11. The Government Savings Bank will maintain a Register showing the Issues, Consumption and Balance of Pass Books on hand with the Collector, and a similar account of the books of trifoil receipts issued to him. These should be checked frequently by the Head Accountant, District Treasury, or the Taluk Sheristadar, as the case may be with the actual number of Pass Books and trifoil receipt book in the possession of the Collector, and the Officer in charge of the Government Savings Bank will attest these registers once a month in token of their correctness.

12. The pay of the Collector will be met out of the allotment made annually for the purpose and paid to the Collector on bills (countersigned by the Deputy Commissioner and preaudited by the Comptroller.)

N.B.—All the powers conferred under these rules on the Deputy Commissioners of Districts and all the duties enjoined on them, are conferred and enjoined on the Comptroller in respect of the Collecting Savings Banks situate in the Bangalore District.

This Pass Book should be presented at, or sent to the Government Treasury, or given to the Collector, for the entry of interest, soon after it is notified in the *Mysore Gazette* in each year.

* The words within the brackets in column 7 and in the first line of column 8 should be struck out, if the deposit is made on one's own behalf.

Note.—1 Column 5 to be filled up only when an account is opened by a person employed at a distance from his home; and column 6 when the account opened is on behalf of a minor or of a woman not accustomed to appear in public. Deposits are repayable only to the guardian of the minor.

2 When the account opened is on behalf of a Corporation or Committee or an Institution or a quasi public Association, the name of the officer who is authorized to operate on the account, and the name of the Corporation or Committee or Institution or Association only need be entered on the Index Card.

(For instructions for filling up the Index Card, please turn over.)

MYSORE GOVERNMENT COLLECTING SAVINGS BANK.

INSTRUCTIONS FOR FILLING UP THE INDEX CARD.

1. The name, the father's name, occupation and residence to be entered are those of the depositor and not those of the relative or guardian or husband or agent.

2. When an account is opened—
   - (*a*) by a minor, his signature should be obtained to the Index Card;
   - (*b*) on behalf of a minor, that of the relative or guardian.
   - (*c*) on behalf of a woman not accustomed to appear in public, that of her husband or agent.

3. In filling up the Index Card—
   - (*a*) of a European or East Indian depositor, the surname to be written first and then the Christian name;
   - (*b*) of a Hindu depositor, the personal name first and the tribal or family name after it;
   - (*c*) of a Mussalman depositor, the prefix (such as, Sheik, Syed, Moulvi) should be written first in a small hand and the name after it in a large hand.

4. When a Mahomedan depositor desires that no interest be added to his account, the fact should be noted on the Index Card.

5. When a depositor signs in English, the spelling used by him must invariably be followed. In other cases, the spelling adopted in writing the Index Card must be strictly followed in all statements and accounts.

6. When the account opened is on account of a security deposit, the letters "S.D." should be inserted against the account number; and the designation of the Government Officer to whom the security is pledged noted across the Index Card in red ink.

Grain Compensation Allowance.

No. Fl. 4667-716—G. F. 5-18-57, dated 18th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. Fl. 100-149—G. F. 5-18-1, dated the 9th July 1918, sanctioning rules for the grant of grain compensation as per scale given in Article 72, Civil Account Code, Volume 1, ragi being considered as the staple food grain and the taluk the unit.

2. Government Order No. Fl. 2047-96—G. F. 5-18-29, dated the 23rd October 1918, sanctioning rules for the grant of compensation for dearness irrespective of the price of any particular grain or commodity in the two Cities of Bangalore and Mysore.

Order No. Fl. 4667-716—G. F. 5-18-57, dated 18th March 1919.

In accordance with the orders read above, the grant of compensation allowance is sanctioned for the month of March 1919, to the employees in the two Cities of Bangalore and Mysore and to those in the several taluks in the State as noted in Annexures A and B appended to this order and as indicated below:—

(*a*) To the employees in the taluks in Annexure A, the allowance will be at the following rates:—

(i) To those drawing a pay exceeding Rs. 16 but not exceeding Rs. 30 per mensem, Rs. 2 per mensem.

(ii) To those drawing a pay not exceeding Rs. 16 per mensem Re. 1.

(iii) When the pay is less than Rs. 5 per mensem, the extra allowance will be increased so as to bring up the aggregate pay and allowance to Rs. 6 per mensem.

(*b*) To the employees in the Cities of Bangalore and Mysore and the taluks noted in Annexure B, the above allowances will be raised to Rs. 3 and Rs. 1-8-0, respectively, and the aggregate pay and allowances of servants on less than Rs. 5 per mensem brought up to Rs. 6-8-0 per mensem.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Letter No. Book 1850, dated 6th May 1918, from the Comptroller, reporting that the Editor of the Mysore Economic Journal has asked for statements of revenue collections of the State for publication in the Kannada "Arthasadhaka Patrika" from time to time, and suggesting that a monthly statement of receipts and payments of Government transactions in the form proposed by him may be published in the *Mysore Gazette* in future and that in the "Arthasadhaka Patrika" the Editor may publish such part of this statement as he may consider necessary.

2. Correspondence ending with letter No. 551, dated 8th October 1918, from the Chairman of the Mysore Chamber of Commerce, replying to an enquiry made that the publication in the *Mysore Gazette* of the monthly statement of Government receipts and payments by major heads, will be of much interest and advantage to the public.

Order No. Fl. 4805-50—G. F. 220-17-16, dated 26th March 1919.

The Comptroller's proposal to publish monthly in the *Mysore Gazette* a statement of Government receipts and expenditure for the information of the public in the form herewith appended is approved.

2. The statement will contain all the major heads of the revenue and expenditure including capital expenditure heads but excluding debt heads. No grouping or lumping of heads should be made.

3. The Comptroller should arrange to publish the statement regularly about the middle of the second month following that to which the figures relate. If there is delay for more than one week in publishing the figures, the reason therefor should be explained in a special communication to Government.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Order No. Fl. 4613-52—G. F. 92-17-3, dated the 26th February 1918, sanctioning the revision of the Comptroller's Office.

Order No. Fl. 4506-55- G. F. 109-18-2, dated 8th March 1919.

In paras 9 and 10 of the order read above provision has been made for the recruitment and training of gazetted officers of the Account Department, and the detailed method of training of junior officers of the department as regards account work is laid down in Article 1645, Civil Account Code, Volume II. On a careful examination of the requirements of the Account Department for a few years ahead, Government consider that the present arrangements require to be amplified and systematised and they are accordingly pleased to pass the following orders.

2. *Training of Junior Officers of the Account Department.—A. Training in Government accounts work.*—(1) The detailed methods of training in accounts work will be as laid down in Civil Account Code, Volume II, Article 1645 and para 9 of Government Order of 26th February 1918.

(2) The training will cover Civil, Public Works and Railway Accounts.

(3) It should include brief deputation to a District Treasury, a Taluk Treasury and a Public Works and a Railway Division.

(4) A period of one to two years according to circumstances during which the officer will be expected to pass the Government of India examinations will be prescribed for the training in each case.

B. Deputations outside the State and training in commercial accounts.—In adddition to the training prescribed in sub-para A *supra* the officers will undergo a further training as follows:—

(1) Each Junior Officer will be deputed for a period of six weeks to each of the following offices, *viz.*, a British Indian Civil and Public Works Account Office and a large Railway Audit Office.

(2) He will be given one month's training under the Manager, Mysore Bank, and another month's training in a large commercial firm or industrial concern for acquiring practical experience of commercial accounts.

The deputation referred to in clause (1) of sub-para B. will be before and that referred to in (2) after the officer passes the Government of India higher examination for Enrolled Officers of the Account Department. It should be noted that officers promoted from subordinate ranks of the Account Department though they are not required to pass Government of India examination should undergo the training specified in sub-para B, clauses (1) and (2) unless they are over 50 years of age.

C. Training of Senior Officers of the Account Department.—In addition to the training indicated for Junior Officers in para 2 *supra* the Senior Officers will have the following opportunities for further training.

(*a*) Six weeks' deputation to each of the following offices, *viz.*, Comptroller General, Controller of Currency, a Local Government Financial Secretariat and the Government of India Financial Secretariat.

(*b*) Six weeks' deputation in all, to several large and up-to date business firms to observe business organization, business methods, and appliances handling of staff, etc., (Including one Bank, one Insurance office, one large Factory and one large Import and Export Firm).

(*c*) Visits to some of the important Indian States to study their financial system.

(*d*) Deputation to foreign countries under the general rules that are or may be prescribed by Government for officers of all departments in respect of such deputation.

No. Fl. 4506-55—G. F. 109-18-2, dated 8th March 1919.

4. In para 10 of Government Order No. Fl. 4613-52—G. F. 92-17-3, dated the 26th February 1918, Government have recognised that an officer of the Account Department qualified for promotion in the general line should be transferred after some years' service in that department. To give effect to this policy Government consider that during the next five years, five Assistant Commissioners in addition to the sanctioned scale of the Comptroller's Office should be drafted to the Account Department for being trained in Accounts work. They have accordingly decided that during this period one officer will each year be transferred from the general line to the Comptroller's Office for training.

5. The Comptroller is requested to take needful action and to submit to Government suitable proposals in accordance with the foregoing orders.

I. S. CHAKRAVARTI,
Financial Secy. to Govt.

To—The Comptroller to Government.
The Heads of Departments.
The Deputy Commissioners of Districts.
The Secretaries to Government.

Sri Arekalleswaradevaru temple at Kadur.

MEMO NO. 2663—MUZ. 302-17-6, DATED 4TH MARCH 1919.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Muzrai Appeal No. 28 of 1917-18.

APPELLANT.

C. Ananta Jois, Land-holder, Kadur.

Subject.

Appeal against Order No. G. C. 2026, dated 25th February 1917, of the Deputy Commissioner, Kadur District, directing the recovery from the appellant, of a sum of Rs. 382-8-0, being the arrears of rent due on the inam lands endowed to Sri Arekalleswaradevaru temple at Kadur.

Decision.

The case was heard on 25th February 1919, the appellant being represented by his Advocate Mr. S. Srikantiah. The appellant not having agreed to take up the lands on lease for five years, the same were ordered to be sold, but the result of the sale is not apparent from the records nor even whether a sale was held, at all. At any rate, there is nothing to show that the appellant was in possession of the lands during any portion of the period for which he is sought to be made liable for the rent. The so-called admission said to have been made by him before the Amildar on 8th September 1906 cannot in the face of the general tenor of the statement as a whole, be taken as really an admission that he was in possession ; it probably meant no more than that he was unwilling to relinquish his right to lands which were so long in the enjoyment of his family.

In the absence, therefore, of positive evidence that appellant continued to be in the enjoyment of the land from and after 1901-02, he cannot legally be held liable for the rent claimed. The order of the Deputy Commissioner requiring payment will be reversed, and the amount, if any, recovered will be refunded to appellant.

The Deputy Commissioner is requested to take steps at an early date to have the lands leased out or otherwise utilised to the best advantage of the temple.

MEMO NO. 2663—MUZ. 302-17-6, DATED 4TH MARCH 1919.

Copy of the above is forwarded to the Deputy Commissioner, Kadur District, returning the vernacular records received with his letter No. 437, dated 30th October 1918.

By Order,
G. ARAVAMUDU IYENGAR,
Joint Secretary to Government, Muzrai Department.

Exd.—C.R.

Kariyammadevaru Temple at Peddihalli, Tiptur Taluk.

MEMO NO. 2752—MUZ. 185-18-4, DATED 13TH MARCH 1919.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

Appeal No. 26 of 1917-18.

APPELLANTS	*vs.*	RESPONDENTS
Ranga and others.		Kempa and others.

Subject.

Appeal against Order No. 64, dated 17th June 1918, of the Deputy Commissioner, Tumkur District, directing the removal of the appellants from the pujariship of Kariyammadevaru temple at Peddihalli in the Tiptur Taluk.

Decision.

The case was heard on 21st February 1919, the parties being present in person and also represented by their Advocates.

This is an appeal from the order of the Deputy Commissioner of Tumkur removing the appellants who are *Madigars* from their hereditary office of pujaries of the Kariyammadevaru temple at Peddihalli and directing the appointment of *Besthars* as pujaris in their stead.

The above order is one that purports to have been passed under Section 36 of the Mysore Muzrai Regulation VI of 1913; and the question that is raised by the appeal is whether the provisions of that section have been duly complied with.

The section in question applies in terms to the setting aside of "a person claiming by hereditary right," that is to say, of an individual claimant, who is objectionable to the majority of the inhabitants. It is open to doubt whether it applies to the setting aside wholesale of the claims of an entire family or community (comprising persons unborn as well as those in existence) as is sought to be done in the present case. This point need not however be decided now, for apart from that, the section requires that the objection must proceed from "a majority of *not less than three-fourths* of the inhabitants of a village of other unit *being devotees of a temple.*" The terms of the section are imperative ; the fact that it might be difficult to give practical effect to it is no reason for ignoring it ; but rather a reason for not resorting to the power of removal given by it except in those cases in which the sentiment of the community of devotees cannot possibly be in doubt. As a matter of fact, the ascertainment of such sentiment can be effected by a procedure very similar to that laid down in the Rules prescribed under Section 35 in regard to the election of pujari or other officer in Muzrai Institution. These rules enjoin the preparation of a register of devotees for each institution and enumerates the various classes of persons who shall be regarded as devotees ; they also provide for the devotees being notified of the time and place of election and for their votes being taken. The same Register would be quite sufficient basis for the enquiry necessary under Section 36; and the views of devotees (or such of them as cared to attend and express their views) might well be ascertained in the same manner.

In the present instance there is nothing whatever to show that that procedure was followed. There is no mention in the records of the existence of a Register of devotees at all. Though both sides to the dispute have filed several sheets of paper containing numerous signatures of persons professing to be interested, only nine persons from different villages are stated to have attended the Taluk Office, and it is not very clear whether they were all of them persons entitled to be regarded as devotees within the meaning of the section, and whether the other members of the community were invited to attend. The Amildar seems to have recognized that the enquiry made was not a satisfactory one and to have suggested the holding of a fuller enquiry on a later date; but the Deputy Commissioner, somewhat too readily as it would seem, or, as he

MEMO NO. 2752—MUZ. 185-18-4, DATED 13TH MARCH 1919.

himself acknowledges in para (7) of his letter of 19th June 1918, "on perusal of the records," "accepted the view that not less than three-fourths of the devotees are against the Madigars" and passed orders directing their removal.

In the circumstances above set forth, it is not possible to hold that the provisions of Section 36 of the Regulation have been complied with. The appeal must be allowed and the order of the Deputy Commissioner objected to must be reversed, the appellants being restored to the rights of which they may have been deprived in pursuance of that order.

MEMO NO. 2752—MUZ. 185-18-4, DATED. 13TH MARCH 1919.

Copy to the Deputy Commissioner, Tumkur District, with the records received with his letter No. 288, dated 30th September 1918.

Sri Venkataramanaswami temple at Chik Tirupati in the Malur Taluk.

No. 2771-73—Muz. 489-18-2, dated 14th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Government Proceedings No. 2073-4—Muz. 387-09-2, dated 19th February 1910, fixing a scale of expenditure in the Sri Venkataramanaswami temple at Chik Tirupati in the Malur Taluk.

2. Note No. R. C. 265, dated 17th February 1919, from the Muzrai Superintendent in Mysore, submitting for sanction proposals for fixing a revised scale of expenditure in the above temple together with an explanatory memorandum thereon, and stating that the proposals which were drawn up after personal investigation and enquiry have been concurred in by the Deputy Commissioner and that a few supplementary suggestions made by the latter have been incorporated in the revision proposals.

Order No. 2771-73—Muz. 489-18-2, dated 14th March 1919.

Government consider the proposals of the Muzrai Superintendent suitable and are pleased to accord sanction to the same.

2. The question of levying a contribution on the income of the institution towards the Muzrai Establishment Fund will be considered later on and separate orders issued in the matter in due course.

G. ARAVAMUDU IYENGAR,
Joint Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore, returning the enclosures.
The Deputy Commissioner, Kolar District.
The Comptroller to Government.

Exd.—G. W. B.

MEMORANDUM.

Proposal for fixing the scale of expenditure of Sri Venkataramanaswami temple at Chik Trupati, Malur Taluk.

The total income of the institution from all sources is about Rs. 1,286, including the interest on the invested funds. Out of this Rs. 14-4-0 is cash grant, Rs. 973-14-0 income from Jatra collections and Rs. 297-8-0 interest on investments. Besides, the temple has Devadaya inam lands yielding on an average Rs. 250 per annum and these are now in the enjoyment of Archaks distributed between three Hissedars.

2. The temple observes Vaikhanasa form of worship and the Archaks and the devotees are anxious that the temple should be affiliated to some reputed shrine to permit of Thirta Parigraha. This would necessitate an increase of establishment and redistribution of the scale of expenditure.

Establishment.

3. At present the establishment is being remunerated partly by a percentage charge on fee collections and partly by lands. The lands are wholly in the enjoyment of the Archaks who have to meet the Neivedya, Nityakatle and certain items of Hetchukatle charges from the income. As a separate provision is made in the revised scale for these items, the income from the lands has to be credited to the funds of the temple.

No. 2771-73—Muz. 489-18-2, dated 14th March 1919.

4. A great deal of relief has been afforded to the Archaks by the increase in the Brahman staff which is quite necessary if the status of the shrine is to be raised to a Tirtha Parigraha one. The Archaks were willing to surrender their right to a percentage charge on collections in lieu of a fixed pay.

Nityakatle.

5. In lieu of the existing provision of Rs. 14-4-0, a year a sum of Rs. 198 has now been provided for. The increased provision will amply compensate the Archaks for the loss, if any, they have to sustain under other items.

Hetchukatle.

6. The existing provision of Rs. 85 has been raised to Rs. 250, making adequate provision for all Hetchukatle Utsavas and Agama expenses in connection with Rathotsava.

Miscellaneous.

7. Provision has been made under this item for the maintenance of the loop line branching off from the main road and for village sanitation. A small contribution of Rs. 5 a month is made to the Lakkur temple which is maintained by the villagers in an efficient condition.

8. Deducting all these items of expenditure there still remains a sum of Rs. 480. The temple can afford to pay a contribution of Rs. 6¼ towards the Muzrai Establishment Fund on its income excepting the interest earnings on the invested surplus.

9. The temple had a sum of Rs. 4,914-9-7 (uninvested) and Rs. 8,500 (invested) at its credit on 30th June 1917.

Proposals for revising the scale of expenditure in the Sri Venkataramanaswami temple at Chik Tirupati, Malur Taluk, Kolar District.

Sri Sivaganga Matt, Nelamangala Taluk, Bangalore District.

No. 2994-3004—Muz. 278-18-36 DATED 29TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Government Order No. 694-7—Muz. 36-93, dated the 23rd December 1893, directing the Muzrai Superintendent to assume charge of all the Inam villages and lands belonging to the Sri Sivaganga Matt in the Nelamangala Taluk and to place them under the management of the Amildars of the Taluks in which they are situated.

(2) Government Order No. 1860-1—M. F. 36-93, dated the 27th November 1904, prescribing a scale of expenditure in the Sri Sivaganga Matt.

(3) Government Order No. 1671-83—Muz. 278-18-27, dated the 4th January 1919, recording with deep regret the demise, on the 12th October 1918, of the Swamigalu of the Sri Sivaganga Matt, and recognising the succession of the junior Swami to the *Pitha* under the titular name of Sri Sachidanadabhinava Subrahmanya Gangadhara Bharati Swami.

Order No. 2994-3004—Muz. 278-18-36, dated 29th March 1919.

The endowments of the Sri Sivaganga Matt have been under the management of Government ever since their Order of 23rd December 1893 and a scale of expenditure was fixed and altered from time to time to suit the financial condition of the Matt. The Swamigalu at whose desire the management was assumed by Government in the interests of the institution has now passed away, leaving as his successor the minor Swami, who will for some years to come, be incapable of managing the Matt affairs. Under the circumstances it has become necessary for Government to take action under Section 25 of the Mysore Muzrai Regulation, No. VI of 1913, and in pursuance thereof not only to continue the management of the endowments but also to see to the proper administration of the affairs of the Matt and to the education and training of the minor Swami so as to make him fully qualified for the high station he is called upon to fill.

2. Government are given to understand that the late Swamigalu was at one time anxious to provide for the education of the junior Swami at the Maharaja's Sanskrit College at Mysore, and that later on he thought of Bangalore as a suitable place for the purpose. Since his demise the leading disciples of the Matt have met at Bangalore and passed resolutions, which have been communicated to Government suggesting that the management of the Matt affairs during the minority of the Swami should vest in the Muzrai Department aided by a Committee of disciples to be appointed by Government, and that the minor Swami should be educated at Bangalore in the company of a few select youths of the same age, accommodation for the purpose being found in the new Sivaganga Matt Students' Home, built at the instance of the late Swamigalu.

3. Government are pleased to accept these suggestions generally, and to direct that the management of the Matt affairs be assumed under Section 25 of the Muzrai Regulation, that a Committee of the marginally noted gentlemen be appointed to help the Muzrai Superintendent in the supervision of the education and training of the young Swami, and that the latter be brought to Bangalore and accommodated in the new Students' Home for his education and training. The Muzrai Superintendent is requested to submit at an early date the details of the arrangements he considers suitable for the convenience and education of the Swami.

1. Mr. H. Ramaiya, retired Assistant Secretary to Government (Convenor)
2. Mr. B. C. Krishna Sastry, B.A., retired Assistant Commissioner.
3. Mr. V. B. Srikantaiya, Proprietor, Messrs. V. B. Subbaiya & Sons.
4. Vedamurti H. Venkatarama Sastri.
5. Vedamurti M. Ramasesha Sastri.

4. The financial condition of the Matt appears, on investigation, to be far from satisfactory. A scale of expenditure to be incurred from out of the regular annual income of the Matt was fixed by Government in their Order No. 1860-1—Muz. F.

No. 2994-3004—Muz. 278-18-36, dated 29th March 1919.

36-93, dated the 27th November 1904; but this was not adhered to by the late Swamigalu, who had a large extraneous income from occasional donations and seems even to have exceeded his resources in the attempt to maintain a position of increased state and dignity.

5. The present situation requires that all possible economies in expenditure should be effected. The Muzrai Superintendent has submitted a carefully considered scale of income and expenditure. This scale is sanctioned and appended to this order.

6. Government are given to understand that the late Swamigalu had contracted debts to a large extent, in several cases without adequate consideration or necessity or under usurious pressure, and this in spite of the express direction of Government that he could not incur debts on any account whatsoever. (Para 15 of Government Order No. 1860-1—M. F. 36-93, dated the 27th November 1904). Though the creditors as such of the late Swami have no legal claim against his successor or against the endowments of the Matt, yet there may be cases, such as arrears of pay legitimately due to Matt servants for services *bona fide* rendered, where considerations of equity will not permit the claim being disavowed. The Muzrai Superintendent is requested to enquire into these cases and to submit his recommendations about the nature of all valid claims and the extent to which they may be accepted and the ways and means for their discharge. It will however be laid down as a general instruction that no liabilities can be accepted which it may not be possible to discharge from out of the surplus income that will be available during the minority of the present Swami, and that the advances already made by Government for expenses in connection with the induction of the present Swami into *Sanyasa Asrama* and the obsequial ceremonies of the late Swami will be a first charge upon such surplus income.

7. Some sundry repairs to the old and the new Matt Buildings, Garbhagudi of the Sri Saradamba temple, and to the two wells at Sivaganga are said to be necessary. The Muzrai Superintendent is requested to have detailed estimates. for the requisite repairs prepared at an early date and to submit the same for the sanction of Government.

G. ARAVAMUDU IYENGAR,
Secy. to Govt., Muz. Dept.

To—The Muzrai Superintendent in Mysore.
The Comptroller to Government.
The Deputy Commissioner, Bangalore District.
The Deputy Commissioners of other Districts.
The Palace Controller in Mysore.
The Superintendent of Inam Settlement in Mysore.

Re-organization of the Upper and the Lower Subordinate Establishments of the Public Works Department.

No. P. W. 839-862—E. 3977-4001, DATED 29TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

PUBLIC WORKS DEPARTMENT.

READ—

(1) Government Order No. 173-87—1869-83, dated the 3rd March 1910, fixing the numerical scale, pay, etc., for the permanent Lower Subordinate Establishment of the Public Works Department, including Taluk Maistries and Monegars.

(2) Public Works Secretary's notes ending with No. D. 163, dated the 14th February 1919, on the re-organization of the Upper and the Lower Subordinate Establishments of the Public Works Department.

Order No. P. W. 839-862—E. 3977-4001, dated 29th March 1919.

In supersession of the previous orders, the Government of His Highness the Maharaja of Mysore are pleased to accord sanction to the revised scale of the Upper and the Lower Subordinate Establishments as shown hereunder :—

(1) Overseers to be grouped into two classes.—

Scale	No.	Pay Rs.
2nd Class	10	80
1st Class	10	100

(2) Sub-Overseers to be grouped into three classes.—

Scale	No.	Pay Rs.
3rd Class	50	30— 5/3—40
2nd Class	50	45— 5/3—60
1st Class	40	65—10/3—75

(3) Taluk Maistries—No. 60.—

Pay Rs. 25—5/3—50 with a conveyance allowance of Rs. 10.

(4) *Channel Establishment.*—

Channel Sub-Overseers to be grouped into two classes.—

Scale	No.	Pay Rs.
3rd Class	6	30— 5/3—40
2nd Class	6	45— 5/3—60

(5) Manegars No. 40. —

Pay Rs. 15—3/3—30.

NOTE.—The scale of the Supervisors will remain unaltered.

2. The revised scale for the different classes of Subordinates, now sanctioned, will take effect from the 1st January 1919.

Concessions to Railway Employees on taansfer.

NO. R. S. 2522-25—RY. F. 49 O. L. 18-19, DATED 15TH MARCH 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT

READ—

Government Order No. R. S. 734-737—Ry. F. 49 O. L. 17-18, dated 5th September 1917, sanctioning the grant of certain concessions to Railway employees on transfer.

2. Government Order No. R. S. 3320-3325—Ry. F. 5 O. L. 17-18, dated 25th April 1918, sanctioning the free pass rules of the Railway Department.

Order No. R. S. 2522-25—Ry. F. 49 O. L. 18-19, dated 15th March 1919.

In the first of the orders read above, the grant of the following concessions to Railway employees on transfer had been sanctioned:—

I. On the lines worked by the State.

(i) Free passes to the employees and their families as defined in para 10 of Appendix 3 to Vol. II, of the State Railway Open Line Code.

(ii) Free passes to their luggage to be carried by Goods trains subject to certain limits.

II. On Foreign Lines.

(i) The grant of actual expenses for journeys to the employees and their families as defined above and as supported by proper vouchers and

(ii) Actual expenses of moving their luggage subject to the same limits as in I above, by Goods train.

2. The free pass rules of the Department which were sanctioned in the second of the orders read above provided, in addition to the concessions originally sanctioned for the grant on the home line, of free passes to two dependents of the employees and their servants as per scale fixed in para 10, thereof. This gave rise to doubts as to whether when there was a distinct order of Government specifying the concessions to be granted to emplyees on transfer, the enhanced concessions as per free pass rules could be granted on the home line without the special sanction of Government. With a view, therefore, to avoid audit objections in regard to the concessions admissible on the home line, and to give the employees when they are obliged to travel on foreign lines on account of transfer from one section to another of the home line, the same concessions as they would have when travelling on the home line, it has been suggested by the Railway Secretary and agreed to by the Financial Secretary that the first of the orders referred to in the preamble should be modified in accordance with the Free Pass Rules.

3. Government are accordingly pleased to sanction in supersession of the orders contained in Government Order No. R. S. 734-737—Ry. F. 49 O. L.. 17-18, dated 5th September 1917, the grant of the following concessions to Railway employees on transfer:—

I. On the lines worked by the State.

(i) Free passes to the employees, their families as defined in Note 2 to para 17 of the Free Pass Rules and their servants.

(ii) Free passes to their luggage to be carried by Goods or mixed trains subject to the following limits:—

(*a*) for servants drawing Rs. 50 per mensem and over any reasonable quantity up to one truck load;

(*b*) for servants drawing over Rs. 15 and under Rs. 50 per mensem up to 27 Bengal Maunds, and

(*c*) for servants drawing Rs. 15 and under per mensem up to 15 Bengal Maunds.

NOTE 1.—Any special case in which it may be necessary to relax this rule may be referred to the Agent for orders.

NOTE 2.—The term luggage should be held to include conveyances such as bicycles. etc., subject to the condition that the limits of weights allowed are not exceeded except as provided for in Note (1) above.

No. R. S. 2522-25—Ry. F. 49 O. L. 18-19, dated 15th March 1919.

II. On Foreign Lines.

(i) The grant of actual expenses as supported by proper vouchers for journeys to the employees, their families as defined above and servants, and

(ii) The grant of actual expenses of moving their luggage by goods train subject to the same limits as in I, (ii) above.

Estimate amounting to Rs. 2,310 for Surveying the Hill Section of the Kemmangundi-Benkipur Mineral Tramway.

No. R. S. 2440-45—Ry. F. G. 284-18-19, dated 8th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

Read.—

Railway Secretary's Note No. 1972-292, dated 30th January 1919, submitting for sanction an estimate amounting to Rs. 2,310 for surveying the Hill section of the Kemmangundi-Benkipur Mineral Tramway in connection with Iron Industry schemes.

Order No. R. S. 2440-45—Ry. F. G. 284-18-19, dated 8th March 1919.

The accompanying estimate amounting to Rs. 2,310 for the survey of the Hill section of the Kemmangundi-Benkipur Mineral Tramway is sanctioned.

The amount should be met by re-appropriation from the grant of Rs. 2 lakhs allotted for the Shimoga-Arasalu Railway construction during the current year and transferred later on to the Iron Works Schemes.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT

READ—

Railway Secretary's Notes Nos. 2032 and 2135, dated 1st and 14th February 1919, respectively, submitting for sanction estimates amounting to Rs. 12,773 and 3,000 for the Survey of additional 2 feet tramways in connection with Iron Industry Scheme.

Order No. R. S. 2484-89—Ry. F. 250 G.-18-19, dated 11th March 1919.

The accompanying estimates amounting to Rs. 12,773 and Rs. 3,000 or Rs. 15,773 in all, for the survey of the following additional 2 feet tramways are sanctioned:—

(*a*) Jagar valley branch	(*c*) Umblibail valley branch.
(*b*) Sukalhatti ,,	(*d*) Hebbe-Sheragola line.

2. A sum of Rs. 10,000 should be met from the current year's grant for Forest Tramways Surveys and the balance required, *viz.*, Rs. 5,773 from that allotted for the construction of Shimoga-Arasalu Railway.

3. The amount should be debited later on to the Iron Schemes

Rules for the Recruitment and Training of Permanent Way Staff.

No. R. S. 2526-34—Ry. F. G. 209-18-19, dated 15th March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT

Read—

Government Order No. R. S. 1556-60—Ry. F. 209G.-17-18, dated 28th November 1917, sanctioning a scheme for the training of Mysorean candidates for the several posts of subordinates on the Mysore Railways, such as Drivers, Train Examiners, etc.

2. Note dated 17th February 1919 from the Secretary for Railways, submitting a set of draft Rules for the recruitment and training of Permanent Way Staff for the Railway Department.

Order No. R. S. 2526-34—Ry. F. G. 209-18-19, dated 15th March 1919.

It has been considered desirable to have a definite scheme for the recruitment and training of men on some systematic lines for all grades of appointments, with a view to secure efficient men and Government are accordingly pleased to sanction the rules (printed as appendix to this order) for the recruitment and training of Permanent Way Staff, now submitted by the Secretary for Railways, which are analogous to those in force on the Railways in British India.

D. G. DANI,
Secy. for Railways, Govt. of Mysore.

To—The Secretary to Government, Financial Department.
The Comptroller of Mysore.
The Comptroller, Railways.
The Agent, Mysore Railways.
The Senior Surgeon with the Government of Mysore.
The Inspector-General of Education in Mysore.
The Superintendent, Mechanical Engineering School.
The Secretary, Railway Committee.
PRES TABLE.

Exd.—G.W.B.

No. R. S. 2526-34—Ry. F. G. 209-18-19, dated 15th March 1919.

MYSORE RAILWAYS.

Form of Agreement.

1. I.....son of.....agree to serve Mysore Railways as an Apprentice Way Inspector for a period of 4 years, on the terms and conditions contained in the rules promulgated and attached here to towhich I have affixed my signature in token of acceptance and of full understanding of the terms of same

2. I fully understand that I have no claim on the Mysore Railways for any permanent employment after my apprenticeship is concluded. That it is optional with the Agent to terminate my apprenticeship at any time, on its being shown to his satisfaction that I am not likely to be suited for the work of a Permanent Way Inspector, owing to ill-health, want of ability or negligence, disobedience, intemperance or any other fault.

3. I bind myself to obey and abide by all the instructions and regulations in force for the time being on the Mysore Railways as well as any further instructions that may from time to time be issued by the Agent of the Mysore Railways.

4. I further fully understand that during the period of my apprenticeship, I may be granted leave only as follows:—

(i) Leave on half subsistence allowance on account of ill-health duly certified by a Medical Officer holding a position analogous to that of a Civil Surgeon.

(ii) Leave without pay on urgent private affairs up to one month subject to Superintending Engineer's sanction. This leave will only be granted under special and urgent circumstances.

The period of my apprenticeship will be extended by an amount equal to the leave taken under either clause.

5. I also understand and agree that the amount of Rs. 50, lodged by my Parent/Guardian with the Comptroller for Railways, as security on my behalf will be forfeited should I terminate my agreement during the period of apprenticeship. Further it shall be optional for the Agent to withhold repayment of this deposit should I terminate my apprenticeship for any of the reasons stated in para 2 of this agreement.

6. I acknowledge to have received a copy of the General Rules and regulations for Indian Railways and the Subsidiary Working Rules, also a copy of the Engineering Manual in force on the Mysore Railways referred to in para 3 above.

7. I further agree that, whenever required, I will take upon myself the responsible charge of Government Stores entrusted to me, and will faithfully account for them. That on no account will I either directly or indirectly carry on any trade or business for my personal benefit whilst in the employ of the said Railway.

8. I also understand that it is optional with me to join the Railway Institute or not.

9. I also understand that in the event of my being placed in charge of definite works, in the course of my apprenticeship, either independently or under a Permanent Way Inspector I may be granted the use of Railway quarters free of rent when suitable quarters are vacant and available, but I distinctly understand that if quarters are not available, I shall have no claim to free quarters or rent in lieu thereof.

10. As long as I shall continue in the service of the Mysore Railways System, I undertake to keep myself protected from small-pox by submitting myself to vaccination whenever called upon to do so by competent authority.

MYSORE RAILWAYS.

Engineering Department.

Rules for the recruitment and training of Permanent Way Subordinates Staff.

1. Candidates for appointments to the subordinate grades of the Permanent Way staff will be selected from Mysoreans, either by birth or by domicile, of sound construction and good physique, preference being given, other things being equal, to those whose parents are, or have been, employed in the Mysore Railways, and who can themselves produce certificates of good character from the Heads of their Departments. The type of men wanted are those who can stand "out-door work".

2. Two candidates will be selected a year for training. The selection will be made by a Committee consisting of the Agent, Mysore Railways, as President, the Superintendent, Mechanical Engineering School and the Senior Surgeon as Members.

3. A candidate before being accepted shall have passed an examination equivalent to the Mysore Lower Secondary Examination in English and shall produce a certificate of good character from the school at which he has been taught and a medical certificate of sound physique from a Medical Officer not below the grade of Assistant Surgeon.

4. He must at the time he begins his apprenticeship, be not less than 17 or over 21 years of age.

5. He will be required to enter into an agreement in the form attached (which must also be attested by a parent or guardian in order that the candidate may be given fully to understand the terms and conditions of service) with the Agent to serve 4 years as an apprentice and will receive subsistence allowance as follows:—

		Rs.	a.	p.	
1st year	..	20	0	0	per mensem.
2nd ,,	..	22	8	0	,,
3rd ,,	..	25	0	0	,,
4th ,,	..	28	0	0	,, If he has passed the examination prescribed in para 7, if not Rs. 25,

provided always that before any increment is granted, the report of his diligence, progress and behaviour from the Inspector and Engineer under whom he is being trained, shall in every way prove satisfactory. Appointments will be made on occurrence of vacancies and the subsistence allowance of an apprentice will commence from the date he reports himself to the Superintendent, Government School of Mechanical Engineering, Bangalore City, for the 1st year's course.

For the first year, a suitable course in carpentry, smithy, machine handling and drawing be arranged for him in the School of Mechanical Engineering, Bangalore.

6. For the 2nd and 3rd year, each apprentice will be placed for purposes of instruction under a qualified Permanent Way Inspector whose orders he must implicitly obey.

7. On the expiration of the 3rd year of apprenticeship, the apprentice will be examined by a Board at any Station determined by the Superintending Engineer, Railways, consisting of an Executive Engineer, a Sub-Divisional Officer and a Permanent Way Inspector who will test his knowledge for the duties of a Permanent Way Inspector, both theoretical and practical, his acquaintance with technical terms used by workmen and with the several Railway Rules and Regulations. Special care should be taken to examine very thoroughly in Chapters XIV, XIX and XX of Rules and Regulations, Part I, of General Rules for Open Line and no candidate is to be considered qualified who does not show that he is fully acquainted with the rules. In case of failure, he will be examined again after 3 months. Should an apprentice however fail twice to pass the examination, his services will be dispensed with.

8. After passing the examination successfully, the apprentice will, for three months of the 4th year of his training be posted to the Office of the Executive Engineer where he will be trained in the preparation of returns as usually submitted by Permanent Way Inspectors, and will also be instructed in the ordinary method of official correspondence and in the Departmental procedure for the disbursement of money and the initial forms of accounting for labour and materials.

The remaining nine months of the 4th year should be devoted to special training in matters which the apprentice examination showed him to be least well qualified in.

9. At the expiration of the four years training should his reports have been uniformly satisfactory, he will be eligible for an appointment as Sub Way Inspector on the Mysore Railways on the non-pensionable establishment and will be granted a certificate to that effect. If retained in service after the completion of four years he will have to sign a fresh service agreement usually taken for non-pensionable employees.

No. R. S. 2526-34—Ry. F. G. 209-18-19, dated 15th March 1919.

10. As far as possible, the passed apprentices will be absorbed in the Railway service, but no guarantee can, however, be given of permanent employment as this must depend on vacancies occurring, but should he be retained on the line when duly qualified, he will be designated as a Sub Way Inspector in the grade of Rs. 35—$\frac{3}{4}$—50 a month, non-pensionable service, until such time as an opportunity occurs of appointing him to an Inspectorship, the minimum pay of which post is fixed at Rs. 70 a month. After being appointed to an Inspectorship, he will have to work one year on probation and his confirmation will depend on the report received on his work at the end of that period.

11. When an apprentice has completed satisfactorily, his full course and is certified as eligible for an appointment, a bonus of Rs. 5, per month will be apportioned to the Permanent Way Inspectors, under whom he has been trained according to the period, he has been under each.

12. The parent or guardian of a candidate will be required to deposit a sum of Rs. 50, with the Comptroller for Railways, as security which will be forfeited should the candidate terminate his agreement during the period of apprenticeship. Further, it shall be optional for the Superintending Engineer to withhold payment of this deposit should he terminate his apprenticeship for any of the reasons stated in para 2 of the agreement.

Revised Estimate amounting to Rs. 20,875 for the Survey of the Nanjangud-Kakankote Railway.

No. 2620-25—Ry. F. 146G.-18-19, dated 21st March 1919.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

RAILWAY DEPARTMENT.

Read the following papers—

Government Order No. R. S. 3014-3016—Ry. F. 146-16-17, dated 4th April 1917, sanctioning an estimate amounting to Rs. 14,503 for the survey of a metre gauge line of Railway from Nanjangud to Kakankote.

2. Government Order No. R. S. 3620, dated 17th May 1918 directing that alternative surveys should be carried out in order to better serve the Forest areas.

3. Government Order No. R. S. 1159, dated 17th October 1918 sanctioning the survey for an alternative alignment between Hulhalli and Manchigowdanahalli.

4. Correspondence ending with Railway Secretary's Note No. 229-1743, dated 7th January 1919 submitting for sanction the revised estimate amounting to Rs. 20,875 for the whole survey from Nanjangud to Kakankote including the above alternative alignment.

Order No. 2620-25—Ry. F. 146G.-18-19, dated 21st March 1919.

The accompanying revised estimate amounting to Rs. 20,875 exceeding the original one by Rs. 6,372 for the survey of a line of Railway from Nanjangud to Kakankote including the alternative alignment ordered between Hulhalli and Manchigowdanahalli is sanctioned.

2. As a sum of Rs. 1,560 only is available out of the sanctioned original estimate, the balance of Rs. 4,812 should be met by Re-appropriation from the current year's grant for the Chickjajur-Chitaldrug Railway construction.

3. The Railway Secretary should see that necessary instructions are issued to the Superintending Engineer for Surveys to be constantly in touch with the Executive Engineer, Kabbani Reservoir Survey and to settle the Railway alignment in consultation with him.

Read—

Government Order No. R. S. 1049-50—Ry. F. 3 O. L., dated 28th September 1917, communicating the sanction of Government to the hiring of certain passenger coaches from the Madras and Southern Mahratta and South Indian Railways at a total rent of Rs. 31 a day for three months from the 15th December 1917, exclusive of haulage charges, in connection with the opening of Mysore-Arsikere Railway for passenger traffic.

2. Railway Secretary's Note No. 1303-330, dated 3rd February 1919, requesting sanction to the retention of the hired stock, for use on the Mysore-Arsikere section for a longer period than that sanctioned originally and to the hire and haulage charges amounting to nearly Rs. 28,000 incurred therefor.

Order No. R. S. 2681-85—Ry. F. 3 O. L. 18-19, dated 25th March 1919.

In the circumstances represented, Government are pleased to accord sanction to the retention of the stock for a longer period and to the payment of hire and haulage charges amounting to Rs. 28,000 as noted in the accompanying statement.

2. The cost is debitable to Revenue Abstract G. IV of the Authorization Rolls.
